WHEREAS, the Flint Water Advisory Task Force has made an interim recommendation that the state government should coordinate a sustained, public-health focused response to remedy, to the fullest extent possible, the impacts on the Flint community; and

WHEREAS, on January 5, 2016, the Governor issued a proclamation declaring a state of emergency in the County of Genesee and the City of Flint; and

WHEREAS, multiple state departments and local authorities share the responsibility for ensuring safe drinking water and the coordination of efforts to address the consequences resulting from the presence of elevated lead levels in drinking water; and

WHEREAS, ensuring safe drinking water and addressing the consequences of elevated lead levels in drinking water will require collaboration and communication between state departments, local governments, and subject matter experts; and

WHEREAS, the establishment of a Flint Water Interagency Coordinating Committee within the Michigan Department of State Police will facilitate the collaboration and

communication between state departments, local governments, and subject matter experts necessary to effectively coordinate a response and recovery effort;

NOW, THEREFORE, I, Richard D. Snyder, Governor of the state of Michigan, by virtue of the power and authority vested in the Governor by the Michigan Constitution of 1963 and Michigan law, order the following:

I. CREATION OF THE FLINT WATER INTERAGENCY COORDINATING COMMITTEE

A. The Flint Water Interagency Coordinating Committee ("Coordinating Committee") is created as an advisory body within the Michigan Department of State Police (the "Department").

B. The Coordinating Committee shall be composed of the following seventeen (17) members who shall serve an initial term expiring on December 31, 2018.

- The Director of Office of Urban Initiatives within the Executive Office of the Governor;
- The Deputy State Director of Emergency Management and Homeland Security within the Michigan Department of State Police;
- The Director of the Department of Environmental Quality, or his or her designee;
- The Director of the Department of Health and Human Services, or his or her designee;
- The Director of the Department of Licensing and Regulatory Affairs, or his or her designee;
- The State Treasurer, or his or her designee;
- The Superintendent of Public Instruction, or his or her designee;
- The elected Mayor of the City of Flint who shall be appointed to the Coordinating Committee by the Governor;
- Three (3) additional representatives of the City of Flint who shall be submitted by the Mayor of the City of Flint and appointed to the Coordinating Committee by the Governor;
- Three (3) representatives of Genesee County who shall be submitted by the Genesee County Board of Commissioners and appointed to the Coordinating Committee by the Governor; and
- Three (3) subject matter experts who shall be appointed to the Coordinating Committee by the Governor.

After the initial appointments, members of the Coordinating Committee appointed under this subsection shall serve terms of three years.

C. A vacancy on the Coordinating Committee occurring other than by expiration of a term shall be filled in the same manner as the original appointment for the balance of the unexpired term. A member may continue serving until his or her successor is appointed. A member may serve successive terms if reappointed.

II. CHARGE TO THE COORDINATING COMMITTEE

A. The Coordinating Committee shall act in an advisory capacity to the Governor and subject to the Governor's review and approval, shall do all of the following:

1. Create an incident action plan designed to assist state and local authorities in ensuring safe drinking water for the residents of the City of Flint and addressing the consequences of elevated lead levels in drinking water.

2. Review recommendations made by the Flint Water Advisory Task Force and propose statutory, regulatory, or contractual actions necessary for implementation of such recommendations.

3. Identify staff with competencies in emergency planning, operations, logistics, and finance as outlined under the National Incident Management System (NIMS) to work with the Coordinating Committee to track resource requests and document progress on the incident action plan.

4. Establish a standard process for sharing pertinent information between all members including use of the NIMS and Unified/Incident Command as appropriate.

5. Establish routine communications protocols at the local, executive, and legislative levels as appropriate.

6. Establish a public information protocol to effectively inform the community.

7. Make recommendations for acceptable standards for potable water.

8. Make recommendations regarding the health impacts for the affected population.

9. Assess the status of infrastructure and determine feasible actions to upgrade the water system.

10. Establish subcommittees among its members to specifically address, at a minimum, each of the three following topic areas: Water Quality, Community Health, and Education.

11. Assist the Governor and the Department in implementing appropriate operations permitted under the Michigan Emergency Management Act or the federal Stafford Disaster Relief and Emergency Assistance Act, including local emergency operations plans and guides.

12. Explore any avenues of funding for response and recovery efforts including federal grants, legislative appropriations, and private partners.

B. The Coordinating Committee shall provide other information or advice as requested by the Governor or the Department.

III. OPERATIONS OF THE COORDINATING COMMITTEE

A. The Coordinating Committee shall be staffed and assisted by personnel from the Department as directed by the Department Director. Any budgeting, procurement, and related management functions of the Coordinating Committee shall be performed under the direction and supervision of the Department Director.

B. The Director of Office of Urban Initiatives within the Executive Office of the Governor and the Deputy State Director of Emergency Management and Homeland Security shall together serve as the Statewide Coordinators responsible for the administrative functions of the Coordinating Committee.

C. The Coordinating Committee may utilize subcommittees and advisory panels composed of its members to assist in completing the functions of the Coordinating Committee. The Coordinating Committee may request public participation on advisory panels as the Coordinating Committee deems necessary.

D. When making recommendations to the Governor, a majority of the serving members of the Coordinating Committee must concur.

E. The Coordinating Committee shall meet at the call of either of the Statewide Coordinators and as may be provided in procedures adopted by the Coordinating Committee.

F. The Coordinating Committee may, as appropriate to perform its duties, make inquiries, conduct studies, consult with outside experts and federal agencies, and receive comments from the public.

G. Members of the Coordinating Committee shall serve without compensation but may receive reimbursement for necessary travel and expenses according to relevant statutes and the rules and procedures of the Civil Service Commission, and the Department of Technology, Management and Budget, subject to available funding.

H. The Coordinating Committee may accept donations of labor, services, or other items of value from any public or private agency or person. Any donations shall be expended in accordance with applicable laws, rules, and procedures.

I. Members of the Coordinating Committee shall refer all legal, legislative, and media contacts to the Department.

J. A writing prepared, owned, used, in the possession of, or retained by the Coordinating Committee in the performance of an official function is subject to the Freedom of Information Act, 1976 PA 442, as amended, MCL 15.231 to 15.246.

IV. MISCELLANEOUS

A. All departments, committees, commissioners, or officers of this state or of any political subdivision of this state may give to the Coordinating Committee, or to any member or representative of the Coordinating Committee, any necessary assistance required by the

Coordinating Committee, or any member or representative of the Coordinating Committee, in the performance of the duties of the Coordinating Committee so far as is compatible with its, his or her duties.

B. Any suit, action, or other proceeding lawfully commenced by, against, or before any entity affected under this Order shall not abate by reason of the taking effect of this Order.

C. The invalidity of any portion of this Order shall not affect the validity of the remainder of the Order.

The Executive Order shall become effective upon filing.

Given under my hand and the Great Seal of the state of Michigan this 11th day of January, in the year of our Lord, Two Thousand Sixteen

RICHARD D. SNYDER

Phone: (404) 331-0333

Economic Injury Disaster Loans Available to Small Businesses in Flint, Michigan Due to Contaminated Public Water Supply

WASHINGTON – Low-interest Economic Injury Disaster Loans from the U.S. Small Business Administration (SBA) are available to Flint, Michigan and surrounding area small businesses, small agricultural cooperatives, small aquaculture businesses and private nonprofit organizations affected by the contaminated public water supply disaster that began on Oct. 1, 2015.

SBA Administrator Maria Contreras-Sweet made the loans available following a disaster declaration request from Gov. Richard D. Snyder on Feb. 4. The declaration covers Genesee County and the adjacent counties of Lapeer, Livingston, Oakland, Saginaw, Shiawassee and Tuscola in **Michigan.**

"The public water contamination in Flint is a tragedy and a historic health emergency with repercussions that will continue to ripple across the entire community. While the situation continues to unfold, SBA is committed to bolstering the economic livelihood of Flint and surrounding communities by offering low interest working capital loans to the small businessmen and women severely impacted by this disaster," said Administrator Contreras-Sweet.

"The SBA can help affected small businesses and nonprofit organizations overcome their economic losses by offering financial assistance, but the help cannot start until they submit an SBA disaster loan application to us," said Constance P. Logan, SBA's deputy district director in Michigan.

Eligible entities may qualify for loans up to $2 million. The SBA offers economic injury loans to help meet working capital needs caused by the disaster. The rates on these loans are 4 percent for small businesses and 2.625 percent for nonprofit organizations with terms up to 30 years. Eligibility for these working capital loans are based on the size and type of business and its financial resources.

SBA is very pleased for the tremendous support received from Flint / Genesee Regional Chamber and Metro Community Development in establishing the Business Recovery Center at the Oak Business Center in Flint. Our customer service representatives are available at the Center to answer questions about the disaster loan program and help individuals complete their applications.

The Center is located in the following community and is open as indicated:

Genesee County
Oak Business Center
2712 Saginaw Street
Flint, MI 48505

Opens: Wednesday, Feb. 10 at noon
Hours: 8 a.m. - 5 p.m. weekdays
Closed: Saturdays and Sundays
Closed: Monday, Feb. 15 (Presidents' Day)
Closes: Thursday, Feb. 25 at 3 p.m.

-more-

Applicants may apply online using the Electronic Loan Application (ELA) via SBA's secure website at https://disasterloan.sba.gov/ela.

Applications and program information are available by calling the SBA's Customer Service Center at 1-800-659-2955 (1-800-877-8339 for the deaf and hard-of-hearing), or by sending an email to disastercustomerservice@sba.gov. Loan applications can also be downloaded from the SBA's website at www.sba.gov/disaster. Completed applications should be mailed to: U.S. Small Business Administration, Processing and Disbursement Center, 14925 Kingsport Road, Fort Worth, TX 76155.

The deadline to return economic injury applications is **November 7, 2016**.

ADULT EXPOSURE TO LEAD
FACT SHEET

Where can adults be exposed to lead?

More than 80 percent of exposure to lead among adults is from work. The most common work exposures in Michigan are removal of lead paint, manufacture of brass and bronze fixtures, recycling of lead batteries, and as an instructor or doing maintenance in a firing range.

Adults can also be exposed to lead in tap water from water pipes, and renovation of homes built before 1978 with paint containing lead. The lead found in tap water in homes around Michigan would be from pipes installed before 1986.

- Lead is a heavy metal. The largest use for lead is in storage batteries in cars and other vehicles.
- Brass and bronze used in plumbing faucets may be about 10 percent lead. Lead is commonly used to make bullets.
- Historically, lead compounds were widely used as a pigment in paints, dyes, and ceramic glazes and in caulk, pipes and solder.

Should adults be concerned about exposure to lead?

Adults are at less risk of developing health effects from lead taken by mouth than children. Adult bodies tend to absorb less lead than children's bodies (smaller amounts of lead that is swallowed end up in adult's blood than would end up in children's blood). Adult's bodies remove almost all of the lead that is swallowed, while children's bodies only remove about a third of the lead amount they swallow.

However, health effects could still occur in adults who have had years of exposure. Exposure to lead can contribute to adult health effects such as:

- Essential tremor of their hands[1]
- Small increases in blood pressure, especially in middle-aged or older people[1,2]
- Decreased kidney function[1]
- Changes in sperm and possible difficulty becoming pregnant[1]

People exposed to higher levels of lead, like those measured during occupational exposures, could have other health effects, such as muscle weakness, irritability, difficulty sleeping, inability to concentrate, nerve damage in hands and feet, and anemia[2].

People with health effects should speak to their medical providers. Many of the listed health effects can be caused by things other than lead. If they are from lead, they would more likely be associated with exposure to lead over many years that occurred when the adult was younger.

Should adults get tested for lead?

People concerned about their exposure should speak with their healthcare provider about blood lead testing. If you don't have a primary care doctor, visit the Genesee County Health Department, South McCree Building at 630 S. Saginaw St. Suite 4 in Flint for blood testing and to be enrolled in health insurance.

MICHIGAN NATIONAL GUARD

License and Use Agreement EM-3375-MI

This is an Agreement entered into between the ~~Selfridge Air National Guard Base~~ (hereinafter "Licensor") and the Federal Emergency Management Agency (FEMA), Department of Homeland Security (DHS), an agency of the United States Government (hereinafter "Licensee").

Licensee desires to use, and Licensor agrees to license and permit its use of the FEMA occupied Ramp Space/Tarmac Area located west of the NOSC hangar, the NOSC hangar facility, and specific office space located in the Department of Homeland Security facility at no cost per square foot located on the following property:

Selfridge ANGB
44200 Jefferson Ave
Harrison Township, MI 48045
Specifically, the facilities are:

1. Designated ramp space taxiway;
2. Restroom facilities inside the NOSC;
3. DHS Facility and Hanger

This Agreement shall refer to the property described above as the "Facility."

The following terms and conditions apply to the Facility:

1. Purpose. Licensee will use the Facility for, among other things, operating a Federal Staging Area, coordinating federal supply chain operations and providing disaster assistance pursuant to the President's emergency declaration EM-3375MI for the State of Michigan under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, Pub. L. No. 93-288 (1974) (codified as amended at 42 U.S.C. § 5121 *et seq.*).

2. Maintenance of Building and Premises and Right of Entry

a. Licensor will maintain the Facility in good repair and condition and supply such heat, air conditioning, light, ventilation, and access as required for Licensee's occupancy and use of the premises. Licensor may enter the Facility with the notification to the Licensee representative in charge for maintenance purposes. Licensee will maintain the Facility in a clean and orderly condition, and agrees to surrender the Facility in as good a state and condition as at the commencement of the term, reasonable wear and tear excluded.

3. Access Control and Security Services

a. Licensor will provide Licensee with adequate access to the Facility and assist Licensee in ensuring that others do not have access except for those required to have access during the term of this Agreement without Licensee's express permission. Licensee will maintain an inventory of all Facility keys or electronic entry devices and return them to Licensor upon termination of this Agreement. Licensor will provide

access to the Facility via the Joy Road vehicular gate and will support ingress/egress for tractor/trailer traffic.

b. Licensee will have access to the Facility at all times while this agreement is in effect. "Access" includes access to bathrooms, lights, water, and air conditioning if available.

4. Exterior Lighting. Licensor will maintain any existing Facility exterior lighting for area illumination, and ensure that exterior lighting remains operable during the period of this Agreement. Licensor will provide four (4) generator type light sets to be utilized during dusk or obscure time frames.

5. Parking. Licensor will provide parking spaces for thirty (30) to forty (40) tractor trailers, two (2) command and control trailers, fifteen (15) automobiles, one fifteen (15) foot toy hauler, and other ancillary equipment located at the Facility's operational area to the Licensee.

6. Electrical and Other Utilities

a. Licensor will maintain electrical services to the Facility and provide all utilities, including sewer and water.

7. Telecommunications: Telephone, Fax, Networking, and Internet Service

a. Licensor permits use of Facility telecommunications demarcation closets. Licensor will assist Licensee in reviewing the Facility's existing telecommunications infrastructure, work with Licensee to integrate service needs for the Staging Operations into existing Facility infrastructure, and coordinate with Licensee to ensure quality, stable voice and data communication services. Since there is a Department of Homeland Security facility within close proximity to the area of operation, connectivity options will be determined.

b. If necessary, Licensee may provide additional telecommunication services to the Facility as needed for the Staging Operations.

8. Environmental Health. Licensor will maintain, repair, or replace, as necessary, the Facility's air handling and circulating equipment (*i.e.*, fans and coolers) to maintain acceptable air quality within the Facility.

9. Office Equipment and Furnishings. Licensor will allow the use of the existing office furniture, cabinets, and storage if applicable.

10. Fire and Casualty Damage:

a. If the Facility is destroyed by fire or other casualty, this Agreement will immediately terminate. In case of partial destruction or damage, Licensee may terminate the Agreement by giving written notice to Licensor within fifteen (15) calendar days of the fire or other casualty.

b. Nothing in this Agreement shall be construed as relieving Licensor from liability for destruction of property of the federal government caused by the willful or negligent act or omission of Licensor, its agents, or employees.

11. Compliance with Applicable Law

a. Licensor will comply with all federal, state, and local laws applicable to Licensor as owner or Licensor, or both, of the Facility and adjacent premises, including without limitation, laws applicable to the construction, ownership, alteration or operation of both or either thereof, and will obtain all necessary permits, licenses, and similar items. Licensor will not be reimbursed for these expenses.

b. Licensee will comply with all federal, state, and local laws applicable to and enforceable against it as an occupant under this Agreement.

12. Inspection and Right of Entry. Licensee may inspect the Facility and adjoining premises owned by Licensor upon giving reasonable notice to Licensor. Nothing in this clause shall be construed to create a duty on Licensee to inspect for toxic materials or to impose a higher standard of care on Licensee than on another lessee. Nothing in this clause shall act to relieve Licensor of any duty to inspect, or of liability that might arise as a result of Licensor's failure to inspect for a hazardous condition.

13. Effect of Acceptance and Occupancy. Neither Licensee's acceptance of the Facility for occupancy, nor its occupancy, will be construed as a waiver of any requirement or any right of Licensee under this Agreement, or as otherwise prejudicing Licensee with respect to any such requirement or right.

14. Substitution of Occupant Agency. Licensee may, with Licensor's consent, substitute one or more federal government agencies for itself under this Agreement, and the successor occupancy will be subject to the same terms and conditions, including any occupancy by the U.S. Small Business Administration for purposes of responding to the President's declaration of emergency disaster EM-3375MI

15. Licensor and the United States each agree to be responsible for the negligent or wrongful acts or omissions of their respective employees arising under this agreement. The parties agree -- subject to any limitations imposed by law, rule, or regulation -- to cooperate in good faith to resolve any claims promptly and, whenever appropriate, without litigation. For all claims or suits arising under this agreement, each party's designated legal representatives will, within (7) calendar days of receipt, provide each other's designated legal representatives copies of any documents memorializing such claims. Nothing in this Agreement shall be construed as a waiver of any sovereign immunity of the United States. The Federal Tort Claims Act (FTCA), 28 U.S.C.

§§ 1346 (b), 2671-2680 provides the exclusive monetary damages remedy for allegedly wrongful or negligent acts or omissions by federal employees within the scope of their employment.

16. Non-Fund Obligating Agreement: Nothing in the Agreement shall authorize FEMA to obligate or transfer any funds in connection with FEMA's use and occupancy of the Premises. Any additional work or activity that would require the transfer of funds or the provision of goods or services among the parties will require execution of a separate agreement and will be contingent upon the availability of appropriated funds. Such activity must be independently authorized by appropriate statutory authority. This Agreement does not provide such authority.

17. Integrated Agreement. This Agreement, upon execution, contains the entire agreement of the Licensor and Licensee and no prior written or oral agreement, express or implied, shall be admissible to contradict the provisions of this Agreement.

18. Acceptance of Facility

a. Licensee will accept the Facility and occupancy will begin after Licensee determines that the Facility is suitable for occupancy as indicated in this Agreement.

19. Termination. This Agreement shall remain in effect until either Licensee gives notice to Licensor that it no longer needs the Facility or 3 months, whichever occurs sooner. Licensee will give Licensor written notice of its intention to vacate the property at least ten (10) calendar days prior to vacating the premises. Notwithstanding any other provision of this Agreement, Licensor may revoke this Agreement upon the giving of notice not less than ten (10) calendar days to Licensee.

20. Applicable Law. Federal law shall govern this Agreement. Disputes regarding this Agreement shall be subject to the Federal Contract Disputes Act.

FOR THE LICENSOR:

GREGORY S. VADNAIS
MAJOR GENERAL, MIARNG

Date: 19 JAN 2016

FOR THE LICENSEE:

Agreement #11867 – 2016

RENTAL AGREEMENT

Between

Bell Warehousing & Manufacturing Services, Inc.

A Domestic Profit Corporation

and the

State Of Michigan

THIS RENTAL AGREEMENT (hereinafter referred to as "Agreement") is entered into by and between **Bell Warehousing & Manufacturing Services, Inc., a Domestic Profit Corporation**, as Landlord, whose address is **5510 Clio Road, Flint, Michigan 48504**, and the State of Michigan, by the Department of Technology, Management & Budget, whose address is 7150 Harris Drive, Suite 2B, Dimondale, MI 48821, for the **Department of Technology, Management & Budget, (DTMB) Office of Infrastructure Protection**, as Tenant, and establishes the following terms, conditions, performance obligations, and covenants between the parties:

1. **Premises & Rent** –

   1.1 Landlord hereby rents to Tenant up to approximately **80,000** usable square feet of warehouse space, as further described in Attachment "A" to this Agreement, in the building commonly known as **4315 Clio Road, Flint, MI 48504** (the "Premises"). The Tenant shall further have non-exclusive use of the parking areas, docks, and entrances, hallways, and the restroom facilities of the warehouse Premises in common with the Landlord and/or other tenants of the Premises.

   1.2 Tenant shall pay to Landlord $4.00 per square foot annually beginning on January 14, 2016, for up to 80,000 square feet. Rent consideration installment payments shall be made during the month for which the installment applies.

   1.3 In addition the Landlord will provide four fork trucks, fuel, and four personnel and labor to unload semi loads of pallets consisting of water and other materials (product), @ $75.00 per hour per fork lift and driver (all inclusive) for an 8 hour shift starting at 7:00 a.m. until 3:30 p.m. and overtime shall be paid @$90.00 per hour for the next four (4) hours for a total of twelve (12) hours a day and up to seven days a week that shall not exceed four (4) employees plus the supervisor. This work schedule shall be approved and substantiated by Jeannette Doll, or her counterpart from Department of Technology, Management & Budget, Office of Infrastructure Protection (DTMB, OIP), for an undetermined amount of time.

1.4 The State also agrees to pay for the Landlord to provide a Supervisor for his staff to coordinate the trucks and people from all agencies as deemed necessary by Jeanette Doll, DTMB/OIP, for not more than twelve (12) hours per day at a cost of $45.00 per hour with overtime billed at $67.50 per hour for four hours. The Landlord will indicate any overtime charged to the State, the hours, days and times of charges, as substantiated by DTMB/OIP.

1.5 **The Landlord shall supply the following information in an invoice to the State of Michigan, DTMB every month: (i) a running tally of the number of square feet of space used and (ii) overtime consideration, (iii) rent consideration installment payments and (iv) labor and overtime indicated in paragraphs 1.3 and 1.4 of this document. (v) all utility bills for heat and electric service to the Leased premise (vi) a one-time itemized charge listing the hours and equipment and personnel used to empty two offsite warehouses on January 14, 2016.**

1.6 **All items shall be itemized and submitted during the month for which the installment applies and may be on a per diem basis (if necessary).**

1.7 **It is understood by all parties, there is no management fee to be paid for these services.**

2. Term - The term of this Agreement begins on **January 14, 2016** and ends on **January 13, 2017**, subject to the cancellation provisions of this Agreement.

3. Holding Over - In the event Tenant remains in possession of the Premises after the expiration or termination of the Agreement, it shall be deemed to be occupying the Premises as a Tenant from month-to-month, subject to all conditions, provisions and obligations of this Agreement.

4. Cancellation - This Agreement may be cancelled by the Tenant upon thirty (30) days written notice to the Landlord delivered to the address as set forth under the "Notices" Section of this Agreement, or to such other address as either party may designate in writing for the delivery of notices under this Agreement. This agreement will supersede and cancel all prior agreements.

   Upon cancellation, a satisfactory walk-thru inspection performed by DTMB Real Estate Division and the Landlord or the Landlord's representative; all keys and access cards returned to the Landlord.

5. **Services and Responsibilities of Landlord - Landlord shall furnish the following at its own expense:**
   - 5.1 Heating, mechanical ventilating, cooling.
   - 5.2 Electric service for lights, and all other electrical equipment. Lighting shall be adequate for a warehouse facility. Replacement of light bulbs and tubes as needed.
   - 5.3 100% payment for water and/or sewer used in the premises
   - 5.4 Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.
   - 5.5 Pest Control.
   - 5.6 Snow removal from driveways, steps, porches, walkways, exterior grounds maintenance, including grass and weed cutting, clippings removal, leaf raking,

litter removal, sidewalk surface and parking lot surface maintenance.

5.7 Removal of trash and refuse from the dumpsters on Premises.

6. **Services and Responsibilities of Tenant - Tenant shall furnish the following at its own expense:**

6.1- 100% payment for metered public utilities used for heating, cooling, illumination.

7. Repair and Maintenance -

The Tenant shall notify the Landlord or his agent of the need for any repairs or replacements, which are not the responsibility of the Tenant to make. Landlord is to provide a list of telephone numbers (ESCR form) to call for maintenance services, including a number for window breakage, if needed.

7.1 The Tenant shall reimburse the Landlord for any repairs to the Premises from damage which exceeds normal wear and tear to be expected from lawful and proper use of the Premises and the sole cause of which was the negligent acts or omissions of Tenant's employees or clients.

7.2 The Tenant shall be responsible for the following repair and maintenance operations: **NONE.**

7.3 Alterations & Improvements – **Deleted, Not Applicable.**

8. Landlord Obligations -

8.1 Governmental Compliance - Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during the term of this Agreement including, but not limited to, applicable codes and use permits.

8.2 Fire Inspection Report - Landlord shall provide to Tenant, a written fire inspection report dated within five years of the Effective Date on this Agreement, approving the Premises for occupancy.

8.3 Authority to Bind - Landlord represents and warrants that it has legal ownership and authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

8.4 Insurance - Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

8.5 Rent With-Holding - If the Landlord fails to provide supporting documentation, as required by Paragraphs 7.1, 8.2, 8.3 and 8.4, ten percent (10%) of the monthly rent consideration shall be held by the Tenant, until the required documentation is provided to the Tenant.

8.6 First Right of Refusal - The Landlord shall not rent or otherwise occupy any adjoining space which is or becomes vacant on the Premises known as 5510 Clio Road, Flint, MI 48504 during the term of this Agreement, or any extensions

thereof, without first offering for a period of ten (10) days, the space to the Tenant at the Tenant's current rental rate, and under the same terms and conditions found in this Agreement.

9. **Public Policy Provisions** -

9.1 Non-Discrimination - Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq., and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

9.2 Utilization of Public Facilities by Physically Limited - Premises shall comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq.

9.3 Unfair Labor Practices - This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the register compiled by the State of Michigan pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

9.4 Electronic Funds Transfer - Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment Express website (www.mi.gov/cpexpress) or call (888) 734-9749 to receive payments by EFT.

10. **Notices** - Any notice to Tenant required by this Agreement shall be complete if submitted in writing and transmitted by personal delivery (with signed delivery receipt), or certified or registered mail return receipt requested, or by a nationally recognized overnight delivery service. Unless either party notifies the other in writing of a different mailing address, notice to the Landlord and/or Tenant shall be transmitted to:

Landlord	Tenant
Bell Warehousing & Manufacturing Services, Inc.	Director, Real Estate Division

The notice shall be deemed on either (i) the third business day following the date of mailing, if transmitted by mail or (ii) the date on which the noticed party receives or refuses receipt of the notice, if transmitted by personal delivery, or a nationally recognized overnight delivery service. Business day is defined as any day other than a Saturday, Sunday, legal holiday, or day preceding a legal holiday. A receipt from a U.S. Postal Service, or successor agency, performing such function shall be conclusive evidence of the date of mailing.

11. **Miscellaneous Provisions** -

- 11.1 Governing Law - This Agreement shall be governed by and interpreted in accordance with the laws of the State of Michigan.
- 11.2 Mutual Drafting - This Agreement shall be interpreted and construed as drafted mutually by both parties.
- 11.3 Entire Agreement - This Agreement, with all Attachments as listed herein, constitutes the entire agreement between the parties with regard to this transaction and may be amended only in writing, signed by each party.
- 11.4 Severability - Should any provision of this Agreement or any addenda thereto be found to be illegal or otherwise unenforceable by a court of law, such provision shall be severed from the remainder of the Agreement, and such action shall not affect the enforceability of the remaining provisions of the Agreement.
- 11.5 Waiver - Failure to enforce any term of this Agreement shall not be deemed a waiver of the enforcement of that or any other term of this Agreement.
- 11.6 Effective Date - The Effective Date of this Agreement is the date signed by the Real Estate Director of the Department of Technology, Management & Budget.
- 11.7 Binding Effect - This Agreement shall be binding upon and inure to the benefit of the heirs, executors, administrators and assigns of Landlord and Tenant.
- 11.8 Counterparts - This Agreement may be executed in counterparts, each which shall be deemed an original, and all of which together shall constitute one and the same agreement. An electronic, scanned or facsimile signature shall be deemed an original.
- 11.9 Assignment - The Tenant, through its Department of Technology, Management & Budget may assign or reassign any or all of the Premises to any branch, department, board, agency, commission or other instrumentality of State government without the necessity of obtaining consent of the Landlord.

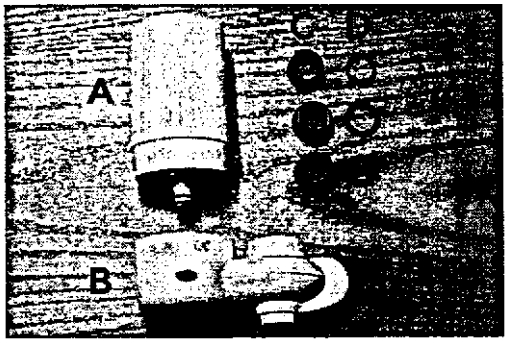
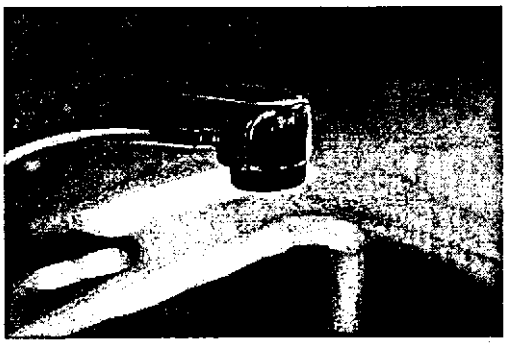
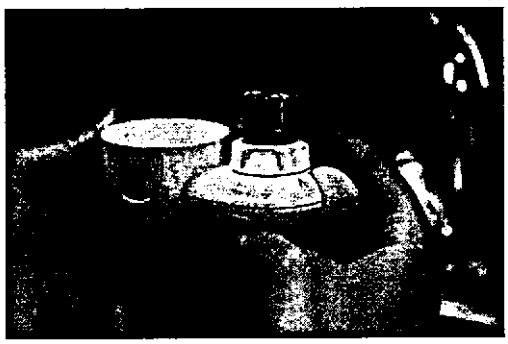
FLINT WATER RESPONSE TEAM

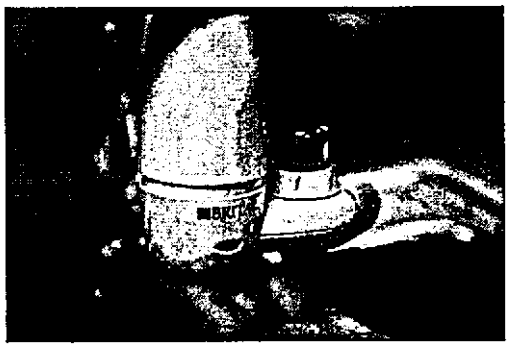
Installing a BRITA Filter

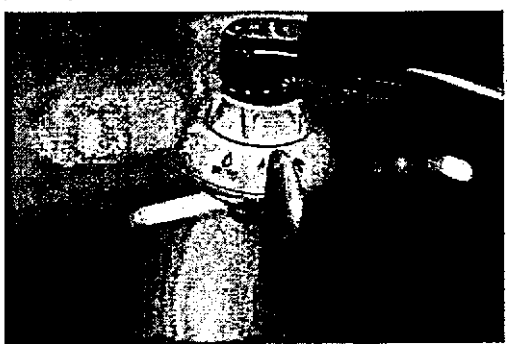
www.michigan.gov/flintwater











WHAT'S IN YOUR BOX

A. Filter Base
B. Filter Cartridge
C. Adapters (you may or may not need one of these)
D. Rubber Washers (these match up with the adapters)

ADAPTER INSTALLATION

Every sink faucet has a round tip at the end that can be removed. Unscrew and remove it. If your faucet has threads on the OUTSIDE, you will not need an adapter or rubber washer. If your faucet has threads on the INSIDE, you will need to use one of the adapters (C) and the matching rubber washer (D). Find the adapter that fits your faucet best and screw it on.

FILTER INSTALLATION

Step 1

Place the filter base (A) under your faucet with the cartridge cup to the left of your faucet. Twist the mounting collar onto the faucet and tighten by hand. Do not over tighten or use pliers.

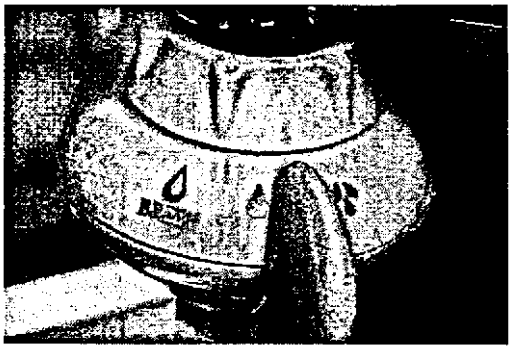
Step 2

Place your hand under the filter base cartridge cup. With the filter cartridge (B), align the pegs on the bottom of the cartridge with the holes in the cartridge cup and push down until you hear a click.

USING YOUR FILTER

There is a white filter handle on the right side of the filter base. Move the handle towards the Brita logo (front of the base) to use the filter. Only run COLD water through the filter at all times.

When you use your filter for the first time ONLY, run cold water for five minutes. After that, your filter is ready for use whenever your turn on your faucet.



FILTER SETTINGS

Filtered Water - Brita water drop in front of the filter base handle
Unfiltered Water Stream - Single water drop in the middle of the filter base handle
Unfiltered Water Spray - Three water drops behind the filter base handle

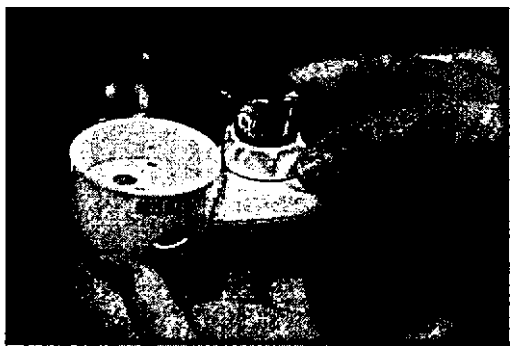
WHEN SHOULD YOU USE FILTERED OR UNFILTERED WATER?

FILTERED WATER - COLD WATER ONLY	UNFILTERED WATER
Drinking (making coffee, juice, baby formula)	Washing your hands
Cooking	Washing dishes, clothes
Washing fruits and vegetables	Mopping floors, cleaning countertops
Brushing kids' teeth	Showers, baths (people and pets)
Pets water bowls	Brushing adults' teeth

CHANGING YOUR FILTER

Each time you use your filter, a light will signal.

GREEN - Your filter is working
YELLOW - Your filter is working, but you will need to change it soon.
RED - It is time to change your filter. Press the filter cartridge release button at the back of the filter cup and pull the cartridge up. Revisit step 2 to place a new cartridge in the filter cup.



REMOVING YOUR FILTER

Should you need to remove your filter unit, simply unscrew the filter mounting collar from the faucet.

FOR MORE INFORMATION

If you live in the City of Flint and need a free water filter or replacement filter cartridge, they are available at one of the water resource sites. If you are unable to visit a water resource site, call 810-257-3600 or United Way 211.

To get a free water test, visit a water resource site, Flint City Hall, or call the Flint Water Plant at 810-787-6537.

If you live outside of the City of Flint and would like to purchase a filter to protect you and your family from lead or other chemicals, make sure you get a filter that is NSF-approved. Look for this symbol on the box:

INDEPENDENTLY NSF CERTIFIED

FLINT WATER RESPONSE TEAM

www.michigan.gov/flintwater

RICK SNYDER
GOVERNOR

STATE OF MICHIGAN
DEPARTMENT OF AGRICULTURE
AND RURAL DEVELOPMENT

JAMIE CLOVER ADAMS
DIRECTOR

February 10, 2016

VIA E-MAIL: GREG@BOISINSURANCE.COM

Mr. Greg Bois
1126 East Main Street
Flushing, Michigan 48433

Dear Mr. Bois:

Thank you for your recent e-mail inquiry which was referred to me for response via the Governor's Office. Firms are expected to correct any concerns immediately. Re-visits are conducted within 10 days to confirm the establishment has corrected all problems and is now operating in compliance with the requirements. They are not given a 10- day period to continue operating out of compliance. That is just the timeframe set for the next visit. If there is a known issue with the water being used, a seizure is placed on their water immediately. The water cannot be used for any food preparation or consumption when there is a known problem with the "in-use" water.

Posting a results list of establishments not in compliance could be misleading. Many of the water samples collected do not represent the water being used for consumption or food preparation. The samples were meant to represent the worst case scenario. The waterline must not be used for six (6) hours prior to the sample being collected and the sample is taken before the firm performs the mitigation steps detailed in the requirements [attached]. When testing indicates elevated lead levels in the water, the firms are put on a high priority list and re-visited with "in-use" water samples collected. The water cannot be used for any food preparation or consumption when there is a known problem with the "in-use" water.

The requirements detailed in the attachment give several mitigation steps. Filters certified to NSF Standard 53 are certified to significantly reduce lead. Flushing the lines for five minutes is consistent with direction from the CDC to address concerns.

Sincerely,

Kevin Besey, Director
Food and Dairy Division

Requirements for Licensed Food Establishments Using City of Flint Water

January 13, 2016

Attention: This applies to licensed restaurants, grocery stores, convenience stores, food processors and food warehouses.

- The best way to determine if water contains lead is to have it tested. Safe results can be posted to inform consumers.
- To schedule a free collection and analysis of your food establishment's water for lead, call 1-800-292-3939 and state you're a "Flint food establishment requesting a water test." Be prepared to provide a time when your water system can be sampled where water won't have been used for at least 6 hours. Sampling appointments as early as 5 a.m. are available.
- Restaurants with general questions should contact Genesee County Health Department at: 810-257-3612.
- Grocery or Food Processing establishments with general questions should contact MDARD at: 1-800-292-3939.

Unless the water has been tested and found to not have a lead concern, do the following:

- Flush water lines for 5 minutes each day before using or serving water and after 6 hours of no water use. Then flush other equipment such as pop machines for at least 1-2 minutes.
- Install an NSF Standard 53 certified filter on the faucet where drinking/cooking water is obtained from. Approved filter information for faucet or in-line filters can be found at: http://nsf.com/newsroom/statement-regarding-flint-water-system-lead-issue-and-to-certification-nsf. Filters must be changed based upon the manufacturer's recommendations.
- Use cold water and store it for immediate consumption.
- Always use cold water for drinking, cooking and cleaning/rinsing food.
- Hot water must be used for dishwashing.

Other equipment that may use city water:

- Ice machines – Install a water filter on the supply line or use bagged ice in drinking water.
- Pop machines – Flush for 1 minute daily or use bottled beverages.
- Coffee machines or Tea Urns – Flush for 1-2 minutes daily or use filtered water. These products may be very low risk as young children under 6 are not likely to consume these.
- Slush machines – Use filtered water.
- Spray misters – Flush for 1-2 minutes daily or use filtered water.

A licensed plumber can check your plumbing and service lines for lead soldering or lead service lines.

Michigan Department of Agriculture & Rural Development

RICK SNYDER
GOVERNOR

STATE OF MICHIGAN
DEPARTMENT OF AGRICULTURE
AND RURAL DEVELOPMENT

JAMIE CLOVER ADAMS
DIRECTOR

February 10, 2016

VIA E-MAIL: GREG@BOISINSURANCE.COM

Mr. Greg Bois
1126 East Main Street
Flushing, Michigan 48433

Dear Mr. Bois:

Thank you for your recent e-mail inquiry which was referred to me for response via the Governor's Office. Firms are expected to correct any concerns immediately. Re-visits are conducted within 10 days to confirm the establishment has corrected all problems and is now operating in compliance with the requirements. They are not given a 10- day period to continue operating out of compliance. That is just the timeframe set for the next visit. If there is a known issue with the water being used, a seizure is placed on their water immediately. The water cannot be used for any food preparation or consumption when there is a known problem with the "in-use" water.

Posting a results list of establishments not in compliance could be misleading. Many of the water samples collected do not represent the water being used for consumption or food preparation. The samples were meant to represent the worst case scenario. The waterline must not be used for six (6) hours prior to the sample being collected and the sample is taken before the firm performs the mitigation steps detailed in the requirements [attached]. When testing indicates elevated lead levels in the water, the firms are put on a high priority list and re-visited with "in-use" water samples collected. The water cannot be used for any food preparation or consumption when there is a known problem with the "in-use" water.

The requirements detailed in the attachment give several mitigation steps. Filters certified to NSF Standard 53 are certified to significantly reduce lead. Flushing the lines for five minutes is consistent with direction from the CDC to address concerns.

Sincerely,

Kevin Besey, Director
Food and Dairy Division

Enclosure
cc: SEOC

Requirements for Licensed Food Establishments Using City of Flint Water

January 13, 2016

Attention: This applies to licensed restaurants, grocery stores, convenience stores, food processors and food warehouses.

- The best way to determine if water contains lead is to have it tested. Safe results can be posted to inform consumers.
- To schedule a free collection and analysis of your food establishment's water for lead, call 1-800-292-3939 and state you're a "Flint food establishment requesting a water test." Be prepared to provide a time when your water system can be sampled where water won't have been used for at least 6 hours. Sampling appointments as early as 5 a.m. are available.
- Restaurants with general questions should contact Genesee County Health Department at: 810-257-3612.
- Grocery or Food Processing establishments with general questions should contact MDARD at: 1-800-292-3939.

Unless the water has been tested and found to not have a lead concern, do the following:

- Flush water lines for 5 minutes each day before using or serving water and after 6 hours of no water use. Then flush other equipment such as pop machines for at least 1-2 minutes.
- Install an NSF Standard 53 certified filter on the faucet where drinking/cooking water is obtained from. Approved filter information for faucet or in-line filters can be found at: http://nsf.com/newsroom/statement-regarding-flint-water-system-lead-issue-and-to-certification-nsf. Filters must be changed based upon the manufacturer's recommendations.
- Use cold water and store it for immediate consumption.
- Always use cold water for drinking, cooking and cleaning/rinsing food.
- Hot water must be used for dishwashing.

Other equipment that may use city water:

- Ice machines – Install a water filter on the supply line or use bagged ice in drinking water.
- Pop machines – Flush for 1 minute daily or use bottled beverages.
- Coffee machines or Tea Urns – Flush for 1-2 minutes daily or use filtered water. These products may be very low risk as young children under 6 are not likely to consume these.
- Slush machines – Use filtered water.
- Spray misters – Flush for 1-2 minutes daily or use filtered water.

A licensed plumber can check your plumbing and service lines for lead soldering or lead service lines.

Approved Objectives

Operational Period #7 (Sat Feb 6 0800 to Tues Feb 9 0800)

Commander's Intent: Coordinate and support local and State government to provide Federal support to meet the needs of the Flint Community during the Water Crisis.

Objectives for Operational Period #7

1a. Conduct emergency water testing to a) determine chlorine and bacterial levels in the water supply; and b) study efficacy of water filters. (WQTF)

2. Coordinate with local and State partners to evaluate and if needed, respond to higher levels of concern for lead and other contaminants. (WQTF)

3. Develop and implement environmental sampling plans to a) evaluate water quality concerns; b) conduct regulatory sampling in accordance with the LCR/SDWA; c) conduct sequential sampling to better understand lead leachability in the water distribution system; and d) establish a pipe-rig to assess water quality for transition to the KWA source waters. (WQTF)

4. Ensure compliance with EPA enforcement orders pursuant to this incident. (WQTF)

5a. Coordinate the development of targeted public health messaging and communication products for lead exposure in collaboration with the Genesee County Health Department, the Michigan Department of Health and Human Services and US Environmental Protection Agency. (PEATF)

~~6. Develop and publish CDC recommendation advising lead testing for all children under 6 years of age and pregnant women with risk factors in collaboration with state and local health officials. (HMTF)~~

7a. Provide lead education and a community engagement strategy to the Genesee County Health Department. (HMTF)

7b. Provide nurse case work management to Genesee County Health Department. (HMTF)

7c. Provide call center technical assistance to Genesee County Health Department. (HMTF)

7d. Develop a data collection strategy for Genesee County Health Department. (HMTF)

8a. Assess progress on Centers for Medicare and Medicaid Services (CMS) & Administration for Children and Families (ACF) related requests from the State. (HSTF)

10. Assess progress toward improving micro-nutrient effort for the school system. (NETF)

11. Assess progress towards enhancing healthy food availability for the community. (NETF)

12a. Coordinate the intergovernmental, public and external affairs effort to ensure awareness and visibility of communications activities regarding Flint water crisis with State and Federal partners. (PEATF)

~~13. Assess Federal programs that are related to meeting children's needs. (HSTF)~~

~~14. Assess Federal programs that are related to pregnant and nursing women. (HSTF)~~

14a Obtain clarity from State WIC program for supporting needs of pregnant and nursing mothers and consequently follow up with federal programs that can support the request. (HSTF)

~~15. Assess eligibility of Community Development Block Grant (CDBG) funds to meet the State's request for transportation support. (HSTF)~~

15a Determine eligibility and availability of Community Development Block Grant (CDBG) funds to meet the State's request for transportation support. (HSTF)

~~16. Assess approach to public messaging and outreach with State and Federal partners. (PEATF)~~

16a. Determine approach to public messaging and outreach with State and Federal partners. (PEATF)

17. Coordinate with ACF on eligibility of programs available to support State identified human service needs. (HSTF)

18. Coordinate with ACF on statutory authority related to State's request for Title IV-E (Foster Care) waivers. (HSTF)
19. Identify subject matter expertise (SME) for recruitment and retention for healthcare professionals. (HSTF)
20. Obtain CMS Decision memo on State's request for an 1115 waiver for lead abatement and other human services requests. (HSTF)

Received, Subject to the transportation Contract or rate agreement in effect between Shipper and Contract Carrier (the word Contract Carrier being understood through this bill of lading as meaning the motor carrier, forwarder, broker or other intermediary that has obligated itself to transport the freight from origin to destination), on the date of issue of this bill of lading, the property described below in apparent good order and condition, except as noted. This bill is a receipt for goods; it is not of itself a contract of carriage. It is mutually agreed between Shipper and Contract Carrier as well as any person or company otherwise authorized to be in possession of the property during transportation that the services to be performed will be subject to all of the terms and conditions contained in the Transportation Contract or rate agreement, and no other document. The Contract Carrier agrees to this for itself and its subcontractors, agents and assigns. The weights are certified by the Shipper to be true and accurate.

The carrier shall not make delivery of this shipment without payment of freight and all other lawful charges.

HOMESERVE℠
Protecting Homeowners in Michigan

Peel and affix this label

MR. PAUL J. GARSON
1407 WOODLAWN PARK DR.
FLINT, MI 48503-2768

325

Date:	1/12/16
Status:	Not Covered

** Important Information Regarding Your Water Service Line **

Dear Paul J. Garson,

This letter is to inform you that as a homeowner you are responsible for the full cost of repairing your exterior water line. We have found that your property at 1407 Woodlawn Park Dr. is not covered with Exterior Water Service Line Coverage from HomeServe.

The water service line buried underground on your property could fail without warning, leaving you responsible for the cost of repair or replacement. Replacement of this line can be expensive—costing you thousands of dollars in unforeseen expenses—which could burden finances.

This protection is available for eligible Flint homeowners.

Benefit Amount:	$6,000 annually with multiple service calls for covered repairs 30-day wait period with a money-back guarantee
Available For:	City water and Private well lines
Monthly Rate:	$5.49 $2.74
Property Address:	1407 Woodlawn Park Dr.
City:	Flint

*** * * Important * * ***

You can now receive 50% off the regular monthly price shown above for the *first year*. Take action to help protect the buried water line on your property. Complete and return the enclosed form—remember to affix your address label—or call 1-877-444-7750 to accept this *optional* coverage. For fastest processing, please visit CoveragePlans50.com.

Please respond within 30 days.

HomeServe USA Repair Management Corp. ("HomeServe"), with corporate offices located at 601 Merritt 7, 6th Floor, Norwalk, CT 06851, is an *independent company separate from your local utility or community* and offers this optional service plan as an authorized representative of the contract issuer, AMT Warranty Corp., 59 Maiden Lane, 43rd Floor, New York, NY 10038.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	02/09/2016 08:00:00
Operational Period End:	02/16/2016 08:00:00
Situation Report No.	42
SEOC Status:	Full
SEOC Hours of Operation Begin:	02/16/2016 08:00:00
SEOC Hours of Operation End:	02/16/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (February 16, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.
- Worked on potential donated warehouse opportunities.

JIC:
- Created a media monitoring report and looked for misinformation.
- Updated a Daily JIC Activities log to catalog actions completed for the day and planned news release strategies for the week.
- Drafted and intended to issue a news release about the National Guard rotating soldiers in the city of Flint.
- Continued routing public information materials for approval, including fact sheets on recycling, testing water, and keeping Flint kids safe.
- Additional translated news releases were received and routed.
- Created a community outreach spreadsheet to keep track of meetings occurring in the city of Flint.

Recovery Branch:
- Attended UCG Brief, SEOC State Agency Briefing Meetings, Distribution Process Meetings.
- Continued identifying addresses that are unable to be matched with parcels in city's parcel data set.
- Team Priority Visited Today: 5 teams in the field - Water Distribution – turned 211 information over to local EOC and Southern Baptist Teams.
- Team Priority Scheduled Tomorrow: Water distribution and supplies requested.
- 5 American Red Cross Teams scheduled for Wednesday, February 17, 2016.
- Total homes visited:
  - 24,879 (round 3 total)*
  - 1,023 (today).
- Water cases (liters calculated by multiplying # of cases x 12):
  - 178,116 liters or 14,843 cases (round 3 total)*
  - 8,076 liters or 673 cases (today).
- Replacement cartridges:
  - 6,331 (round 3 total)*
  - 609 (today).
- Faucet filters:
  - 7,792 (round 3 total)*
  - 90 (today).

*Totals updated due to changes in previous data.

Planning Section:
- Developed and approved Sit Rep #42.
- Updated burn rates and projection costs, per request.
- Participated in daily UCG, state agency, and distribution process meetings.
- Developed daily Governor's Report.

Operations Section:
- Participated in Long Term Recovery planning meeting.
- Participated in Unified Coordination Group briefing.
- Facilitated Command/General Staff/SEOC briefing.
- Participated in Distribution Process meeting.
- Assisted in developing print plan for FOIA request.
- Assisted state agencies in handling requests from Governor's office, media, etc.
- Warehouse Numbers as of 1800:

□ Water (liters):
• 828,374 liters or 69,031 cases.
□ Filters (faucet):
• 47,132.
□ Replacement cartridges:
• 402,782.
□ Test Kits (prepped):
• 35,854.
• PODs (Number as of 1700 2/15):
□ Water (cases):
• 59,184 liters or 4,932 cases.
□ Filters (faucet):
• 162.
□ Replacement Cartridges:
• 453.
□ Test kits:
• 131.

Finance Section:
• Gathering information for meeting with State Budget Office.
• Update Category B Financial Spreadsheet.
• Reviewing donation information for potential as future match.

GIS Branch Updates:
• Update MDEQ water testing layer.
• Generate a list of apartment buildings receiving water from the City of Flint and how many times each building has been visited.
• Generate a list of total residences that potentially will be using a water filter that use water from the City of Flint.
• Compare and contrast 2016 Flint parcel layer with 2015 Flint parcel layer.
• Edit Flint Water Resource Team field data to parcel.

DTMB:
• Provided a dumpster for the Pierson Rd. Warehouse.
• Provided seven (7) iPads for DEQ sampling teams.
• DTMB to provide a truck and driver for the Food Bank for Thursday through Saturday.
• Procured a replacement fork lift battery for the Pierson Rd. Warehouse.
• Addressing issues with Pierson Rd. Warehouse with landlord, MDOC and 7th Day Adventist.
• DTMB Real Estate researching options for a 200,000 sq. ft. warehouse for long term distribution plan, preferably on the bus line.

DHHS-CH (weekly):
• The CHECC remains activated at a Level 2, and continue to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to provide representation to the UCG to facilitate communication with federal partners.
• The CHECC met with senior MDHHS leadership, UCG representatives and team members that have been supporting GCHD Case Management efforts today to continue planning efforts for lead testing and case management activities going forward.

DEQ:
• Continued documenting compliance with EPA Emergency Administrative Order and second EPA request.
• Reviewed incident objectives to reflect Director's priorities for upcoming week.
• Began developing a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead service lines.
• Continued monitoring and mapping of school fixture upgrade/replacements.
• Began planning for next phase of testing and data collections.

Unified Coordination Group (UCG):
• CDC will meet with state on rash complaints/test results.
• Attended Command/Control subgroup this afternoon. Group would like to change the name to coordination.
• Important to include state reps on each subgroup.

Local EOC:
• Sentinel monitoring teams collected 273 water samples at yesterday.
• Elevated lead and copper task force were out in the field today.
• Local EOC IC attended Community Stakeholders meeting.
• Local EOC Liaison attended Community Stakeholders and long term distribution process meeting.

Injuries:
• None reported today.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
12. Approve and begin implementation of a comprehensive long term recovery and transition plan.
11. Ensure accurate tracking and accounting of all donations and expenditures.
2. Ensure accurate tracking and accounting of all commodities.
3. Continue to improve and maintain public information processes and strategies with all partner agencies.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
9. Continue to enhance situational awareness and common operating picture of all activities.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 16.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Environmental Quality, Health and Human Services and Natural Resources. The Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:
• Media hotline staff answered less than 10 emails and phone calls, ranging from commodity distribution trends at the Water Response Sites to inquiries about volunteering in the city of Flint.

• Created a media monitoring report and ...
• Updated a Daily JIC Activities log to catalog actions completed for the day and planned ...
• Drafted and intended to issue a news release about the National Guard rotating soldiers in the city of Flint.
• Continued routing public information materials for approval, including fact sheets on recycling, testing water, and keeping Flint kids safe. Additional translated news releases were received and routed.
• Created a community outreach spreadsheet to keep track of meetings occurring in the city of Flint.

Agriculture and Rural Development (MDARD)

MDARD's field activities for 2/12/16 included:
• 15 assessments conducted (6 initial, 9 follow-up and 2 second follow-up).
• 5 water samples collected.
• 6 water sample requests/appointments were scheduled.

As of 2/5/16, MDARD has completed initial water assessments at all food businesses in the high risk area and has conducted a total of 371 assessments (280 initial/ 91Follow-up). The compliance rate is 77.63%. 242 water samples have been collected and 41 are currently scheduled.

Also followed up with general information regarding testing of Pb in companion animals in response to question from DEQ desk.

Completed request from MSP planning regarding closures of food establishments as result of non compliance, see below:

I will be at the SEOC on Wednesday and follow up with Drs. Averill and Frank regarding Genesee county companion animal information.

American Red Cross (ARC)

The American Red Cross deployed 5 Water Response Teams on Tuesday, 2/16/16.

The Volunteer Reception Center was operating today from 9am to 5pm, and the plan is for those hours to continue daily, through Sunday.

A limited number of water bottle recycling kits were assembled today.

Civil Rights (MDCR)

Continue to monitor media and state agency activities for issues impacting underrepresented, at-risk, and populations with barriers to services and information. Informed senior leadership of current activities and concerns.

Community Health (MDCH)

The CHECC remains activated at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to provide representation to the UCG to facilitate communication with federal partners.

Dr. McFadden reported that to date there is no conclusion regarding the cause of rashes that have been reported, no common presentations on interview. Epidemiological investigations are on-going. A dermatologist has offered to do evaluations of individuals with rashes at no charge. Dr. McFadden's team will schedule the appointments and MDHHS -Human Services Representative is working with the local EOC to determine a transportation plan for these individuals if required. EPA test results of the water from the individuals' homes are expected today.

Shower filters are only NSF/ANSI certified for chlorine. Contacted makers of the KDF filters which are used on showers and was informed that due to the high flow rate of showers, the water is not in contact with filters long enough so they are not really designed for more than cosmetic purposes.

MDHHS continues to provide volunteers to accompany the MDEQ High Lead Home Teams.

Corrections (MDOC)

MDOC began staffing the second warehouse 7 days/week 10-6 effective today. MDOT is dedicating 2 employees to the effort. DTMB continues to dedicate 2 trucks with drivers.

The building owner of Warehouse 2 restricted access to an unsafe area (compressor room). A padlock w/chain and signage was used.

MSP dispatched a unit to Warehouse 2 for an abandoned vehicle with busted windows in the parking lot. The vehicle was not stolen and the issue was turned over to the city PD for disposition.

A temporary replacement battery will be delivered tomorrow for the forklift at Warehouse 2 until the permanent replacement arrives Thursday or Friday.

Met with FEMA VAL regarding safety concerns at Warehouse 1.
-Security staff to restrict access
-Propane storage areas
-Exhaust fumes in warehouse
-Safety Vests
-Floor tape designating machine and pedestrian areas
-First Aid and AED
-Dust Masks

We are addressing the issues and will correct them. A follow up will be in the next Sit-Rep.

MDOC will provide a Truck and Driver for the Flint Food Bank for Wednesday, February 17, 2016.

MDOC continues to keep [illegible]
critical level. PODs remained well supplied throughout day and will continue to be well supplied [illegible]

We are continuing to work with Finance and MDOC assets to capture total employee payroll information and expenditures.

MDOC continue to staff the SEOC from 0800-2000, 7 days/week. Mike Farmer and Bridget Spencer are managing the Recovery Branch of the SEOC.

403 DEQ and 0 MDARD test kits were delivered from Flint to Lansing today.

Education (MDE)

MDE has a request from Planning to determine if any school days or instructional time has been lost due to the Flint water situation. We have reached out to GISD with a request for this information. MDE has received a request from the MEA Region Director for training of teachers of students impacted by Flint water situation.

MDE continues to work with MSD on faucet replacement and re-replacement with a new target date of 24 February for completion.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

Continued documenting compliance with EPA Emergency Administrative Order and second EPA request.

Reviewed incident objectives to reflect Director's priorities for upcoming week.

Began developing a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead service lines.

Continued monitoring and mapping of school fixture upgrade/replacements.

Began planning for next phase of testing and data collections.

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team.

LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.

Faucet Project information is being prepared for the affected facilities. LARA continuing efforts to plan and schedule faucet replacements for Flint facilities.

LARA is working with MDOC to track and store incoming material at the warehouse.

Translation services for various documents continue to be provided as needed - these include Spanish, Arabic, Mandarin, Hmong and American Sign Language.

Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort with state agencies.

Arrangements in progress for assistance to various ethnic communities to provide services.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 1612002016.

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN).

3. POC: Ssg Gazzeny, Darryl L. Cell: Email: armyinfantry31@yahoo.com.

13. COMMANDER'S EVALUATION:
• AAR and operational notes are being consolidated into SOP's to send to JOC to assist in updating the All Hazards Plan.
• An operational handoff packet including SOP's, POC's, POD sector sketches, hand-receipts, and other operational notes is being built to assist the incoming unit.
• POC needed for incoming unit
• OUT (last 24 hours)
Bottled water-3733 Water (Gallons)-2020 Lead Testing Kits-131
Pitcher (23 cup)-0 Brita Faucet Filter-34 Brita Replacement Cartridge-128
Pur Filter-76 Pur Replacement Filter-243

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co. EOC for water and filter follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

State Police (MSP)

The MSP position within the SEOC will be staffed at MSP Operations at HQ. All e-mails to MSP-EOC-MDSP@michigan.gov are being forwarded to the Operations Lt. The phone number for the on duty Operations Lieutenant is 517-241-8000.

Technology, Management and Budget (MDTMB)

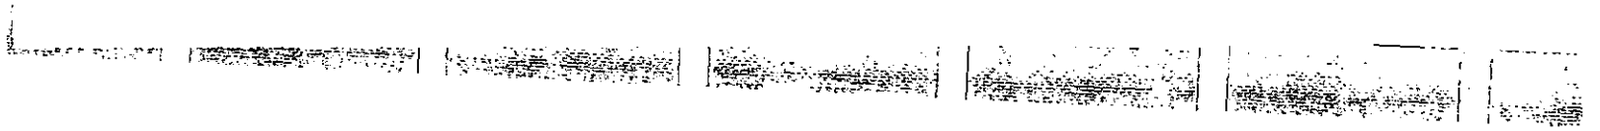
Continue to provide DTMB management SEOC updates and expenditures to-date.

Provided a dumpster for the Pierson Rd. Warehouse.
Provided seven (7) iPads for DEQ sampling teams.
DTMB to provide a truck and driver for the Food Bank for Thursday through Saturday.
Procured a replacement fork lift battery for the Pierson Rd. Warehouse.
DTMB Print & Graphics printing multiple print jobs.
Added calendar access to two additional DEQ employees.
Addressing issues with Pierson Rd. Warehouse with landlord, MDOC and 7th Day Adventist.
DTMB Real Estate researching options for a 200,000 sq. ft. warehouse for long term distribution plan, preferably on the bus line.

Transportation (MDOT)

Continuing to maintain situational awareness and responding to issues regarding equipment and road conditions.

Incident Related Images



Important Questions & Answers

What am I responsible for?
As a homeowner, you are responsible for the exterior water service line on your property. In some towns, the service line beyond the property boundary to the main connection may remain the homeowner's responsibility, but it is not included in this coverage.

Does this coverage include well lines?
Yes, coverage provides for repair or replacement of the water service line on your property regardless of whether you are connected to a city water main or private well.

Does my homeowners insurance or local utility company cover this?
Most basic homeowners insurance policies and local utility companies do not cover repair or replacement of the water service line. If you find you have similar coverage, you can contact HomeServe to cancel and you will receive a refund of your service agreement fee, less any claims paid (where applicable).

Who is eligible for coverage?
A residential homeowner with sole responsibility for the exterior water service line may be eligible. Residences not affixed to a permanent foundation, recreational vehicles and properties used for commercial purposes are not eligible for coverage. If you live in a development community with a condominium, co-op or homeowners association, your exterior water service line may not be an individual homeowner's responsibility, so please check with your association before accepting this coverage.

What should I know about this coverage?
What's covered: Coverage provides, up to the benefit amount, for the covered cost to repair or replace a leaking or permanently blocked exterior water service line from your property boundary or well casing to the external wall of your home that is damaged due to normal wear and tear, not accident or negligence.
Not covered: Repair to any exterior water service line that branches off the main line, accidents and damage or negligence caused by you or others. Additional exclusions apply. To see full Terms and Conditions with complete coverage and exclusion details prior to enrolling call 1-877-444-7750 or go to CoveragePlans50.com.

When can I make a service call?
Your plan starts the day your form is processed, and there is an initial 30-day waiting period before you can make a service call, giving you 11 months of coverage during the first year. This prevents service calls on pre-existing conditions and helps keep the coverage affordable.

What is the cancellation policy?
You may cancel within 30 days of your start date for a full refund; cancellations after the first 30 days will result in a pro-rata refund less any claims paid (where applicable).

What is the term of my service agreement?
Your coverage is based on an annual contract. For E-Z Pay, credit card or debit card customers: regardless of the payment frequency you select, your service agreement will be automatically renewed annually on the same payment terms selected, at the then-current renewal price. Your coverage will remain in effect unless you call to discontinue.

What is E-Z Pay?
E-Z Pay is a paperless and stress-free way to pay for your coverage. Payments are automatically debited from the bank/checking account of your choice as your payment becomes due, at no additional cost.

What quality of repair can I expect?
Local, licensed and insured plumbers perform all covered repairs, which are guaranteed against defects in materials and workmanship for one year.

Who is HomeServe?
HomeServe is an independent company providing emergency home repair services and protection solutions to homeowners across the U.S. If you have questions about this mailing or to be removed from our mailing list, call 1-855-321-9871.

Recycling Program – Community Recycling Coalition, Genesee County EOC
(as of 01/28/2016; 1600)

Community Recycling Coalition partners:

- Local government: City of Flint Department of Public Works, Genesee County Metropolitan Planning Commission
- Local nonprofit: Keep Genesee County Beautiful, UM-Flint University Outreach
- Local private: Republic Services, Young's Environmental Cleanup
- State government: Michigan Community Service Commission, Michigan Department of Environmental Quality, Michigan State Police Emergency Management & Homeland Security
- Statewide private: Schupan Recycling, Petoskey Plastics, General Motors Waste Reduction

Program components:

1. **Bottle collection sites**

Six bottle collection sites have been established in the City of Flint.

A. Schupan Recycling:

Schupan Recycling is providing trailers at Fire Station 1, 3, and 8 for collection of empty bottles.

- Plastic bags for collection of bottles have been provided by Schupan Recycling and Petoskey Plastics.
- Volunteers (coordinated by Schupan Recycling) will attach instruction sheets for bottle collection to the bags before shipment to the warehouse. Instruction cards have been submitted for printing to DTMB and will be shipped to Clio Road Warehouse.
- Plastic bags will be distributed at the PODs to clients that receive bottled water.
- Filled plastic bags with bottles are returned at the POD. They are fed into the trailers by the National Guard staff on site. Sites accept bottles in any clear plastic bag (does not have to be the bag distributed at the station).
- National Guard staff also feeds shrink wrap from pallets into the trailers.
- Schupan empties trailers when needed.

B. Young's Environmental Cleanup:

Young's is providing roll-off containers at three sites for collection of empty bottles. An additional, non-public, collection site is operated at the Food Bank.

- Collection sites are active businesses. Bottle collection is run during business hours for each site (operating hours vary for different sites and are advertised in public information materials).
- Filled plastic bags with bottles are fed into containers by staff on site. Sites accept bottles in any clear plastic bag.
- Young's is not providing bags. No bags are available for pick-up at the collection sites.
- Young's empties containers when needed.

2. **Curbside recycling**

Currently, 8 to 15% of households in the City of Flint are signed up for curbside recycling. Residents can sign up for curbside recycling at no additional cost. Republic Services is the curbside recycling provider for the city.

- ARC canvassing teams will incorporate distribution of recycling material into their door-to-door operations:
  - Door hanger with sign-up information for curbside recycling over the phone.
  - Plastic bags that can be placed curbside for pick-up or brought to the bottle collection sites.

- Door hangers have been designed by JIC, approved by SEOC and Republic, are currently being printed through DTMB, and will be shipped to Clio Road Warehouse.
- 7000 lightly colored, clear plastic bags are provided by Republic and are shipped to the warehouse on 01/28 (bags are lightly colored to be visible at the curb in snowy conditions).
- Evaluating possibility to accommodate larger volunteer groups through recycling-specific canvassing efforts (sign-up, distribution of bins, bags, information materials) with Michigan Community Service Commission.
- Republic Recycling is increasing stock of available recycling bins (acquired 1100 bins over the weekend, working with the manufacturer to acquire more) in preparation for the expected increase in sign-ups.

3. Filter recycling

Water filters cannot be recycled through regular household recycling. Terracycle collects used water filters for recycling in cooperation with PUR and Brita. Genesee County Planning Commission has coordinated with Terracycle.

- Separate containers have been provided to each Fire Station POD for Pur and Brita filters.
- National Guard staff feeds received filters into containers.
- Planning Commission will empty containers when needed, ensure that Pur and Brita filters are separated, and send filters in bulk to Terracycle.

4. Public information

Public information is managed by and provided through the JIC and Michigan Community Service Commission Communications Director. Keep Genesee County Beautiful and UM-Flint provide additional public information.

- JIC is issuing press releases.
- Press conference with Community Recycling Coalition members and Lt. Gov. Calley held on 01/28/2016.
- Keep Genesee County Beautiful provides additional printed information materials, educates resident via phone and at their offices, and sign residents up for curbside recycling.
- UM-Flint University Outreach is currently developing an app for mobile devices that provides information on water resources for Flint residents, and will include recycling directions and locations of bottle collection sites.

5. *(potential involvement)* General Motors Do Your Part

GM is in the process of starting the Do Your Part initiative. Currently, only bottles collected at Renaissance Center feed into the program (goal: all office and manufacturing locations). Bottles are recycled into car parts, air filters for GM plants, sleeping bags for homeless people, insulating materials for houses in challenged neighborhoods. The initiative is designed to facilitate economic development, environmental improvement, social enhancement.

- Goal is to set up a long term partnership between local players and GM Waste Reduction.
- Currently, collected bottles cannot be fed into the program. Bottles would need to be bailed locally for shipment.
- Group is trying to identify options for bailing. However, focus is on long-term partnership.

Subject: Question from DHHS: what is MDE doing to pubilcize nutrition interventions?

Marla and Diane,

The Health Branch Chief, Jennifer Lixey Terrill, asked what MDE is doing to promote added nutrition guidance to the affected schools/buildings/sites?

Do we have a plan to get info out? The link below is a state prepared document.

FLINT WATER RESPONSE TEAM

www.michigan.gov/flintwater

LEAD IN FLINT WATER

GENERAL INFORMATION

- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - Even small amounts of lead can harm kids' health because they are still growing.
  - Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a National Sanitation Foundation (NSF)-approved filter.
  - You can receive a free a NSF-approved filter if you use City of Flint water.
  - Call 2-1-1 to find out where you can pick up a free water filter.
- Some filters can remove up to 99 percent of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - Run only cold water through the filter.
  - Change the filter cartridge as often as the instructions say.
- *Even after changes to the water system, it may take a while before lead levels in your home's water drop.*
- Lead is hard to avoid completely. It can be found in water pipes and brass water faucets, old paint, in dirt, at some job sites, and in metal used for some hobbies.

There are a number of steps you can take to keep yourself and your family healthy. Use the tips below to learn more about how to stay healthy:

LEAD IN WATER

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- You can't see, smell, or taste lead in water.
- *Lead won't change the color of your water.*
- The only way to know what your home's lead levels are is by having your water tested.

LEAD IN BLOOD

- If your children live in Flint or go to school or childcare in the City of Flint, their blood-lead level should be tested.
- You should contact your doctor about testing.
- Testing is available for free at the Genesee County Health Department. Call 2-1-1 if you need help getting there.
- If you are pregnant or nursing, and you have tested negative for high blood-lead levels, it is safe to breastfeed.
- If you are pregnant or nursing and have tested positive for high blood-lead levels, talk to your doctor about the safety of breastfeeding.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

WATER FILTERS

- Get your water tested. It's free. Call 2-1-1.
- Use a water filter. Call 2-1-1 for a free filter.
- If you do not have a water filter, use bottled water for drinking and mixing formula.
- Use cold, filtered water for cooking.
- Wash fruits and vegetables with filtered water.
- If you must use unfiltered water, run the water for at least five minutes before you use it. To save time and water in the future, it's a good idea to fill up as many containers as you can once you've run your water for five minutes.
- Drain and flush your water heater tanks regularly to remove any lead that has accumulated. Follow manufacturers instructions for maintenance or contact a licensed professional for assistance.

CLEANING

- Wash dishes, bottles and toys with unfiltered soapy water and dry before use.
- It is safe to use unfiltered tap water to mop floors and wipe down countertops.
- It is safe to wash clothes in your washer and dryer.
- Use door mats. Take your shoes off when indoors.
- Vacuuming carpets may pull more lead dust to the surface. Use a non-motorized sweeper to clean carpets.
- Clean windowsills and play areas often with paper towels and soapy water.

FLINT WATER RESPONSE TEAM

www.michigan.gov/flintwater

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

IN THE BATHROOM

- Use filtered tap water to brush your kids' teeth.
- Adults can use unfiltered tap water to brush their teeth.
- You can use unfiltered tap water to shower or bathe, but don't let kids drink the water when they play in the tub.
- Studies done by the Centers for Disease Control and Prevention show that parents can continue bathing their children in the tub but bath time should be used for bathing only, rather than allowing children to play in the water for a long time.
- Lead will not cause rashes or other skin problems. However, if levels of chlorine or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).

CARING FOR PETS

- Use filtered tap water for your family pets' water bowls.
- You can use unfiltered tap water to bathe your pets.
- If you notice your pet acting differently than normal, contact your vet.

HEALTHY DIET

- Eat foods high in iron, calcium and vitamin C.
- Wash hands with soap and warm water before eating.
- If you need fresh and healthy food, call the WIC office at 810-237-4537, or for SNAP food assistance apply at www.michigan.gov/mibridges or visit your local Michigan Department of Health and Human Services office.

GOOD SOURCES OF IRON INCLUDE:

- Lean red meats, fish, and chicken
- Cereals with added iron
- Dried fruits (raisins, prunes)

GOOD SOURCES OF CALCIUM INCLUDE:

- Milk
- Yogurt
- Cheese
- Green leafy vegetables (spinach, kale, collard greens)

GOOD SOURCES OF VITAMIN C INCLUDE:

- Oranges, orange juice
- Grapefruit, grapefruit juice
- Tomatoes, tomato juice
- Green peppers

LEAD INFO

The Flint water response team is focused on the lead in water crisis. In additon to water, scientists have long been concerned about all sources of lead including lead paint, dust, soil, etc.

LEAD PAINT

- Homes built before 1978 likely have lead paint, both inside and outside.
- Old paint is the most common way that kids are exposed to lead.

DIRT

- If you live in the city, there may be lead in the dirt outside your home.
- Before 1996, gas and the exhaust from cars contained lead. More lead will be found in dirt in busy traffic areas.

DUST

- The dust in your home can have tiny amounts of lead from paint and dirt.

HOBBIES AND JOBS

- Solder, fishing sinkers, bullets, and stained glass framing materials are some items that may contain lead. You could also track home lead dust from your job site.

HAVE QUESTIONS?

- For more information about protecting yourself and your family from lead, visit www.michigan.gov/flintwater.
- To find out where you can get a free water filter, call 2-1-1.
- For a free water test, call 2-1-1.
- For more information about lead in your home and what you can do, call the Michigan Department of Health and Human Services at 1-800-648-6942.
- For information on how to help, visit www.helpforflint.com.

DATE: January 20, 2016

SUBJECT: National School Lunch Program: Michigan's Request to Expand the Waiver of the Potable Water Requirement to Recently Identified Schools – Approval

TO: Julie Mikkelson
Program Director
Special Nutrition Programs
Midwest Regional Office

This letter is in response to a request from the Michigan Department of Education (DoE) to waive the potable water requirement in the Richard B. Russell National School Lunch Act, 42 U.S.C. 1758, Section 9(a)(5), and found in regulations at 7 CFR 210.10(a)(1)(i). The requirement provides that schools must make available during the school lunch program free potable water where meals are served.

The Michigan DoE originally requested this waiver on behalf of the Flint Community Schools in Flint, Michigan, because the public water source for Flint residents is contaminated with high levels of lead. Since the original waiver was approved, the Michigan DoE has identified additional schools that are affected by the contaminated water. A list of the additional schools and school districts is attached.

Based on the seriousness of the problems within the Genesee County water system, the Food and Nutrition Service (FNS) is approving the request to waive the requirement that these additional Flint area schools make potable water available to students during the lunch service for the remainder of the 2015-2016 school year. We recognize that repairing the water supply system is a long term and costly project, but ask that the Michigan DoE apprise FNS of the progress of repairs to the water supply system before the beginning of school year 2016-2017 in order to determine if it is necessary to extend the waiver request.

If you have questions, please contact Tina Namian, Chief, School Programs Branch at 703-305-2634.

Hi Mark

Things are going good here - as good as they can for an emergency going on. Hope life is treating you well.

We are still unclear on exactly how we will be reimbursing state agencies. We have a request for federal assistance still in the hopper and I have a state disaster fund. Either way, we would be looking for costs directly related to this incident which would include the bottled water and units you are providing at the school. If you have other costs such as filtration units or have paid for water testing that would also be eligible.

I will be providing weekly cost updates to our state director here in the SEOC for the state budget office on Monday afternoons. If you're able to throw numbers together for Monday that would be great, but I could always catch them on the next report as well.

If you come across other costs you think could be eligible go ahead and send them my way and I'll take s look at them.

Thanks
Penny

Ann, Rose, and Mark,

Note: Penny is the MSP Finance Manager and she is working in the SEOC during the Flint Water Crises.

Ann and Mark, you both know Penny from your time at MDOT.

She is asking state agencies to identify any costs that can be reimbursed as part of this event. As far as MDE is concerned we are not paying any overtime, buying anything, or reimbursing employees that are serving in the SEOC. I do not think that we have incurred any reimbursable costs.

Do you think that any of the costs that have been incurred by the Michigan School for the Deaf due to the water crises should be identified? Water, filters, changes to the dormitory?

If you have question, you can contact Penny directly, but cc this email address at the SEOC (State Emergency Operations Center).

Hi Penny,

I hope all is well with you.

The only potentially reimbursable items I can think of right now are bottled water and dispenser units we've been buying and renting from Culligan since September – approximately $250 per week.

Would that qualify? If so, please let me know when you would need a tally of costs.

Thanks.

Any Congressional level request should come through other channels and go out through channels. They should not come to us directly. You can forward to SEOC and we will help figure it out. MWRO is tougher. But if they are asking for USDA we should coordinate the request.

We can help with their informal queries, but formal ones they should go through JIC.

Subject: MDE Facility List
Attachments: MDE Facility Master.xlsx

Attached is the list of school facilities provided to LARA. We have cross checked the addresses with the Flint Water System Service list. The colors are as follows:

Pink – Not on Flint Water System
Gold/Tan – on LARA project list of Schools
Blue – On LARA project list for Child Care.
White – SNF and CACFP will be added to our Child Care list if appropriate.

MDEs in home day cares are not licensed through LARA. We are contacting all of our licensees with 7 or more children in the facility who do not appear on the list and have not indicated they are not on the Flint system to let them have an opportunity to challenge that information..

NOTE - We have reviewed and compared these lists multiple times. They may not be perfect.

Thanks –

Karen

Subject: Racila Ethnic Information for GISD Schools

Hi Dave,

Louis Burgess ask me to contact you and request the racial/ethnic breakdown (%) for all GISD schools. We had a request come in last week from Nancy Pelosi's office by way of USDA MWRO for racial/ethnic breakdown of all our USDA-FNS programs affected by the Flint Water Crisis.

Can you provide GISD school racial/ethnic information for us?

Please let us know.

Thank you,

Tom Priest

Subject: FW: People QuickFacts - Genesee County

Tom, in the DATA folder you will find email from Dave Treder, the GISD data guru. Ask him if he has the racial ethic breakdown (%) for all GISD schools.

If yes, can he get for us. I think it is better this way than through CEPI.

Louis

> We had a request come in last week from Nancy Pelosi's office by way of USDA MWRO for racial/ethnic breakdown of all our USDA-FNS programs affected by the Flint Water Crisis. I know we do not collect those data through our FNS-FRS systems but I also knew that at one time, CEPI had those data by district (I used to be able to download the spreadsheets from the CEPI website but can no longer do so). I asked Howard, Kevin, and Peter and all three said that MDE does not collect those data any longer.
>
> Do you know? We pulled some "quick facts" from the census website for Genesee county but Senator Pelosi's office is specifically asking what the breakdown is for those we are serving. The deadline was last Thursday COB but USDA MWRO said they would take the data when I can get it.

Subject: RE: Zip Codes
Importance: High

MDE is working on the following in the 16 zip codes affected by the Flint Water Crisis:

- Promoting school lunch and breakfast as great sources of the three key nutrients.
- Reaching out to schools participating in the fresh fruit and vegetable program to help select produce high in these nutrients.
- We applied for and received additional fresh fruit and vegetable funds for the schools in these 16 zip codes that qualified for the fresh fruit and vegetable program but did not apply. We will be reaching out to these schools and granting those funds for the purpose of supplying their students with fresh produce snacks that are high in these nutrients.
- For the schools that do not qualify for the fresh fruit and vegetable program, we will be working with them directly on creative ways to menu additional items high in the key nutrients.

- We also applied for and received a waiver for the potable water requirement from HHFKA for all of the schools in the 16 zip codes.
- We have identified additional USDA commodities entitlement funds and will be directing those additional funds toward the schools in the effected zip codes with assistance on choosing available USDA commodities that are high in the key nutrients.
- We are working with TEFAP agencies in these zip codes and with USDA to determine if we can get additional TEFAP foods high in the target nutrients to food distribution sites as additional foods given out to TEFAP participants.
- We are working on communications for school administrators, child care providers, and school food service staff on how to promote the USDA Child Nutrition Programs and menu foods high in the key nutrients.
- We have sought approval for nutrition education materials to be stuffed in every backpack and sent home with every child enrolled in a CACFP child care center or home.
- We are also working with key partners in Flint to potentially serve at risk meals in the evenings and on the weekends through the Child and Adult Care Food Program Afterschool Supper program in an effort to assure these children have access to the most nutritious foods possible.

I will forward the spreadsheet when it is updated – we still have one tab to add our food banks and then I believe it will be complete.

Just spoke with Jennifer from HHS – she is fairly certain that the "16 zip codes" was erroneously copied from something Gloria was working on. However, I just wanted to make sure that we were not also using 16 zip codes to cover school of choice students. 16 zip codes seems like a lot so my guess is that the number needs to be corrected, but please confirm.

Thank you,
Jaime

Subject: RE: Zip Codes
Importance: High

MDE is working on the following in the 16 zip codes affected by the Flint Water Crisis:

- Promoting school lunch and breakfast as great sources of the three key nutrients.
- Reaching out to schools participating in the fresh fruit and vegetable program to help select produce high in these nutrients.
- We applied for and received additional fresh fruit and vegetable funds for the schools in these 16 zip codes that qualified for the fresh fruit and vegetable program but did not apply. We will be reaching out to these schools and granting those funds for the purpose of supplying their students with fresh produce snacks that are high in these nutrients.
- For the schools that do not qualify for the fresh fruit and vegetable program, we will be working with them directly on creative ways to menu additional items high in the key nutrients.
- We also applied for and received a waiver for the potable water requirement from HHFKA for all of the schools in the 16 zip codes.
- We have identified additional USDA commodities entitlement funds and will be directing those additional funds toward the schools in the effected zip codes with assistance on choosing available USDA commodities that are high in the key nutrients.
- We are working with TEFAP agencies in these zip codes and with USDA to determine if we can get additional TEFAP foods high in the target nutrients to food distribution sites as additional foods given out to TEFAP participants.
- We are working on communications for school administrators, child care providers, and school food service staff on how to promote the USDA Child Nutrition Programs and menu foods high in the key nutrients.
- We have sought approval for nutrition education materials to be stuffed in every backpack and sent home with every child enrolled in a CACFP child care center or home.

- We are also working with key partners in Flint to potentially serve at risk meals in the evenings and on the weekends through the Child and Adult Care Food Program Afterschool Supper program in an effort to assure these children have access to the most nutritious foods possible.

I will forward the spreadsheet when it is updated – we still have one tab to add our food banks and then I believe it will be complete.

Hi Gloria,

These are the zip codes that were posted in the MICIMS for the EmPower report, I'm assuming these are the same zip codes that you will need.

Thanks,
Mary

Just spoke with Jennifer from HHS – she is fairly certain that the "16 zip codes" was erroneously copied from something Gloria was working on. However, I just wanted to make sure that we were not also using 16 zip codes to cover school of choice students. 16 zip codes seems like a lot so my guess is that the number needs to be corrected, but please confirm.

Thank you,
Jaime

> MDE is working on the following in the 16 zip codes affected by the Flint Water Crisis:
>
> - Promoting school lunch and breakfast as great sources of the three key nutrients.
> - Reaching out to schools participating in the fresh fruit and vegetable program to help select produce high in these nutrients.
> - We applied for and received additional fresh fruit and vegetable funds for the schools in these 16 zip codes that qualified for the fresh fruit and vegetable program but did not apply. We will be reaching out to these schools and granting those funds for the purpose of supplying their students with fresh produce snacks that are high in these nutrients.
> - For the schools that do not qualify for the fresh fruit and vegetable program, we will be working with them directly on creative ways to menu additional items high in the key nutrients.
> - We also applied for and received a waiver for the potable water requirement from HHFKA for all of the schools in the 16 zip codes.
> - We have identified additional USDA commodities entitlement funds and will be directing those additional funds toward the schools in the effected zip codes with assistance on choosing available USDA commodities that are high in the key nutrients.
> - We are working with TEFAP agencies in these zip codes and with USDA to determine if we can get additional TEFAP foods high in the target nutrients to food distribution sites as additional foods given out to TEFAP participants.

- We are working on communications for school administrators, child care providers, and school food service staff on how to promote the USDA Child Nutrition Programs and menu foods high in the key nutrients.
- We have sought approval for nutrition education materials to be stuffed in every backpack and sent home with every child enrolled in a CACFP child care center or home.
- We are also working with key partners in Flint to potentially serve at risk meals in the evenings and on the weekends through the Child and Adult Care Food Program Afterschool Supper program in an effort to assure these children have access to the most nutritious foods possible.

I will forward the spreadsheet when it is updated – we still have one tab to add our food banks and then I believe it will be complete.

Just spoke with Jennifer from HHS – she is fairly certain that the "16 zip codes" was erroneously copied from something Gloria was working on. However, I just wanted to make sure that we were not also using 16 zip codes to cover school of choice students. 16 zip codes seems like a lot so my guess is that the number needs to be corrected, but please confirm.

Thank you,
Jaime

MDE is working on the following in the 16 zip codes affected by the Flint Water Crisis:

- Promoting school lunch and breakfast as great sources of the three key nutrients.
- Reaching out to schools participating in the fresh fruit and vegetable program to help select produce high in these nutrients.
- We applied for and received additional fresh fruit and vegetable funds for the schools in these 16 zip codes that qualified for the fresh fruit and vegetable program but did not apply. We will be reaching out to these schools and granting those funds for the purpose of supplying their students with fresh produce snacks that are high in these nutrients.
- For the schools that do not qualify for the fresh fruit and vegetable program, we will be working with them directly on creative ways to menu additional items high in the key nutrients.
- We also applied for and received a waiver for the potable water requirement from HHFKA for all of the schools in the 16 zip codes.
- We have identified additional USDA commodities entitlement funds and will be directing those additional funds toward the schools in the effected zip codes with assistance on choosing available USDA commodities that are high in the key nutrients.
- We are working with TEFAP agencies in these zip codes and with USDA to determine if we can get additional TEFAP foods high in the target nutrients to food distribution sites as additional foods given out to TEFAP participants.
- We are working on communications for school administrators, child care providers, and school food service staff on how to promote the USDA Child Nutrition Programs and menu foods high in the key nutrients.
- We have sought approval for nutrition education materials to be stuffed in every backpack and sent home with every child enrolled in a CACFP child care center or home.

Helpful #s from the state Demographer for Flint.

From: Weiss, Kurt (DTMB)

Subject: FW: Genesee County and City of Flint kid estimates

Below you will find Flint numbers as determined by our state demographer. It appears we are right on target in saying that the population in Flint is 99,000. Number of occupied households is 39,125.

http://factfinder.census.gov/bkmk/table/1.0/en/ACS/14_1YR/DP05/1600000US2629000

Housing Units: 51,819 2014 ACS 1-year Estimates
Occupied 39,125
http://factfinder.census.gov/bkmk/table/1.0/en/ACS/14_1YR/CP04/1600000US2629000

A couple of things to note about these data. You will notice that the totals from the population estimates and the ACS are slightly different. This is a result of the different methods employed by the two programs. The total difference is 12 persons which is not statistically significant. There is also a slight difference in the total of the first two cohorts in the population structure data and the estimates that I sent Robbie. Those are due to residuals form combining dataset and the process I used to make those estimates. Those difference are also well within the margins of error.

Regarding the differences in the estimates for the children under 5 years, I would need to know exactly where the 9,000 number is coming form or how it was derived to speak to it. The 2010 Census reported 8,177 children under 5 years in Flint, but that is still a ways off from the 9,000 number I have seen here and elsewhere.

Regarding the housing units estimates. If you have better local data that is derived from state resources, those might be better to use if the methodology is sound. The estimates for housing units above are derived from an estimation process that involves collecting local data and from surveys. The benefit is that they are nationally comparable to other cities, but if you believe that the local data is better and more accurate, those might be good to use.

Please let me know if you have further questions or if I can be of further assistance,

Eric

Hi Eric,

Do you know if 100,000 residents and 30,000 households are accurate numbers for the City of Flint?

Fyi...early feedback on the number of kids for Flint. I think eventually we can get everyone on the same page using the demographer's numbers, but not quite there yet.

I had to look up some population numbers and came up with about 9,000 kids five and under - just deducing from the 2010 Census and some updated numbers. So this looks a little low to me, but God knows I didn't use a scientific method.

I've also heard others say around 9000 kids five and under .... But I imagine the numbers below are based on better methodology.

These are the numbers we're using for budget estimates on the education-side. We got them from the state demographer. We should use these numbers for any other child-based program estimates.

Kurt – Can you verify whether or not the front office is using these numbers, or other numbers when talking about the problem?

Subject: RE: Flint data (note email data is same as attachment)

Robbie,

City Data --

Using the same methodology and sources as we have previously discussed I estimate the segment of the population in question to be structured as follows:

0	1219
1	1223
2	1243
3	1288
4	1264
5	995
6	1050
7	1060
8	1067
9	1075

These data are specifically for the City of Flint.

To derive these population sizes, I took the 5-year cohort sizes from the 2014 ACS 1-year estimates and then disaggregated them into single year cohorts based on the population distribution of Genesee County. As a consequence there may be some discrepancy between the single year estimates within the 5-year cohorts, i.e. 0-4 and 5-9, but not between. Another way to say that is some of the children that I estimate to be 3 years old may actually be 4 and some of the 7 year olds may be 8, but there should not be 4 year olds that are 5.

Rich,

Here is the response to the request for by-district counts, for districts that contain any part of specified zip-codes.
(48501, 48503 , 48502, 48503, 48504, 48505, 48506, 48507, 48509, 48519,48529, 48532)

On the Spreadsheet, I've included the MT. MORRIS School District and the two Charter Academies WOODLAND PARK ACAD and GRAND BLANC ACAD.
-- the attached pdf has the school district boundaries and zip code boundaries (pg 1) and the charter school locations and zip code boundaries (pg 2) – I'll let you decide if you want to keep them as part of your totals.

Below is a Table with the number of kids, ages 5 to 10, with addresses in the Zip Codes you identified (from the Fall 2015 MSDS Submission)
-- I've attached a map with the Flint City & Zip Code Boundaries (wanted to see what was going on with the numbers I produced)

Here are
1) For age, I used DOB, a "current date" of 1 Jan 2016, and the "floor" function (so, for example, any age between 2.0 and 2.99... will be 2). I can easily change the current date or the function, if you'd like something different.

2) I have kids coded as either inside or outside the Flint Water System (only as good as the geocoding; I did a number of spot checks, but didn't examine all +13,000 addresses – my overall impression is that these estimates are pretty good). Water_System = the kids with these Zip_Codes that are within the Flint Water System; ALL = all the kids with these Zip_Codes (both inside and outside the Flint Water System).

Students, Ages 5 to 10, by Zip Code

ZIP_CODE	ALL	Water_System
48458	1454	0
48501	8	8
48502	29	27
48503	1627	1623
48504	2190	1533
48505	1702	1315
48506	1990	1113
48507	2156	1303
48529	763	3
48532	1274	171
TOTAL	**13193**	**7096**

Subject: Clarity to data request from GISD

Dave,

Kevin again.

I'm not sure how the request was framed to GISD, but I have copied below what we have been asked to provide for budget office discussions, which are moving swiftly here.

I am looking to confirm some data I extracted from MDE website. We are looking for the number of students 5-10 year old students that live in the following zipcodes:

48501,48502,48503,48504,48505,48506,48507,48529,48532,48551,48553, 48458

I would need a total for each zip code and an overall number.

Does GISD have the data readily available to provide this information? We have reached out to CEPI as well to assist, although we noticed what GISD provided prior had age breakdowns and thought you may already have that data readily available for us to share.

Thanks again for all your efforts, Dave.

Subject: Kyle's question about effected students in Flint.

Kyle, yesterday you asked a question about students in Flint. Here are some details on students for grades 5 and below from Genesee ISD.

Based on student records they know all the students in GISD districts that reside within the City of Flint Water System.

The list below shows the number of students that live in homes on the City of Flint Water System by School District.

With this information they are developing programming options to address the problem for all students. We don't have specifics yet. There is an age breakout at the bottom.

Here's the number of Early Childhood & K-5 kids, by Operating District, based on kids with addresses within the Flint Water System:
(N = 8,973)

Does this answer your question?

Subject: Fwd: Kyle's question about effected students in Flint.

Jaime, can you contact Dave Treder at GISD.

YOu should find an email with his contact info in the DATA folder.

See Kyle's question below: does his list of students in the districts include those less than 5? Kyle is on his way to a meeting with Governor staff in Flint.

We want to know where the children under 5 are being served/taught.

Louis

Subject: RE: Can I get an update on what you got from Walter?

Dave,

Kevin Walters here. Former Lapeer administrator now with MDE. Working State Emergency Operations Center (SEOC) today for MDE.

Wondering if there is an update from GISD end on student identification, particularly those that reside within impacted Flint residence and attend school outside impacted Flint area(s) and those that reside outside impacted Flint area(s) and attend school within impacted Flint area(s)?

MDE is attempting to report that communication is complete from an educational institution standpoint, regardless of student residence. I know you mentioned hoping to identify resident students in City of Flint, and sharing that information with GISD Superintendents of impacted districts.

We are hoping to update the SEOC group today, if possible, during our 16:00 call.

Thanks again for your efforts. Please let me know if I can assist.

Phone number at SEOC for MDE is: 517-324-2342

Thanks Dave! Hope things are well for you and GISD.

Kevin

Subject: RE: Can I get an update on what you got from Walter?

Louis,

I've included, below, what was sent to me.

I hope to Identify students residing in the City of Flint, and share this with the Superintendents of the *Districts in which these students are enrolled.*
After my conversation with Walter, it appears that it's a bit simpler than I originally thought – he indicated that the City boundaries are pretty much the boundaries for the Flint water system (there are 120 addresses outside the city limits – these addresses are what he provided in the attached pdfs)

If you're interested, I can share my work with you,
Dave

sorry I missed the 4:00 time (we were in a meeting discussing this issue)

I hope to get an estimate of the students residing within the City of Flint Water System – we are using this information, initially, to wrap our heads around the scope of the problem, and to help in developing programming options.

Here are the number of kids, by Operating District (we decided to 1st look to at Early Childhood and grades K-5), and the number of kids by age
(this is from the Fall 2015 MSDS Submission, and geocoding the addresses in ARC-GIS)

Feel free to call,
Dave

Here's the number of EC & K-5 kids, by Operating District, based on kids with addresses within the Flint Water System: (N = 8,973)

Subject: RE: Can I get an update on what you got from Walter?

Dave,

Kevin Walters here. Former Lapeer administrator now with MDE. Working State Emergency Operations Center (SEOC) today for MDE.

Wondering if there is an update from GISD end on student identification, particularly those that reside within impacted Flint residence and attend school outside impacted Flint area(s) and those that reside outside impacted Flint area(s) and attend school within impacted Flint area(s)?

MDE is attempting to report that communication is complete from an educational institution standpoint, regardless of student residence. I know you mentioned hoping to identify resident students in City of Flint, and sharing that information with GISD Superintendents of impacted districts.

We are hoping to update the SEOC group today, if possible, during our 16:00 call.

Thanks again for your efforts. Please let me know if I can assist.

Phone number at SEOC for MDE is: 517-324-2342

Thanks Dave! Hope things are well for you and GISD.

Subject: Flint Water Crises (SEOC update, January 24, 1600)

1. Move to new location starting next week. State Secondary Complex; Harris Road. Instructions will be distributed. Reminder: take our saved stuff of the computer (Louis).
2. Jaime and Tom will pull duty on Monday, January 25, 2016.
3. Hot item: Lieutenant Governor scheduled to visit MSD on Monday.
4. Mark Bouvy, MSD, has been in contact with Penny Burger regarding possible cost reimbursement. State is not sure what is eligible for reimbursement; anything to be reimbursed will have to be documented.
5. MSD week update: As of 1/23/16: water testing complete in school building and LRC dorm. Stevens Hall will be tested when landlord finishes upgrades. As of 1/23/16: all water faucets replaced in Stevens Hall. 3 new drinking fountains on order; expected mid-week. Once fountains are installed, Stevens Hall will be scheduled for water testing. (CPT Kelenske asked that these details are added in MiCIMS and in SitRep; I had already added them to the system (thanks to Mark Bouvy.)
6. Ops: bar code markers; translated material; vulnerable populations? Tell GIS.
7. Health/Environment: publish test results in a consistent manner (same measure); publish results on web
8. AG: increasing questions about pets.
9. LARA: working Spanish translation
10. DEQ: reviewing the EPA order for tasks for other state agencies.
11. Public Safety: 60 Michigan Militia had a peaceful rally at city hall. No issues.
12. National Guard: wrapping up warehouse support; number to 75 supporting operation.
13. Correction staff will take over warehouse support.
14. Logistics: governor requesting lists of donations. Recycling: City of Flint is recommending sites; GM and United Way will partner.
15. Logistics: Open issue. Walmart wants to donate to schools. I am working with Logistics and distribution to have them work directly with GISD.

SEOC Briefing – 1/21/16 09:30

- 2nd wave through neighborhoods has begun... ensuring everyone has their filters, etc.
- Weather today should be around 25 degrees with few flurries – nothing significant
- Homeowner samples – results so far : 68/853 are over 15 PPB (info for this group only)
- Questions for DEQ on if they have tested the water coming thru the filters to ensure they are working
- MDE – Prepared a letter to all schools containing info on volunteering and water donations – currently at JIC awaiting approval
- MDE – School for the Deaf has reporters there this morning – communicated with JIC. The school is not affected, dorms are. Capt wants to know the plan for ratifying the situation as soon as possible
- Door to door phase two is to receive additional supplies as well as checking on people to rebuild trust.
- 7 prisoners and 1 corporal monitoring warehouse
- 279 Natl Guard and airsmen on the ground today. Goal of 10,000 homes today!
- DTMB making agency outreach calls
- Keep resource request log cleaned up
- Monitory donations are preferred and more manageable
- Make sure requests are specific
- Traffic issues continue to be present at station 6. Capt asked MDOT to check it out and provide recommendations
- FEMA IMT will be in Flint for Health and Human Services today for a period of time
- Appeal went in yesterday appealing the denial of declaration of disaster
- Next briefing 16:00

Cc: Burgess, Louis (MDE); Lixey-Terrill, Jennifer (DHHS); Wahl, Kathy (DHHS); Deacon, Brad (MDARD); MSP-EOC-MDEDUCTN
Subject: Re: FYI: follow-up to meeting

LARA licensing staff have been contacting each licensed facility asking the following questions:

Are you on the Flint water system
Have you received filters
Have you received cartridges
Have you received bottled water
Are you aware of Michigan.gov/FlintWater
Do you need any other supplies, if so what
How many faucets are for drinking water
How many residents in your facility
Are you testing your water
If yes, when was the last test completed
Do you need your water tested

These questions are being asked to determine the resources needed for the specialized facilities. Once we have numbers and needs accumulated, we plan to have our staff go to these facilities and provide the supplies. This was a plan developed last week. I have looked at the questions on the IPAD and believe that over half of them have already been answered due to our survey. We could include someone with the IPAD to enter the data that hasn't been already provided.

Perhaps since each agency has specialized licensed facilities, we need to have a sit down - excluding MDE since the schools are already on our lists and in the works.

Good afternoon,

We are putting together an abbreviated plan for distribution/canvassing protocols for the phase 2 canvassing. Since I had spoken with Karen about this before Tony asked several of us to put together a plan, could I ask each of you to quickly breeze through this to see if its consistent with anything your department may be planning? And if there are any things left out that you think should be there?

Karen, I had already outlined a few things in red that I added to the first draft given to me, so please let me know if those are off base or need something added.

Thanks, Tony is asking for this by 2. If there's any chance you could get a quick review back to me by 1230 or 1, that would be very much appreciated.

Thanks much!

Subject: Departing SEOC

I am departing the SEOC. I will be on the 1600 call today.

One thing: DEQ and LARA reporting doing testing at Manley School. Manley School has been closed since 2003; however it is a licensed child care facility (Manley Early Childhood Center). It is a Head Start operation. LARA is tracking where it is doing testing by category. I had them move Manley School from "school" list to Child Care Facility list.

I'm pretty sure we included it on the Activity Log. I know I reminded Aimee to include it in SIT report last night as well.

Folks, there are duplicate rows that represent situations where there is more than a single entity reported at an address. In some cases there will only be one building, in others, there may be multiples. Let us know if you have questions.

BTW – The team included both public and nonpublic entities. You may need more data from Bridges System related to child care centers. See Lisa Brewer-Walraven for that data.

Tom, who is best person at CEPI that can help us get the pupil count of buildings in Flint?

THe real question is for those that are on Flint water, but we should provide a count for any building in Flint, Mt. Morris, and Burton addresses.

Do you have any info on staff by building? REP?

Louis

Subject: Head Start Data Request
Importance: High

Good Evening,

The Health and Human Services Team here at the State Emergency Operation Center (SEOC) Flint Water Crisis Response has requested a list of all children (by name, under the age of 6) that are involved in any Head Start Programs within Flint. They need this list so they can compare it against the list of those that have been tested for lead exposure. Dr. Eden Wells, Jackie Scott, and Susan Moran of DHHS have requested this data. They would like within 24 hours or Monday morning at the latest.

Please let us know what questions you may have. Also, please reply-all with your response.

Thank you,

Jaime Malnar
Michigan Department of Education

Louis Burgess
Michigan Department of Education
Emergency Management Coordinator

Good Evening,

The Health and Human Services Team here at the State Emergency Operation Center (SEOC) Flint Water Crisis Response has requested a list of all children (by name, under the age of 6) that are involved in any Head Start Programs within Flint. They need this list so they can compare it against the list of those that have been tested for lead exposure. Dr. Eden Wells, Jackie Scott, and Susan Moran of DHHS have requested this data. They would like within 24 hours or Monday morning at the latest.

Please let us know what questions you may have. Also, please reply-all with your response.

Thank you,

Jaime Malnar

I don't believe any of us have remote access. My thought is that whomever is at the SEOC on Monday morning (Aimee?) will have to get this to the appropriate person at that time –OR- Dr. Treder can cc' a few of us on his response e-mail so we can watch for it over the weekend and then forward to those listed below.

Thank you,
Jaime

Jaime

I have forwarded a request for that data to Dr. Treder at GISD, given the tight timeframe presented for response. Stay tuned. He may send that directly to SEOC. Does anyone know if we have remote access to the MSP-EOC-MDEDUCTN mailbox to check outside of our coverage time?

Folks, there are duplicate rows that represent situations where there is more than a single entity reported at an address. In some cases there will only be one building, in others, there may be multiples. Let us know if you have questions.

BTW – The team included both public and nonpublic entities. You may need more data from Bridges System related to child care centers. See Lisa Brewer-Walraven for that data.

Subject: Non-English student counts, Flint

Shereen,

I am in the SEOC (State Emergency Operations Center) today and they are requesting the following information:

1. How many students in City of Flint zip codes are identified as non-English speaking?
2. Where (building or location) are the non-English speaking students?
3. What languages (by location and number) are required?

Thanks. MDE has been tasked with working with Office of Civil Rights (OCR) on this.

Subject: RE: has anyone determined number of children 0-12 in Flint?

I found in Kids Count --- 31,576 for 2013.

Subject: Zip Codes

Hi Gloria,

These are the zip codes that were posted in the MICIMS for the EmPower report, I'm assuming these are the same zip codes that you will need.

Thanks,
Mary

Note: Results of "Not Detected" have been converted to a numerical value of zero to allow for ease of sorting

Results in RED exceed 15 ppb for lead or 1.3 PPM for Copper
1 ppb = 0.001 mg/L

PIERCE ELEMENTARY SCHOOL

Outlet Sampling and Plumbing Assessment Recommendations

1101 West Vernon Drive, Flint, Michigan 48503

DEQ

BACKGROUND INFORMATION

On Friday, November 6, 2015, the Department of Licensing and Regulatory Affairs (DLARA) and the Department of Environmental Quality (DEQ) conducted an assessment of Pierce Elementary School's plumbing system to gain a comprehensive understanding of how water moves through the building and what types of plumbing materials are used. The southernmost out-building, in addition to the main school building, were included in the assessment. The assessment identified the following potential sources of lead leaching into drinking water:

- Lead solder joints on copper piping
- Brass valves and brass fittings
- Brass components in fixtures
- Galvanized piping

The assessment identified 34 faucets or fountains that provide water for drinking, cooking, and/or food preparation: 32 faucets/fountains in the main school building and two faucets/fountains in the southernmost out-building. The other two out-buildings had no working water fixtures. A total of five additional faucets or fountains were identified as inoperable and were not assessed or labeled for sampling, as follows:

- Main building, Room 112, classroom faucet (no cold water connection)
- Main building, Gym, drinking water fountain
- Main building, Gym, drinking water fountain
- Main building, Hallway to out-buildings, near Room 306, drinking water fountain
- Middle out-building, drinking water fountain

The DEQ and DLARA Team (Team) developed a sequence for sampling the faucets/fountains in each building based on how the water is expected to travel through each building.

On Saturday, November 7, 2015, the DEQ and the DLARA completed sampling of the 32 faucets/fountains in the main school building, and the two faucets/fountains in the southernmost out-building, each in the order determined by the plumbing assessment from the previous day, following a stagnation period of over 12 hours. At each of the 34 faucets/fountains identified, the Team collected four samples. Two initial, 125-milliliter samples (P1 and P2), were collected immediately after turning on the tap. The water was then flushed for 30 seconds and a third, 125-milliliter sample (F01) was collected. Finally, the water was flushed for another two minutes, and the fourth 125-milliliter sample (F02) was collected. These samples were used to determine the impact of any lead sources in and around each specific faucet/fountain and its connecting plumbing.

The Team then completed consecutive sampling at three of the 32 faucets/fountains in the main school building, and one of the two faucets/fountains in the southernmost out-building. This consecutive sampling was used to determine the impact of any lead sources located deep in the supply plumbing at each of these buildings. The four sites comprised of one site at the far end of the northern supply line, two sites along the south supply line near the mid-point and at the far end, and one site at the out-building. At each of these four sites, the Team collected 10, 1-liter samples. The 10 samples were collected immediately after turning on the tap, and consecutively, without any flushing time in between.

WATER SERVICE INFORMATION

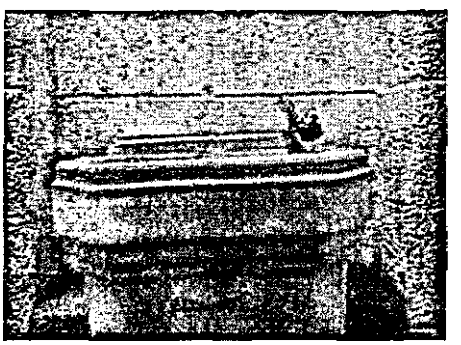
A four-inch diameter cast iron or ductile iron water service line enters the boiler room. The boiler room is located near the middle of the west side of the main building. The water line enters on the south side of the room. The cold water piping transitions into copper piping inside the boiler room. In one area beneath pipe insulation, staff observed what appeared to be a lead bushing. The cold water supply line exits the boiler room. Exiting the boiler room, one cold water supply line appears to serve the north corridor, and one cold water supply line appears to serve the south corridor.

The middle and southernmost out-building appears to be served from the main building off of the supply line serving the south corridor of the school. Skirting around the bottom of the out-building unit prevented an assessment of the service line to this building. The northernmost out-building is not occupied and was not assessed.

Outlets with Lead Levels Greater than 15 Parts per Billion

The DEQ recommends school facilities take action if samples from any drinking water outlets show lead levels greater than 15 parts per billion. Based on the sampling conducted at 34 faucets/fountains on November 7, 2015, the following 25 drinking water outlets had lead water level results greater than 15 parts per billion. Each of these 25 outlets is listed below with its sample results, including a description of the potential source(s) of lead, and recommended actions to be taken by the school.

Outlet: ***Bubbler Drinking Fountain (01DW001)***

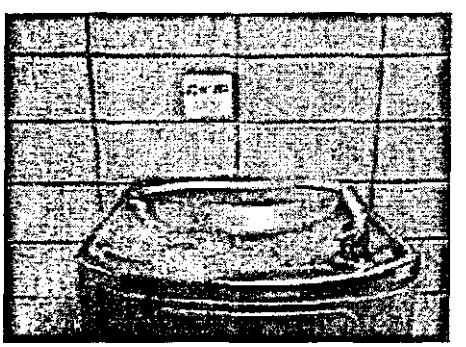


Location: Hallway next to Boiler Room, behind Stage
Results: P1=20 parts per billion, P2=2 parts per billion
F01=2 parts per billion, F02=non-detect

These results suggest the highest contribution of lead may be from the bubbler itself. This bubbler fixture is made of chrome-plated brass. Connecting plumbing should be checked for brass components, including brass valves.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: **Water Cooler Fountain (01WC002)**

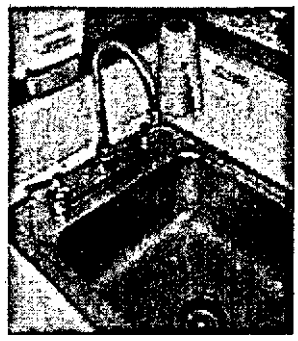


Location: Hallway next to Mechanical Room, north corridor
Results: P1=8 parts per billion, P2=13 parts per billion
F01=35 parts per billion, F02=19 parts per billion

These results suggest the lead may be from the water cooler unit and the connecting plumbing. The water cooler is an Elkay model. This model may contain brass components. Connecting plumbing to the cooler unit may also contain brass components.

Replacement of this water cooler and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location and needs to be completed for use. If replacement is not currently feasible, SHUT OFF THIS WATER COOLER FOUNTAIN AND **DO NOT USE THIS WATER COOLER FOR DRINKING OR COOKING.**

Outlet: Sink Faucet (01CF003)



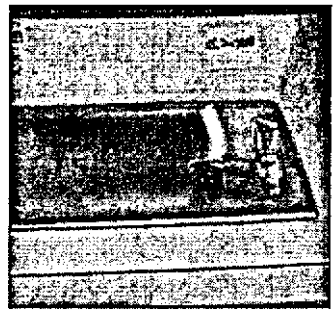
Location: Classroom 109, northeast wall
Results: P1=26 parts per billion, P2=17 parts per billion
F01=9 part per billion, F02=2 parts per billion

These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This model faucet typically has a brass tube in its deck body, and may contain some additional brass components. Connecting plumbing in the cabinet under the sink should be checked for brass components, including brass valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also has an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW004)



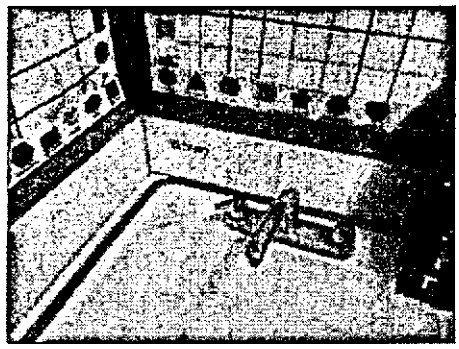
Location: Classroom 109, northwest wall
Results: P1=42 parts per billion, P2=17 parts per billion
F01=3 parts per billion, F02=1 part per billion

These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass and has a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and a brass shut-off valve.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF007)

Location: Classroom 108, northwest wall
Results: P1=97 parts per billion, P2=132 parts per billion
F01=9 parts per billion, F02=2 parts per billion



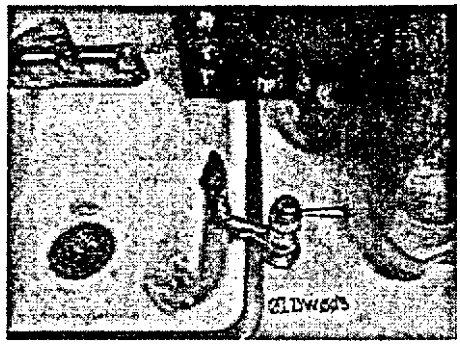
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also has an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW008)

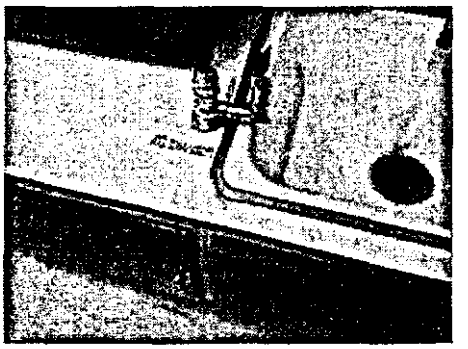
Location: Classroom 108, northwest wall
Results: P1=468 parts per billion, P2=75 parts per billion
F01=6 parts per billion, F02=4 parts per billion



These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Bubbler Fountain (01DW009)

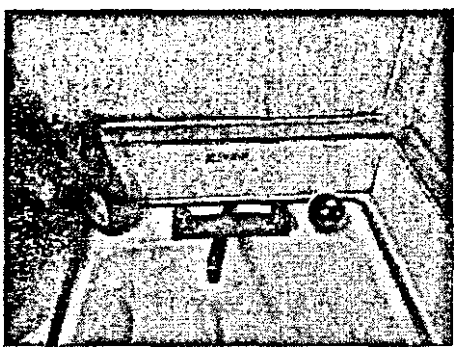


Location: Classroom 111, northeast wall
Results: P1=26 parts per billion, P2=38 parts per billion
F01=7 parts per billion, F02=3 parts per billion

These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF010)



Location: Classroom 111, northeast wall
Results: P1=43 parts per billion, P2=22 parts per billion
F01=3 parts per billion, F02=3 parts per billion

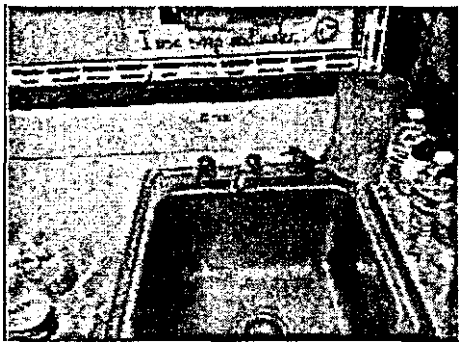
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also has an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Sink Faucet (01CF011)

Location: Classroom 107, southwest wall
Results: P1=25 parts per billion, P2=11 parts per billion
F01=3 parts per billion, F02=2 parts per billion



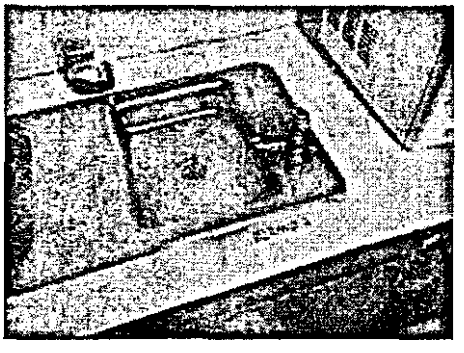
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this sink faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

At the time of assessment, the faucet aerator/screen was found removed. If the faucet is not replaced and the aerator/screen is going to be reinstalled, it should be inspected for particulate accumulations, and scrubbed clean. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW012)

Location: Classroom 112, southwest wall
Results: P1=78 parts per billion, P2=11 parts per billion
F01=4 parts per billion, F02=3 parts per billion

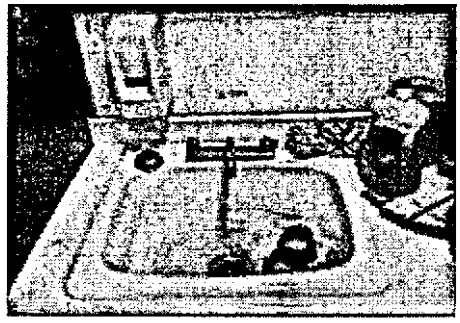


These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve and a brass connector on the underside of the sink. Connecting plumbing under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF018)

Location: Classroom 301, northwest wall
Results: P1=13 parts per billion, P2=16 parts per billion
F01=4 parts per billion, F02=1 part per billion



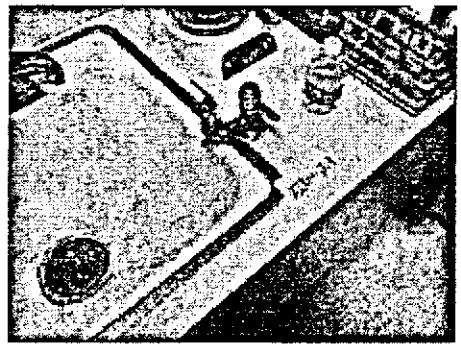
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW019)

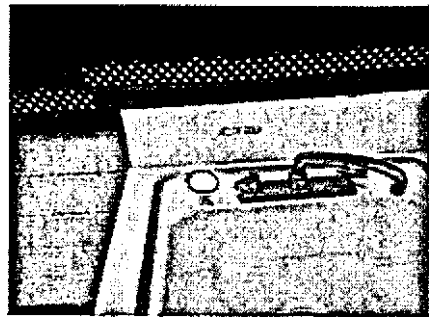
Location: Classroom 302, southwest wall
Results: P1=220 parts per billion, P2=23 parts per billion
F01=3 parts per billion, F02=2 parts per billion



These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF020)



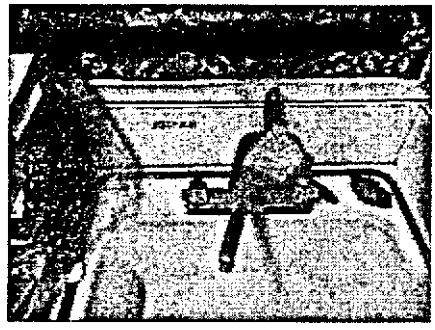
Location: Classroom 302, southwest wall
Results: P1=53 parts per billion, P2=30 parts per billion
F01=1 part per billion, F02=non-detect

These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. The base of this faucet is chrome-plated brass, has brass components within the base, and a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Sink Faucet (01CF021)



Location: Classroom 306, southwest wall
Results: P1=15 parts per billion, P2=50 parts per billion
F01=8 parts per billion, F02=3 parts per billion

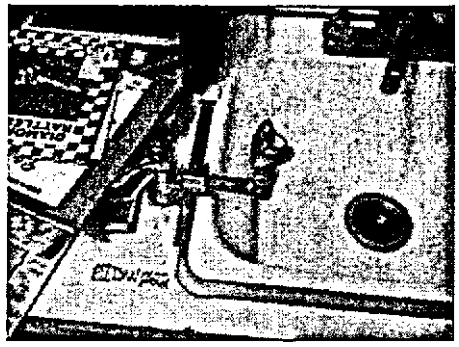
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW022)

Location: Classroom 306, southwest wall
Results: P1=17 parts per billion, P2=6 parts per billion
F01=4 parts per billion, F02=13 parts per billion

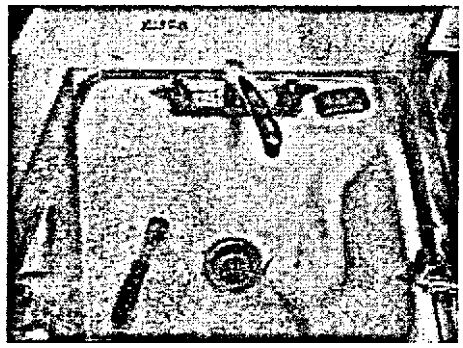


These results suggest lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder. The increase in the fourth sample (F02) results may be a result of excessive water stagnation in this area of the building.

Replacement of this bubbler and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location, along with an overall flushing program. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF023)

Location: Classroom 312, southeast wall
Results: P1=22 parts per billion, P2=14 parts per billion
F01=9 parts per billion, F02=6 parts per billion



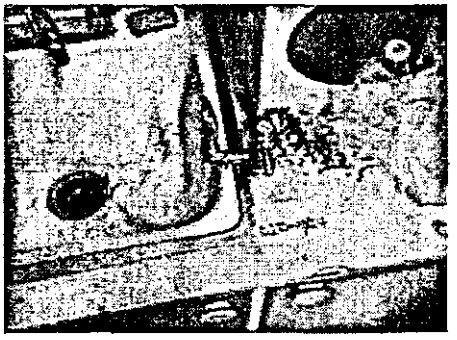
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Chicago Specialty. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW024)

Location: Classroom 312, southeast wall
Results: P1=36 parts per billion, P2=8 parts per billion
F01=6 parts per billion, F02=4 parts per billion

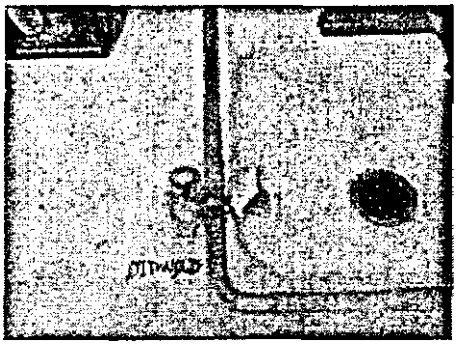


These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Bubbler Fountain (01DW025)

Location: Classroom 307, southwest wall
Results: P1=191 parts per billion, P2=69 parts per billion
F01=28 parts per billion, F02=6 parts per billion



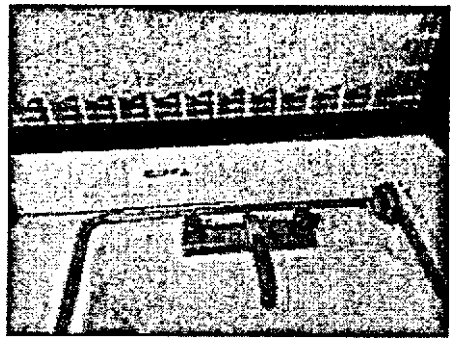
These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass and has a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and a brass shut-off valve.

Copper results for sample P1 at this location were also at levels above which the DEQ recommends school facilities take action. Copper results suggest these same brass components are contributing to this condition.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead and copper exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead and copper concentrations and lead and copper exposure.

Outlet: Sink Faucet (01CF026)

Location: Classroom 307, southwest wall
Results: P1=61 parts per billion, P2=36 parts per billion
F01=7 parts per billion, F02=4 parts per billion



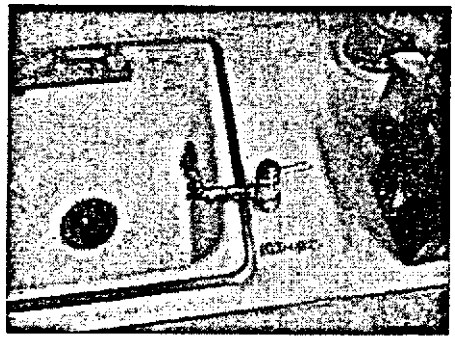
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body and, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW027)

Location: Classroom 311, southeast wall
Results: P1=23 parts per billion, P2=19 parts per billion
F01=61 parts per billion, F02=20 parts per billion

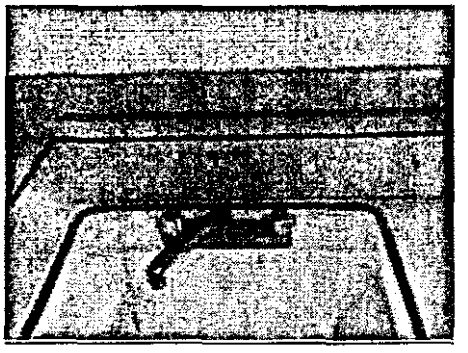


These results suggest lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder. The increase in the third (F01) and fourth sample (F02) results may be a result of excessive water stagnation in this area of the building.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location and needs to be completed. In addition, an overall flushing program is required – even after this bubbler is replaced. If replacement is not currently feasible, SHUT OFF THIS BUBBLER AND **DO NOT USE THIS BUBBLER FOR DRINKING OR COOKING.**

Outlet: Sink Faucet (01CF028)

Location: *Classroom 311, southeast wall*
Results: P1=17 parts per billion, P2=19 parts per billion
F01=38 parts per billion, F02=15 parts per billion



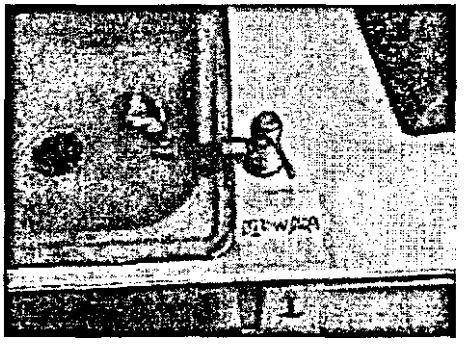
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location and needs to be completed. In addition, an overall flushing program is required – even after this faucet is replaced. If a replacement is not currently feasible, **DO NOT USE THIS FAUCET FOR DRINKING OR COOKING.**

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW029)

Location: Classroom 308, northwest wall
Results: P1=78 parts per billion, P2=23 parts per billion
F01=5 parts per billion, F02=2 parts per billion

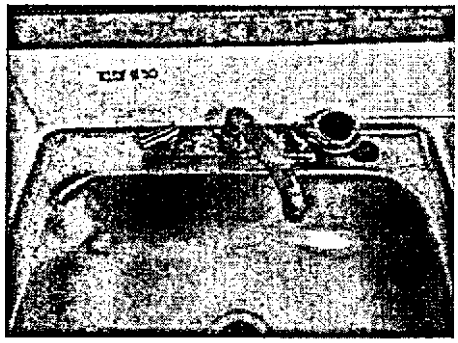


These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. The bubbler also has been modified with added copper couplings below the spout. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes.

Outlet: Sink Faucet (01CF030)

Location: Classroom 308, northwest wall
Results: P1=60 parts per billion, P2=9 parts per billion
F01=11 parts per billion, F02=3 parts per billion



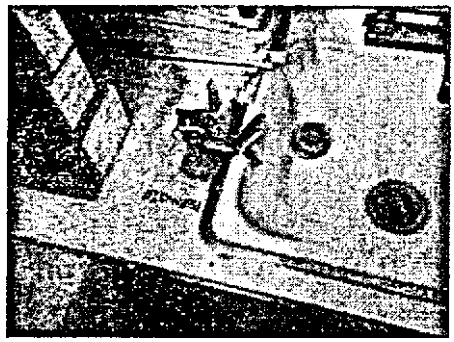
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in it deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW031)

Location: Classroom 310, northeast wall
Results: P1=29 parts per billion, P2=35 parts per billion
F01=73 parts per billion, F02=3 parts per billion



These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass and has a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Water Cooler (02DW034)

Location: South out-building, Temporary Classroom, northeast wall
Results: P1= non-detect, P2=54 parts per billion
F01=36 parts per billion, F02=2 parts per billion

These results suggest the lead may be from the water cooler unit. This model may contain brass components. Connecting plumbing to the cooler unit may also contain brass components.

Copper results for sample P1 at this location were also at levels above which the DEQ recommends school facilities take action. Copper results suggest these same brass components are contributing to this condition.

Replacement of the entire unit is recommended and will significantly reduce lead and copper exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead and copper concentrations and lead and copper exposure.

Outlets with Lead Levels 15 Parts per Billion or Less

While the remaining nine outlets showed sample results to be at levels requiring no further action, several recommendations have been identified.

The fourth sample (F02) at all nine outlets following approximately three minutes of use and flushing at a reduced flow resulted in reduced lead concentrations. This indicates that flushing these nine taps used for drinking, cooking, and/or food preparation for four minutes following periods of stagnation will further reduce lead exposure.

Five of these nine outlets are comprised of similar materials as the outlets listed above and could potentially experience higher lead levels under extended periods of stagnation. These faucets/fountains include:

- Bubbler Fountains in main corridor next to Men's Restroom, east of Library (01DW017), and Classroom 100 (01DW015)
- Sink Side Bubbler Unit in Classroom 110 (01DW006)
- Chrome-Plated Brass Base Faucets in Classroom 100 (01CF013), and Classroom 310 (01CF032)

Replacement of these fixtures with lead-free materials is also recommended.

The classroom faucet and four drinking water fountains identified as out of service in the Background Information, *should be sampled prior to being placed back into service, or replaced with lead-free materials.*

The remaining four outlets showed sample results of 15 parts per billion or less, requiring no further action or additional recommendations. These faucets/fountains include:

- Sink Faucets in Classroom 110 (01CF005), Classroom 100 (01CF014), and south out-building, Temporary Classroom (02KC033)
- Kitchen Faucet in the Teacher's Lounge (01KC016)

Consecutive Sampling Results and Building Plumbing Recommendations

The consecutive samples taken on November 7, 2015, at three sites in the main school building, and one in the southernmost out-building, provide additional confirmation that overall, the highest contribution of lead appears to be from the individual faucet/fountains and not from the larger diameter supply plumbing within the main school building or the out-building units. However, results from Classroom 310 also suggest that the southern supply line extending beyond the restrooms may be impacted by minimal water use and stagnation – specifically, the cold water line serving Classrooms 306-312.

A operational flushing procedure may further reduce lead contributions from this supply line caused by stagnant conditions related to its use. Routine flushing of the larger diameter supply plumbing at the end points of the distribution system, (for example at Classroom 100, Classroom 310 and Classroom 311) should be performed on a regular basis. Even if the identified outlets are replaced, the south end of the corridor serving Classrooms 306-312 may still benefit from a flushing procedure to further reduce lead contributions and other effects of stagnant water in this supply line.

Results of the consecutive sample monitoring are listed in the table below.

Consecutive Sample No.	1	2	3	4	5	6	7	8	9	10
LOCATION	LEAD RESULT (PARTS PER BILLION; ND = NOT-DETECTED)									
Classroom 100 Sink Faucet (01CF013)	2	2	2	2	2	2	2	2	3	3
Classroom 301 Sink Faucet (01CF018)	4	2	2	2	1	1	1	1	1	ND
Classroom 310 Sink Faucet (01CF032)	4	5	6	4	3	3	3	3	3	2
Out-building Southernmost Kitchen Faucet (01KC033)	ND	ND	ND	ND	ND	ND	ND	ND	ND	ND

Hi Louis,

My name is Rick Falck I am a Owner/Partner of Millbrook Water Co. My Sister Rebbecca gave me this email address and as I understand it her husband Scott had some conversation with you about our water co.

We are drinking water co. providing artesain water to homes and businesses. What sets us apart form other companies is not only our quality of water but our ability to deliver in bulk as well. We have five gallon bottles like others but with our potable water hauling license we also haul in bulk with stainless steel tankers.

We have helped with projects in both Oakland and Macomb county and see an opportunity to help in Flint. Seems the need to deliver to all the addresses makes it difficult to support all being able to be delivered. I envision fill locations in the city with large tanks that we can keep full with the good municipal water that is available now. Jugs can be provided and residents will come to these sites for refills. I see this also helping in building back the credibility of water as residents will be receiving "the good" Detroit water until new lines are run at which time they will be receiving the same water. There are other options available as well.

I am looking for a little direction to get in front of the right people to propose. Any help is greatly appreciated.

Ginna,

I've attached a brief power point detailing the system proposed. All of the system components are NSF certified individually, however the system as a whole is not. We will need certification on the performance of the entire system, but first we need to know the regulations for public water distribution. The state of Wisconsin requires either UF and UV, or chlorination for public water supply, though I am hoping we don't need UV in MI as the water is already being chlorinated.

The lead removal testing standards we follow are those of NSF – 150 ppb, any cartridge life (in gallons) would be rated at 150 ppb of influent lead. We plan to perform on-site testing before installing each system to accurately gauge filter life. I would be happy to answer any other questions you may have. The real obstacle for us at the moment is regulatory compliance, so any help you could provide would be greatly appreciated.

Regards,

Tyler

Tyler,

Thank you for your offer to help Flint. This is a very generous offer!

I am going to check with a few people to determine how we can get your offer reviewed and so we know what options there are for the community. Can you help me understand, you stated that the filters are not approved yet through NSF? What levels of lead removal do they provide and what specifications do they meet? Can you send some information about your filtration systems and so we can send it on for review.

I am going to talk to someone in logistics and we can then begin to identify next steps.

Thank you very much.

Good Morning,

My name is Tyler Hurd, I am a Product Manager at Pentair and we would like to donate several filtration systems into Flint. The program we're building could offer as many as 15+ distributive, kiosk style systems, each serving ~500 people/day with 3 gallons of purified water (1,500 gal/day). However, we need help determining the local regulations surrounding public water distribution systems before we can finalize the proposal. We will be certifying the system through NSF, though this will take at least 8 weeks and we would like to begin installing systems sooner. Please let me know who I can discuss these regulations with, and what we need to do locally to execute this program. We have one site (Mott Middle College) participating, and we will need several more community centers to sign up (police station, fire stations, churches, schools, etc.). Please let me know what information you need from me and any questions you may have.

Thank you,

Tyler Hurd

Subject: Flint Water Crises (SEOC update, January 26, 0930)

1. **State Recovery Operations continue** in Flint. Detailed review of outreach to apartment complexes and the process of identifying homes, vacant homes, homes that need to be contacted. State working to make sure they go back and reach any residences that have been missed.
2. **FEMA are not integrated in SEOC.** DTMB getting spaces for Federal staff to operate in Flint area. Marla Moss reported that Vista Fletcher, USDA Branch Chief, School Nutrition Programs and Food Distribution, is coming to Flint. I did not mention this at the briefing; but we should mention as soon as we have details.
3. Gongwer Message on **Head Start Availability:** I need to know if this should be briefed at the SEOC or added to the MDE daily situation report (SitRep).
4. **MSD update** (I did not brief this, but will add it to SitRep). Mark Bouvy reports that LARA has tentatively scheduled Stevens Hall for testing on 5 and 6 February. They are also working with parents to get their consent forms for Genesee County Health Department blood testing on February 8. Mark also report that have been getting abundant water donations.
5. **Office of Civil Rights.** Their commission has approved at least three hearings to be conducted in the Flint area.
6. **Reporting numbers.** I did not include any numbers in this update. Either the governor's office or the JIC should be source of all metrics related to the water crises.

Subject: RE: Flint Water Crisis - Schools

Thank you all for you timely response last night. We are planning to make an official announcement next week at the Walmart store on Corunna Road in Flint (Time and Day TBD – but most likely Tuesday). I thank you in advance for keeping some of these details in confidence until next week, but I also wanted each of you to be aware of the decision the Walmart Foundation and our Executives have made.

The primary goal of the announcement will be a commitment from Walmart to both the Flint District Schools and the ISD schools impacted by water crisis (we estimate 10,133 kids). **This announcement is designed to ensure both the District and ISD have bottled water committed through December 31, 2016.**

We fully understand there will be a great deal of logistics involved in this commitment. Not only with the current circumstances of the schools having an ample supply of water on-hand, but for the duration of the calendar year. (Janet, we look forward to working with you).

Again, thank you all for your time under demanding circumstances.

Respectfully,

Erik Hingst

Subject: RE: Flint Water Crisis - Schools

Very much so – thank you!

We're trying to assess the need, so frankly we might be able to commit to helping to fulfill that need through either the end of the school year, or even as far out as the end of the calendar year. This information helps to confirm what the Flint District mentioned (they have water on-site, but are concerned about the long-term availability) and what I just discussed with the ISD (again, they have water to distribute to Head-Start etc., but are not sure about their supply for an extended amount of time). While the District mentioned they may have some storage capacity, the ISD does not appear to have much for storage capacity.

Our intention would be to make an announcement, and then work with each of you and the schools on the logistics – whether that might be one truck a week, or perhaps two trucks a week. Knowing we have connected with all the folks that will be making these decisions should help our Executives reach what I hope to be a meaningful decision this evening.

Respectfully,

Erik,

Based on your urgent request, the group of us just got together to discuss. Currently the Flint schools have been overwhelmed with water donations and are unable to take more until these donations slow down. We are willing to take these donations, either on or two trucks per week, into our warehouse and the schools will be drawing from our supply as needed.

Our donations management coordinator is Janet Hunter with the Michigan Department of Health and Human Services.

I hope this information will help you in your decision making this evening.

Importance: High

I'm truly sorry for the urgency, but our Executives are hoping to make a decision tonight. I very much appreciate the call I received from Louis Burgess from the State Department of Ed! I know he is trying to pull a map for all the impacted schools (public and private) and assess the need, but he is not aware that we now have a call with our Senior Leadership at 6:30 p.m. to talk all this through. I really need your help determining:

1. **Do the Flint area schools need bottled water?** There has been some confusion on this point and I understand that the residential need may be moving toward water filters and replacement cartridges, but there doesn't appear to be a clear answer for the schools to date;
2. **Is there any way to ballpark the number?** Each truck holds 36,000 bottles. Would the impacted schools (again assuming they still need bottled water) need 1 truck a week? Two trucks a week?

Your attention to this is very much appreciated!!!

Respectfully,

Erik Hingst

Subject: RE: Flint Water Crisis - Schools

Thank you all for you timely response last night. We are planning to make an official announcement next week at the Walmart store on Corunna Road in Flint (Time and Day TBD – but most likely Tuesday). I thank you in advance for keeping some of these details in confidence until next week, but I also wanted each of you to be aware of the decision the Walmart Foundation and our Executives have made.

The primary goal of the announcement will be a commitment from Walmart to both the Flint District Schools and the ISD schools impacted by water crisis (we estimate 10,133 kids). **This announcement is designed to ensure both the District and ISD have bottled water committed through December 31, 2016.**

We fully understand there will be a great deal of logistics involved in this commitment. Not only with the current circumstances of the schools having an ample supply of water on-hand, but for the duration of the calendar year. (Janet, we look forward to working with you).

Again, thank you all for your time under demanding circumstances.

Cc: Holmes, Virginia (DHHS); Burgess, Louis (MDE)
Subject: Flint Water: Walmart wants to donate large amounts of water to schools in Flint

Janet and/or Jessi, the SEOC logistics section chief forwarded an email from Walmart (see below). They want to donate a truck or two of water a week to schools affected by the water crisis.

His first question: is there are need for water for the schools? They are willing to send 1/2 trucks per week with 36,000 bottles for the short term, through the end of the school year, or through the end of the calendar year. But they want to know if there is demand.

They are willing to coordinate with a food bank or the Intermediate School District, or local schools.

Do you have any insight to this request? I have talked with Erik and can be his contact.

Louis

Subject: Flint Water Crisis - Schools

We are hoping you can assist us with confirming the actual need for bottled in the Flint area schools. I realize that not ALL of the schools in the county are impacted, but in addition to the Flint District Schools, I understand some of the county schools are also on Flint water.

We are currently estimating 25,889 total students in Flint – public, private, charter schools etc. I have calls into the ISD and the Flint District to confirm that total number and hopefully give us a better idea of the actual schools that are impacted. In order to make a recommendation to the Walmart Foundation and our Executives, I could really use some help determining the actual scope of the need for bottled water for the impacted schools.

Janet and Jessi, we made a change to the memo to include a line on financial donation.

Louis

MEMO #009-16

Flint Water Crisis

We are aware that local school districts are interested in helping with the water crisis in the City of Flint. A "Flint Water Response Team" website (http://www.helpforflint.com/) has been developed by the state to provide information on volunteering and donations. **While bottled water is appreciated, the state's emergency response team also is asking for financial donations to help purchase water filters and fresh produce.**

Jessi, reference changing the message on MDE memo to school districts.

We think that asking school districts for money is a tough ask. Most are in financial binds. We know that this would likely be telling them to have fund raisers.

We crafted this because districts were taking their own steps to collect water. We can certainly send another request later to help with additional needs. Our message does have 2-1-1 as well as the water.

Are we OK to send what we have and then work on a follow-on communication?

Louis

Hi Louis, thank you for sharing this draft with us. There have been some important changes to this information and I will need to get the corrections to you ASAP. We also have a recently created flyer on water donation guidance I can share with you.

I have a few more tasks to take care of and then I will get back you tonight. I have pinned you as a priority and will get to it as soon as I can. Thank you so much for your patience. Janet

Subject: Flint Water Crisis - Schools

We are hoping you can assist us with confirming the actual need for bottled in the Flint area schools. I realize that not ALL of the schools in the county are impacted, but in addition to the Flint District Schools, I understand some of the county schools are also on Flint water.

We are currently estimating 25,889 total students in Flint – public, private, charter schools etc. I have calls into the ISD and the Flint District to confirm that total number and hopefully give us a better idea of the actual schools that are impacted. In order to make a recommendation to the Walmart Foundation and our Executives, I could really use some help determining the actual scope of the need for bottled water for the impacted schools.

Respectfully,

Erik Hingst

Subject: RE: Local school district donation of water

Hello Janet,

It is correct we are asking about water donations only.

MDE would like a "checklist" to share with school district superintendents that provides direction and standards for collecting donated water. Any direction on what types of packaged water are acceptable, how it is to be packed and/or shipped, or other general guidance on overseeing a donation event would be helpful. We will include your guidance in an e-mail to all school district superintendents.

Thanks,

Tom Priest
Michigan Department of Education

Subject: RE: Local school district donation of water

So I talked to Kevin here with MDE. They are looking for things like what water is excepted, (bottle, can?) does it need to be palletized? Where would it go and such. Is that all in your donation plan that they can look at? They just want to work with you, to make sure it follows the proper channels and processes so we get the most benefit out of it.

Subject: Local school district donation of water

Janet

We have been contacted by local school districts, some that will be hosting events and encouraging attendees to donate bottled water. MDE is working on a communication document to share with local districts today. Do you have a checklist or critical items that need inclusion within this document? We would like to include any critical items within that checklist for local school districts.

Thanks

Janice: can you put this in the appropriate format for a Thursday communication.

Everyone else: I put this together based on some info o-line and from a document providing by Tom.

We are waiting for specifics back from the log planners. I still need any edits or changes that you see.

Louis

Hello Janet,

It is correct we are asking about water donations only.

MDE would like a "checklist" to share with school district superintendents that provides direction and standards for collecting donated water. Any direction on what types of packaged water are acceptable, how it is to be packed and/or shipped, or other general guidance on overseeing a donation event would be helpful. We will include your guidance in an e-mail to all school district superintendents.

Thanks,

Tom Priest

DONATION GUIDELINES

Guidelines for Water Donation Drives

Thank you for your willingness to organize a water donation drive for the residents of Flint, Mich. To adhere to safety codes, all donations need to observe the following guidelines, which allow volunteers to transport the water safely and efficiently.

The following items are acceptable:

- Full cases of commercially packaged water (no loose bottles)
- Commercially sealed gallon (or larger) containers of water
- All containers must have an expiration date at least 6 months in the future

The following items will NOT be accepted:

- Canned water
- Containers with open/broken seals
- Carbonated water
- Flavored water
- Water past its expiration date

Donations should be delivered to:

- Donations of 100 cases or less:
  - Catholic Charities Center for Hope, 517 E. Fifth Ave, Flint
    Monday – Friday, 9 a.m. – 4 p.m.
    For deliveries outside these hours, please call 810-232-9950, ext.325 to make arrangements for deliveries.

- Donations of 100 cases or more (must be in pallet form and wrapped):
  - Food Bank of Eastern Michigan, 2300 Lapeer Rd, Flint
    Donors must call ahead, (810) 239-4441, to schedule a dock time for delivery.

- Donations of multiple semi-truck loads can be made by calling Janet Hunter at 517-420-4162.

Donations Management Plan

This plan was designed to support donations management of the Flint Recovery Effort and assist with the coordination of material and financial donations.

I. Needs Assessment of individuals

To ensure the donations are meeting the needs of Flint residents, a communication system to track the needs and make adjustments of requested donations is outlined below.

A. Identifying and Meeting Individual Needs

- 211 will provide a report to identify trends from the information they have collected – demographics of who requested assistance and what services they requested
- 211 will be listed as the number for people to call, to allow all information regarding requests for assistance or offers to help to go to one location. The system will assist people with understanding how to volunteer/donate or receive assistance for the Flint water issues.
- To manage the increase of calls and manage caller volume, 211 will partner with other communities 211 operators
- Information is being collected that identifies people who need assistance with installations and other face to face contact.
- Information will be tracked to identify needs and determine if additional donations need to be requested. 211 will provide regular updates.

II. Material and In-Kind Donations

When donation arrangements have been made, Wendy and Pam will be sent and email alert by Janet.

A. Donation List

- Materials: Water – individual bottles, gallon jugs, and larger.
- In-Kind: Labor to install filters, trucks to deliver materials
  Donors should be directed to Janet Hunter HunterJ8@michigan.gov
  Internal Phone to provide to donors not for publication: cell 989-763-9421

B. Publicize Items to Donate

- The donation list will be sent to partners to post with their networks and post on state, county, and city sites and social media
- Donation items and drop off locations will be listed in a press release.
- Press releases will inform public of donation opportunities
- Government organizations and community partners will be asked to post on their web-sites and social media
- 211 will have all information to share with those who contact them
- Additional information requests for donating can be directed to the Michigan Community Service Commission, Janet Hunter HunterJ8@michigan.gov

B. Warehouse Location – Drop off Location for Large Donations of Water

- A warehouse location to store surplus of donations is located at: 4315 Clio Rd, Flint, MI
  Refer interested donors that have more than one semi truck of water to Janet Hunter HunterJ8@michigan.gov (Internal Phone, not for publication: cell 989-763-9421)

C. Public Drop off locations of Water

- Donations will be tracked at the sites.
- Inventory and burn rates will be tracked to identify need for donations.
- Small Water Donations: – cases and pallets 100 cases or less deliver to:
  Monday - Friday 9:00 am - 4:00 pm Catholic Charities Center for Hope 517 E. Fifth Ave
  Saturday -Sunday 9:00 am – 4:00 pm Red Cross 1401 Grand Traverse
- Large Water Donations – 100 cases or more, one Semi Truck
  Monday - Friday 8:00 am - 4:30 pm Food Bank of Eastern Michigan 2300 Lapeer Rd
  810-239-4441 If Food Bank receives donations offers of more than one semi truck or if they are full, they will refer donor to Janet Hunter to make arrangements to donate to the warehouse.

III. Cash Donations www.flintkids.org

A. Financial Donations

- United Way, Community Foundation of Greater Flint, Hurley Children's Hospital and the Greater Flint Health Coalition have come together to create a fund that will address both the short-term and long-term needs of Flint residents. The Community Foundation is managing all financial donations and no administrative fee is assessed Direct Donation requests to www.flintkids.org or
  phone 810-232-8121 (United Way) 810 -767-8279 (Community Foundation of Greater Flint)

Deputy Superintendents and Directors,

The state's collection of all Flint related documents is an epic undertaking. Our instructions are to provide all job related records to the Governor's office by mid-March. David Head, MDE's FOIA coordinator and I are working with DTBM on this collection. I need from you a list of everyone that should be included in the document request.

We will have instructions on how to collect all documents and then how to forward them to a central repository. Deb Roeske will have a class on collect the information.

Send David and I a list of all your staff that we need to request records related to the Flint water crisis. I also need a *negative response, that is if you have no one in your office, please respond with NO!*

Louis

Subject: Flint Water Crisis and FOIA

All staff,

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. Both David Head, MDE FOIA coordinator, Debbie Roeske, DTMB Client Specialist, and I will be sending additional information on how to accomplish this FOIA task.

Quick points:

1. Most persons in MDE will not be affected by this FOIA requirement. If you are not involved with the Flint water crisis than you are not required to do anything. "MDE All updates" are not required to be saved as the original email will be provided by the sender.

2. If you have had any job related connection to the Flint water crisis you will be required to provide all records to a central repository. Records include memos, handwritten notes, emails and attachments, and text messages in your possession. I will be asking office directors for a list of their staff that have had any job related responsibilities in order that we can give you the necessary information.

3. If you have Flint related records, we ask that you immediately start saving all documents. You must: create a file in your Outlook folder called: Flint FOIA. You will have to save a copy of all messages into that folder. Detailed instructions on the creation of the folder and search procedures will be provided to you. This instructions will also include instructions on search terms to ensure that all relevant emails are identified and copied. You should also create a folder to save a copy of all documents that you have either prepared or received regarding the Flint Water crisis. We will follow up with instructions on how to forward all your saved documents.

4. We will provide information as soon as we get it. There is a deadline for providing all documents, so we ask that you begin collecting them now.

5. If you have any questions regarding Flint water and FOIA please contact with David Head or myself.

Subject: URGENT - Records Request
Importance: High

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016.**

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016.**

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years.** Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

I hope everyone was able to enjoy their long weekend!
Ross, I was asked to summarize the topics discussed at the USED/MDE/GISD Flint Water Crisis Educational Response meeting held this past Friday in Flint. The meeting was attended by staff from the U.S. ED Office of Special Education Programs, Office of Safe and Healthy Students, Office of the Secretary of Education and Office of School Support.
MDE staff included Teri Chapman, Mike Radke and myself. Kyle Guerrant was there for a period in the morning as well. Several of the GISD Assistant Superintendents, Directors and Coordinators were there as well as representatives from MDHHS, Michigan Alliance for Families, Children's Water Team, the CDC and International Academy of Flint.
Everyone there received a packet of materials that included information currently available about lead poisoning which led to outside resource discussions.
An overview of the GISD was provided which covered the services offered by the ISD, screening and Child Find procedures, their MTSS structure and how the GISD has coordinated with doctors and primary care health practitioners. We were provided with a summary of service and programming efforts, activities that the Lead Impact Team (which comprises of members of every department at the ISD) have engaged in. Much time was spent listening about the impact the emergency has had on education, reviewing data, budget constraints and brainstorming on additional activities and resources trying to reach all children, general education and special education.

The day was spent discussing multiple areas of need **from long term effects that are expected as a result of this crisis, including successes and challenges**. Some of the challenges include communication feedback, families that are not identified with a primary care physician, lack of transportation which prevents families from showing up for wellness visits, safety issues, supplies for showering at the schools, celebrities who have disrupted classes, the lack of a coordinated system (no command central), professional development and training, data for tracking, Birth to 5 year old supports and early intervening funds, water distribution and storage, the list goes on...

There was also discussion on how to connect legislature, MDE and the Federal Government together. U.S. ED staff members committed to making multiple trips to Flint as all continue to work together. Sujeet Rao, Office of the Secretary of Education is going to be the point person for communication.
There was discussion about funding flows and accountability.

There's a link on the GISD website in reference to the water crisis. There have been a number of gatherings and meetings in an attempt to reach out to parents,

trying to meet the needs of ESL students (there are 48 different languages in the region), addressing the Hearing Impaired and Visually Impaired students, etc. With the funds provided from the MDE there are a number of positions that are posted and interviews getting scheduled. There is concern about being able to fill some of these positions and staff being available for them.
It was an informative day with everyone there committed to continuing the discussions, brainstorming and information sharing.
Please don't hesitate to let me know if there's any other information I can provide. I'm happy to copy my packet of materials if requested.
Thanks much, Jan

Zach, if this fits: MDE is also responsible for the administration of USDA Child Nutrition programs. As a result MDE is coordinating wild child nutrition providers both to ensure that they use proper preparation techniques, and we are also involved with nutritional guidance/education.

No, the method used is the Days and Clock Hours of Instruction Report that is required to be submitted by districts/PSAs by August 1 of each year based on language in Section 101 of the State School Aid Act.

Subject: RE: Lost Time in schools due to Flint Water Crisis

Weighing in. ,

I just exited a phone conversation with Dr. Treder (GISD data guru). We both agree that this could be a potentially difficult figure to get our hands on, for accuracy purposes. In question is reporting of daily attendance. Generally, there are two columns that are reported to MDE/State, neither specific to the 75% threshold, per se. Much of the 75% attendance rule appears to be at the recording discretion of the localized district/entity. GISD indicates that they would not require districts to report daily attendance via SIS (Student Information System). We can reach out to Flint Community Schools to request, if necessary. Does School Aid have another method of monitoring daily attendance at the localized/entity level other than what is reported by the localized district/entity?

Thanks

Kevin

Subject: RE: Lost Time in schools due to Flint Water Crisis

Just to clarify---if they have less than 75% attendance they can still count the day as one of their days of instruction. However, their school aid will be prorated. For example, if they have only 70% in attendance they will receive only 94% (70/75) of their daily state aid for that day.

I reached out to both Dr. Hagel (GISD superintendent) and Ms. Farris (Flint Community Schools) to request confirmation of this information. I have yet to hear from Dr. Hagel, but did have a conversation with Ms. Farris (Deputy Superintendent, Flint Community Schools). She indicates that there has not been any lost instructional time or school closure based on the Flint water situation. She did note that closures did occur based on the recent water main break.

I will update again, once Dr. Hagel has had an opportunity to respond.

Subject: RE: School Infomation - UPDATE

Louis

I reached out to both Dr. Hagel (GISD superintendent) and Ms. Farris (Flint Community Schools) to request confirmation of this information. I have yet to hear from Dr. Hagel, but did have a conversation with Ms. Farris (Deputy Superintendent, Flint Community Schools). She indicates that there has not been any lost instructional time or school closure based on the Flint water situation. She did note that closures did occur based on the recent water main break.

I will update again, once Dr. Hagel has had an opportunity to respond.

Kevin

Dr. Hagel

MDE is being asked to report to SEOC whether any GISD member school(s) were forced to miss school/instructional time because of the Flint Water Situation.

Can you share that information with us?

Thank you!

Subject: RE: Question on missed schools in FLint

By statute (MCL 388.1701) districts are entitled to 6 days of "forgiven" time or the equivalent hours without incurring a school aid deduct when school is closed for reasons beyond their control. With the approval of the State Superintendent they can receive 3 additional days or the equivalent hours. Anything beyond that will take legislation.

There have been cases in the past when school aid amendments added additional days/hours for certain districts/circumstances.

Subject: Re: Question on missed schools in FLint

I think it would be good to reach out to the ISD...we should also have an internal meeting on this to discuss approach...between Flint, and the sickouts in Detroit, there will be buildings in both districts that my need to add days to their calendar, and in the case of Flint, we need to think about how we should handle fairly given the circumstances.

Louis,

Your thoughts on this? It appears that the MEA Central Zone is looking for some presentations. Wondering if you might contact them and see what MDE can do to assist? Perhaps they could contact the local health department and arrange a presentation for parents and teachers...just a thought.

Kathy - What is the MDE role in response? Is their activity purely legislative in nature? The question below has been working its way through the UCG. I believe that Mary is addressing it, but wanted to see if Louis Burgess needs to be made aware.

My name is Cheryll Conklin and I am the Central Zone Director with the Michigan Education Association. As I'm sure you have heard, we have a real crisis here in Flint, Michigan over the lead in the water that our citizens have been drinking. I am currently in charge of dealing with the crisis with our education personnel in Flint Schools. As you can imagine, our educators are very concerned, both about their families who have been drinking lead contaminated water, and about their students.

What I am trying to do in response is to arrange two or three training sessions on how these educators can best assist the students who have been poisoned by lead. I was hoping that you would be willing to make these presentations. I am very open to whatever schedule you could accommodate.

Please let me know.

Thanks Mary, will work from our end

Potential request for assistance from Michigan Education Association. Not sure our behavioral health teams are best suited, but very legitimate concerns and maybe we can be part of the holistic approach. Need more detail from Education and discussion from group, i.e. what type of training, topics they are looking for?
For clarity, the BHTs are providing Pysch First Aid and train the trainer type training, I would imagine the teachers need that and more lead specific ....lets discuss.

Thanks everybody,

John G

Sent: Monday, February 01, 2016 11:58 AM
To: MSP-EOC-MDEDUCTN
Subject: RE: Students exiting impacted Flint zip codes

Yes, could be done, but would be a bit more difficult – each district has their own "bucket' within the SIS system (and I'm not the SIS go-to person, though could work with the person who is), so would need to get by-district extracts of the kids who left. An added wrinkle, 3 of our districts – Swartz Creek, Clio, and lake Fenton – use PowerSchool as their SIS, so we would need to get this info from them (the rest of the districts use Synergy as their SIS, and we have access to all of their data)

Subject: Students exiting impacted Flint zip codes

Dave,

There is discussion (not at level of directive at this point) about students (within impacted zip codes) that have left GISD to attend another school (both in and out-of-state). Would it be possible to draw exit data of that nature from the GISD SIS?

Again, Dave, at this point this is in hypothetical discussion stage, but thought I would inquire should it become a directive at some point.

Any thoughts?

Kevin

Cc: Hagel, Lisa
Subject: RE: Clarity to data request from GISD

Below is a Table with the number of kids, ages 5 to 10, with addresses in the Zip Codes you identified (from the Fall 2015 MSDS Submission)
-- I've attached a map with the Flint City & Zip Code Boundaries (wanted to see what was going on with the numbers I produced)

Here are
1) For age, I used DOB, a "current date" of 1 Jan 2016, and the "floor" function (so, for example, any age between 2.0 and 2.99... will be 2). I can easily change the current date or the function, if you'd like something different.

2) I have kids coded as either inside or outside the Flint Water System (only as good as the geocoding; I did a number of spot checks, but didn't examine all +13,000 addresses – my overall impression is that these estimates are pretty good). Water_System = the kids with these Zip_Codes that are within the Flint Water System; ALL = all the kids with these Zip_Codes (both inside and outside the Flint Water System).

Students, Ages 5 to 10, by Zip Code

ZIP_CODE	ALL	Water_System
48458	1454	0
48501	8	8
48502	29	27
48503	1627	1623
48504	2190	1533
48505	1702	1315
48506	1990	1113
48507	2156	1303
48529	763	3
48532	1274	171
TOTAL	**13193**	**7096**

Subject: Clarity to data request from GISD

Dave,

Kevin again.

I'm not sure how the request was framed to GISD, but I have copied below what we have been asked to provide for budget office discussions, which are moving swiftly here.

I am looking to confirm some data I extracted from MDE website. We are looking for the number of students 5-10 year old students that live in the following zipcodes:

48501,48502,48503,48504,48505,48506,48507,48529,48532,48551,48553, 48458

I would need a total for each zip code and an overall number.

Does GISD have the data readily available to provide this information? We have reached out to CEPI as well to assist, although we noticed what GISD provided prior had age breakdowns and thought you may already have that data readily available for us to share.

Thanks again for all your efforts, Dave.

For clarification:

The Zip Codes indicated are associated with the residence of the students. The district listing encompasses students identified as residing in any of the provided zip codes. Are you requesting that each district listing provide what specific zip codes the students reside in? I'm trying to understand the request prior to sharing it with GISD.

Kevin

Department of Health and Human Services (DHHS) is requesting the 5-10 year old data from an additional two Zip Codes:

48509 and 48519

Is it possible for GISD to run that data as provided below for other Zip Codes?

Thanks again.

Below is a Table with the number of kids, ages 5 to 10, with addresses in the Zip Codes you identified (from the Fall 2015 MSDS Submission)
-- I've attached a map with the Flint City & Zip Code Boundaries (wanted to see what was going on with the numbers I produced)

Here are
1) For age, I used DOB, a "current date" of 1 Jan 2016, and the "floor" function (so, for example, any age between 2.0 and 2.99... will be 2). I can easily change the current date or the function, if you'd like something different.

2) I have kids coded as either inside or outside the Flint Water System (only as good as the geocoding; I did a number of spot checks, but didn't examine all +13,000 addresses – my overall impression is that these estimates are pretty good). Water_System = the kids with these Zip_Codes that are within the Flint Water System; ALL = all the kids with these Zip_Codes (both inside and outside the Flint Water System).

Students, Ages 5 to 10, by Zip Code

ZIP_CODE	ALL	Water_System
48458	1454	0
48501	8	8
48502	29	27
48503	1627	1623
48504	2190	1533
48505	1702	1315
48506	1990	1113
48507	2156	1303
48529	763	3
48532	1274	171
TOTAL	**13193**	**7096**

Subject: Clarity to data request from GISD

Dave,

Kevin again.

I'm not sure how the request was framed to GISD, but I have copied below what we have been asked to provide for budget office discussions, which are moving swiftly here.

I am looking to confirm some data I extracted from MDE website. We are looking for the number of students 5-10 year old students that live in the following zipcodes:

48501,48502,48503,48504,48505,48506,48507,48529,48532,48551,48553, 48458

I would need a total for each zip code and an overall number.

Does GISD have the data readily available to provide this information? We have reached out to CEPI as well to assist, although we noticed what GISD provided prior had age breakdowns and thought you may already have that data readily available for us to share.

Thanks again for all your efforts, Dave.

Subject: RE: Clarity to data request from GISD

Hello Kevin,

Thank you for the information. I did have some follow up questions –

1. Was this data run only for Flint School District schools or all schools that overlap these Zip codes?
2. What were the schools that this data represents?
3. Were parochial schools, homeschoolers, or charter schools included in the numbers below?
4. David references a "Fall 2015 MSDS Submission". I used 2014-2015 data from the following MDE site (https://www.mischooldata.org/DistrictSchoolProfiles/EntitySummary/SchoolDataFile.aspx). Specifically, I used the Educational Entity Master file and the Student Count file for different school districts. Are these comparable data sources? I used the K-6th grade to approximate 5-10 year olds as I couldn't find a data file with age.
5. Do you have a recommendation on the best data source to use for estimating the number of kids attending school districts that overlap the zipcodes provided below.

Also, there was a change in the Zip codes our administration is using for this effort. They are now using the following zip codes:
48501, 48502, 48503, 48504, 48505, 48506, 48507, 48509, 48519, 48529, 48532.

If possible, we would like to see the addition of the two new zip codes, but please let me know if this is a possibility.

Thank you and have a great day,

Kevin,
Can you please let me know who or which departments you are sharing this information with? I am receiving so many duplicative requests, I just want to ensure the right contacts receive what is needed.
Thank you for your assistance and effective work with Dr. Tender and GISD.

Lisa Hagel, Ed.D.
Superintendent
Genesee Intermediate
School District
Flint, MI

Once again, THANK YOU!

This information is great, as usual. I will share this as well. It appears they are attempting to narrow in on programming and age-based requirements associated. This data will assist greatly in those efforts.

Thanks again Dave!

I will reach out if we receive any further requests. A HUGE Thank You to GISD and yourself for your efforts in this!

Kevin

I was asked to provide the number of kids, by the age groups "0-3" and "4-5"

As we've discussed, my data only includes the kids submitted in the MSDS system (from Fall 2015, the Fall Count Submission and the Fall Early Childhood Submission) – so the coverage I have for 0-3 is minimal.

The attached has the number of kids (who have an address that is within the Flint Water System) by Age, by Operating District, and Total – I'll let you total them however you see decide.

Feel free to call with any questions,
Dave

Subject: Clarity to data request from GISD

Dave,

Kevin again.

I'm not sure how the request was framed to GISD, but I have copied below what we have been asked to provide for budget office discussions, which are moving swiftly here.

I am looking to confirm some data I extracted from MDE website. We are looking for the number of students 5-10 year old students that live in the following zipcodes:

48501,48502,48503,48504,48505,48506,48507,48529,48532,48551,48553, 48458

I would need a total for each zip code and an overall number.

Does GISD have the data readily available to provide this information? We have reached out to CEPI as well to assist, although we noticed what GISD provided prior had age breakdowns and thought you may already have that data readily available for us to share.

Thanks again for all your efforts, Dave.

Attachments: Flint City and Zip Code Boundaries.pdf

Below is a Table with the number of kids, ages 5 to 10, with addresses in the Zip Codes you identified (from the Fall 2015 MSDS Submission)
-- I've attached a map with the Flint City & Zip Code Boundaries (wanted to see what was going on with the numbers I produced)

Here are
1) For age, I used DOB, a "current date" of 1 Jan 2016, and the "floor" function (so, for example, any age between 2.0 and 2.99... will be 2). I can easily change the current date or the function, if you'd like something different.

2) I have kids coded as either inside or outside the Flint Water System (only as good as the geocoding; I did a number of spot checks, but didn't examine all +13,000 addresses – my overall impression is that these estimates are pretty good). Water_System = the kids with these Zip_Codes that are within the Flint Water System; ALL = all the kids with these Zip_Codes (both inside and outside the Flint Water System).

Students, Ages 5 to 10, by Zip Code

ZIP_CODE	ALL	Water_System
48458	1454	0
48501	8	8
48502	29	27
48503	1627	1623
48504	2190	1533
48505	1702	1315
48506	1990	1113
48507	2156	1303
48529	763	3
48532	1274	171
TOTAL	**13193**	**7096**

Louis,

I've included, below, what was sent to me.

I hope to identify students residing in the City of Flint, and share this with the Superintendents of the Districts in which these students are enrolled.
After my conversation with Walter, it appears that it's a bit simpler than I originally thought – he indicated that the City boundaries are pretty much the boundaries for the Flint water system (there are 120 addresses outside the city limits – these addresses are what he provided in the attached pdfs)

If you're interested, I can share my work with you,
Dave

Subject: RE: Project Student Emergency Response to Violence (SERV) grant

Good Afternoon Kevin;

Our Director received an inquiry earlier this week asking essentially the same question. We sat down with our Office of General Council and Budget Services and after discussing we all came to this determination.

- SERV is not intended to address all interruptions of schooling. The situation in Flint is comparable in many respects to a district's schools being out of session for an extended period of time due to heavy snow and we cannot imagine that the district would be eligible for a SERV grant. We have resources about continuity of services that originate from our work on pandemic flu, but we have no grants per se to assist in the Flint situation as we understand it.

We are also not aware of ED programs that could provide support in a situation like Flint's which is in the public health lane.

Happy to discuss particularly if there are aspects of the Flint situation which I may not completely understand.

Regards

Subject: Project Student Emergency Response to Violence (SERV) grant

Mr. Kesner

I was given your name and contact information by Susan Benbow. Michigan Department of Education (MDE) is an active participant in the State Emergency Operations Center (SEOC) as it relates to the Flint Water Emergency.

Michigan DHHS (Department of Health and Human Services) has asked us to investigate the possibility of application for the Project SERV grant based on this emergency. We are attempting to gain information that will either confirm or deny applicability of the Flint Water emergency in regards to the Project SERV grant. In short, does that qualify as an eligible event?

Can you please assist or direct us to a contact that can assist in this determination?

Thank you for your time

Kevin Walters

Subject: *RE: Project Student Emergency Response to Violence (SERV) grant*

Good Afternoon Kevin;

Our Director received an inquiry earlier this week asking essentially the same question. We sat down with our Office of General Council and Budget Services and after discussing we all came to this determination.

SERV is not intended to address all interruptions of schooling. The situation in Flint is comparable in many respects to a district's schools being out of session for an extended period of time due to heavy snow and we cannot imagine that the district would be eligible for a SERV grant. We have resources about continuity of services that originate from our work on pandemic flu, but we have no grants per se to assist in the Flint situation as we understand it.

We are also not aware of ED programs that could provide support in a situation like Flint's which is in the public health lane.

Happy to discuss particularly if there are aspects of the Flint situation which I may not completely understand.

Regards

Hi Jan,
Here is the link to the Federal emergency program called "SERV". Take a look and see if you think that the Water Crisis/Lead toxicity could be described in such a way as to qualify for assistance. There may be some tight timelines around applying for this. I want to make sure this information is being considered, but I don't want to duplicate any efforts being made by MDOE. Early intervention apparently can go a long way to help these kids and I hope we can all work together to bring as many resources to the effort as possible.

To: Burgess, Louis (MDE) <burgessl@michigan.gov>
Subject: RE: Funding Question

Here is the answer to the specific question:

The Michigan Department of Education funded the Flint City School District for $675,000.00 in fiscal year 2014-2015 under 21st Century Community Learning Centers.

There is one other entity that we fund, Genesee Area Focus Fund (part of the Flint Chamber), that provides 21st CCLC within Flint schools. However, that goes beyond the request. If you want to add that to above, the amount is $405,000.00 for that grant for the same period.

Based on your response, I'll assume you'll take it from here and pass along the appropriate info.

I received the below email. Is it ok to answer his question?

April

From: Schabo, Timothy (Budget) [mailto:Timothy_Schabo@budget.senate.gov]
Sent: Thursday, February 18, 2016 2:28 PM
To: Terry, April (MDE) <TerryA3@michigan.gov>
Subject: Funding Question

My name is Timothy Schabo and I work for the Senate Budget Committee. I saw online that you were a contact for Flint City School District concerning grants for the 21st Century Community Learning Center. I was wondering if you could tell me the amount awarded to Flint last school year for that particular grant and or where to find that information online? I hope you are having a great day and I look forward to speaking with you soon.

Thank You,

Timothy Schabo

Ok.

Did you get any feedback from the JIC about the Congressional question? Are they going to respond with my response about 21st CCLC grantees in Flint? Just need to know if the response is off my list or if we're still waiting to hear if I can respond or they will.

Ty

Louis

16 figure is erroneous according to DHHS. I documented correct zip codes, per DHHS, in Education Activity Log at SEOC. I can try to pull that info for Lisa remotely.

Subject: URGENT -- Letter to Lisa Hagel-GISD 2-18-16

Good morning!

Attached is a letter to the Genesee ISD regarding newly-appropriated funds for *Early On* testing/service coordination, a psychologist, and an additional $100,000 for a community trainer and a wraparound service coordinator.

This is guidance for which the ISD is anxiously waiting, in order to get the programs moving forward as quickly as possible.

There is an attachment mentioned in the letter (that is not included here) – it is standard guidance for all EarlyOn program providers and not specific to Genesee County or Flint.

Your immediate review and approval would be appreciated.

Thanks. -marty

Subject: Funding Question

My name is Timothy Schabo and I work for the Senate Budget Committee. I saw online that you were a contact for Flint City School District concerning grants for the 21st Century Community Learning Center. I was wondering if you could tell me the amount awarded to Flint last school year for that particular grant and or where to find that information online? I hope you are having a great day and I look forward to speaking with you soon.

Thank You,

Timothy Schabo

Subject: formal request details on Flint early head start names.

Cheryl , I have attached a request on MDE Letterhead for the names of the Flint students that are served in the Carman-Ainsworth Early Head Start program.

We just need the names and addresses of the children. Please do not include any information that should be protected. MDE has a definition for sensitive personal information (see below). If you feel the information should be protected you can encrypt the file before you send it to me.

Thank your for your assistance with this matter.

Louis

Sensitive Personal Information. For MDE purposes this is defined as an individual's name, address, or telephone number linked with any of the following:

a. Social security number or taxpayer ID number
b. Credit or debit card number
c. Driver's license number
d. Date of birth
e. Medical or health information protected under HIPAA
f. Student related data protected under FERPA

Louis

Dear Ms. Gerrish,

The State of Michigan is reaching out to the families of all children affected by the Flint water crisis. The state is coordinating nutritional information for families and wants to make sure that all families get the important information on the link between proper nutrition and lead poisoning. We have been informed that the Carman-Ainsworth Community Schools ' Early Head Start program is serving 13 children that live in the City of Flint. We are requesting that you send the children's names and addresses. It is not necessary to include dates of birth.

If you have any questions about this request please contact Louis Burgess, Assistant Director, Office of School Support Services, Michigan Department of Education (517.335.3672; burgess@michigan.gov).

Tom, yesterday we provided a list of names to Jennifer with DHHS/DCH on children served 0-6.

Kaitlin Ferrick our Head Start Director says that there is an Early Head Start program at Carman-Ainsworth.

Confirm with Jennifer that she wants the names of the children. If yes, contact Cheryl Gerrish (see below) and have her send an encrypted file with the names and addresses.

Cheryl Gerrish is the Early Head Start Director at Carman-Ainsworth Public Schools. Her number is 810-591-7242. Again, they serve 2 kids with a home address that falls within Flint LEA and 11 who are not within Flint LEA, but have Flint water. They are also serving 1 pregnant woman who lives in an apartment with Flint water (EHS serves pregnant women).

Thanks,

Kaitlin

Good Evening,

The Health and Human Services Team here at the State Emergency Operation Center (SEOC) Flint Water Crisis Response has requested a list of all children (by name, under the age of 6) that are involved in any Head Start Programs within Flint. They need this list so they can compare it against the list of those that have been tested for lead exposure. Dr. Eden Wells, Jackie Scott, and Susan Moran of DHHS have requested this data. They would like within 24 hours or Monday morning at the latest.

Please let us know what questions you may have. Also, please reply-all with your response.

Thank you,

From: Christa Melton <christameltonhs@yahoo.com>
Sent: Tuesday, February 09, 2016 8:41 AM
To: MSP-EOC-MDEDUCTN
Subject: GCCARD Early Head Start Children's Names

Good morning,

We received your request for the names of our Early Head Start children in Flint. This is a highly unusual request, as the identities of Head Start children are confidential. We sought advice from our regional officer, who said that she would speak with her superiors. We have not heard back from her yet. She did suggest that we ask for further information about your request. Children in Early Head Start are required to obtain a lead screening per EPSDT regulations at age 1 and 2. We are hosting a clinic to ensure that all children have the opportunity to be tested if they have not been tested in the past year due to this crisis. We are also working cooperatively with the health department to ensure the health and safety of our children.

At this time, we feel confident that we could provide you the list of children in the MI-CHV program that are enrolled with us, as the state provides the funds for those children. That list is as follows:

Za`Riya Alexander Paris Boatman Phoebe Byars Bailey Caver-McCraw Mari Cureton-Cook Dallas Ford Dameshio Fuller Jr Janayah Gardner Jakayla Green Amari Hodo Nicole Hodo A`lanah Hughes A`Torian Mitchell Ja`Tori Mitchell Kayla Powell Adonijae Sanders Torri Smith-Tipton Jr. A`Myirah Smith-Tipton Zayden Stewart DaQori Stinson Eddie Washington Isaiah Williams

We will continue to seek permission to release the names of the other children if you still need them. Please advise.

Thank you!

Subject: delete the email with the student names. PII!

Everyone,

The file contains PII. I sent Jennifer (MSP-EOC-MDCH) an encrypted file with the names. I also sent her the password (flintwater).

I need everyone to confirm that you have deleted the original email with the file from Susan Fleming.

I put the file in MiCIMS and closed the request. The desktop at the SEOC has the file, unencrypted. Someone tomorrow can figure how to encrypt the file.

I will call the CDC rep tomorrow to see where we stand. That is an open task in MiCIMS.

The attached has a tab with Early Childhood Students (I used the file Laura provided) – I kept BOTH (1) kids with an "Resident LEA = Flint" AND (2) kids who geocoded as living in the Flint Water System (this picked up about an extra 100 kids who had a Residency Code other than Flint) and a tab with Early On kids with addresses within the Flint Water System.

- If you'd like either of these pared down with some additional "business rules" let me know.

Hello,

Attached is a list I created that includes the Head Start students residing in the Flint School District. There are a total of 933 students. For confidentiality, I have removed their birth dates. This is a different list than the prior one I sent you. Also, I put in a compact format, 23 pages vs. 128 pages.

Ironically, I had emailed Sue Gilliam on Friday for access to all sites within Synergy so I can get a better insight. I feel it would of been very helpful if I could of compared the two lists today. She was out on Friday, so I am hoping to hear from her on Monday.

Let me know if you need anything else.

Susan, I got it at the SEOC.

Since it has names, dates of births, and addresses, we are treating this as Personally Identifiable Information. We are encrypting the file. I will ask if anyone besides the SEOC also received the email from Susan to delete the file. I will keep a file at the SEOC.

Subject: delete the email with the student names. PII!

Everyone,

The file contains PII. I sent Jennifer (MSP-EOC-MDCH) an encrypted file with the names. I also sent her the password (flintwater).

I need everyone to confirm that you have deleted the original email with the file from Susan Fleming.

I put the file in MiCIMS and closed the request. The desktop at the SEOC has the file, unencrypted. Someone tomorrow can figure how to encrypt the file.

I will call the CDC rep tomorrow to see where we stand. That is an open task in MiCIMS.

Louis

Hello,

Attached is a list I created that includes the Head Start students residing in the Flint School District. There are a total of 933 students. For confidentiality, I have removed their birth dates. This is a different list than the prior one I sent you. Also, I put in a compact format, 23 pages vs. 128 pages.

Ironically, I had emailed Sue Gilliam on Friday for access to all sites within Synergy so I can get a better insight. I feel it would of been very helpful if I could of compared the two lists today. She was out on Friday, so I am hoping to hear from her on Monday.

Let me know if you need anything else.

Wendy Ciaramitaro

Subject: Head Start Data Request
Importance: High

Good Evening,

The Health and Human Services Team here at the State Emergency Operation Center (SEOC) Flint Water Crisis Response has requested a list of all children (by name, under the age of 6) that are involved in any Head Start Programs within Flint. They need this list so they can compare it against the list of those that have been tested for lead exposure. Dr. Eden Wells, Jackie Scott, and Susan Moran of DHHS have requested this data. They would like within 24 hours or Monday morning at the latest.

Please let us know what questions you may have. Also, please reply-all with your response.

Thank you,

Jaime Malnar

Subject: FW: 6 Points of Recovery Workgoup Meeting Schedules

Included in this email is a list of the six workgroups and their contact info for the Community Partners group in Flint.

MSP/EMHSD is on the Resources and Coordinating workgroups. The JIC will have a representative on the Communications workgroup.

If any of your agencies are interested in having an individual provide technical/coordinating assistance to the Education, Physical Health or Mental Health workgroups, it would be welcome.

While each workgroup is trying to maintain a consistent meeting time each week, it would be advisable to contact one of the group leaders to confirm time and location of the next week's meeting.

Subject: FWICC - MDE Staff Update

Brian,

I understand your FWICC meeting was postponed, but I thought you still might like to see some of the information MDE staff compiled for the taskforce meeting.

Here are some specific activities connected to Early On and nutrition that have occurred with supporting Genesee ISD and Flint in this last week.

Office of Great Start Update:

- OGS has had a telephone conversation with MDHHS Coordinator for Children's Mental Health in order to coordinate approaches used by local entities in reaching children with social emotional and behavioral health concerns
- MDE Early On Consultant assigned to Genesee ISD attended a meeting at the ISD along with representatives of Early On Training and Technical Assistance (contractor for Public Awareness work for Early On).
- State Early On Coordinator discussed budget and financial reporting expectations with Genesee ISD staff and followed with a memo to the Superintendent; information is coordinated with other offices within MDE

Office of School Support Services - Nutrition Update:

- The state emergency supplemental funds have been distributed to the GISD for additional snack support promoting the three target nutrients: Vitamin C, calcium, and iron.
- 3 of the 4 schools to receive the additional federal fruit and vegetable funds have completed all requirements to begin drawing the reimbursement and either started the program this week or will start early next week.
- OSSS staff have been invited to attend the local school nutrition directors meeting at Corunna High School on Wednesday, February 24. An additional "targeted technical assistance" meeting will be planned for the first week of March in which we will have staff available to answer questions specific to improving the current federal USDA FNS programs for the targeted nutrients.
- Additional USDA commodity entitlement has been identified and affected districts will be notified.

Please let me know if you require clarification and I will circle back with staff.

Thanks

Ross

Sent: Thursday, February 18, 2016 4:39 PM
To: Burgess, Louis (MDE) <burgessl@michigan.gov>
Subject: RE: Funding Question

Here is the answer to the specific question:

The Michigan Department of Education funded the Flint City School District for $675,000.00 in fiscal year 2014-2015 under 21st Century Community Learning Centers.

There is one other entity that we fund, Genesee Area Focus Fund (part of the Flint Chamber), that provides 21st CCLC within Flint schools. However, that goes beyond the request. If you want to add that to above, the amount is $405,000.00 for that grant for the same period.

Based on your response, I'll assume you'll take it from here and pass along the appropriate info.

From: Schabo, Timothy (Budget) [mailto:Timothy_Schabo@budget.senate.gov]
Sent: Thursday, February 18, 2016 2:28 PM
To: Terry, April (MDE) <TerryA3@michigan.gov>
Subject: Funding Question

My name is Timothy Schabo and I work for the Senate Budget Committee. I saw online that you were a contact for Flint City School District concerning grants for the 21st Century Community Learning Center. I was wondering if you could tell me the amount awarded to Flint last school year for that particular grant and or where to find that information online? I hope you are having a great day and I look forward to speaking with you soon.

Thank You,

Timothy Schabo

Brian will attend the FWICC meeting on Friday morning, and also has a meeting on his calendar for Wednesday afternoon with the Governor's office & local educators in Flint – I don't have any other details on it, so hopefully it's been captured via input from the Gov's office for this report.

Not sure if Karen will be checking email over the weekend, or if she'd have anything more than I just told you, but let me know if you need anything further, I will try to assist

Amanda,

Next week both the State Superintendent, Brian Whiston, and Deputy Superintendent Kyle Guerrant, will attend the FWICC on Friday (2/19/16).

In addition, Brian is scheduled to attend a meeting with the Governor's office and local educators in Flint on Wednesday (2/17/16). We have no other details at this time.

Kyle Guerrant will attend a Mission Flint meeting on Friday.

Good afternoon Louis,

I am working on our appeal for the reimbursement of emergency costs for the emergency declaration and hope you can help me with a question.

I am hoping you can tell me if any of the schools were closed for any period of time as a result of the water incident in Flint. If so can you provide me with an estimated dollar loss in instruction time?

Thanks,

MSP-EOC-MDEDUCTN

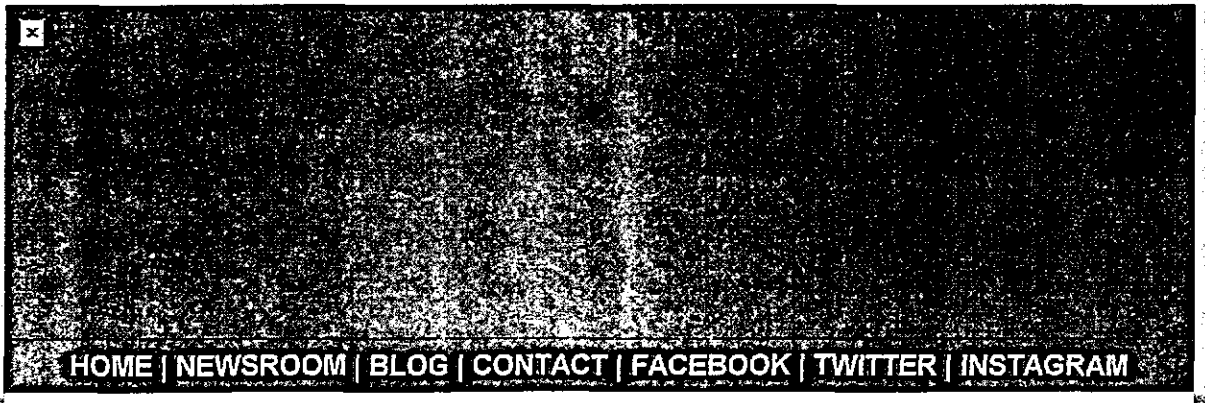
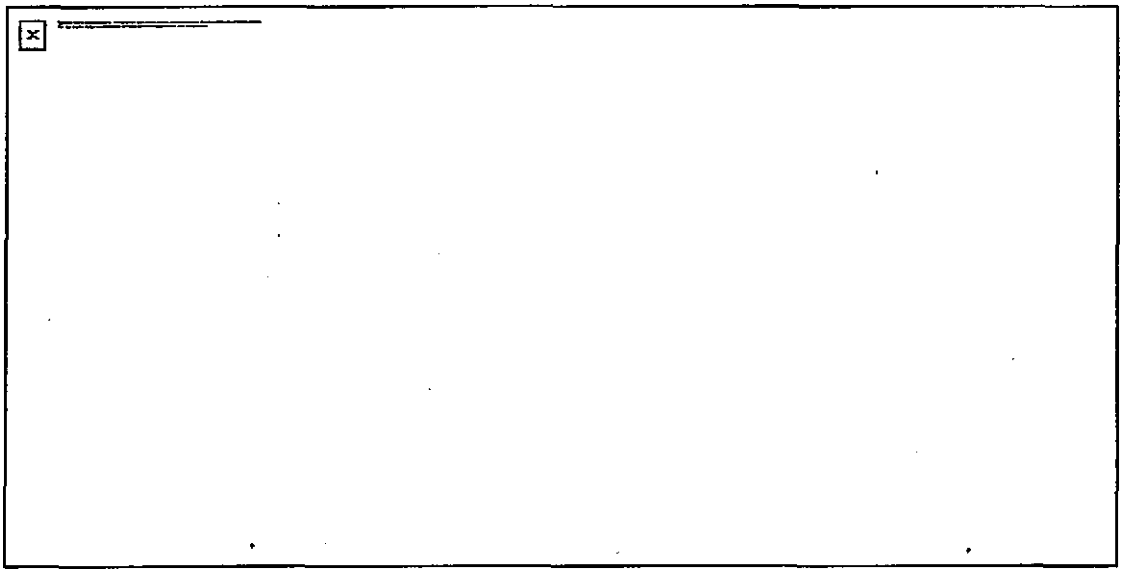
From: Governor's Office <governorsoffice@govsubscriptions.michigan.gov>
Sent: Wednesday, February 03, 2016 6:24 PM
To: MSP-EOC-MDEDUCTN
Subject: "Flint residents should not have to pay for water they cannot drink"



Budget recommendation will include $30 million request for Flint water bill repayments



When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

Sent: Monday, February 01, 2016 9:31 AM
To: MSP-EOC-MDEDUCTN
Subject: OK2SAY / Cyber Safety Initiative (CSI) – Attorney General offers free Community Seminar

Attorney General Bill Schuette will host two free educational seminars for state employees and their family and friends on the topic of "**OK2SAY/ Michigan Cyber Safety Initiative (CSI).**" There is no registration for these seminars.

- **Detroit:** Friday, February 5, 2016, from 12:05 to 12:50 p.m.
  - Cadillac Place – Room L150; 3068 West Grand Blvd.
- **Lansing:** Tuesday, February 9, 2016, from 12:05 to 12:50 p.m.
  - G. Mennen Williams Auditorium; 525 West Ottawa Street

The community seminars provide practical tools including internet safety tips and how to:

1. Access the Michigan Sex Offender Registry;
2. Understand the impact of digital footprints;
3. Realize the risk of sharing photos with embedded location information;
4. Identify the possible privacy risks of different apps;
5. Recognize the potential dangers and legal ramification of sexting; and
6. Identify cyberbully warning signs and develop a plan of action.

In addition, we will discuss OK2SAY, a student safety program that allows anyone to confidentially report tips on criminal activities or potential directed at students, school employees and schools.

REINVENTION NEWS

GOVERNOR RICK SNYDER | LT. GOVERNOR BRIAN CALLEY

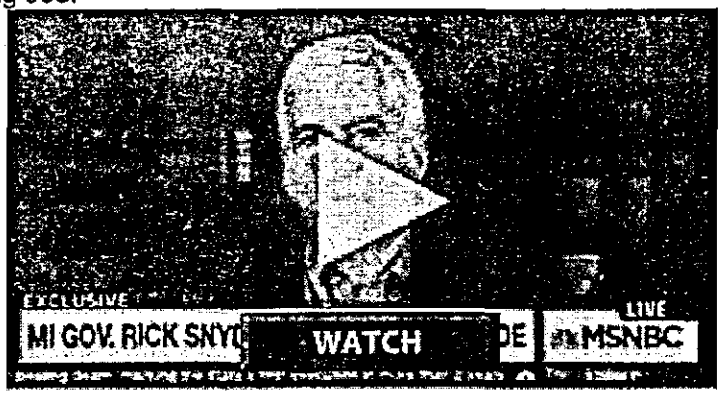
HOME | BLOG | CONTACTS | FACEBOOK | TWITTER | INSTAGRAM

How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." **Click here to read the Governor's full op-ed.**

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. **Click here to read the full story in the Washington Post.**

Martin Ackley, Director
Office of Public and Governmental Affairs
Michigan Department of Education

Customer Service is a priority at the Michigan Department of Education – helping Michigan schools, families, and communities improve the achievement and well-being of ALL our children.

MICHIGAN Department of Education

The following email is to be shared with the *Early On*® Coordinators located at intermediate school districts.

Part C of the Individuals with Disabilities Education Act, commonly known as *Early On*® in Michigan, has federal regulations that require each state to maintain an Established Conditions List as part of its rigorous definition of developmental delay for eligibility. This Established Conditions List has been in existence since the full implementation of *Early On* in 1993. The Established Conditions List includes medical or mental conditions that could lead to a developmental delay. This list, as stated in federal regulation §303.21(a)(2) must include "diagnosed physical or mental condition[s] that- (i)Has a high probability of resulting in developmental delay; and(ii)Includes conditions such as chromosomal abnormalities; genetic or congenital disorders; sensory impairments; inborn errors of metabolism; disorders reflecting disturbance of the development of the nervous system; congenital infections; severe attachment disorders; and disorders secondary to exposure to toxic substances, including fetal alcohol syndrome." Lead is one of the medical conditions on the Michigan Established Conditions List. Any child, birth to three years of age with one of these conditions is automatically eligible for *Early On* with the appropriate medical documentation and other records to establish eligibility without conducting an evaluation of the child (§303.321(3)(i)).

In April 2015, the Centers for Disease Control and Prevention (CDC) released new guidance on educational interventions to support young children exposed to lead. In May 2015, a request was presented to the *Early On* state office as to whether Michigan had plans to lower its threshold for lead toxicity which was (at or above) ≥ 10 micrograms per deciliter. The Governor-appointed Michigan Interagency Coordinating Council placed the topic on the September 2015 agenda for discussion. At its November 2015 meeting, the Michigan Interagency Coordinating Council review voted to lower the Michigan threshold to the recommended CDC level of ≥ 5 micrograms per deciliter.

The revised *Early On* Established Conditions List can be found at the *Early On* website after January 15, 2015. A companion document that describes the rationale for the update is also available. For convenience copies are attached to this email.

Additionally, the following links have been provided as resources to support local service areas and families.

Lisa, once you review this message and update to tailor, send to Marty. He will get permission to send from the JIC. To date nothing has been done specifically for the unlicensed child care providers. They would be covered by the door to door campaign. If you have contact information, you should do a message that highlights any precautions and tell them to go to the Flint Water website. You can include your update.

Health and Human Services
Administration for Children and Families
Office of Child Care

On January 5, 2016, Governor Rick Snyder declared a State of Emergency for Genesee County as a result of the water situation in Flint and surrounding communities attached to the Flint Water System. As a result of this declaration, all state departments are required to work in coordination at our State Emergency Operations Center. Since that date, the Michigan Department of Education (MDE) Emergency Manager and MDE staff have been working closely with various state agencies specifically focusing on health and safety issues. Under the Emergency Declaration, all communication regarding this event must be handled through the Joint Information Center. The state has a specific webpage for all Flint Water issues at www.michigan.gov/flintwater. The Flint Water site has up-to-date information on all actions related to the Flint Water Crises and specific actions taken to provide support to the citizens of Flint.

The Genesee County Health Department has held multiple forums regarding this situation. Dr. Eden Wells, Michigan's Chief Medical Executive. has been providing information and guidance to the Genesee Health Department which in turn is informing the community.

The state is actively working in the Flint communities to distribute water, water filters and replacement filters. In addition they are giving details on water testing procedures and blood testing. The state and county have teams going door-to door delivering water, filters, and information. In addition, there are local distribution sites set up at Flint area Fire stations and several local churches. This has been broadly advertised through multiple methods to ensure the widest possible dissemination. Door hangers with information are being left if no one is answering the door. Information is being provided in English as well as Spanish and Arabic.

The Michigan Department of Education is contacting all area providers that are operating school nutrition or child and adult care food programs. They are ensuring that information regarding the ongoing programs is understood and providing any help as required.

Water testing efforts have been on-going since October 2015. The Michigan Department of Environmental Quality is the state agency responsible for the water testing program. They have been implemented a testing program throughout the city. The water testing program is on-going.

Marty, I spoke with DTMB here at SEOC. The schools are not buying water, it is all being donated. In fact Flint Pubic School District gave DTMB 38 pallets of water over the weekend to distribute. The state is purchasing off a DEQ contract with Home Depot.

Sending the call to the JIC was the right thing.

> >
> > Hello Justin.
> >
> > As you mention, Governor Rick Snyder declared a State of Emergency for Genesee County as a result of the water situation in Flint and surrounding communities attached to the Flint Water System. As a result of this declaration, all state departments are required to work in coordination at our State Emergency Operations Center. Since that date, as LARA Emergency Manager and my alternate Emergency Management Coordinator, have been working closely with various state agencies specifically focusing on health and safety issues. Under the Emergency Declaration, all communication regarding this event must be handled through our Joint Information Center. We have created a specific webpage for all Flint Water issues at www.michigan.gov/flintwater. On that site, you will be able to pull down letters that have been sent to health care providers, not only in Genesee County, but statewide through Medscape, the local health department,

the Michigan State Police and other sources.

Prior to the State Declaration, the Genesee County Health Department held multiple forums, Dr. Eden Wells, Michigan's Chief Medical Executive. has been providing a variety of information at the local level in assisting the Genesee Health Department. This information is also on the web page previously mentioned.

We are currently working with our Community Health Emergency Coordination Center, the Health and Human Services Emergency Management Coordinators, and the Joint Information Center at the EOC on any and all messaging regarding Flint water. We have taken a systematic approach in completing outreach to all those affected by this event. As you will see on the web page, we are also providing filters, test kits, bottled water, and safety recommendations. These resources are available to any citizen, facility, or business needing them at no charge.

If you have any questions regarding this issue, please contact me at the numbers below at your convenience.

Subject: Flint/Genessee County Health Care Facilities and Water Supply
Importance: High

Hi Gail, Steve, Karen-

We understand that Governor Snyder declared a state of emergency last week as a result of the Flint, Michigan (and Genessee County) water supply being contaminated

with lead. What step(s) have the health care facilities in that area taken to ensure the health and safety of their residents/patients/clients?

Thanks.

Justin

Cool. Thanks.

So on the nutrition thing... Marla is developing a nutrition plan for all of Flint schools to follow? Is it recommended plan? Required plan?

...and Gloria is developing a nutrition plan for the rest of the city residents??

Marty, I spoke with DTMB here at SEOC. The schools are not buying water, it is all being donated. In fact Flint Pubic School District gave DTMB 38 pallets of water over the weekend to distribute. The state is purchasing off a DEQ contract with Home Depot.

Sending the call to the JIC was the right thing.

Subject: Re: SEOC update

There is an increased emphasis on the situation. These other state agencies have oversight responsibility. I think we send the emails for a couple reasons:

-add a question about help. Are they getting enough info and help. We can use the emails as a redundant source of info/help.

-gives our child nutrition contacts a means to ask questions.

-the link to the handout is good info.

Kyle, I spoke with DEQ. They are working with ALL schools and institutions in the Flint area. They have a list provided by LARA that includes all schools. I will be able to review the list.

DEQ is actively reaching out to these folks to help get them tested as necessary. I think the letter to Genesee ISD should tell them that DEQ is reaching out on this issue. We can say we are available to help them if necessary. *But this is being actively worked at the county level.*

City of Flint Schools requested that 13 buildings get tested. Aoo of the 13 have been tested. They recently asked for two more buildings to be tested. I will see if I can get a list.

Subject: proposed message for KG to send to MDE ALL on Flint water crises

Colleagues,

As you know the Governor has declared a state of emergency for Genesee County due to the ongoing health and safety issues caused by lead in the city of Flint's drinking water. The state has established an incident command at the State Emergency Operations Center (SEOC). Louis Burgess, our Emergency Management Coordinator, has been representing MDE at the SEOC. He is keeping the MDE leadership team informed of the State's on-going efforts in Flint. A Joint Information Center (JIC) has been established. All messages regarding Flint and water safety issues are to be coordinated through the JIC.

State officials from the Department of Environmental Quality and the Department of Licensing and Regulatory Affairs have been working with schools, child care centers, and other institutions to ensure that they are taking proper safety precautions related to water. MDE staff in the Office of School Support Services have also been working with child nutrition program providers since last October. OSSS staff continues to reach out to Flint-area MDE approved child nutrition program providers (both school meals and Child and Adult Care food programs) to ensure they are aware of available resources regarding water quality.

If you have any communication to the field that is related to the Flint water crises you should coordinate your message with Marty Ackley. Marty will coordinate with the JIC to ensure that we have a consistent, accurate message.

If you have any questions on the Flint water crises feel free to contact me or Louis. If you are interested in this issue, please be aware that Dr. Eden Well will be making a presentation on the Flint water crises at the next State Board meeting (Tuesday, January 12). Dr. Wells is the Chief Medical Executive of the Michigan Department of Health and Human Services (MDHHS).

The Honorable Elijah Cummings
Ranking Member
Committee on Oversight & Government Reform
U.S. House of Representatives
2471 Rayburn House Office Building
Washington, DC 20515

Dear Chairman Chaffetz and Ranking Member Cummings:

On behalf of the American Academy of Pediatrics (AAP), a non-profit professional organization of 64,000 primary care pediatricians, pediatric medical sub-specialists, and pediatric surgical specialists dedicated to the health, safety and well-being of infants, children, adolescents, and young adults, I write to you regarding the tragedy in Flint, Michigan and the exposure of its citizens to lead, a potent neurotoxin, through their drinking water. In particular, I wish to highlight the detrimental and lifelong health effects of childhood lead exposure. As you consider federal policy solutions to this crisis, the AAP urges you to emphasize both short-term and long-term efforts to mitigate those health effects to support children and families who have been exposed to lead.

There is no safe level of lead exposure for children. Lead damage can be permanent and irreversible. Lasting decreases in cognition have been documented in children with blood levels as low as 5 micrograms per deciliter of lead in blood.[i] Elevated blood lead levels (EBLL) are defined as lead levels above the Centers for Disease Control and Prevention (CDC) reference level of 5 micrograms per deciliter.[ii] According to census data, an estimated 8,000 – 9,000 children under the age of 6 have been potentially exposed to lead via the Flint drinking water. Research conducted by Mona Hanna-Attisha, MD, FAAP and Allison Champney Schnepp at Hurley Medical Center found that after Flint changed its water source, the incidence of EBLLs increased from 2.4% to 4.9%, and that neighborhoods with the highest water lead levels experienced a 6.6% increase.[iii]

Although lead is a risk factor for developmental and behavioral problems, its impact varies significantly by individual and may be affected by the psychosocial environment and educational experiences of the developing child. As you know, the city of Flint has long been an impoverished community beset by a host of economic and infrastructure hardships. This adversity, coupled with widespread lead exposure, means that Flint's children will require significant help in coping with the impact of lead on their physical and behavioral health and development, their schooling, and much more.

The AAP therefore urges policymakers to keep their focus, and the provision of funding, on helping the children of Flint in both the short-term *and* the long-term. Our non-exhaustive list of recommendations for immediate and longer-term interventions for this community is as follows.

Short-Term

- Despite a policy change within the local Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) to allow access to bottled, ready-to-feed formula through WIC, we are concerned that families may still be feeding infants powdered formula mixed with Flint water because ready-to-feed formula may be too heavy to transport. We urge immediate assistance with the transport of these heavy formula bottles directly to the homes of affected families with infants. Additionally, given that WIC is uniquely positioned as a public health nutrition program with food packages designed to meet nutritional deficiencies in the diets of young children and pregnant and breastfeeding women as well as provide nutrition education and health care referrals, we support the extension of WIC to children in Flint to age 10.
- The regular consumption of healthy, low-fat foods high in iron, calcium, and vitamin C can help children fight lead poisoning.[iv] However, grocery stores and fresh produce can be difficult to find in Flint, making it difficult for families to have continued access to healthy foods. The inability of schools and other child-serving sites to procure, store, and serve nutrient-dense foods such as fruits and vegetables presents a barrier to improving the nutritional quality of meals served to children. We urge immediate and sustained resources, training, and technical assistance aimed at schools, child care and Head Start providers, after school programs, and summer feeding programs to ensure that they are able to obtain and provide sufficient quantities of healthy foods. The Supplemental Nutrition Assistance Program (SNAP) plays a vitally important role in the lives of the children and families in Flint and, as such, attention should be paid to ensuring all opportunities to promote access to healthy foods and food preparation are maximized.

Long-Term

- The Head Start and Early Head Start programs can provide critical, early interventions for Flint's children. Children enrolled in Head Start programs have well-documented challenges to their social, emotional, developmental and physical health, and the Head Start programs are designed to give these children a good start to life. Current statistics, however, show that only approximately 1,000 of Flint's approximately 8,000 children under 6 are served by Head Start. We urge you to adequately fund Head Start and Early Head Start programs to ensure universal access for all of Flint's families with pregnant mothers or young children, regardless of income eligibility, given the widespread poverty and lead exposure in the city.
- Other evidence-based early childhood programs, such as Reach Out and Read[v] and quality universal pre-kindergarten, should also be available for Flint children. These programs can serve as cost-effective, high-quality interventions to improve outcomes for these children while they are still young.

- Children with elevated lead levels are more likely to have behavior problems, attention deficit and reading disabilities, and fail to graduate from high school, in addition to experiencing a host of other impairments to their developing cardiovascular, immune and endocrine systems.[vi] Special education will be needed to help Flint's children as they progress in their schooling. We urge you to provide funding for the provision of special education resources to this community for the entirety of the school careers of Flint's children, as well as training for staff to support an understanding within these programs of the manifestations of childhood lead exposure and how best to work with this population of children.

Given the nature of this crisis and the challenges that face this community, the children of Flint will need our help not just today, but for years to come. We urge you to prioritize the provision of both immediate and long-term resources to help Flint's children get the best possible start in life, despite this public health tragedy.

Sincerely,

Benard P. Dreyer, MD, FAAP
President

[v] Reach Out and Read prepares young children to succeed in school by partnering with doctors to prescribe books and encourage families to read together. Families served by Reach Out and Read read together more often, and their children enter kindergarten with larger vocabularies and stronger language skills, better prepared to achieve their potential.

[vi] https://www.aap.org/en-us/about-the-aap/aap-press-room/Pages/AAP-Statement-CDC-Revised-Lead-Exposure-Guidelines.aspx#sthash.PjYlsR7L.dpuf.

Objective: Identify the risk of elevated blood lead levels in children exposed to lead in drinking water and in household dust.

Public Health Assumptions - The model estimates are only accurate if the following assumptions are met:

1. The concentration of lead in all drinking water sources (e.g., home, school or other location) is equal to the modeled concentration.
2. Lead dust concentrations are consistent with those used here: either 143 ppb for homes 30-60 years of age or 620 ppb for homes older than 60 years.
3. Children are not exposed to lead paint chips.
4. Children are exposed to lead soil concentrations typical of the urban environment in Flint (i.e. soil has not been impacted by lead-based paint).

Children's risk of having an elevated blood lead level will be greater than the model estimates if these assumptions are not met.

Resulting risk from drinking water with the following lead concentrations: The goal is that a child should have ***no more than a 5 percent risk*** of having a blood lead level greater than 5 micrograms per deciliter.

	less than 1 year old		less than 7 years old	
Lead Drinking Water Concentration	**Lead Dust = 143 ppm**	**Lead Dust = 620 ppm**	**Lead Dust = 143 ppm**	**Lead Dust = 620 ppm**
0 ppb	5.8	49	3.7	48
2 ppb	7.2	51	4.6	50
5 ppb	9.7	54	6.2	52
11 ppb	16	59	10	57
15 ppb	20	62	13	59
30 ppb	37	72	27	69
100 ppb	84	92	76	90

The graphs below illustrate the relative contribution to total exposure of lead in drinking water (0 to 100 ppb), compared to soil (160 ppm) plus household dust (143 ppm and 620 ppm). Other exposures, such as ingestion of lead in food and inhalation of lead in ambient air, contribute additional lead uptake to equal 100% of total modeled exposure.

Kaitlin and Shulawn, I would like to bring your attention to this story. If we are involved or there is an MDE connection, let me know and I will brief any MDE involvement.

Louis

Michigan Delegation Looks For More Head Start Availability In Flint

U.S. Sen. Debbie Stabenow, U.S. Sen. Gary Peters and U.S. Rep. Dan Kildee are urging the U.S. Department of Health and Human Services to make Head Start, a program providing early education, health, nutrition and parent involvement services, available to every eligible child in Flint.

The three sent a letter to Secretary Blanca Enriquez saying the Flint water crisis is cause for such an intervention.

"The developmental and behavioral problems from lead poisoning will require years of special treatment and wrap-around care for these children," Ms. Stabenow (D-Lansing), Mr. Peters (D-Bloomfield Township) and Mr. Kildee (D-Flint) wrote. "Therefore, we would like to formally request Head Start be made available to every eligible child in the City of Flint as soon as practicable and for at least the duration of a five-year grant period.

Last year, Congress approved an additional $135 million to expand the Early Head Start program, and the delegation asked Flint be included in the expansion. They also asked HHS to provide technical assistance to community applicants.

Children are especially vulnerable to the negative effects of lead exposure, which has been associated with attention deficit disorder and other cognitive, behavioral and developmental issues, the three indicated in a statement.

"Access to Head Start can assist with mitigating the potential negative health impact of lead exposure in Flint children," they wrote. "According to a report published by the U.S. Department of Health and Human Services last year, 'research demonstrates that children with developmental

delays or at high risk for developmental delays benefit most from interventions that start at an early age."[i]

1-22-16

Hi Friends:

This is probably old news to most of you, but just in case you weren't aware, there are apparently provisions to waive some federal regs under emergency conditions. Those relevant to the Flint water crisis, are probably Medicaid, MI Child and HIPAA exemptions.

Sharing this link I received from my boss, the Michigan Director of Special Education, who received it from the USED this week.

Please share with others you think should see:

Mark,

We had the water tested at MSD last week and while the results in the new academic building were negative. The Stevens Hall tests came back positive for containing lead. In an effort to combat these results we are working to replace the old faucets in the facility with new ones. Subject to availability we plan to replace all 62 faucets in the next two weeks.

Hi Mitch,

We sampled at Manley because Tony Sitko and the Superintendent asked us to. There's nothing more to it than just that.

0930 Call

1. Michael Moore has scheduled a 4:00 p.m. protest at Flint City Hall on 1/16/16.
2. Lt. Gov. Calley scheduled to meet with distribution teams in the city over the weekend. There is delay in the visit.
3. Weather: warm today (above freezing); temps will drop starting this afternoon; should be between 0 and mid-teens through next Thursday. This affects distribution teams.

4. CHECC: Community Health Emergency Coordination Center; operates 8:00 a.m.-5:00 p.m. including this weekend and Monday.
5. LARA and DEQ: working in Flint Schools this weekend; plumbers in Freeman School replacing faucets; testing/sampling in Manley School and Eagles Nest Academy. Manley School is closed in the EEM. I will check with the DEQ rep that reported the water testing at that site. (DEQ rep doesn't' know anything about Manely School. I let him know it is closed as a school. It was a child care center.) Possible the building has been re-purposed.
6. Lots of effort spent on distribution sites and distribution teams (POD = points of distribution); integrating National Guard staff and Red Cross volunteers; also coordinating use of other volunteers into the daily operations. Coordination of water, filters, testing kits. Issues at distribution 6; standard issue at POD: 1 gallon water per family member; case of water per family. State is working to ensure that water is distributed without controversy, but also fairly.
7. Department of Corrections providing 23 trucks with drivers.
8. Joint Information Center: working on messaging; news release last night; will keep telling the distribution team story
9. Flint Water website to be updated; make more useful.
10. 211 is best number for people to call if they want to help with the crises.
11. No outstanding information request for MDE. Announced that we had enrollment and staffing numbers for all Flint area schools. Spreadsheet was up-loaded into MDE sit rep.
12. Tony Katarsky in for Captain Kelenske. Tony noted that the state has never run this type of operation for this long. He thanked all the state agencies and the American Red Cross for the on-going operations. "Keep up the good work."

3. Weather: warm today (above freezing); temps will drop starting this afternoon; should be between 0 and mid-teens through next Thursday. This affects distribution teams.

4. CHECC: Community Health Emergency Coordination Center; operates 8:00 a.m.-5:00 p.m. including this weekend and Monday.
5. LARA and DEQ: working in Flint Schools this weekend; plumbers in Freeman School replacing faucets; testing/sampling in Manley School and Eagles Nest Academy. Manley School is closed in the EEM. I will check with the DEQ rep that reported the water testing at that site. (DEQ rep doesn't' know anything about Manely School. I let him know it is closed as a school. It was a child care center.) Possible the building has been re-purposed.
6. Lots of effort spent on distribution sites and distribution teams (POD = points of distribution); integrating National Guard staff and Red Cross volunteers; also coordinating use of other volunteers into the daily operations. Coordination of water, filters, testing kits. Issues at distribution 6; standard issue at POD: 1 gallon water per family member; case of water per family. State is working to ensure that water is distributed without controversy, but also fairly.
7. Department of Corrections providing 23 trucks with drivers.
8. Joint Information Center: working on messaging; news release last night; will keep telling the distribution team story
9. Flint Water website to be updated; make more useful.
10. 211 is best number for people to call if they want to help with the crises.
11. No outstanding information request for MDE. Announced that we had enrollment and staffing numbers for all Flint area schools. Spreadsheet was up-loaded into MDE sit rep.
12. Tony Katarsky in for Captain Kelenske. Tony noted that the state has never run this type of operation for this long. He thanked all the state agencies and the American Red Cross for the on-going operations. "Keep up the good work."

Subject: RE: Can you describe the unlisted day care places for me?

Does this help?

If you are a licensed or registered child care provider, or wish to become one, we encourage you to take advantage of our information and resources to help you provide quality care.

If you provide care for a child receiving child care assistance from the State, use these resources to help you through the billing and payment process.

Unlicensed Child Care Providers are adults, age 18 or older, who are enrolled to provide child care for up to four children at a time (or six children, if all children are siblings, sibling groups, or living at the same address). Unlicensed providers can provide care in their own home or the child's home if they are related by blood, marriage or adoption as a:
Grandparent/Great-grandparent
Aunt/Great aunt
Uncle/Great uncle
Sibling

Unlicensed Child Care Providers who are not related to the child can only provide care in the child's home. You must meet requirements and apply to become an unlicensed provider in order to receive assistance payments for a child that you care for.

Subject: RE: Flint Water Crises UPDATE for Federal Health and Human Services

Marty-
Susan is offsite and I have shared this with her, but haven't heard back. I'm hoping in the meantime you can send forward the following for approval. The message would be going to the Office of Child Care, which is where the CCDF funding comes from.

On January 5, 2016, Governor Rick Snyder declared a State of Emergency for Genesee County as a result of the water situation in Flint and surrounding communities attached to the Flint Water System. As a result of this declaration, all state departments are required to work in coordination at our State Emergency Operations Center. Since that date, the Michigan Department of Education (MDE) staff have been working closely with various state agencies specifically focusing on health and safety issues. Under the Emergency Declaration, all communication regarding this event must be handled through the Joint Information Center. The state has a specific webpage for all Flint Water issues at www.michigan.gov/flintwater. The Flint Water site has up-to-date information on all actions related to the Flint Water Crises and specific actions taken to provide support to the citizens of Flint.

The Genesee County Health Department has held multiple forums regarding this situation. Dr. Eden Wells, Michigan's Chief Medical Executive. has been providing information and guidance to the Genesee Health Department which in turn is informing the community.

The state is actively working in the Flint communities to distribute water, water filters and replacement filters. In addition they are giving details on water testing procedures and blood testing. The state and county have teams going door-to door delivering water, filters, and information. In addition, there are local distribution sites set up at Flint area Fire stations and several local churches. This has been broadly advertised through multiple methods to ensure the widest possible dissemination. Door hangers with information are being left if no one is answering the door. Information is being provided in English as well as Spanish and Arabic.

The Michigan Department of Education is contacting all area providers that are operating school nutrition or child and adult care food programs. They are ensuring that information regarding the ongoing programs is understood and providing any help as required.

Water testing efforts have been on-going since October 2015. The Michigan Department of Environmental Quality is the state agency responsible for the water testing program. They have been implemented a testing program throughout the city. The water testing program is on-going.

The message would be going to the Office of Child Care, which is where the CCDF funding comes from.

Lisa, once you review this message and update to tailor, send to Marty. He will get permission to send from the JIC. To date nothing has been done specifically for the unlicensed child care providers. They would be covered by the door to door campaign. If you have contact information, you should do a message that highlights any precautions and tell them to go to the Flint Water website. You can include your update.

Subject: RE: Nutrition Planning

Hi Michelle,

A large amount of food that gets supplied to GCAARD and the Food Bank come from the CSFP and TEFAP programs. Meaning, we have a direct partnership with them during our program planning. Does this help? If not, please feel free to grab any one of us in the Education team.

Thank you,
Jaime Malnar

Subject: Nutrition Planning

Good Afternoon,

I attended a recovery meeting today and the Food Bank reported on their activities which included a couple of food initiatives including 100 mobile food pantries with lead reducing foods as well as nutrition bags with flint schools.

I know there was an ask to the federal government from the State Department of Education that requests "The City of Flint needs additional food supply to help provide healthy food choices for The Emergency Food Assistance Program (TEFAP) eligible families, with a focus on foods that are high in calcium, iron, and Vitamin C. Request is to use USDA disaster food package boxes."

This is outside of my lane but I just want to make sure that everyone is aware of the efforts that the Food Bank is involved in so there is no duplication of efforts.

Thanks!

Michelle Kuzera

>
> Hi Louis,
>
> My name is Rick Falck I am a Owner/Partner of Millbrook Water Co. My Sister Rebbecca gave me this email address and as I understand it her husband Scott had some conversation with you about our water co.
>
> We are drinking water co. providing artesain water to homes and businesses. What sets us apart form other companies is not only our quality of water but our ability to deliver in bulk as well. We have five gallon bottles like others but with our potable water hauling license we also haul in bulk with stainless steel tankers.
>
> We have helped with projects in both Oakland and Macomb county and see an opportunity to help in Flint. Seems the need to deliver to all the addresses makes it difficult to support all being able to be delivered. I envision fill locations in the city with large tanks that we can keep full with the good municipal water that is available now. Jugs can be provided and residents will come to these sites for refills. I see this also helping in building back the credibility of water as residents will be receiving "the good" Detroit water until new lines are run at which time they will be receiving the same water. There are other options available as well.
>
> I am looking for a little direction to get in front of the right people to propose. Any help is greatly appreciated.

Hi Dave,

I wanted to connect you with Tarah Somers from our team currently deployed in Flint, who has been identified by our Incident Manager as the representative approved to come to the meeting being hosted in Flint by US Dept. of Education on Friday starting at 8:30am, location TBD.

Perhaps the two of you can identify is there is a way that a state and/or local public health representative could be invited as well.

I will await word as to whether a conference phone line will be available; if so, I am glad to join remotely and support the plan forward however we can assist.

Many thanks,
Eric

ED's Goals for the Meeting:

1. Learn more about how the water crisis has impacted teaching and learning.
2. Understand what has already been done and what is planned by local and state officials in response to the impact of the water crisis on teaching and learning.
3. Learn how ED can be a helpful partner with local and state education officials.
4. Share information on ED resources that may be helpful to mitigate the impact of the water crisis on teaching and learning.

Agenda:

1. Introductions – all.
2. Description of what has already been done on behalf of students, parents, and staff – local education officials and state educational officials.

3. Description of what is planned on behalf of students, parents, and staff— local education officials and state educational officials.

4. Brainstorm of how ED can help – all.

5. Description of ED resources - ED.

6. Next Steps – all.

Hi Dave,

I wanted to connect you with Tarah Somers from our team currently deployed in Flint, who has been identified by our Incident Manager as the representative approved to come to the meeting being hosted in Flint by US Dept. of Education on Friday starting at 8:30am, location TBD.

Perhaps the two of you can identify is there is a way that a state and/or local public health representative could be invited as well.

I will await word as to whether a conference phone line will be available; if so, I am glad to join remotely and support the plan forward however we can assist.

Many thanks,
Eric

ED's Goals for the Meeting:

1. Learn more about how the water crisis has impacted teaching and learning.
2. Understand what has already been done and what is planned by local and state officials in response to the impact of the water crisis on teaching and learning.
3. Learn how ED can be a helpful partner with local and state education officials.
4. Share information on ED resources that may be helpful to mitigate the impact of the water crisis on teaching and learning.

Agenda:

1. Introductions – all.
2. Description of what has already been done on behalf of students, parents, and staff – *local education officials and state educational officials.*
3. Description of what is planned on behalf of students, parents, and staff— local education officials and state educational officials.
4. Brainstorm of how ED can help – all.
5. Description of ED resources - ED.
6. Next Steps – all.

Subject: ED Visit to Flint

In collaboration with other federal partners, the U.S. Department of Education (ED) has been working to support response efforts on the ground in Flint. ED staff have been working with state education officials to provide technical assistance and clarifications about how federal funds can be used to address the situation in Flint. And, on February 12, at a meeting hosted by the Genesee Intermediate School District, a team from ED will met with state and local education officials to discuss the impact the water crisis has had on the learning environment in schools in the Flint area and explore how the agency can be a helpful partner to state and local efforts.

The CDC is planning to call in and there may also be their local contact personnel attending. My OSEP state contact indicated that health representatives would be helpful. The USED team has a briefing on Capitol Hill Tuesday morning so any information that can be shared would be helpful.

I will send you the tentative agenda as I have just received it.

Kyle and Teri,

The meeting is getting lots of interest. Different departments, initially DHHS, but then the governor's rep has asked who do we want in the meeting.

I was told by Jenn this was primarily for Special Education issues.

Please let me know what I should tell them.

Teri and Ross, here is why there is interest: The Federal coordination group (representatives from all involved Federal agencies) have deployed to Flint and the USED rep briefed that they have this meeting. Now everyone (state agencies) wants to know if they need to send someone and if so, what kind of person to send.

The answer can be "thank you, but we don't need any one else at the meeting." Let me know and I will let them know.

Louis

I have made contact with all three entities via phone call this morning.

Scott Elementary: Closed. Vacant and not servicing students. (Tony Sitko's Office, FCS verified)

Greater Heights Academy: Not on Flint water. They are on Mt. Morris water system (Principal's Office verified)

The New Standard Academy: They are on Flint water. They were contacted by a Mr. Newton from SOM about an hour ago. (Jenna Darnell is contact, 810-787-3330). They have not been contacted prior to today.

Hope this helps.

> Operations: Water main break brings anticipation of increased need for bottled water. Keeping an eye on that. We will be fielding a lot of questions today. Be sure we are communicating a consistent response today so public is getting that one solid response. Make sure you are collaborating with others. Keep line of communication open and maintained. This is definitely a speed bump in progress we have been making, but we can overcome. Long term recovery planning group is meeting today.

NWS: Expecting snow showers to decrease through day. Big message is cold temperature (air mass) pushing in tonight. Looking at daytime temperatures of 15-20, with nightly lows into single digits. Wind chills of below zero beginning tonight. Frost bite at about 30 minutes or less. Reinforcing shot of much colder air this weekend, could be wind chills of -10 degrees. Frost bite exposure time is 15 minutes or less at that temperature.

DHHS: CHECC has lined up volunteers for distribution teams with DEQ. Wednesday webinar by Dr. Wells will be held, clinical webinars for health care providers. Continuing to work on behavioral health model with Genesee Health System.

MDARD: Nothing new to report

DEQ: 10 teams to begin sampling.

LARA: Working to finalize complete list of schools. Get with DOC for plumbing supplies. Working on translation of documents in all languages

Human Services: Reached out to children group to cross reference water test results. Blood testing FYI, have executive staff that lives in Flint. She received letter from insurance company encouraging her to get blood lead test and assured it was covered. Husband, retired GM, got similar letter. Health Care professional also encouraged blood lead test. Outreach is working out there. MDE reported work continuing with LARA, DEQ, and MDARD in relation to communicating with schools on replacement and testing. MSD parent meeting held last night. Dr. Eden Wells and Dr. Johnson (GCME) were present as were 12 parents and MSD staff. TV12 was there as well. Positive response to meeting. Side note: During meeting at MSD, the City of Flint alert came in about boiling water that allowed Dr. Wells and Dr. Johnson to address with participants

OCR: No update

Red Cross: 10 teams out yesterday, visited 440 homes. 10 teams again today to make sure every home has been touched and a couple of apartment complexes to make sure they have been touched. 15 new people processed through Volunteer Reception yesterday.

MSP: No update

MNG: No update

DOC: No update

DTMB: We are working on resource requests. Door hanger request to be delivered to Flint tomorrow

GIS: No update

UCG: Changes to task assignments, be sure to check. Testing and outreach continues. Working with Genesee County staff. USDA has reviewed request and is expected to announce result today. May be a public event. Overlapping efforts to make sure nothing is missed.

Local EOC: Trying to coordinate rapid response with warehouse management (Red Cross and United Way). 10 site monitor teams going out today. Management Plan document was updated last night and available in MiCIMS. Water main break: Teams in impacted area can provide information to homes in that area. Working with SEOC to identify addition needs for those in that area.

Logistics: Monitoring pods today and assume water will be in demand today. Working with FEMA to make sure we have truckloads coming in

Planning: No update

Finance: No update

Recovery: Working on next mission with water main break and getting filter cartridges to people

PIO: Boil water advisory went out to City of Flint last night. New filter cartridges will be needed by those

Deputy Director: Biggest priority this morning is messaging with boiling water and pods keeping ahead of uptick.

Next call: *16:00*

Subject: RE: Info on Flint Water Crises

Louis,

Ed has been called – gave him info on 211.

He asks that we keep his name and contact info in case there is a need to further collaborate on learning disability services (they have state and national level data). Ed might also call you in the future if he sees or hears of any trends related to needed services. Lastly, he asked if there is a person at MDE that could field/track calls related to learning disabilities stemming from Flint Water Crisis. I let him know that there is not a point person at this time but we would expect within MDE's long term planning that there would be a person/persons that could field questions related to lead-exposure learning disabilities. He was very satisfied with that answer.

Thank you,
Jaime

April,

In follow up to the conversation you had with Jen Lixey Terrill last night regarding communication with schools. MDE provides outreach to all schools who are registered with MDE. I have attached a short list of schools that do not register with MDE and are therefore not part of any outreach efforts by MDE. The list was provided by MDE.

Jen Lixey Terrill indicated to me that GCHD had put out messaging to all schools in the fall, but have not again since. MDE offered to "cc" the GCHD when they send out communications to the schools that they have access to, and then GCHD could forward the information to the remaining non-public schools. This was well received by April and would ensure that the same resources would be given out uniformly among all schools. Thus the attached list for you. LARA also reviewed this list and identified that some of them do not receive water bills. However, MDE feels that the discrepancy there relates to another entity at a different address such as the church or corporate office gets the bills. Therefore, it is probably prudent to include all of these schools in any outreach to schools conducted by the GCHD.

If you have any questions, please feel free to contact me.

Also, please note the change in phone number for our desk in the SEOC.

I spoke to Delphine this morning. She provided me the contact information for the inquiry... The request came from Jose Alfonso (617-515-6638), who is affiliated with the International Academy of Flint. I reached out to him and provided the information at the local level on how to obtain need resources. He was appreciative of the call.

My contact at Nestle is Delphine. Her number is 203-863-0279. She will be emailing Janet Hunter to discuss donation needs besides what they have committed with Walmart.

She said she received a call from a charter school that said they couldn't get water from the school system. Can you please forward this to Dept of Ed so they can follow up?

Thanks,
Kristi

Subject: RE: IMPORTANT - Important Request Regarding City of Flint Water

Jaime,

As we discussed I wanted to follow up on this and let you know what I know.

MDEQ and MLARA are working with the all Flint Community Schools to sample, replace equipment and provide support to the school system. Additionally sampling is being done over the weekends due to the requirement that the water has not been used for a minimum period of time prior to sample collection.

Contacted Sean D, Liaison to Genesee County HD regarding this question, and verified with MDEQ/MDHHS the above information.

I also verified with Sean D. that MDARD/Genesee LHD will be following up with parochial/private/charter schools in the affected area, both sampling, guidance and assessment of the facilities actions.

Discussion with MDEQ verified that they will continue to work with LARA at the schools on replacement and sampling and are developing a plan to expand the program to include child care facilities and some others, a plan should be available for review within the next 24 hours please contact Jen at the EOC desk for further details if needed.

Additionally as we discussed in the activity log it was noted that MDE would be contacting the Flint community schools. I also found reference to a document being developed by MDE for distribution to schools that was in the process of being condensed (from ten pages to two) which I believe also address the issues being raised in this email thread.

I would suggest that the Food Program director be directed to the school system superintendent for information on which schools have been sampled and what actions they will need to take as a result of the sampling and replacement of fixtures that have been identified by MDEQ/LARA.

MDARD has supplied through the JIC the requirements for Food Service (restaurants/bars etc.) and Food establishments on how to manage their water use in response to this incident. To my knowledge that document was posted to the Flint Water response webpage.

Let me know if you have any additional questions.

Good morning,

We have been really busy with the media contacting the district this week.
Flint Schools has used jug/bottle water for food prep.

Is there a water filter that will filter out lead that the district could purchase?

Thank you,

You are receiving this email because you participate in the Michigan Department of Education's (MDE) Child and Adult Care Food Program (CACFP) or the National School Lunch Program (NSLP). Do you use the City of Flint water? If so, do you have a water filter, or an alternate source of water for your participants in the Child Nutrition Programs? Please respond to this email by COB Tuesday, January 26, 2016. Thank you for your time to respond to the MDE.

Subject: RE: IMPORTANT - Important Request Regarding City of Flint Water

Jaime,

As we discussed I wanted to follow up on this and let you know what I know.

MDEQ and MLARA are working with the all Flint Community Schools to sample, replace equipment and provide support to the school system. Additionally sampling is being done over the weekends due to the requirement that the water has not been used for a minimum period of time prior to sample collection.

Contacted Sean D, Liaison to Genesee County HD regarding this question, and verified with MDEQ/MDHHS the above information.

I also verified with Sean D. that MDARD/Genesee LHD will be following up with parochial/private/charter schools in the affected area, both sampling, guidance and assessment of the facilities actions.

Discussion with MDEQ verified that they will continue to work with LARA at the schools on replacement and sampling and are developing a plan to expand the program to include child care facilities and some others, a plan should be available for review within the next 24 hours please contact Jen at the EOC desk for further details if needed.

Additionally as we discussed in the activity log it was noted that MDE would be contacting the Flint community schools. I also found reference to a document being developed by MDE for distribution to schools that was in the process of being condensed (from ten pages to two) which I believe also address the issues being raised in this email thread.

I would suggest that the Food Program director be directed to the school system superintendent for information on which schools have been sampled and what actions they will need to take as a result of the sampling and replacement of fixtures that have been identified by MDEQ/LARA.

MDARD has supplied through the JIC the requirements for Food Service (restaurants/bars etc.) and Food establishments on how to manage their water use in response to this incident. To my knowledge that document was posted to the Flint Water response webpage.

Let me know if you have any additional questions.

Good morning,

We have been really busy with the media contacting the district this week.
Flint Schools has used jug/bottle water for food prep.

Is there a water filter that will filter out lead that the district could purchase?

Subject: RE - Flint Parent

I called back this afternoon. I reminded him that the school district is under local control vs. state control but let him know that we (MDE) very much appreciated the call regarding the large number of students that have stopped or may stop attending their school. He plans to get a group of parents and teachers together to talk to the school board about their concerns. He was very happy that I called back and appreciates that MDE is concerned about the health *and education* of their kids. He says Pierce is a good school and they fought hard to keep it open these past few years. If the board knows that many families are considering walking away from their homes and, in turn, their school –they may take action.

(Note: According to him, most of his neighbors may just leave their homes and let them go into foreclosure now that they know they are responsible for any plumbing corrections from the road and anything within their homes. This is just a note as we may see a huge dip in residency and therefore enrollment in Flint area schools)

Thank you,
Jaime Malnar

appreciates the return call. He has already called the Principal, Superintendent, and school board. They are now refusing to take his calls. He tells me 100+ kids are refusing to attend school, 110 or more will stop attending soon if this is not handled. He has full report and photographs that were obtained by a private company. Parents feel they are being lied to. has left a copy of report with Mayors office, health department, Governor's office, shared 20K times on Facebook... his next step is to contact the media. Health Department asked him to call MDE due to the large number of kids not attending classes.

The environmental report included lead and asbestos. I reminded him that the school district is under local control rather than state control but he still asked that MDE call him back today.

Jaime,

I would like you to call The school is Pierce School, part of Flint Community Schools. Here is the message:

1. Thank him for contacting MDE.
2. Recommend that he take this to the principal of Pierce School: Shalonda Byas, (810) 760-1386.
3. Second step is to contact the Superintendent for Flint Community Schools. Mr. Bilal Tawwab, (810) 760-1249. As a next step, he should contact the local school board.
4. This is a local control state and the questions that he is asking are for the local administrators to respond. He may have been directed to call the state JIC, but his resolution should come from the building principal and local supe.

This is pretty standard response. Take notes and let me know the result.

Good luck,

Louis

Subject: FYI from SEOC

Happy Monday!

Just received a call from Shane Peters at Bridgeman Schools. He was unable to get through to the Food Bank of Eastern Michigan regarding a donation and thought the phone number was not working. The phone number that has been posted is fully operational but they are having several issues due to the mass influx of calls. In case any other school districts call the SEOC regarding issues with phone numbers, please tell them to try the number again in a few minutes. Also, I didn't realize the SEOC phone number was released in Brian Whiston's memo, so consider this a heads up that school districts may be calling you while here.

Subject: RE: College Students

Richard, we don't do colleges.

This seems to be more of a distribution or POD procedure. My take is that they are giving out water to anyone so do we just tell the distribution teams to be aware that there are college students that also need water.

The request is to make sure the distribution sites understand that college kids won't have a driver lisence or a home address that shows Flint, yet they live in and around their school.

Mott Community College is in Flint: they don't have anything on their website.

Good morning,

I'm hoping you can help with a constituent call we just got. Her child is a student at one of the local colleges and the students don't have water bills or local drivers licenses. We need to make sure that the water and filter distribution sites are providing water to students with a college student ID. Can you help us get this message to those sites ASAP?

Thanks,

Subject: Important Message regarding Dimondale Elementary

Greetings Holt Public,

I am writing to share a memo that was sent to our Dimondale families. Every three years, we are required by the Department of Environmental Quality (DEQ) to test the drinking water at Dimondale Elementary. I am writing to inform you that elevated levels of lead were discovered during routine testing this past summer.
We immediately began to correspond with our Dimondale families and below you will find a memo sent on August 25, 2015 as well as our mid-year update memo that was sent today. The safety and health of all of our stakeholders continues to be a priority!

See below:

Sincerely,

David G. Hornak, Ed.D.
Superintendent, Holt Public Schools

January 21, 2016

Dear Dimondale Elementary Parents and Guardians,

In an effort to continue communication with all of you, I would like to provide you with a mid-year update concerning the water situation at Dimondale Elementary.

A random drinking water test, which is required by the Department of Environmental Quality (DEQ), was performed over the summer and elevated levels of lead were found in two of the samples. In August, I sent out information to all families about this situation and assured you that water stations would be available for all students since all drinking fountains would be disabled. Those water stations are still in place and the students and staff at Dimondale have adapted very well to this system for accessing drinking water.

Since that time, the district has been in constant communication with the DEQ and the Barry/Eaton County Health Department to work on resolving this issue. As part of this communication, I would like you to be aware that repairs were made to drinking bubblers, unused plumbing lines were removed and water supply lines were replaced with braided stainless supply lines. Each upgrade was completed with the overall improvement of the water quality in mind.

The next random water sample test to evaluate the lead levels will be conducted in March. We will continue to communicate the results of our water sample tests and remain hopeful that the improvements that we have completed will have a positive result.

In an event that you have additional questions regarding this issue, please contact me at 517-694-5715 or by email at SuptOfc@hpsk12.net
Sincerely,

David G. Hornak, Ed.D.
Superintendent, Holt Public Schools

***A copy of this email has also been sent to each family with children attending Dimondale Elementary.*

August 25, 2015

Dear Dimondale Elementary Parents and Guardians,

In an effort to over communicate with you, I would like you to read the following announcement.

Every three years, we are required by the Department of Environmental Quality (DEQ) to test the drinking water at Dimondale Elementary. I am writing to inform you that elevated levels of lead were discovered during routine testing. Although the samples were taken in the summer, we are taking precautionary measures by providing alternative potable water sources for the students and staff to enjoy until we can have additional water samples analyzed.

The DEQ has a nationwide rule that allows lead drinking water levels to be at or below 15 parts per billion. As indicated above, this round of sampling occurred when the building was dormant, which may have contributed to the results being slightly higher than normal.

Moving forward, the water at Dimondale Elementary is safe for daily hand washing. We are safely disabling all water fountains in the building until we can complete the next round of analysis. Families can help by sending a filled reusable water bottle to school on a daily basis. When needed, children may refill a water bottle at one of the five water stations placed throughout the building.

We are looking forward to the beginning of the 2015-16 school year. By remaining true to our increased level of communication this year, we hope you find comfort in the proactive nature of our actions. By providing the DEQ with additional water samples, temporarily disabling water fountains, and by providing drinkable water for the students and staff to enjoy, we have been permitted to begin the school year as scheduled on September 8, 2015!

In the event you have additional questions regarding this issue, please contact me at (517) 694-5715 or by email at SuptOfc@hpsk12.net.

Sincerely,

David G. Hornak, Ed.D.

Superintendent, Holt Public Schools

Subject: Re: FYI: follow-up to meeting

LARA licensing staff have been contacting each licensed facility asking the following questions:

Are you on the Flint water system
Have you received filters
Have you received cartridges
Have you received bottled water
Are you aware of Michigan.gov/FlintWater
Do you need any other supplies, if so what
How many faucets are for drinking water
How many residents in your facility
Are you testing your water
If yes, when was the last test completed
Do you need your water tested

These questions are being asked to determine the resources needed for the specialized facilities. Once we have numbers and needs accumulated, we plan to have our staff go to these facilities and provide the supplies. This was a plan developed last week. I have looked at the questions on the IPAD and believe that over half of them have already been answered due to our survey. We could include someone with the IPAD to enter the data that hasn't been already provided.

Perhaps since each agency has specialized licensed facilities, we need to have a sit down - excluding MDE since the schools are already on our lists and in the works.

Importance: High

Good afternoon,

We are putting together an abbreviated plan for distribution/canvassing protocols for the phase 2 canvassing. Since I had spoken with Karen about this before Tony asked several of us to put together a plan, could I ask each of you to quickly breeze through this to see if its consistent with anything your department may be planning? And if there are any things left out that you think should be there?

Karen, I had already outlined a few things in red that I added to the first draft given to me, so please let me know if those are off base or need something added.

Thanks, Tony is asking for this by 2. If there's any chance you could get a quick review back to me by 1230 or 1, that would be very much appreciated.

Thanks much!

Tom Weber, PEM

Requirements for Licensed Food Establishments Using City of Flint Water

January 13, 2016

Attention: ***This applies to licensed restaurants, grocery stores, convenience stores, food processors and food warehouses.***

- The best way to determine if water contains lead is to have it tested. Safe results can be posted to inform consumers.
- To schedule a free collection and analysis of your food establishment's water for lead, call 1-800-292-3939 and state you're a "Flint food establishment requesting a water test." Be prepared to provide a time when your water system can be sampled where water won't have been used for at least 6 hours. Sampling appointments as early as 5 a.m. are available.
- Restaurants with general questions should contact Genesee County Health Department at: 810-257-3612.
- Grocery or Food Processing establishments with general questions should contact MDARD at: 1-800-292-3939.

Unless the water has been tested and found to not have a lead concern, do the following:

- Flush water lines for 5 minutes each day before using or serving water and after 6 hours of no water use. Then flush other equipment such as pop machines for at least 1-2 minutes.
- Install an NSF Standard 53 certified filter on the faucet where drinking/cooking water is obtained from. Approved filter information for faucet or in-line filters can be found at: http://nsf.com/newsroom/statement-regarding-flint-water-system-lead-issue-and-to-certification-nsf. Filters must be changed based upon the manufacturer's recommendations.
- Use cold water and store it for immediate consumption.
- Always use cold water for drinking, cooking and cleaning/rinsing food.
- Hot water must be used for dishwashing.

Other equipment that may use city water:

- Ice machines – Install a water filter on the supply line or use bagged ice in drinking water.
- Pop machines – Flush for 1 minute daily or use bottled beverages.
- Coffee machines or Tea Urns – Flush for 1-2 minutes daily or use filtered water. These products may be very low risk as young children under 6 are not likely to consume these.
- Slush machines – Use filtered water.
- Spray misters – Flush for 1-2 minutes daily or use filtered water.

A licensed plumber can check your plumbing and service lines for lead soldering or lead service lines.

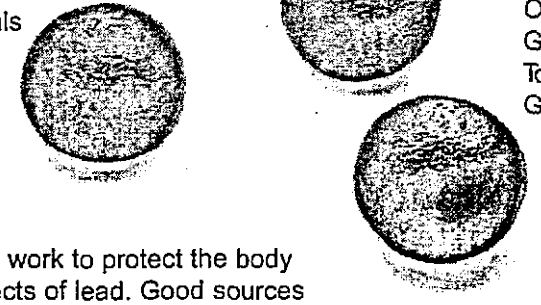
DEQ

Michigan Department of Agriculture & Rural Development

Help Fight Lead Poisoning with a Healthy Diet

Regularly Eat Healthy Foods

Children with empty stomachs absorb more lead than children with full stomachs. Provide your child with four to six small meals during the day. The following nutrients can help protect your child from lead poisoning:

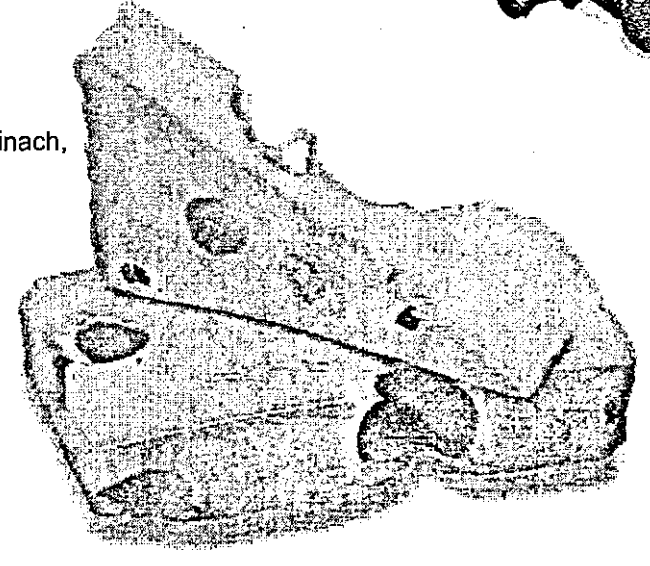


Iron-Rich Foods
Normal levels of iron work to protect the body from the harmful effects of lead. Good sources of dietary iron include:

Lean red meats, fish, and chicken
Iron-fortified cereals
Dried fruits (raisins, prunes)

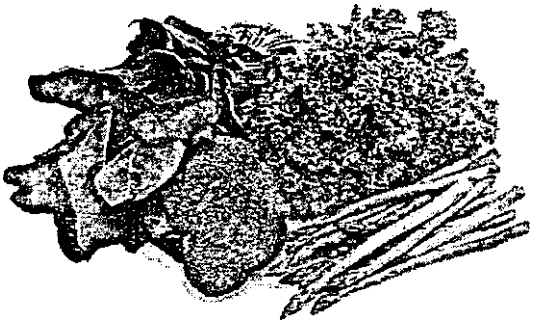
Calcium-Rich Foods
Calcium reduces lead absorption and also helps make teeth and bones strong. Good sources of dietary calcium include:

Milk
Yogurt
Cheese
Green leafy vegetables (spinach, kale, collard greens)



Vitamin C-Rich Foods
Vitamin C and iron-rich foods work together to reduce lead absorption. Good sources of vitamin C include:

Oranges, orange juice
Grapefruits, grapefruit juice
Tomatoes, tomato juice
Green peppers



Simple Steps You Can Take

to Protect Your Family from Lead Hazards

If you think your home has high levels of lead:

- Make sure your children eat healthy, low-fat foods high in iron, calcium, and vitamin C.
- Get your children tested for lead, even if they seem healthy.
- Get your home tested for lead if it was built before 1978. Call 1-800-424-LEAD for more information.
- Always wash your hands before eating.
- Wash children's hands, bottles, pacifiers, and toys.
- Do not use imported pottery to store or serve food.
- Let tap water run for one minute before using.
- Use only cold water for making your baby's formula, drinking, and cooking.
- Regularly clean floors, windowsills, and other surfaces using wet methods that control dust.
- Wipe or remove shoes before entering your house.
- If you rent, it is your landlord's job to keep paint in good shape. Report peeling or chipping paint to your landlord and call your health department if the paint is not repaired safely.
- Take precautions to avoid exposure to lead dust when remodeling or renovating.
- Don't try to remove paint yourself!

I just got off the phone with April at the GCHD who said she is unable to attend due to other responsibilities. She was be sending information on their activities related to schools and if we get it in time, will be given to the MDHHS person who will attend. Kory Groetsch, toxicologist will be attending the meeting on behalf of MDHHS. Also, Gloria Zunker from the CHECC will be in attendance should there be any questions specific to nutrition and the schools as she has been leading a state work group that has been discussing this issue. Linda

> Mary – This is the email that you sent to Kerri. I do not see that this was sent to the SEOC or perhaps you did that in another email that I did not see. In here you noted "they are also trying to coordinate with April" so am hoping you don't mean we are the they as that was not clear. The mission of the meeting and the agenda are at the beginning of this email. It looks like they are looking for someone to do a health update specific to teaching and learning....did MDE get this by way of our EMC in the SEOC? L

Thanks for reaching back after our phone conversation earlier, Sujeet.

I'll await to hear from our in-person representative, Tarah Somers, to see if she prefers to contact state and local public health representatives regarding the meeting or if that is something we can assist with from the EOC in Atlanta.

Thanks again,
Eric

Hi Eric,

Circling back on this, I think it'd be fine to invite public health officials to join the conversation on Friday. Once we have the details confirmed, we'll pass those along. But feel free to reach out to anyone to give a heads-up.

Thank you,
Sujeet

Hi Dave,

I wanted to connect you with Tarah Somers from our team currently deployed in Flint, who has been identified by our Incident Manager as the representative approved to come to the meeting being hosted in Flint by US Dept. of Education on Friday starting at 8:30am, location TBD.

Perhaps the two of you can identify is there is a way that a state and/or local public health representative could be invited as well.

I will await word as to whether a conference phone line will be available; if so, I am glad to join remotely and support the plan forward however we can assist.

Many thanks,
Eric

ED's Goals for the Meeting:

1. Learn more about how the water crisis has impacted teaching and learning.
2. Understand what has already been done and what is planned by local and state officials in response to the impact of the water crisis on teaching and learning.
3. Learn how ED can be a helpful partner with local and state education officials.
4. Share information on ED resources that may be helpful to mitigate the impact of the water crisis on teaching and learning.

Agenda:

1. Introductions – all.
2. Description of what has already been done on behalf of students, parents, and staff – local education officials and state educational officials.
3. Description of what is planned on behalf of students, parents, and staff— local education officials and state educational officials.
4. Brainstorm of how ED can help – all.
5. Description of ED resources - ED.
6. Next Steps – all.

Subject: RE: SEOC coverage during the OSSS staff meeting

Diane & Louis:

A question I was going to ask at the OSSS meeting next week is about archived e-mails. I *WAS* backing up my archived e-mails on a flash drive. What is the best way to back up our archived e-mails at this time? I am having some anxiety about not having backed up these documents in a while...

No hurry on response – or it can be addressed at the OSSS meeting next week.

Jaime

On Feb 17, 2016, at 3:59 PM, Bouvy, Mark (MDE) <BOUVYM@michigan.gov> wrote:

Good afternoon Joe,

For the benefit of other people copied on this e-mail, I need to explain that you are the Chief of the Plumbing Division with Michigan Department of Licensing and Regulatory Affairs (LARA) and have been leading the efforts of the Joint LARA/DEQ team that has tested water and inspected the plumbing system at MSD.

For clarity purposes, I feel the need to recap our conversation that we had yesterday.

You explained to me that LARA has made a material list of further plumbing upgrades needed to be made and that you plan to coordinate a team of plumbers coming into MSD as soon as possible to change:

1. Water supply valves to sinks in Stevens Hall
2. Faucets in the school building

I explained that MSD is not a typical school facility in that we are situated on private property that is leased from Lurvey-White Ventures of Flint (State Lease Number 11530-2010). Ultimately, the landlord holds responsibility for maintenance of the facility per the terms of the lease.

Neither Michigan School for the Deaf, nor our parent agency, the Michigan Department of Education, are able to assume any responsibility for any of the work that would be performed. It's our hope that you will obtain any necessary consent from the property owner before proceeding with any modifications.

At the same time, we would like to express our deepest gratitude for you sharing your technical expertise and making such strident efforts to ensure the safety of our students and staff.

Sincerely,

Mark Bouvy, Administrative Manager

Follow Up Flag: Follow up
Flag Status: Completed

The faucets would be a donation from Delta. Alesha (LARA) anticipates a shipment on Feb 26th but because it's a donation she cannot press them for an exact delivery date or amount.

Jaime

I explained that MSD is not a typical school facility in that we are situated on private property that is leased from Lurvey-White Ventures of Flint (State Lease Number 11530-2010). Ultimately, the landlord holds responsibility for maintenance of the facility per the terms of the lease.

Neither Michigan School for the Deaf, nor our parent agency, the Michigan Department of Education, are able to assume any responsibility for any of the work that would be performed. It's our hope that you will obtain any necessary consent from the property owner before proceeding with any modifications.

At the same time, we would like to express our deepest gratitude for you sharing your technical expertise and making such strident efforts to ensure the safety of our students and staff.

Thank you for the follow-up to Mark's e-mail. We are already working with Johnson & Wood and Jeff regarding the faucet replacement program as a whole, so that should be no problem at all. They are both key pieces in us completing this project!

We are currently working on obtaining the last of the faucets needed to complete work in the main school building at MSD. If I am able to get that order before the end of the week, I would like to try and complete work in all three buildings this weekend. I will certainly keep you posted as I know more.

If you have any questions, please do not hesitate to get in touch with me. We greatly appreciate everyone working with us on this project.

Have a great evening,

Alesha

Kyle and Teri, this is an update from Mark. His concern is that LARA Chief Plumber is planning to go into the school without coordinating with the building owners.

I sent this to the SEOC and Kevin will mention this to Alesha (today's SEOC rep from LARA). There is some sensitivity here. It is being worked out between LARA staff and MSD.

Good afternoon Joe,

For the benefit of other people copied on this e-mail, I need to explain that you are the Chief of the Plumbing Division with Michigan Department of Licensing and Regulatory Affairs (LARA) and have been leading the efforts of the Joint LARA/DEQ team that has tested water and inspected the plumbing system at MSD.

For clarity purposes, I feel the need to recap our conversation that we had yesterday.

You explained to me that LARA has made a material list of further plumbing upgrades needed to be made and that you plan to coordinate a team of plumbers coming into MSD as soon as possible to change:

1. Water supply valves to sinks in Stevens Hall
2. Faucets in the school building

I explained that MSD is not a typical school facility in that we are situated on private property that is leased from Lurvey-White Ventures of Flint (State Lease Number 11530-2010). Ultimately, the landlord holds responsibility for maintenance of the facility per the terms of the lease.

Neither Michigan School for the Deaf, nor our parent agency, the Michigan Department of Education, are able to assume any responsibility for any of the work that would be performed. It's our hope that you will obtain any necessary consent from the property owner before proceeding with any modifications.

At the same time, we would like to express our deepest gratitude for you sharing your technical expertise and making such strident efforts to ensure the safety of our students and staff.

Marty,

We've just received the results from the January 23rd water testing by LARA/DEQ.

The results are showing one elevated lead result for a faucet in the LRC dorm building. Since that testing, I'm fairly certain that the landlord has changed all of the faucets in the LRC. (I'm waiting for verification on that from Dave Lurvey).

The results also show elevated copper levels at two locations in the LRC and three locations in the school building. We've reached out to the Genesee County Health Department to see if they have any information on this topic that we can share with parents and staff. If they don't have anything, we'll use information we've found from the CDC. We're planning to send information to parents as soon as possible.

Thanks.

Good Morning Mr. Bouvy,

Attached you will find a consolidated report along with data sheets relative to the drinking water fixture sampling that was conducted on January 23, 2016. While at the facility we took samples from the MDE and LRC buildings. As you will recall, the third building was having fixtures replaced by the building owner and we could not obtain samples.

Once the facility fixtures have been replaced we will revisit and conduct sampling at all three of the buildings associated with the school.

Please let me know if you have any questions about the attached report. Unless there are concerns that need to be addressed the report will be posted to our website tomorrow evening.

Thanks again for all of the assistance that you and your staff provided during our initial sampling visit.

Subject: Replacing plumbing fixtures, valves, etc. at Michigan School for the Deaf (MSD) in Flint

Good afternoon Joe,

For the benefit of other people copied on this e-mail, I need to explain that you are the Chief of the Plumbing Division with Michigan Department of Licensing and Regulatory Affairs (LARA) and have been leading the efforts of the Joint LARA/DEQ team that has tested water and inspected the plumbing system at MSD.

For clarity purposes, I feel the need to recap our conversation that we had yesterday.

You explained to me that LARA has made a material list of further plumbing upgrades needed to be made and that you plan to coordinate a team of plumbers coming into MSD as soon as possible to change:

1. Water supply valves to sinks in Stevens Hall
2. Faucets in the school building

I explained that MSD is not a typical school facility in that we are situated on private property that is leased from Lurvey-White Ventures of Flint (State Lease Number 11530-2010). Ultimately, the landlord holds responsibility for maintenance of the facility per the terms of the lease.

Neither Michigan School for the Deaf, nor our parent agency, the Michigan Department of Education, are able to assume any responsibility for any of the work that would be performed. It's our hope that you will obtain any necessary consent from the property owner before proceeding with any modifications.

At the same time, we would like to express our deepest gratitude for you sharing your technical expertise and making such strident efforts to ensure the safety of our students and staff.

Sincerely,

>
> I just spoke with Mark Bouvy at MSD.
>
> When the school first heard of the water lead issue back in September, they conducted their own testing at the school... which came back with clear results. The administrators at the school closed down the fountains and have been purchasing 35-gallon water dispensers (150 gallons/week) from Culligan that are placed near the drinking fountains. They also placed water filters at the cafeteria drinking fountain and kitchen sink for use in cooking/food prep.
>
> MSD has been on the waiting list to get tested by DEQ since mid-December. The landlord (Lurvey-White Ventures) on its own, decided to have another test done on January 14 – this time testing both the school and the dorm. The dorm test came back with the elevated lead levels in the water.
>
> The school received word today from the landlord that they will expedite the replacements of the 62-65 faucets in the dorm beginning tomorrow (Friday) and expect to have them all replaced by the end of the weekend.
>
> There are 167 total students at the school, 75 of which board in the dorm.
>
> The landlord and school administration also are looking at either replacing the shower heads in the dorm, or installing in-line filters to the showers. In the meantime, resident students are using the showers at the school, which has been tested and found to be lead-free.
>
> The parent letters were sent out yesterday, by postal service and on the schools webpage. The next scheduled Parents Meeting is February 9, when parents can come and ask questions. The letter also informed the parents that they can contact Janet Kelley at the school in the interim.
>
> THE BOTTOM LINE: the administration and landlord of MSD got ahead of this issue back in September and taken all of the cautionary measures to ensure the health and safety of the students at the school. Instead of waiting to get their water tested by the DEQ, they got it done privately and took immediate steps to respond to the issue when it became known.

Thanks.

I think it's important to communicate to parents and media who call, that MSD/we were proactive in getting testing done...was the school even on DEQ's list to test?

And, do we know if the landlord, or the MSD staff initiated the first water test?

Thanks.

Good morning Louis,

We have a date for DEQ coming to MSD to do more extensive testing. It will happen beginning on Friday, January 29th, at 8:00am with a three man crew here doing testing on that day and the following day.

I was also contacted by MSP Lt. Roach from the EOC late yesterday. Her group is planning to drop off some water and ten kitchen-sink-style water filters for possible use in the classrooms that have sinks.

Thanks.

Subject: Fw: DHHS Goals Doc

Louis,

1. Landlord hired contractor for faucet replacements in both dorm buildings (Stevens Hall and LRC).
2. Children have been using new dorm faucets for washing their hands only (no drinking or teeth brushing).
3. LARA hasn't told me anything about new work to be done in school. I only have second-hand information from landlord's maintenance staff indicating faucets will need to be replaced.
4. LARA/DEQ is overseeing this whole process, so I believe they will ensure the final work is appropriate.

Louis,

Need some additional information on this:

1. How was the contractor that did the work, and who hired them -- was it LARA or the MSD landlord?
2. Did children use any of the new faucets before this was discovered?
3. How much work are we talking about at the school itself?
4. What is going to be in place this time around to ensure that the work is done properly?

Thanks

KG

Louis,

Regarding updating your grid below, the only update I can provide is for item 3a - blood testing date. That was completed on February 8th.

LARA has not provided a date to me for coming back to test Stevens Hall dorm.

I had heard that LARA was going to require the landlord to make some changes:
1. Stevens Hall - replace water supply shut-off valves under each sink
2. School building - replace faucets. Industry standards regarding faucet lead content changed in 2014 and school was constructed in 2012

LARA didn't communicate these changes to me directly. The landlord's maintenance person told me. He accompanied them on a walk-through last Saturday.

Thanks.

Meeting went well.
Dr. Eden Wells actually was there, as well as Dr. Johnson (Genesee County Medical Executive), to do a presentation and answer questions. Approx. 12 parents and staff there. Media (Channel 12) showed up late, but interviewed Dr. Wells and MSD principal CeCe Winkler. Both did a great job.

Interesting.. that during the meeting the City of Flint sent out an alert that a water main break on S. Saginaw Street caused a "boil water alert" ... so that was a neat little twist, and Dr. Wells and Dr. Johnson were there to respond to that, too.

Overall, no problems at the meeting.

Subject: MSD Parent Meeting on Tuesday
Importance: High

I wanted to remind (inform?) the JIC that the Michigan School for the Deaf has its regularly-scheduled Parent Meeting tomorrow night from 6-7:30 p.m. at the school.

The school has been very diligent in its effort to keep the MSD parents informed on the water situation at the school and its residential dorm. I just spoke with the principal and she is not aware of anything unusual or unexpected action by parents at this meeting.

There is a possibility that media may show up for that Parent Meeting.

I will be there at the Parent Meeting. Anyone from the JIC is more than welcome to attend as well.

Louis,

We've received confirmation that Dr. Eden Wells, Chief Medical Executive of the Michigan Department of Health and Human Services, will be attending our February 9th MSD parent meeting to address any parental concerns regarding lead exposure.

Thank you for your help in arranging this.

Subject: MSD drinking fountain installation date

Follow Up Flag: Follow up
Flag Status: Completed

Good morning Joe,

The landlord has confirmed that the last Stevens Hall drinking fountain will not be installed until this weekend (February 6-7).

I will confirm with you next Monday that it has been installed so you can plan for testing.

Thanks.

Subject: Federal Government Water Crisis Response

Louis,

We were visited today by Dr. Jamal Gwathney, representing the U.S. Department of Health and Human Services. He said his agency is part of a coordinated federal response involving HHS, FEMA, and CDC.

He asked background questions about our school's response to the water crisis, and offered to assist us with any unmet needs. He seemed satisfied that our school's needs are met.

He asked about other potential contacts within the Deaf Community, and I referred him to Communication Access Center (CAC). They are the local non-profit group that runs several group homes for Deaf people, a Deaf senior citizens program, interpreter services, and provides contracted staff to MSD.

Thanks.

Louis,

Two of the three water fountains are installed. We are anticipating the last one will be installed by mid-week. The landlord is working to get a more precise estimate from his plumber, and I will pass that along to you once we have that date.

Thanks.

Alesha,

The latest word from the landlord is that the three new drinking fountains will be installed this weekend. He said we should allow him until mid-week, next week, as a back-up estimated completion date. Based on that, I contacted Joe Madziar, and he indicated next Friday would be a tentative date for them to come back for Stevens Hall testing.

I think we will have a better idea on Monday morning. I will provide you with an update then.

Thanks.

Mark,

I wanted to follow-up with you to see what your schedule was for completing construction. Do you have any details you can share with me? I know there was a request to try and conduct retesting at your school next weekend. I can tentatively schedule something, but I can't finalize anything until I now that construction is completed. Then the water must sit stagnate for at least 8 hours prior to the test being conducted.

Any information you can provide me would be helpful.

Thank you,

Subject: RE: School for the Deaf Parent meeting

Good afternoon,
We were directed by the previous OSE Director to host 3 meetings a year. This is a scheduled meeting. There was rumblings on Facebook and in person about the safety of lead particularly for showers.
We have an agenda for the Meeting

- Water
- My replacement
- I can't remember the other items.

It may be the usual 7 people ...it may be more. The news stations played it as this big meeting about water.
It will be held in the Media Center in the front of the building which is all glassed in. The room is opposite the gym and anyone attending the meeting will have sight access.

Our purpose for this meeting was twofold

1. Ally fears
2. Provide parents with info regarding upcoming events

Our fears are

1. that.the press will show up
2. we will not sound authoritative nor have the background knowledge re the safety of the water for showers.

- The meeting runs from 6-7:30
- I will end it at the time.
- There will be cookies/ coffee and punch. If basketball gets over the kids will try to abscond with all of the cookies so get yours early.
- There will be 2 Sign Language Interpreters. I will most likely facilitate the meeting.

- I will use the language of power in the room. If no Deaf parents I will use the interpreters.
- IF we have Deaf parents I will sign and the interpreters will voice for me.
- There will be an agenda distributed before the event I hope.
- Mark gave it to his secretary.
- We will have it on chart paper at the front.

Customer Service is a priority at the Michigan Department of Education – helping Michigan schools, families, and communities improve the achievement and well-being of ALL our children.

Hi April,

My counterpart in the SEOC from the Department of Licensing and Regulatory Affairs (LARA) just returned from a meeting at the School for the Deaf in Genesee County. They are very concerned about their students bathing in the water who live in the dormitory at the school, because many of them have feeding tubes and etc. Many parents are even considering taking the kids out of the school. A meeting has been scheduled with parents for February 9th. Is this something that the LHD could send a subject matter expert to, perhaps your local Medical Director, to help ease their concerns and answer their questions?

Please let me know.

Thank you,

Louis,

I spoke with DHHS State Nurse Consultant for Lead Program, Karen Lishinski, about this last night. She wanted to know potential questions they might get about the water situation.

I told her that we anticipate two general topics.
1. Is water safe for showering?
2. What are the health impacts of kids having drank the water? What should parents be looking for in their children that might indicate lead poisoning?

The meeting is set for February 9th from 6:00pm to 7:30pm in the MSD Media . Below is the draft list of agenda items. I told Karen that the DHHS health expert should feel free to leave after the water topic is addressed.

1. The Water Situation
2. How parent contact happens expeditiously
3. Structured Dialogue
4. New principal recruitment process
5. Lt Governor Visit ??? (If it went well)
6. Scheduling for Fall/Use of space

Subject: Draft update for MDE All on Flint Water crises. Your comments....

Kyle, Marla, and Mark, can you review this proposed update? There is an MSD section and an OSS update section. We need your OK for Kyle to send out later this week.

Colleagues,

I would like to give everyone an update on the Flint water crises.

First I want to thank all employees that have donated time and money to support the Flint community. There is on-going need to provide support and I want to recommend that you visit the following website it you want to continuing support for those citizens in need: http://www.helpforflint.com/ .

The Michigan School for the Deaf (MSD) which is located in the City of Flint has been affected by the water crisis. Not only are there affected students, but is administered by a mix of MDE employees and contracted support. 75 students that stay on the Flint Campus in dormitories. When warnings were issued concerning water quality, MSD responded by turning off water fountains and providing drinking water for everyone at MSD. The school building is new and has had no water quality issues. Steven Hall is a 75 year old building and water quality tests have indicated lead in the water. This past weekend the landlord replaced the fixtures at 62 faucets in the building and is in the process of replacing three drinking fountains. Once that is complete, the Department of Environmental Quality will do additional tests throughout the building. MSD is also coordinating blood testing for all their students.

Marla Moss has been assigned to a state team that is working on child nutrition training to help create resources that can help families and any one serving children. Proper nutrition has proven to help mitigate the effects of increased blood lead levels. Office of School Support Staff continue to work with all affected child nutrition providers, ensuring they are talking the proper precautions, using safe water sources, and are aware of the resources available during the crises.

MDE continues to have a presence at the State Emergency Operations Center (SEOC). OSSS staff are covering the SEOC shifts during the week and on the weekend. They keep the MDE leadership team up to date on the current situation and any breaking events. In addition, they provide coordination for all education related tasks that come up. They provide coordination between state and federal agencies, the governor's office, and non-governmental organizations that are working to help schools.

Over the past week the Federal government has sent in teams to help the state's effort. The federal representatives have been integrated into the support effort. State officials from the Department of Environmental Quality continue working with schools, child care centers, and other institutions to ensure that they are taking proper safety precautions related to water. The state is actively working water distribution, water testing, blood level testing, and distribution of bottled water.

If you have any communication to the field that is related to the Flint water crises you should coordinate your message with Marty Ackley. Marty will coordinate with the JIC to ensure that we have a consistent, accurate message.

If you have any questions on the Flint water crises feel free to contact me or Louis Burgess.

KG

Hi Ann:

I know . . . Louis was telling me that you were new (think you told me that in passing a few weeks ago) and then he was looking at an email from Mark as well. It is pretty cool that we have come full circle again.

Now to answer your question. The only employee costs that would be eligible would be overtime costs with associated benefits and the activities must be directly related to the emergency response. Like overtime for staff working in the State Emergency Operations Center (SEOC) or if you have staff in the field delivering water or installing filters on overtime. Generally costs for administration, that we would look at as included in an indirect rate, are not allowable. If you have a cost you aren't sure of, go ahead and send it in for me to take a look at.

Let me know if you have any other questions.

Thanks,
Penny

Hi Penny,
Can you believe Mark, you and I are all working together again ☺? How fun is that??!! Between the state funds and the federal funds, we know you can keep everything straight and be our fearless leader along the way!

Besides direct costs such as bottled water, will employee salary costs be eligible for reimbursement? I'm assuming certain employees are working directly on the project, others like us in administration are working on the Flint crisis by attending approps mtgs, creating budget/accounting entries, writing procedures, creating contracts/MOU's related to the money appropriated, etc. So I'm wondering how employee salaries fit into the picture.

Thanks
ann

Hi Mark

Things are going good here - as good as they can for an emergency going on. Hope life is treating you well.

We are still unclear on exactly how we will be reimbursing state agencies. We have a request for federal assistance still in the hopper and I have a state disaster fund. Either way, we would be looking for costs directly related to this incident which would include the bottled water and units you are providing at the school. If you have other costs such as filtration units or have paid for water testing that would also be eligible.

I will be providing weekly cost updates to our state director here in the SEOC for the state budget office on Monday afternoons. If you're able to throw numbers together for Monday that would be great, but I could always catch them on the next report as well.

If you come across other costs you think could be eligible go ahead and send them my way and I'll take s look at them.

Thanks
Penny

Ann, Rose, and Mark,

Note: Penny is the MSP Finance Manager and she is working in the SEOC during the Flint Water Crises.

Ann and Mark, you both know Penny from your time at MDOT.

She is asking state agencies to identify any costs that can be reimbursed as part of this event. As far as MDE is concerned we are not paying any overtime, buying anything, or reimbursing employees that are serving in the SEOC. I do not think that we have incurred any reimbursable costs.

Do you think that any of the costs that have been incurred by the Michigan School for the Deaf due to the water crises should be identified? Water, filters, changes to the dormitory?

If you have question, you can contact Penny directly, but cc this email address at the SEOC (State Emergency Operations Center).

1. Move to new location starting next week. State Secondary Complex; Harris Road. Instructions will be distributed. Reminder: take our saved stuff of the computer (Louis).
2. Jaime and Tom will pull duty on Monday, January 25, 2016.
3. Hot item: Lieutenant Governor scheduled to visit MSD on Monday.
4. Mark Bouvy, MSD, has been in contact with Penny Burger regarding possible cost reimbursement. State is not sure what is eligible for reimbursement; anything to be reimbursed will have to be documented.
5. MSD week update: As of 1/23/16: water testing complete in school building and LRC dorm. Stevens Hall will be tested when landlord finishes upgrades. As of 1/23/16: all water faucets replaced in Stevens Hall. 3 new drinking fountains on order; expected mid-week. Once fountains are installed, Stevens Hall will be scheduled for water testing. (CPT Kelenske asked that these details are added in MiCIMS and in SitRep; I had already added them to the system (thanks to Mark Bouvy.)
6. Ops: bar code markers; translated material; vulnerable populations? Tell GIS.
7. Health/Environment: publish test results in a consistent manner (same measure); publish results on web

8. AG: increasing questions about pets.
9. LARA: working Spanish translation
10. DEQ: reviewing the EPA order for tasks for other state agencies.
11. Public Safety: 60 Michigan Militia had a peaceful rally at city hall. No issues.
12. National Guard: wrapping up warehouse support; number to 75 supporting operation.
13. Correction staff will take over warehouse support.
14. Logistics: governor requesting lists of donations. Recycling: City of Flint is recommending sites; GM and United Way will partner.
15. Logistics: Open issue. Walmart wants to donate to schools. I am working with Logistics and distribution to have them work directly with GISD.

The only potentially reimbursable items I can think of right now are bottled water and dispenser units we've been buying and renting from Culligan since September – approximately $250 per week.

Would that qualify? If so, please let me know when you would need a tally of costs.

Subject: Cost Identification related to the Flint Water Crises

Ann, Rose, and Mark,

Note: Penny is the MSP Finance Manager and she is working in the SEOC during the Flint Water Crises.

Ann and Mark, you both know Penny from your time at MDOT.

She is asking state agencies to identify any costs that can be reimbursed as part of this event. As far as MDE is concerned we are not paying any overtime, buying anything, or reimbursing employees that are serving in the SEOC. I do not think that we have incurred any reimbursable costs.

Do you think that any of the costs that have been incurred by the Michigan School for the Deaf due to the water crises should be identified? Water, filters, changes to the dormitory?

If you have question, you can contact Penny directly, but cc this email address at the SEOC (State Emergency Operations Center).

Subject: Water update: Sunday, January 24

Louis,

A couple of things to share:

1. I spoke with Joe Madziar, site leader of the LARA/DEQ water testing team yesterday. They finished testing in School building and LRC dorm. We will get results after DEQ water lab processes the samples. They will be back to test Stevens Hall dorm after landlord finishes their upgrades.

2. Landlord contacted me last night. They have finished replacing all of the water faucets in Stevens Hall. We are still waiting for delivery of 3 new drinking fountains for Stevens Hall. Expected delivery for those is mid-week.

3. After we get a firm installation date for drinking fountains, I'm to inform Joe Madziar so his team can be scheduled to come back to test Stevens Hall.

Thanks.

Mark, Alesha called me and said that she had already spoken with you. She wanted to make sure you had access to a community health expert for your parents meeting.

There are DHHS (the Community Health staff) that could be part of your presentation. At least we could ask. Kyle has strong relationship with the old DCH.

Let me know if you need any help. I am deferring this to Teri and you and Cece.

Louis

Subject: MSD meeting with parents on February 9 (Is Community Health support needed?)

Kyle and Teri,

I was contacted by Alesha Gensler, LARA, about the planned presentation to parents about the water situation at MSD.

Alesha, is part of the LARA emergency management team, and was at the school today to help with the site survey for the lead testing. Her comments are based on sitting in the SEOC.

Mark Bouvy said they had some very angry parents. He has also shared information on bathing (showering) with the water. Alesha said that MSD should get some medical experts from the state for their Feb. 9 parent meeting.

I defer to Teri and her team on this. We can contact DHHS if we need to request support for their parent meeting. I am sure there are county or community resources available for the same.

Subject: Lt. Gov's visit to MSD

Ari,
I understand that the Lt. Governor will be visiting the Michigan School for the Deaf next Monday. I wanted to give you a little background on the recent situation with the water there. Any questions, give me a call. -marty

When the school first heard of the water lead issue back in September, they had the water in the school tested by a private testing company... which came back with clear results. Still, as a precaution, the administrators at the school closed down the fountains and have purchased thirty 5-gallon water dispensers (150 gallons/week) from Culligan that are placed near the drinking fountains. They also placed water filters at the cafeteria drinking fountain and kitchen sink for use in cooking/food prep.

MSD has been on the waiting list to get tested by DEQ since mid-December. The landlord (Lurvey-White Ventures) on its own, decided to have another test done on January 14 – this time testing both the school and the dorm (Stevens Hall). The school's tests again came back clean, however, the dorm test came back with the elevated lead levels in the water (.028).

The school yesterday sent a letter (attached) to the parents of MSD students informing them of the positive test in the dorm; the actions that have been taken thus far; the fact that the faucets at the dorm will be replaced; and to request permission for their students to get their blood lead levels tested.

The school received word today from the landlord that they will expedite the replacements of the 62 faucets in the dorm beginning tomorrow (Friday) and expect to have them all replaced by the end of the weekend.

There are 167 total students at the school, 75 of which board in the dorm.

The landlord and school administration also are looking at either replacing the shower heads in the dorm, or installing in-line filters to the showers. In the meantime, resident students are using the showers at the school, which has been tested and found to be lead-free.

The next scheduled Parents Meeting is February 9, when parents can come and ask questions. The letter also informed the parents that they can contact Janet Kelley at the school in the interim.

THE BOTTOM LINE: the administration and landlord of MSD got ahead of this issue back in September and taken all of the cautionary measures to ensure the health and safety of the students at the school. Instead of waiting to get their water tested by the DEQ, they got it done privately and took immediate steps to respond to the issue when it became known.

Alesha, that would be great. There is a school and a dormitory.

The school is newer and has been tested once. It is the dorm (75 years old) that is of current concern. They tested with a level of 28 parts per billion, above the 15 part threshold.

Subject: School for the Deaf

Good morning Louis,

I have had a chance to look at the information you shared regarding the water testing at the school for the deaf. I spoke with Joe, our plumbing division chief, and we agreed that to be consistent, we need to follow the same testing procedures as used in all the other schools. This will give us a better idea of how many fixtures need to be replaced and the specific fixtures that test high. Therefore, Joe is going to put the school for the deaf on the testing schedule for LARA and DEQ to complete.

If you have any questions or concerns, please let me know.

Thanks,

Alesha Gensler

Subject: RE: water update: DEQ testing and State Police Emergency Operations Center (EOC)

I just spoke with Mark Bouvy at MSD.

When the school first heard of the water lead issue back in September, they conducted their own testing at the school... which came back with clear results. The administrators at the school closed down the fountains and have been purchasing 35-gallon water dispensers (150 gallons/week) from Culligan that are placed near the drinking fountains. They also placed water filters at the cafeteria drinking fountain and kitchen sink for use in cooking/food prep.

MSD has been on the waiting list to get tested by DEQ since mid-December. The landlord (Lurvey-White Ventures) on its own, decided to have another test done on January 14 – this time testing both the school and the dorm. The dorm test came back with the elevated lead levels in the water.

The school received word today from the landlord that they will expedite the replacements of the 62-65 faucets in the dorm beginning tomorrow (Friday) and expect to have them all replaced by the end of the weekend.

There are 167 total students at the school, 75 of which board in the dorm.

The landlord and school administration also are looking at either replacing the shower heads in the dorm, or installing in-line filters to the showers. In the meantime, resident students are using the showers at the school, which has been tested and found to be lead-free.

The parent letters were sent out yesterday, by postal service and on the schools webpage. The next scheduled Parents Meeting is February 9, when parents can come and ask questions. The letter also informed the parents that they can contact Janet Kelley at the school in the interim.

THE BOTTOM LINE: the administration and landlord of MSD got ahead of this issue back in September and taken all of the cautionary measures to ensure the health and safety of the students at the school. Instead of waiting to get their water tested by the DEQ, they got it done privately and took immediate steps to respond to the issue when it became known.

Subject: Roberto Acosta, Flint Journal

Hello,

My name is Roberto Acosta. I'm a reporter with The Flint Journal.

I am trying to put together a story on the letter sent out by the Michigan School for the Deaf in Flint, in regards to the positive test for lead in the water at Stevens Hall.

I was trying to get clarification on what the test actually showed and discuss any previous testing that may have been done at the building and on campus.

Thanks for your time and consideration of this request,

Roberto Acosta

Subject: RE: water update: DEQ testing and State Police Emergency Operations Center (EOC)

Thanks.

I think it's important to communicate to parents and media who call, that MSD/we were proactive in getting testing done...was the school even on DEQ's list to test?

And, do we know if the landlord, or the MSD staff initiated the first water test?

Thanks.

Good morning Louis,

We have a date for DEQ coming to MSD to do more extensive testing. It will happen beginning on Friday, January 29th, at 8:00am with a three man crew here doing testing on that day and the following day.

I was also contacted by MSP Lt. Roach from the EOC late yesterday. Her group is planning to drop off some water and ten kitchen-sink-style water filters for possible use in the classrooms that have sinks.

Thanks.

Meegan and Dave,

This will be discussed at the afternoon SEOC meeting today, but wanted to give you a heads-up on this issue, too.

THE MICHIGAN SCHOOL FOR THE DEAF

The School for the Deaf (MSD) is on the City of Flint water system. Since September the procedures/precautions listed below were taken by the school.

- No students are currently drinking unfiltered City water at Michigan School for the Deaf.
- We have installed lead filters in the kitchen (for cooking) and at the drinking water/ice dispenser in the cafeteria.
- Additionally, we are importing bottled water and have set up 5 gallon dispensers at the drinking fountain locations throughout the school **AND** dormitories.

They contract for their water through Culligan.

The school was notified by the local Health Department yesterday about free testing for their students for lead poisoning. The school has a staffed health center and would like to do the testing there. We gave them the go-ahead to work with the health department to setup a testing schedule and follow testing protocols outlined by the Health Department. Active consent is required for blood testing, so the school is working with the health department to notify parents and obtain consent.

Tuesday night, MSD was notified by the dormitory landlord that they had a lead level reading of 28 parts per billion on some water outlets in the dorm. The DEQ recommends school facilities take action if samples from any drinking water outlets show lead levels greater than 15 parts per billion. Current actions being taken by MSD:

- They are informing parents of the situation.
- There are approximately 75 students that board at MSD, ranging in age from 4-26.
- The landlord is working to replace effected faucets in the dormitories.

We will keep you updated as work to replace water outlets in the dorm, and student testing progresses.

Jaime, the tests at the MSD dorm were done by a private company. Since this is a state run school there is high interest. Likely DEQ will put on the list to test.

For some reason its shows Lurvey/White Venture 4. I didn't fill out the paper work that way. But here are the results and before DEQ does it. I will get a faucet count and buy new ones for the restrooms and will let you know about a filtration system.

Subject: Update on MSD Water

Hi all,

As a follow-up to Cabinet yesterday, wanted to give everyone the most updated information on the status of water at MSD:

- The School for the Deaf is on the City of Flint water system. Since September the procedures/precautions listed below were taken by the school.
  - No students are currently drinking unfiltered City water at Michigan School for the Deaf.
  - We have installed lead filters in the kitchen (for cooking) and at the drinking water/ice dispenser in the cafeteria.
  - Additionally, we are importing bottled water and have set up 5 gallon dispensers at the drinking fountain locations throughout the school **AND** dormitories.
- They contract for their water through Culligan.
- They were notified by the local Health Department yesterday about free testing for their students for lead poisoning. They have a staffed health center and would like to do the testing there. I gave them the go ahead to work with the health department to setup a testing schedule and follow testing protocols outlined by the Health Department. Active consent is required for blood testing, so the school is working with the health department to notify parents and obtain consent.

Last night, MSD was notified by the dormitory landlord that they had a lead level reading of 28 parts per billion on some water outlets in the dorm. The DEQ recommends school facilities take action if samples from any drinking water outlets show lead levels greater than 15 parts per billion. Current actions being taken:

- They are informing parents of the situation.
- There are approximately 75 students that board at MSD, ranging in age from 4-26.
- The landlord is working to replace effected faucets in the dormitories.

I will keep you updated as work to replace water outlets in the dorm, and student testing progresses. Please let me know if you have any questions.

Thanks.

KG

Sorry, a couple additional questions:

Does we need to inform the SEOC? Or do they know already?

Marty – Do you think we need to inform the Gov's office since it's a facility that we (state/MDE) are responsible for?

Subject: Lead Testing in Dorms at School for the Deaf (MSD)

Kyle,

I spoke with Mark Bouvy today about Flint water and MSD. He has just informed Teri of an outlet sample with a high reading.

Last night, MSD was notified by the dormitory landlord that they had a lead level reading of 28 parts per billion in the dorm. The DEQ recommends school facilities take action if samples from any drinking water outlets show lead levels greater than 15 parts per billion.

-They are letting the parents know of this situation.
-The are working on blood testing for their students. Parents have to opt in for the testing. They are collecting information to send to the parents on the testing.
-there are approximately 75 students that board, ages 4-26.
-the land lord is working to replace the faucets in the dorm.
-When the initial letters went out last September warning of lead in the water, MSD started providing bottled water and adding filters in both the school and dormitory.

ELKAY®

SPECIFICATIONS

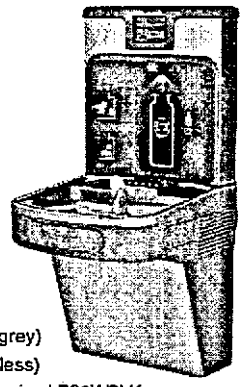
EZH2O® Bottle Filling Station with Filtered Single LZ Cooler

Model Enhanced LZS8WSLP & LZS8WSSP

RATED FOR INDOOR USE ONLY

PRODUCT SPECIFICATION

Unit shall include an electric water cooler with bottle filling station. LZS8WSLP & LZS8WSSP shall deliver 8 GPH of 50°F of drinking water at 90°F ambient and 80°F inlet water. Lower unit shall have pushbar activation. Bottle filling unit shall include an electronic sensor for touchless activation with an automatic 20-second shut-off timer. LED light illuminating the water dispensing area, brightening as water is being dispensed. Shall include a Green Ticker™ displaying count of plastic bottles saved from waste. Bottle filler shall provide a 1.1 gpm flow rate with laminar flow to minimize splashing. Shall include the WaterSentry® Plus 3000-gallon capacity filter, certified to NSF/ANSI 42 & 53, with visual filter monitor to indicate when replacement is necessary. Unit shall automatically detect a new filter and reset visual filter monitor accordingly. Unit shall have the ability to turn off refrigeration system as needed, in addition to self diagnosing system issues and relay messages related. Shall include integrated silver ion anti-microbial protection in key areas. Unit shall meet ADA guidelines. Unit shall be a lead-free design which is certified to NSF/ANSI 61 and 372 and meets Federal and State low-lead requirements. Unit shall be certified to UL399 and CAN/CSA 22.2 No. 120 & is FCC compliant.



- ☐ LZS8WSLP (light grey)
- ☐ LZS8WSSP (stainless)

These units are replacing LZS8WSLK and LZS8WSSK, respectively.

STANDARD FEATURES

- Sanitary, touchless activation with auto 20-second shut-off (Bottle Filler)
- Easy-touch front and side pushbar controls (Cooler)
- Visual User Interface display includes:
  - Innovative Green Ticker™ counts bottles saved from waste
  - LED Visual Filter Monitor shows when replacement is necessary
- WaterSentry® Plus 3000-gallon capacity Filtration System, certified to NSF/ANSI 42 & 53 (Lead, Class 1 Particulate, Chlorine, Taste & Odor)
- Integrated Silver Ion Anti-microbial Protection in key areas
- Quick Fill Rate: 1.1 gpm
- Laminar Flow provides minimal splash
- Real Drain System eliminates standing water
- Cooler panel finishes: Light Gray Granite Vinyl Clad Steel or Stainless Steel
- Automatic filter status reset with each filter change

COOLING SYSTEM

- Compressor: hermetically-sealed, reciprocating type, single phase. Sealed-in lifetime lubrication.
- Condenser: Fan cooled, copper tube with aluminum fins. Fan motor is permanently lubricated.
- Cooling Unit: Combination tube-tank type. Self-cleansing. Continuous copper tubing with stainless steel tank. Fully insulated with EPS foam which meets UL requirements for self-extinguishing material.
- Refrigerant Control: Refrigerant R134a is controlled by accurately calibrated capillary tube.
- Temperature Control: Electronic temperature control requires no adjustment
- Temperature Sensing Device: Fully solid-state temperature sensing has no moving parts.

CONSTRUCTION

- Stainless Steel basin with integral drain
- Galvanized structural steel cooler chassis provides structural integrity
- Stainless Steel bottle filler wrapper with ABS plastic alcove
- Cooler cabinet available as Light Gray Granite Vinyl Clad Steel or Stainless Steel (additional cost) construction
- Flexi-Guard® Safety Bubbler utilizes an infused anti-microbial pliable polyester elastomer to prevent accidental mouth injuries. Flexes on impact.

Replacement Filters: Available as Singles and Multi-packs. Order part numbers:

- 51300C (single)
- 51300C_3PK (three)
- 51300C_12PK (twelve)
- 51300C_24PK (twenty-four)
- 51300C_48PK (forty-eight)

Optional:

- Remote access to unit information/diagnostics Contact Elkay or order P/N 1000001858

Warranty: 5 year limited warranty on the unit's refrigeration system. Electrical components and water system are warranted for 12 months from date of installation or 18 months from factory shipment, whichever date falls first.

CAPACITIES CHART

Model	Voltage / Hertz	Chilling** Capacity	F.L. Amps	Rated Watts	Approx. Ship Wt.	ADA Compliant	UL399 and CAN/ CSA 22.2 No. 120 Certified	NSF/ANSI 61 and 372 Certified	NSF/ANSI 42 and 53 Certified (Filter only)	FCC Compliant

EZH2O® Bottle Filling Station with Filtered Single LZ Cooler
Model Enhanced LZS8WSLP & LZS8WSSP

ELKAY®

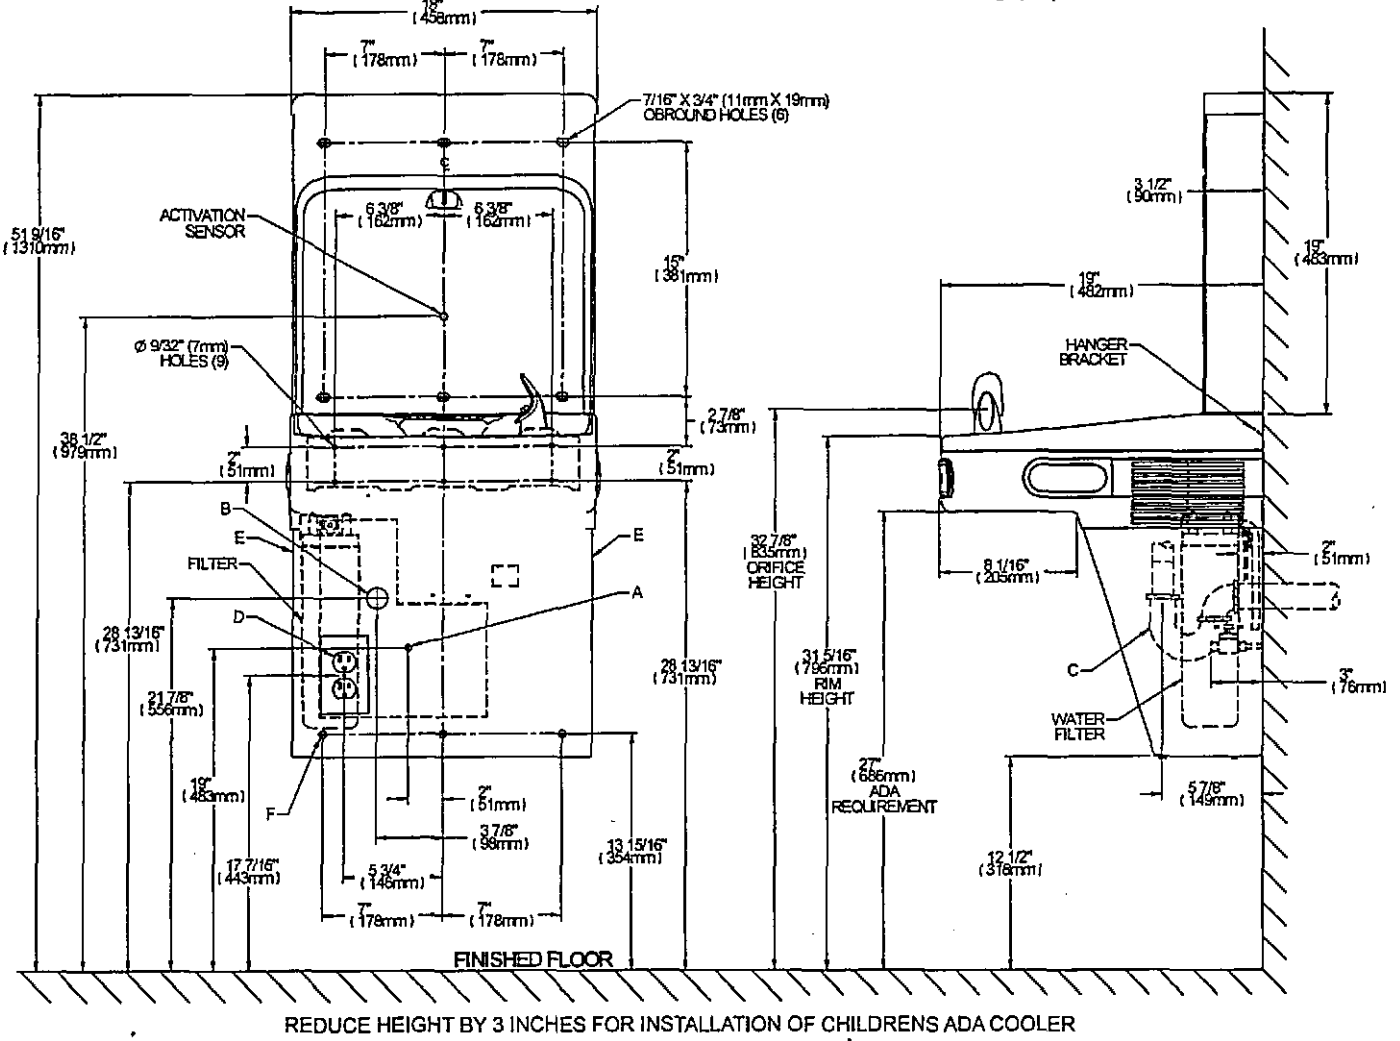
ROUGH-IN DIMENSIONS

RATED FOR INDOOR USE ONLY

IMPORTANT! INSTALLER PLEASE NOTE:
These units are designed and built to provide water to the user which has not been altered by materials in the cooler waterway. The grounding of electrical equipment such as telephone, computers, etc. to water lines is a common procedure. This grounding may be in the building but may also occur away from the building. This grounding can cause electrical feedback into a water cooler creating an electrolysis which results in a metallic taste or an increase in the metal content of the water. This condition is avoidable by installing the cooler using the proper materials as shown.

NOTICE
This water cooler must be connected to the water supply using a dielectric coupling. The cooler is furnished with a non-metallic strainer which meets this requirement. The drain trap which is provided by the installer should also be plastic to completely isolate the cooler from the building plumbing system.

Bottle Filler unit will mount on bracket attached to wall by 6 holes (as shown). Water and electrical will connect through pre-punched hole in basin.



REDUCE HEIGHT BY 3 INCHES FOR INSTALLATION OF CHILDRENS ADA COOLER

LEGEND:
- A = Recommended Water Supply location. Shut-off Valve (not furnished) to accept 3/8" O.D. unplated copper tube. Up to 3" (76mm) maximum out from wall.
- B = Recommended Waste Outlet location. To accommodate 1-1/4" nominal drain. Drain stub 2" (51mm) out from wall.
- C = 1-1/4" Trap (not furnished).
- D = Electrical Supply (3) Wire Recessed Box Duplex Outlet.
- E = Insure proper ventilation by maintaining 6" (152mm) minimum clearance from cabinet louvers to wall.
- F = 7/16" (11mm) Bolt Holes for fastening to wall.

NOTE: Installations Must Use Ground Fault Circuit Interrupter (GFCI).

January 20, 2016

Dear Parents and Guardians,

The Michigan School for the Deaf has been purchasing bottled water since last September, long before it became a national news story. We had received no negative water tests and were grateful for the new building and the new piping.

Yesterday (1/19/16), we received the first lead positive water test for the Stevens Hall dormitory (the school building continues to show no lead detected). According to the recent test, there is lead present in the water in Stevens Hall. All of us at MSD are grateful that we took the extra precautions to stop using Flint water for anything other than bathing, regardless of what the official reports said. Students use bottled water for everything including teeth brushing.

A lot of the lead in the city water has been deemed to be coming from the sink faucets installed before the 1990's and copper piping soldered with lead solder. Within the next two weeks all of the faucets will be replaced in Stevens Hall.

Our research shows that lead is not absorbed thru the skin but ingested. As a further precaution, we are exploring options for filtering water for showering in Stevens Hall, and in the interim, students have the option of showering in the school locker room (which is presumed lead-free pending further testing). The Department of Environmental Quality will be on campus in two weeks for more extensive testing of all water coming into the building, including each classroom and residential unit.

We have been in contact with the Genesee County Health Department and they are willing to establish MSD as a blood testing site and test any student for lead contamination. We will be sending letters home to see if you would like us to have your child tested. We hope to have a firm date for this established soon.

As Administrators, we believe in transparency and wanted to get this information to you as quickly as possible. We believe your children are safe and that we have done our best to ensure that. There is a parent meeting on February 9th from 6:00pm to 7:30pm. Please feel free to come and share your concerns or ask questions. In the interim, please contact Ms. Janet Kelley at 810-257-1402 or kelleyji@michigan.gov.

Sincerely,

Cecelia Winkler, M.A.
Principal

Michigan School for the Deaf & Learning Resource Center
1235 West Court Street | Flint, Michigan | 48503

Introduction

On Saturday, January 23, 2016, the Department of Licensing and Regulatory Affairs (DLARA) and the Department of Environmental Quality (DEQ), collectively (Team), conducted a sampling assessment of the plumbing system at Michigan School for the Deaf & Learning Resource Center to determine any potential lead and/or copper sources within the building.

The Team is in the process of replacing all drinking water fixtures in the school. Once replacements are completed, the Team will return and conduct an additional sampling assessment on the new fixtures.

The results of the January 23, 2016, sampling assessments are found below:

Water Service Information

An inspection of the water main from inside the building yielded a four-inch ductile iron pipe, welded to a three inch copper main.

Fixtures with Lead Levels Greater Than 15 Parts per Billion

Based on the sampling conducted, the following fixture was found to have a lead water level result greater than 15 parts per billion (ppb).[1]

Location:	Bathroom Faucet in Private Bathroom, LRC, (BF004)
Results:	P1=17 parts per billion, P2=3 parts per billion
	F01=non-detect, F02=non-detect

[1] After a 12-hour stagnation period, the Team collected four (4) samples at each of the fixtures identified. Two (2) initial, 125-milliliter samples (P1 and P2), were collected immediately after turning on the tap. The water was then flushed for 30 seconds and a third, 125-milliliter sample (F01) was collected. Finally, the water was flushed for another two minutes, and the fourth 125-milliliter sample (F02) was collected. These samples were used to determine the impact of any lead sources in and around each specific fixture and its connecting plumbing.

Michigan School for the Deaf & Learning Resource Center
1235 West Court Street | Flint, Michigan | 48503

Fixtures with Copper Levels Greater Than 1.3 Parts per Million

Based on the sampling conducted, the following fixtures were found to have copper water level results greater than 1.3 parts per million (ppm).[1]

Location:	Water Cooler between Men's Bathroom, LRC, (WC013)
Results:	P1= 1.67 parts per million, P2=2.06 parts per million
	F01=1.74 parts per million, F02=0.57 parts per million
Location:	Kitchen Faucet: Staff Lounge, LRC (KC001)
Results:	P1= 1.56 parts per million, P2=1.33 parts per million
	F01=1.24 parts per million, F02=0.34 parts per million
Location:	Kitchen Faucet: Next to Room 1000, MSD (01KC004)
Results:	P1= 0.71 parts per million, P2=1.23 parts per million
	F01=1.34 parts per million, F02=0.52 parts per million
Location:	Kitchen Faucet: Staff Lounge, MSD (01KC003)
Results:	P1= 1.18 parts per million, P2=1.53 parts per million
	F01=1.45 parts per million, F02=0.49 parts per million
Location:	Classroom Faucet in Room 1029, MSD (01CF017)
Results:	P1= 1.00 parts per million, P2=3.57 parts per million
	F01=1.03 parts per million, F02=0.30 parts per million

RE: Flint Water Crisis / MSD
MSD Campus, Flint, MI

Dear Mark,

Please consider this as an update regarding the most recent information regarding the Flint Water Crisis and our continued efforts to ensure that the water made available to all students is as safe as possible given this community wide crisis. Per our understanding the State of Michigan Department of Education through the administration at the Michigan School for the Deaf took the initiative to test the school for lead when the city wide issue was discovered in the fall 2015. At which time the school building tested negative. However as a precaution the school advised students and staff to cease using the water for drinking and made water coolers available in all areas of the building. As concerned Landlords of the property we observed announcements from the State calling for funds to replace old faucets in public school buildings. Since the dormitory was constructed by the State in the 50's Lurvey White felt compelled that some of the older faucets might contain lead and may need to be replaced. As a precautionary measure we took the initiative to test the water for which a test came back positive for containing lead on January 15, 2016. All other testing has provided no trace of lead at both the Michigan School for The Deaf school building, as well as Powers Catholic High School. Both schools share the same campus wide water loop.

In recent weeks, the State DEQ, The City of Flint, and most recently an UM-Flint Symposium regarding safe levels for ingestion of lead, as well as equations that support leaching have publicized varying information. The underlying theme to the information provided is that the most prevalent circumstances for exposure to lead, over the DEQ's accepted levels, are water systems which have lead service lines, older faucets which are more likely to have a lead content and lead solder connections.

Prior to 2012, the State operated the dormitory since it's occupancy in the early 1950's. Although we don't have specific knowledge of upgrades throughout the years, no lead service lines are evident in the building. The water supply lines, and branch lines are copper and look to have been replaced at some point in its history. We do not know the age of the faucets and/or the older dated fountains.

The unknown composition of the faucets is a concern that we feel we need to address in a proactive and swift manner to ensure that no lead exposure occurs at that point of use. **We will be working around the clock this coming weekend, January 23, and January 24, to replace all (62) faucets located in the dormitory building. Additionally, the following weekend, we plan to install (3) new watering stations at specific locations designated throughout the dormitory. These stations will**

LURVEYWHITEVENTURES

have point of use filtering for lead, particulates, odor and microbial. A bottle filling station to assist with bottled water for the dormitory students is also included. I have attached specifications for your records.

Additionally, we plan to follow these installations with lead tests but understand that the school and DEQ will be the primary parties responsible for ongoing lead testing in the facility. It is our hope that the replacement will result in Lead free tests in the building. However we believe that it is important the school continue to follow all precautionary measures that the government has outlined until such advisements change.

We feel that rather than wait for potential outside assistance, we cannot delay taking action. The safety of the students is paramount to any other scenarios which may arise out of the Flint Water Crisis.

Please feel free to contact me directly with any questions or further concern.

Very truly,

David W. Lurvey
Partner

> Hi SEOC Team:

I am not sure who comes in this afternoon but I am wondering if they can come a earlier for two reasons. 1) I am getting sick. Whatever my kids and hubby have, I must have picked up from them. I felt it coming on this morning but was in denial until now. 2) MDE is next to start printing. Literally will start printing as soon as the 9:30 briefing is done. If you can't change your schedule – no worries, I will muddle through...but you may want to bring some Clorox wipes to sanitize this work station. (sorry!) I will try to not touch or breathe on everything.

Subject: 9:30 Sunday call

Briefing tomorrow at 10:00 rather than 9:30 due to Lt. Governor taking a tour of Flint - media will be present.

- NWS - quiet streak of weather through Tuesday; Cooler weather expected later in week
- JIC - working on fact sheets for adults on managing lead blood levels; DEQ is working with Bureau of Labs to ensure those without insurance are not being billed for lab work
- DEQ - working on identifying lead service lines
- Red Cross - 5 teams yesterday visited 518 homes yesterday; reception center open today until 5:00; signed up 120 event based volunteers yesterday;
- JIC - tour tomorrow; planning for public meeting from 6-7 on Thursday (I think this is right day) from 6-7; meeting will provide updates and JIC has invited federal partners but not certain they will participate;

Subject: Sat 2/20/16 9:30 call

Short call:

Reminder for state agencies to review IEP and objectives.

- NWS - good weather with highs in 50 and low down to 32 degrees; concerns of high winds continue through this afternoon,
- HHS - document completed about high levels of lead in homes, now going to JIC; integral health team working with two other states regarding best practices - will be applying for a grant
- Red Cross - 6 teams in filed yesterday and went to 434 houses and delivered water, filters, and water test kits; another 6 teams in field today; to date, a total of 2100 event based volunteers used
- DTMB - getting quotes in security guards and would like to keep guards local
- JIC - nothing

Update from 09:30 call, 19 February:

SitReps due at 17:00

Printing update: PIO now, Red Cross on deck. *Sign up if not on list*

NWS: Wind advisory in effect today, up to 50 mph gusts in late afternoon (4-8pm), then diminishing. Mild temperatures through weekend

DHHS: Working with JIC/LARA on translation of fact sheets. CHECC developing testing results, infographics, once approved, they will be sent to JIC.

MDARD: 12 February, many 211 calls about home canning of food. Response has been approved by JIC. Basic message is "when in doubt, throw it out".

LARA: No update

DEQ: 17 teams being deployed today. Yesterday, issues with update of dashboard (been resolved).

Human: No major updates

Red Cross: 5 teams out yesterday and again today. Concentrating on access/functional needs list. Volunteer Center open 9-5 today, as it was yesterday

MSP: No update

MNG: No update

DOC: No update

DTMB: No update

GIS: No update

UCG: Passed along information about Head Start school. Robert (Red Cross) showed map that has routes to hit homes, shared that as well

Local: Will monitor Jesse Jackson event today. Water main break near UCG this morning

Logistics: No update

Planning: No update

Finance: No update

Recovery: No update

Next call: 16:00 today

Subject: SEOC Update Feb 18 2016

SEOC Briefing Update for Thursday, February 18, 2016
09:30 Call:

- Operations: No update
- Natl Weather Service: Cold this morning, single digits, upper 20s/30s later afternoon. Tomorrow in the 50s.
- DHHS: Dr. Scott and Dr. Wells met yesterday on guidance documents. Children under 6 should be tested by April 1st.
- MDARD: No update
- LARA: No update
- DEQ: Working on getting sampling teams out
- Human Serv: No update
- Red Cross: 5 teams in neighborhood today, reception center open until 5:00pm
- Corrections: Dealing with some warehouse issues. Safety briefings conducted, first aid kits provided, etc.
- DTMB: Waiting for additional printer to be installed today for FOIA request
- MSP: Dealing with people with false credentials. Capt K wants mtg ASAP on coordination (or lack thereof) of teams in the field. Need heightened security protocols.
- Local Liaison: Sherriff's office received a FOIA request on who was supplying water to the jail.
- FEMA: No update
- Logistics: No update
- Planning: No update
- Finance: No update
- Recovery: Teams are working on finishing mobile home parks today.
- PIO: No update
- Director: Look at incident action plan and working on it.

16:00 Call:

- Operations: No update
- Natl Weather Service: No update
- DHHS: No update
- MDARD: 26 samples collected-no results yet, 6 new food inspectors beginning training, pets health document to be released regarding bottled water for pets
- LARA: No update
- DEQ: 306 samples, 21 staff, 15 teams
- Human Serv: No update
- Red Cross: 5 teams today, reception center open until 5, 76 people today
- Corrections: No update
- DTMB: filling document requests, supplies for warehouse, reminder that requests are processed faster when submitted directly to SEOC
- MSP: No update
- Local Liaison: 16 DEQ teams out today.
- FEMA: No update
- Logistics: No update
- Planning: No update
- Finance: No update

- Recovery: No update
- PIO: Press release sent out on MSU volunteer event again this weekend
- MDE: Sent DCH (Gloria Zucker) an encrypted list and password for Flint students in Carman Ainsworth Schools

Subject: Update - Wednesday, 17 February

Here is the combined update for Wednesday:

SitReps due 17:00 today
Distribution meeting 16:30 today

Operations: Reference FOIA. Coordinate through proper channels at SEOC. Once all printed off, get with Rich/Jaclyn to set up emails that auto send future emails to that FOIA address.

DHHS: Spent afternoon following up on NSF shower filters, info to CAP. CHECC continues to work on activities locally

MDARD: No update

LARA: *No update*

DEQ: Working on app together with DHHS for high lead level teams. Collect statistics that can be used

Human Serv: CDC will begin visiting homes of children with high lead level readings to begin case management. Talked briefly about transportation (those needing rides to doctor office), *funneling request through* EOC.

Red Cross: *Response teams* out today. Reception Center open through 5pm today

DTMB: Requested a second multifunction printer that will be delivered tomorrow. Working on resource requests

GIS: No update

UCG: Surgeon General in Flint today. Blood level testing request in hieroglyphic form. Followed up with CHECC to coordinate.

Local Liaison: Elevated Lead Task Force out today. Transitioning in new unit today and tomorrow. New MNG liaison in today.

FOIA: No update

Logistics: No update

Planning: No update

Finance: No update

Recovery: Worked with Red Cross with trailer park residents to be sure they have been hit by teams.

PIO: Press release on American Sign Language has been posted and will go out tonight.

Next call: 09:30 tomorrow

Subject: RE: Daily Items to Note

Kari, this is an update from a meeting in Flint from last Friday. We have not provided this update before today.

Michigan Department of Education. Update from February 12, 2016 meeting with U.S. Department of Education, Michigan Department of Education, and Genesee Intermediate School District. The meeting was attended by staff from the U.S. ED Office of Special Education Programs, Office of Safe and Healthy Students, Office of the Secretary of Education and Office of School Support. MDE staff included Teri Chapman, Mike Radke and Janis Weckstein. Deputy Superintendent, Kyle Guerrant, was there for a period in the morning as well. Several of the GISD Assistant Superintendents, Directors and Coordinators were there as well as representatives from MDHHS, Michigan Alliance for Families, Children's Water Team, the CDC and International Academy of Flint. Long range planning was focus to address issues. There was also discussion on how to connect legislature, MDE and the Federal Government together. U.S. ED staff members committed to making multiple trips to Flint as all continue to work together. Sujeet Rao, Office of the Secretary of Education is going to be the point person for communication.

Kari, this is an update from a meeting in Flint from last Friday. We have not provided this update before today.

Michigan Department of Education. Update from February 12, 2016 meeting with U.S. Department of Education, Michigan Department of Education, and Genesee Intermediate School District. The meeting was attended by staff from the U.S. ED Office of Special Education Programs, Office of Safe and Healthy Students, Office of the Secretary of Education and Office of School Support. MDE staff included Teri Chapman, Mike Radke and Janis Weckstein. Deputy Superintendent, Kyle Guerrant, was there for a period in the morning as well. Several of the GISD Assistant Superintendents, Directors and Coordinators were there as well as representatives from MDHHS, Michigan Alliance for Families, Children's Water Team, the CDC and International Academy of Flint. Long range planning was focus to address issues. There was also discussion on how to connect legislature, MDE and the Federal Government together. U.S. ED staff members committed to making multiple trips to Flint as all continue to work together. Sujeet Rao, Office of the Secretary of Education is going to be the point person for communication.

Subject: Update SEOC Briefing 2/16/16 Tuesday

2/16/16 SEOC Briefing (09:30 & 16:00 call)

SitReps due at 17:00

Operations: Objectives updated yesterday. They are coordinating the process so printers are not overload and work being interrupted. Don't forward the FOIA requests to other employees (non SEOC Michigan.gov e-mails) There may be a way to mass print documents and e-mails vs. doing them one by one (stay tuned on that). Also, they are looking to find out if its ok to clean up a conversation. Capt used the example that his update to the Governor is one long e-mail that he adds to each day. Should he clean up so it's just one document or keep them all separate (probably 50 pages each time)?

NWS: Not many weather concerns through Thursday. May see snow showers tonight (less than 1"). Could be colder wind chills on Thursday morning. Friday will become much warmer, with rain likely. Wind gusts up to 40 mph.

LARA: Working on ethnic groups and coordination of meetings. Chinese, Middle Eastern and Hispanic meetings are scheduled. In the Arabic and Spanish community, we are linguistically correct with information, but not necessarily community correct. Translated docs being transferred to JIC today. Also, moving forward with faucet replacements.

Human Services: MDE has a request from Planning to determine if any school days or instructional time has been lost due to the Flint water situation. We have reached out to GISD with a request for this information. MDE has received a request from the MEA Region Director for training of teachers of students impacted by Flint water situation. MDE continues to work with MSD on faucet replacement and re-replacement with a new target date of 24 February for completion. CAP: Please copy Tom Weber on Information on lost instruction.

HHS says more research needed on shower head filters. Those are meant more for chlorine removal. Those with rashes being referred to free dermatologist, transportation provided. EPA testing results due today.

MDARD: Continuing with food establishment reviews & technical assistance. Also, continuing with pet testing outreach.

Red Cross: 5 teams available today. Reception Center open through 5pm. Recycling kits going out today.

DEQ: Test kits coming in this week.

MSP: People handing out water on ground in Flint. Training on radio use helpful, had to track down emergency button issue yesterday. Expensive radios, so important to train those in possession. May have been a Genesee County radio

MNG: 65 replacement soldiers coming in today to get trained and to pods. Others will be cycled out

DOC: Involved in radio issue. Loaner radio. They are not handing out radio to civilians. May want to look at disabling emergency alert for this situation. Warehouse had 60 trucks from Indiana (6pm) with water. Able to process all of that last night.

DTMB: Getting a dumpster for a warehouse. Ipad/tablet for maintenance of test kits. Provided drivers for food bank. Provided forklift for warehouse. Currently sifting through resource requests.

GIS: Received new parcel layer from City of Flint. Will be updating information and updated list of active water users from Public Works

UCG: Hearing complaints about messaging and miscommunications. Appropriate state agency should give update pertaining to their task/programs.

EOC: Currently working with churches so they have what they need for weekend. 5 teams out w/ DEQ and DHHS testing/home assessments.

Logistics: No update

Planning: No update

Finance: No update

Recovery: No update

JIC: No update

PIO: Several items being requested (non-English for translation). One press release going out regarding community relations and National Guard (feel good story)

Capt: We must do a better job of updating SIT Reps daily. It should correlate with briefing or daily tasks.

Subject: Send only one update

All: see my last two updates. For the subject line always use : Flint Water: 2/15/16 0930 & 1600 call; update the date.

The 0930 person should send notes to the 1600 person. The afternoon person will have an a and b section. A is the notes from 0930 and B are the notes from 1600. Section 2-infinity are any other entries. Marla sent me her updates after the 0930 call and I incorporated into the update. See below.

Sample:
1. Phone updates:

a. Marla reports from 0930:

- operations has identified 38762 residential parcels; 107 still working on identifying;
- National Guard - switching out 58 soldiers tomorrow; will train ASAP
- FOIA - do not print until further instructions come but will more than likely print emails through 2/19 and then begin using designated cc email; working on how to print text messages for those with text correspondence;
- NWS - light snow tapering off by noon; freezing drizzle after that; no longer worried about wind chills; warming by Friday with 40 MPH winds which is concern for downed trees and power lines;
- Red Cross - 5 mobile teams in field today; yesterday the reception center registered 101 new event base volunteers; visited 1000 homes yesterday
- planning is concerned about freezing rain especially on trees with no foliage
- POI/JIC - congressional legislative call tomorrow; Kildee office has a request in; US Department of Health and Human Services meeting with health care providers at 7:30 pm today

b. Louis reports from 1600

-all team leads reviewed outstanding tasks. Basically no change.
-only 21 2-1-1 calls today; average has been over 150 -over 99% of home care sites reported that they have had lead blood levels tested.
-ARC had enough to send out six teams today

2. Kevin Walters has first shift tomorrow.

-we are working outreach from GISD business office on emergency funds. Louis and Kevin will contact her tomorrow.

-MSP Planning requested info on school closures due to water. I spoke with Kyle; we will reach out to GISD Supe on Tuesday.

-Remember to sign up through March for SEOC rotation.

-We need to follow up with Mark Bouvy on MSD status.

-Expect more FOIA info this week. Dave Head and I are working this for the department.

Subject:	Flint Water 0930 & 1600- 2/14/16

1. 0900 call update (Marla Moss)-

   a. National Guard has been extended to March 16 - originally were to be done February 16.
   b. NWS - another 2-3 days of dangerous temp. Warming up by end of week. Reminder to keep people out in cold aware of dangerous temps.
   c. Red Cross - 5 local teams out today; Volunteer center open 9-5 today
   d. Corrections - second warehouse is up and operational

2. 1600 call update (Louis Burgess)
   a. Weather will warm up tomorrow.
   b. ARC reported 101 volunteers helping today.
   c. JIC is highlighting on-going recycling efforts (plastic water bottles) and Scams. Attorney General also working scam advisement.

3. Reminder from planning to have any weekly events submitted by noon tomorrow for Governors office: Brian and Kyle have Flint water related meetings in Flint this week. I will report to the planning team.

4. Request on info if any school has lost instruction time due to Flint water crisis. I am investigating and will follow-up. Likely on Tuesday.

Subject: Flint Water 0930 & 1600- 2/13/16

1. Note: there are still daily updates, we will only send one summary after the 1600 call. The exception will be if we need to reach out due to an operational necessity.

2. Marla was on the 0930 call and I was on the 1600 call.
a. National weather Service - wind chills of -3 to -10 today; takes only 30 minutes for frostbite to set in.
b. Red Cross - 6 water response teams out today; 9-5 reception center over c. Majority of time spent on FOIA:
- going through shred bins and reminder to keep all hand written notes; only exception is if notes are typed for a report but this is only moving forward; if in possession today, must turn in.
- personal notes are NOT exempt - mentioned several times
- all emails will be printed out - will be directed when to do to this and will be given more direction
- I'm assuming this is the SEOC email; I imagine it will hold true for our emails too.
- after all emails are printed, we will be provided with another email address
- MSPFOIA which we will cc all correspondence; then, these will be printed for us;
- discussion on recovering permanently deleted emails
- very costly and governors office is reconsidering; not yet determined if we will have to do this;
d. Local operation- city lifted boiled water restriction at 5:00 pm yesterday; fire chief in Flint fired - unrelated to water crisis- but this will result in change in personnel, etc.

e. 1600: no updates. Discussion on changing hours at PODs. MDARD still working pet issues.

3. There is a request for any executive participation in FLint events. This is due to OPS by Monday at noon. I will respond for the department.

4. MSP has stress counseling available for anyone working on Flint water. Contact me for any info.

5. Marla and I will cover tomorrow's calls.

Louis

Subject: 930 call - 2/13/16

23 minutes

National weather Service - wind chills of -3 to -10 today; takes only 30 minutes for frostbite to set in

Red Cross - 6 water response teams out today; 9-5 reception center over

Majority of time spent on FOIA:
- going through shred bins and reminder to keep all hand written notes; only exception is if notes are typed for a report but this is only moving forward; if in possession today, must turn in.
- personal notes are NOT exempt - mentioned several times
- all emails will be printed out - will be directed when to do to this and will be given more direction
- I'm assuming this is the SEOC email; I imagine it will hold true for our emails too.
- after all emails are printed, we will be provided with another email address - MSPFOIA which we will cc all correspondence; then, these will be printed for us;
- discussion on recovering permanently deleted emails - very costly and governors office is reconsidering; not yet determined if we will have to do this;

Local operation- city lifted boiled water restriction at 5:00 pm yesterday; fire chief in Flint fired - unrelated to water crisis- but this will result in change in personnel, etc.

Marla

Subject: Update SEOC Briefing 2/12/16 Friday

**** Please note that going forward there will only be one daily SEOC briefing****

2/12/16 SEOC Briefing (09:30 & 16:00 call)

- SIT REPS due at 17:00
- Please remember to respond to Lori regarding SEOC (only) e-mail and document count.
- Operations – make sure workers are prepared for weather. Long term plan being finalized. Reminder to print your name legible on sign in sheet.
- Natl Weather Service – Snow today possible, light. Windy today, cold coming tonight: -10 to -15 wind chill. Highs tomorrow about 10, with negative wind chill. By Monday highs back in low 30s.
- Wayne County Health Department sending 3 volunteers to the volunteer reception center.
- HHS Branch – Lots of field testing with food establishments. Also now has clarification of who is testing schools (agreement between HHS, MDARD, DEQ, LARA, MDE)
- Red Cross – 8 teams out today. 50 new volunteers processed.
- MSP – Nothing to report
- DTMB – Parking issues in Flint area. If you do not have a "Flint water" parking pass/badge, park on top level of ramp.
- Corrections – Nothing to report
- Natl Guard – Being asked about water pitcher filter replacements – looking into this resource.
- Local EOC – Teams out today. Boiled water advisory hoping to be lifted this afternoon. Working on an exit strategy per Capt K's request.
- Logistics – Plenty of water and cartridges if there is a spike after boil advisory is lifted.
- FEMA – Nothing to report
- UCG – meetings within Genesee County going well.
- Planning – Nothing to report
- Recovery - Nothing to report
- JIC – Nothing to report
- Capt K is in Flint today. Press release will go out today regarding boil-water ban lift. Reminder that JIC needs names on e-mail requests (versus just a PIO label) for follow up and clarification reasons. The CDC is recommending that pregnant women and children under 6 not drink the filtered water (bottled only) so this information will be added to the press release.
- Major updates including info regarding upcoming events that state agency might be attending will be asked for daily and will be due at 12noon each day.

SEOCers-

Last night, Louis did a situation report from SEOC that was one report with both the morning and afternoon calls detailed. This is how he would like to proceed. The morning person can start a report based on the morning's call and then the afternoon person can finish the report and send out via email. Please use last night's email as an example. Thanks.

Subject: SEOC updates (please read)

Jaime and Aimee, I think that you are both here tomorrow. I will be in Clare. I will call you both to check on things. Some changes. You will hear lots about FOIA.

The SEOC answer is: 1100 emails; ~50 documents. I have them on the desktop. The SEOC email should get the request.

I need one of you to bring two folders (Janice can make if the afternoon person stops and asks her): SEOC Documents; SEOC notes. We have to keep all hand written notes. Keep folders on the desk top.

I have added a phone list; leave that on top. Janice can update if you find we need other numbers.

For the weekend: Marla will cover the 0930 calls and I will cover the 1600 calls.

Have fun.

Subject: Update Call (16:00) Wednesday

Update call (16:00) on Wednesday:

SitReps due at 17:00

- Water main break continues to bring anticipation of increased need for bottled water. Consistent messaging must be clear. Expect the pipes to be repaired by noon tomorrow. Once boil-ban is lifted, clear messaging about replacing water filters is necessary
- As mentioned this morning, cold snap coming. Be very prepared for the cold and wind.
- Public Health FAST Team will be leaving the Flint area this week. Dr. Wells webinar to health providers was well attended and received. There is a need to clarify with JIC that MDHHS and DEQ teams are working together.
- Health Dept will be on furlough Friday-Monday!
- As mentioned above, once boil-ban is lifted, water filter must be replaced. Proper messaging must be clear that the entire unit doesn't need replacement, just the filter cartridge.
- Donation management and developing a list of unmet needs are the focus right now. Feds understand the issues with lead testing and reports. MSU Basketball team leading recycling event this week.
- Dr. Katie Wilson, Deputy Under Secretary @ USDA Food Nutrition Services visited a Flint elementary school and the health department today to discuss how USDA programs can help provide relief to those affected by water contamination. From that visit, came a media release that highlighted the efforts between the USDA, MI Dept of Education and all Health/Human Services partners to expand nutrition programs such as Community Eligibility Provision, Summer Electronic Benefits Transfer (EBT), Fresh Fruit and Vegetable Program, Ready to Feed Formula program through WIC, nutrition education programming through Child and Adult Care Food Program, USDA Foods programs including The Emergency Food Assistance Program (TEFAP), and that WIC funding will help cover the cost of lead testing for WIC participants. Embedded within that media release was nutrition education information further detailing the targeted nutrients, direct links to nutrition education materials from MSU Extension, and details about expanded benefits and nutrition education at the Flint Farmers Market.
- Red Cross has 10 teams again today to make sure every home has been touched. Volunteer Center open til 5pm. Yesterday the volunteers assembled 1800 water test kit packages.

- Minor issues with delivery truck break-downs today. Note: partnering with UPS to help with limited mobility needs!
- (UCG) Testing and outreach continues. Working with Genesee County staff on 6 point plan for community including mental health. 8:30am calls include local agencies.
- (Local EOC) 10 site monitor teams out today. Needed help with loading trucks – no other issues.
- (Recovery) Working with disability network and aging council(s) to create list of residents for long term planning.
- (PIO) Boil water advisory went out to City of Flint last night. New filter cartridges will be needed for replacement.
- (Director) Need more consistent messaging. Working tonight to prepare message to Governor.

Note: My update was written out and given to Captain for assisting with creation of Governors message. I was also asked after the call if schools were on winter break in February. I clarified that most schools will be closed for Presidents Day on Monday. Spring break is normally the week of Good Friday, the week after Easter, or the first full week of April. I checked Flint School District website to be sure – and yes, they are closed April 4th-8th as well as Good Friday.

Next call: Tomorrow 09:30

> > - Schools/Entities that are seasonal or minimal mass of students with food preparation capabilities: Plan of Attack is for MDARD to conduct single water test. MDARD needs that listing to work from

- LARA has indicated that at this point, small family day care and other entities (less than 6 children/students) are not being addressed.

For MDE: **OUR IMMEDIATE TASK**

- Within our food programs, we need to:
  - Identify schools and entities that we (MDE) are aware are serving 6 or more students on a daily basis (may be "inactive", but "open" in EEM, as example). The term "Inactive" has been received by LARA as "closed" and removal from fixture replacement consideration has occurred. Within our comprehensive spreadsheet (see attached), we need to ID each school/entity as "Active" or "Seasonal/Emergency".
  - Identify entities that we (MDE) are aware are serving 6 or more students on a "seasonal" or "emergency" basis (may only participate in SFSP or TFAP, as example) and not serving students through MDE programs on a daily basis during regular school year

NOTE: We are attempting to drill down into data spreadsheets that have been provided previously by MDE. My discussion with Karen this morning cleared that up significantly. Ongoing discussions this morning, as a result, have moved the needle forward as well. We want to continue this momentum, if possible. MDE is going to continue to function as the keeper of school/entity data for LARA, DEQ, and MDARD. Segmenting tasks and responsibilities between the groups is our next mission.

Hope this helps. Please let me know if you need clarification.

Subject: RE: CACFP Center Sites

Mount Olive and YMCA of Greater Flint are both Summer Food Service Program (SFSP) sites. All SFSP sites operate when school gets out for the summer or during an unanticipated school closures, so spring break is not an approved service time period for SFSP.

Hi Stephanie,

Three of the sites listed below are "inactive" according to household and CACFP programs, but Kevin wondered if they are summer meal sites.

We are also wondering if any summer meal sites open before summer, like during spring break.

Let us know what you know...

Thanks,

Tom

Kevin,

Here are the details for Karen.

Boys and Girls Club of Greater Flint (Averill Ave) : Active CACFP program; also this is a TEFAP distribution center;
COFY Center (Carpenter Road): Inactive
Mount Olive (Fay Street): Inactive
Our Savior Lutheran Church ((Saginaw St.) : this is a TEFAP distribution center only; they do not do food prep; they hand out food boxes.
Shelter of Flint (Cedar ST) : Active CACFP Center
West Court St Church of God (Church St.) : Active CACFP program; also this is a TEFAP distribution center;
YMCA of Greater Flint (E. Third St.) Inactive

Subject: RE: CACFP Center Sites

Louis & Team -
Attached is the spreadsheet that I've been using with those enrolled in our CN programs. Peter pulled this 2 weeks ago. Ignore the yellow highlights - those are the sites in the "hot zone" zip codes.

I highlighted the ones in purple that I could find on your list below. 2 are TEFAP distribution sites. Three others are CACFP enrolled centers.

How to move forward if what is listed here are not ones enrolled in CACFP? Are they licensed through MDARD that they would have been reached that way?

Let's talk in the morning...
Diane

==========

SEOC rep: need to follow up with the results of this email with LARA (Karen Towne).

Diane, LARA has a list they call CSACFP Center Sites. The source is supposed to be us.

They need to know the status of the following sites:

Boys and Girls Club of Greater Flint (Averill Ave) COFY Center (Carpenter Road) Mount Olive (Fay Street) Our Savior Lutheran Church ((Saginaw St.) Shelter of Flint (Cedar ST) West Court St Church of God (Church St.) YMCA of Greater Flint (E. Third St.)

Are they child care centers or just food centers? LARA is trying to get all these on a list for testing. We have to help them determine what they are.

Louis

DEQ: Coordinating statistical sample teams
Human Services: 211 reports calls on Flint water are down 10.5%, standardized warehouse descriptions
Red Cross: 10 teams out today, Volunteer resource center serving volunteers, anticipating large amount of volunteers this weekend
Community Partners: over 500 participants, now divided into 6 groups: Resource, Mental Health, Physical Health, Education, Resource, Community, 7th Day Advent is ready to meet about logistics, UPS offering to help with logistics and will be at SEOC tomorrow
DTMB: Working on financial information due to financial chief by Wednesday
Local EOC: Emergency management meeting today in Lansing, long term distribution discussion, Incident action plan updated
Logistics: SBA location established in the old business center at 2712 Saginaw, Flint MI, open 8-5 M-f
Recovery: Verify Apartment list addresses, supporting teams in the field
PIO: JIC working on water main break
Deputy State Director: Water main break appears to be sizable

First FOIA request was announced: Name of the independent company used for water testing as cited by Gov. Snyder in public comments.

Everyone,

The file contains PII. I sent Jennifer (MSP-EOC-MDCH) an encrypted file with the names. I also sent her the password (flintwater).

I need everyone to confirm that you have deleted the original email with the file from Susan Fleming.

I put the file in MiCIMS and closed the request. The desktop at the SEOC has the file, unencrypted. Someone tomorrow can figure how to encrypt the file.

I will call the CDC rep tomorrow to see where we stand. That is an open task in MiCIMS.

Louis

Subject: RE: Emergency request

The attached has a tab with Early Childhood Students (I used the file Laura provided) – I kept BOTH (1) kids with an "Resident LEA = Flint" AND (2) kids who geocoded as living in the Flint Water System (this picked up about an extra 100 kids who had a Residency Code other than Flint) and a tab with Early On kids with addresses within the Flint Water System.

- If you'd like either of these pared down with some additional "business rules" let me know.

Subject: RE: Emergency request

Hello,

Attached is a list I created that includes the Head Start students residing in the Flint School District. There are a total of 933 students. For confidentiality, I have removed their birth dates. This is a different list than the prior one I sent you. Also, I put in a compact format, 23 pages vs. 128 pages.

Ironically, I had emailed Sue Gilliam on Friday for access to all sites within Synergy so I can get a better insight. I feel it would of been very helpful if I could of compared the two lists today. She was out on Friday, so I am hoping to hear from her on Monday.

Let me know if you need anything else.

SEOC Update Briefing 2/8/16 @ 09:30

- Concern about high level of copper showing up in some homes. Currently 23 affected homes confirmed.
- Today's weather should be quiet, around 43. Light snow tonight, with accumulations Tuesday 1-3 inches. Temps falling this week, reaching teens by end of the week with zero wind chill
- Red Cross – 10 water response teams out today, reception center open.
- Working on appeal for category B declaration
- MDE – 2 current task assignments: Obtaining head start roster for cross referencing children tested & Providing CDC which information has been distributed through the schools.
- MSP – no update
- Natl Guard – no update
- Corrections – Warehouse number 2 will be staffed this afternoon
- Locals looking at alternative pod centers today – Capt wanted to ensure they use FEMA's recommendation on what would make a good pod
- Financial updates due COB Wednesdays
- *Teams trying to target sites with no filters – confirming vacant houses, etc*
- News release today on volunteers
- Capt K – financial documents need to be accurate. Also wants to know where the donated $ is going... who is tracking? United Way? Wants an update on this.
- Next briefing at 16:00

Subject: Sunday update call (1600)

1. Federal agencies have 85 staff deployed to Michigan. Majority is in the Flint area. Others are in Lansing area.

2. Continuation of operations.
   a. MDARD working service animals. Also has issued new map with food preparation locations displayed.
   b. DEQ continuing with home visits. Area of emphasis is blood level testing for children.
   c. UCG is Federal led group. They are working to standardize request procedures. They are also working on an email update. OPS chief said that they gave them SEOC emails. WE should be OK.

3. MDE sit-rep was submitted with no actions (nothing to report).

Cc: MSP-EOC-MDEDUCTN
Subject: SEOC Briefing - 2/5/16 16:00

SEOC Update Briefing 2/5/16 @ 16:00

- Appropriation requests given to state agencies
- DHHS: MDE is working to provide a spreadsheet to DHHS with the names of all Flint kids enrolled in Early Head Start/Head Start under age 6. The information will be compared to the list of children who have had lead testing. (Request has been forward to both Dr Treder (by Kevin) and Head Start/GISD staff (by Jaime). Aimee or Louis: please be sure this list gets to the HHS team as soon as it is received on Monday)
- LabCorp is certified to conduct lead testing – they have been referred to health department.
- DEQ says teams are still knocking on doors. Reports have been clarified to alleviate confusion. Filters that filter lead do not filter copper – very few filter both. 28 homes have tested higher than 38 parts per billion for copper.
- Water Samples appointments made. 25 more homes testing at 38 parts per billion for lead.
- MDARD, LARA, MDE & DEQ meeting to discuss testing of providers. Need more clarification on private schools. MDARD stepping back while LARA and DEQ continue. (Aimee or Louis: please update SIT REP once the affected agencies all agree on the plan – see e-mail)
- LARA moving forward with faucet replacement plan now that they have a defined/complete list of providers.
- DHHS moving resource request tasks through team.
- Recycle project going well.
- Volunteer Center open, may start working with Seventh Day Adventist who would like to assist with warehouse duties. Examining churches in area who want to help with distribution of supplies.
- Talent Investment Team – job identification. Also potential warehouse and storage offers in area.
- National Guard says the lighting situation at pod has been fixed. Will most likely stay with current pod schedule.
- Corrections is adding staff and hours to help with distribution but also checking expiration dates on water. Also noted an injury on site at a warehouse.
- DTMB – Disaster Outreach Center location being identified. Also a reminder to reach out to your agencies so staff there know who is at the SEOC. This will assist with better fielding of calls and TA.
- Nutrition Task Force Group are meeting. Requests to USDA are not always clear, plus these requests should be communicated to HHS/Kathy Wahl Team. (this may be stemming from the question Aimee and I received from Kathy regarding TEFAP program?)
- Outreach to apartment complexes being completed.
- Economic Disaster Location Declaration (Tony) – Businesses in area are eligible for tax breaks and other resources for assistance during hardship.
- Sit reps due 17:00

SEOC Note: They are no longer providing bottled water (BYOBW). Will eventually stop serving snacks – lunch will still be provided.

Subject: Update call for 4 February (16:00)

Update from 16:00 call:

DHHS: MDHHS representative attended MDEQ teams to high lead homes and provided support. Some concern about duplicative efforts between DHHS, DEQ and EPA teams. Reaching out to solicit clarification for collaboration. Lead Corporation of America reached out to us today and offered assistance in testing, including schools.

MDARD: Continuing with process of food establishments in critical zones to continue testing. We will be hosting update of test completions on SitRep today. Tomorrow, we are having media event that will be 9:00 at Blackstone's, JIC will release media event on this

LARA: No update

Human Services: GCARD restocked today. Pushing replacement filters. Working on staff for donation management with local Human Services possibly volunteering. MDE reported work with LARA and MDARD with schools that have been tested to this point. Also shared communication log between MDE and Flint Schools/Child Care throughout water situation. Reported that MDE continues to work with schools/child care centers in Flint

Red Cross: Did get 10 water response teams out today. Pretty sure we are planning on 10 more tomorrow. Volunteer Reception Center open until 5

MSP: Clinton and Sanders holding debate in Flint on 6 March. Time TBD

MNG: Pod 5 had lighting issue. City of Flint could not resolve and have no resources to repair. MNG has temporary fix to provide lighting in area after dark

DTMB: Continue to fulfill resource requests. Requests for access to state buildings and furniture for second warehouse.

GIS: Working on joining forces with UCG for GIS and helping DEQ where they can go in field and share data

UCG: Attended long-term recovery meeting today.

Local Liaison: No update

Logistics: Still working on getting equipment we need for new warehouse. Box trucks, trying to find with DTMB. Staffing for next week, trying to get month out

Planning: No update

Finance: No update

Recovery: Started to get numbers in from Red Cross with apartment complexes. Confident we will have them covered in next couple days.

PIO: Just approved press release for MSU athlete recycling event tomorrow (2-4pm)

Captain: Getting word City may be wanting to change pod locations 1-3-6 and move them to community centers (named). GIS needs to work on tracking those site locations. UCG indicates that visits today (with MNG) indicate that they may not be appropriate to handle distribution. Mayor is pushing for moving pod locations. Captain will follow up with Mayor. Making progress on teams? Who's doing what, etc? Jen Wolf (DEQ): We had only one team out there today. Looking for information on other teams (ie. EPA, other agencies). Can UCG rep check to see what teams are out there, makeup, mission, etc.? Jackie Scott: Meeting this morning at GCHD on this topic. They have visited 49 addresses with high levels (over 150). Made contact with 56%, discussed health message and left information on doors of others (non-contact). Asked about kids in home, ages, etc. for testing and inquired about skin rashes. Working on protocol and/or questionnaire for future visits/contact. Captain: Looking at creating an application for iPads to get more "real time" information. For GIS, we need to get with health partners to make sure questions asked help them and do not violate HIPAA.

Subject: RE: Flint water in schools - proposed teleconference for 3pm on Friday

I am currently representing MDE at SEOC. I will attempt to clarify what I know from discussions just now with the LARA, DEQ, DHHS, and MDARD.

I am trying to schedule a teleconference between MDARD, the Genesee County Health Department, MDE, and someone from LARA who is working with DEQ (NEED DEQ/LARA NAMES AND CONTACT INFO ASAP FROM SOMEONE) on water investigation at Flint schools for tomorrow at 3pm to discuss the following:

From an MDE standpoint, I (Kevin Walters) will be available for the conference call tomorrow (Friday) at 15:00.

1) Which agency is responsible for water sampling at which Flint school (I understand that LARA is working with *DEQ on conducting water sampling at the schools in the attached spreadsheet – MDARD needs to verify so we* can drop them from our list, if needed;

This does not appear to be directly related to MDE, so I will defer

2) Getting a list of private/parochial/charter schools NOT being sampled by LARA/DEQ, so MDARD can conduct sampling. (the attached list is confusing, because it appears that there are some parochial, non-public schools, ie St. Paul Lutheran, St. John Vianney School are ON this list being done by LARA.)

The listing that was provided by LARA is a listing of school entities (LEA, PSA, and Non Public) that are either within the Active Water Area or outside the Active Water Area. It appears they are utilizing a comprehensive listing to update whether testing has been completed, although that detail is outside MDE's reach and could easily be answered by LARA representatives. *MDE reads it as stated*

3) MDARD is NOT conducting sampling like DEQ/LARA sampling (we only pull one sample from the food service area). *Should ALL schools be sampled by DEQ/LARA because it is more comprehensive?*

Education just received an email from LARA at SEOC that indicates that "DEQ has stopped the testing of schools, so there will be no updates for the time being". In clarifying that statement, we have been notified that testing in schools will await installation of fixtures are complete, by school/entity. *DEQ/LARA would be a more viable resource for your* question "Should ALL schools be sampled....". MDE has continued to support water testing in schools.

If needed, my contact information is below:

To: MSP-EOC-MDEDUCTN; Golzynski, Diane (MDE); Priest, Thomas (MDE)
Subject: RE: Flint Water Crises (SEOC update, January 24, 1600)

Tom

In relation to Karen's spreadsheet:

White – in Hot Zone – potential replacement location – probably should discuss further
Pink – Not on Flint water system and will not be targeted for replacement
Yellow – DHHS Facility
Bronze – On MDE list and on LARA list for replacement.
Light Blue – on LARA Child Care facility list for replacement

In conjunction with her yesterday, we added three additional color coding elements:

Green: Schools/Entities still in use for MDE Food Programming
White: Unverified Schools/Entities or those not participating in MDE Food Programming
Yellow: Schools participating in MDE Food Programming, yet outside the identified zone

Hope this helps. Let me know if you need more information. Most of color coding was completed by LARA (Kathy Town)

Subject: RE: Flint Water Crises (SEOC update, January 24, 1600)

Diane and Kevin,

Do either of you know the significance of the color coding? Not sure how to interpret...

The request is for a) a list of schools that have verified drinkable water and b) a list of schools that do not have drinkable water and need bottled water.

There are schools declining water and they are working on how to address managing that type of response.

Tom

From: Golzynski, Diane (MDE)

Subject: RE: Flint Water Crises (SEOC update, January 24, 1600)

Karen

The attached spreadsheet has been updated, as directed today.

Of note, the SNP tab is marked with two highlighted colors (yellow=not within impacted zone) (green=confirmed as active entity)

Of note, the CACFP tab is marked with two highlighted colors (green=confirmed as active licensed entity per LARA, even though it was stated these were not licensed) (white=these entities are not confirmed as licensed, although they do receive support from MDE food programs)

Please let me know if you need further information.

Kevin

Hi Janet. We have completed a comparison of lists from MDE with LARA and I have attached the updated info.

The color coding means:

White – in Hot Zone – potential replacement location – probably should discuss further
Pink – Not on Flint water system and will not be targeted for replacement
Yellow – DHHS Facility
Bronze – On MDE list and on LARA list for replacement.
Light Blue – on LARA Child Care facility list for replacement

We also compared to the GIS map from the SEOC and the following schools are on the map in the "Hot Zone" but are *not on any of your lists. Do you know why MSP EOC GIS would have data only from 2013?* We need to know about these facilities asap. Thanks.

To: Guerrant, Kyle (MDE)
Cc: Burgess, Louis (MDE); Moss, Marla (MDE)
Subject: RE: Flint schools testing - UPDATE

UPDATE:

Following update call at 16:00, DEQ is involved in priority-sensitive reporting. I inquired, briefly, prior to the start of the call and DEQ indicated they would track down specifics and get back to us. I am assuming that will be tomorrow and will not push for information prior to my exit this evening.

In interim, I inquired with LARA, who indicates they believe it is related to MSD school testing (I question this). Kyle confirmed that the reference to superintendent was not Brian at MDE. That leaves a number of options (ie. GISD superintendent, Flint Community Schools superintendent, another locally impacted superintendent, none of the above). I will leave directions for Tom to look for that communication from DEQ tomorrow AM and ask that he update group, as appropriate, when it arrives.

Thanks again. Definitely a tense afternoon at SEOC today for some.

Kevin

I just spoke with Karen, and Brian doesn't have the meeting that's referenced on his calendar -- are they referring to the ISD or Flint Superintendent?

Kyle

Did Brian's office reach out to DEQ about EPA testing in schools? They are asking us for thoughts.

Thanks

I just received a call from the superintendents office. EPA is looking to go into the schools to do testing. I have a meeting scheduled for Friday morning with the super and EPA to discuss

The director also sent an email to Bob Kaplan to get information as to why they are apparently duplicating efforts

Subject: SEOC Update Briefing - 2/3/16 @ 09:30

SEOC Update Briefing 2/3/16 @ 09:30

- Natl Weather Service: Warm now, by 4:00 winds with wind chill back in 20s
- Behavioral Health Admin will be providing additional funding to Genesee Health Dept
- MDARD – 275 inspections at food establishments conducted to date
- MSU Extension has a "Lead Page" up and running
- Human Services – Following up on bottle openers, working on a new path for testing samples
- MSP – Nothing to report
- Natl Guard – Replacements coming in for POD soldiers. By 19th all soldiers will be refreshed
- MDOT – Working with City of Flint on continuing to work on traffic issues
- EPA sending out info on testing of filters – working on messaging with JIC, coordinating with State and Federal -- 2-4 new Behavioral Health representatives have joined the efforts in discussions in Flint – Capt K questioning what "long term" means (need to focus on "marks"). He also wants to ensure the local EOC and agencies are involved in the EPA activities. Capt K also wants to ensure DEQ is a part of High Lead Response Teams
- Calls on efficiency of the filters – still public concern
- New warehouse will take loose water (no pallets or wrapped) – will pallet the water and shrink wrap there for distribution
- Working through the SBA process (economic recovery side)
- FEMA – no update
- Recovery – Focus on how many times homes have been visited that have not had a response
- Any documents that need to be translated must be in Word. ALL documents being pushed out must be translated
- Capt K – "Who are the 2000 people who still don't have filters?" Also, stay engaged with Federal partners, regardless of what comes thru media.
- Today:
    - 10:30 Distribution Process Meeting
    - 14:30 Congressional/Legislative Briefing
    - 16:00 State Agency Briefing
    - 17:00 Sit Reps due
    - 18:30 Distribution Process Meeting

Subject: Update call (16:00) 2 February

Here is the update from 16:00 call on Tuesday, February 2:

SitRep due at 17:00 (Kevin will complete this)

Rumor that MSU Vet Clinic was conducting pet testing. This is not true.

Replacement filter plan? Tomorrow at 15:00 to Cap. Looking at long-range replacement plan for filters.

DEQ: Taking softer approach to gaining access to take samples, particularly in those that are elevated and return testing until levels reach appropriate level.

Governor is adamant that high reading homes need defined action plan from State. Struggle if EPA is only one doing it, question will be what is State doing

DHHS: Followed up with outreach to pregnant women and children. Including outreach in Wednesday webinars.

MDARD: No update

LARA: MSD: Additional bubblers installed this weekend. Delaying testing. Whaley Center is being prepped. Comparing over 300 child care providers in Flint impacted zones. Have the number down to about 100 actually within the impacted zone

Human Services: Meetings continue with groups for consistency. Work today on rubber caps and ease of use for elderly and disabled. MDE reports that Dr. Wells will be at MSD for parent meeting on 9 February. Dr. Jamal Gwenthey visited MSD yesterday and asked questions about response. MDE was contacted by Senator Stabenow's office, inquiring on Flint water situation and specifically CEP(Community Eligibility Provision) and offered assistance, as needed

Red Cross: Teams still out. Processed 25 volunteers today through Volunteer Center

MSP: No update

MNG: Got MDOT request routing cleared up at pods. Link up tomorrow at 10:30 for review

DOC: 621 test kits delivered to lab in Lansing. Assisting in logistics in second warehouse location

DTMB: In process of signing agreement with old Kroger location. Start moving in Wednesday morning.

UCG: Two things needed to be corrected/added to report. Working with HUD to verify properties. Took badges to field (one unified team). EPA has toll free number to call for sampling (211 not aware of what that number is). Meeting with local EOC and UM Flint communications on public information needs to assist community.

Local Liaison: Continuing work with franchise customers. Little confusion about Flint Township. Sunridge (apartment complex) concern whether all apartments were serviced. Working to confirm information.

Logistics: SEOC staffing for next week. Staffing for new warehouse. Working with JIC for Washington Post to gain access to warehouse (request)

Planning: No update

Finance: No update

Recovery: Working on new plan for Red Cross teams to verify apartment complexes have been hit.

PIO: No update

JIC: No update

Captain: No update

Next call: 09:30 tomorrow

Subject: SEOC Update Briefing 2/2/16 09:30

SEOC Update Briefing 2/2/16 @ 09:30

- Quality of phone briefing was uneven – lots of cutting out with internal and external callers.
- Reminder Sit Reps due tonight at 17:00
- Congressional/Legislative briefing at 15:30
- Expect soaking rain, storms, and standing water. This may be an issue for some storage facilities with dirt floor.
- Concerns over elderly being able to lift water or open water bottles. HHS looking for rubber bottle openers.
- HHS working with Health Dept long term health planning. Also working with MDE on zip code clarification for outreach.
- MDARD continuing assessment of food establishments. High risk are complete, now working with medium risk including farmers mkt vendors.
- LARA working with MI Plumbing and Pipe Fitters Union who have been hired by LARA to replace fixtures for LARA, HHS, and MDE providers. Still working to identify the HHS and MDE agencies that will receive these services.
- Red Cross Volunteers are out, reception area open 9am-5pm.
- Old Kroger rental agreement being submitted for storage of resources. Will need equipment for the facility and for palletizing and storage of the individual donations.
- HHS has staff embedded with Genesee Health Dept to assist with health planning coordination. They now have direct communication with JIC which was been crucial. Awaiting results of more testing. May be more public announcements regarding debris found in water heaters, etc.
- USDA-FNS working with state agencies on nutrition planning and WIC funding for further testing. (not sure who gave this update, someone on the line who was cutting out a whole lot)
- Recovery: List of 211 addresses – Red Cross working with those folks as well as Section 8 housing residents.
- JIC: At a high-level meeting with EPA right now.
- Captain: Concerned that all filter requests are being routed through 211. Do we need to add more sources as that could be a lot of call volume for them.

SEOC New Building Note: We no longer have to go into the building to get through security and then back outside and around the building to get in. The interior hall leading to SEOC is now open although there is much construction and painting everywhere.

Jaime Malnar

Kevin/Louis - we had a call yesterday with Jacqlyn from Senator Stabenow's office. She was very interested in CEP and the schools in Flint. We sent her some info yesterday. She also told us Stabenow's office is available to assist us in any way they can. We will continue regular communication with her and keep you posted. May be worth mentioning at SEOC in some manner...

Kevin – my apologies for not seeing this prior to your 6 p.m. deadline.
We are working with our individual programs on targeted outreach, but I am unaware of any specific meetings for the food programs.
For example, CACFP is doing targeted outreach to sponsors providing at risk meals to gauge interest in providing meals on the weekend; Food Distribution is working with SFAs in the effected zip codes to target USDA commodity purchases to items highest in the targeted nutrients; School meals is working with the FFVP schools to assure produce purchased is highest in the targeted nutrients and trying to gain support of the newly funded schools to participate in FFVP; etc.

Subject: Update Call (16:00) 2/1/2016

Here is the update from 16:00 call:

NOTE: Please pay special attention to new Objectives, particularly 1 and 4, which include specific reference to MDE tasks/assignments. Those are highlighted below, for reference.

NOTE: Also be aware of developing discussions that may require MDE involvement. OCR breached topic of potential of students that were impacted Flint residents between September 2014 and present, that may have moved away, yet are still at risk. Cap was briefed and directed OCR to work with MDE. I reached out to GISD and inquired about possibility of accessing SIS (Student Information Systems) data to retrieve that, if needed. It is possibly according to Dr. Treder, but will involve increased effort. He has offered to assist MDE with the SIS go-to-person, should this discussion reach the point of a directive. I can assist further if the topic arises when someone else is on point at SEOC.

SitRep due at 17:00 (Kevin will complete this)

Bullet points to Planning due at 18:00 (Kevin will complete this)

Operations: Objective assignments/updates took place:

Objective 1:	DHHS, Recovery, MNG, Human Resources (including MDE work with child nutrition providers), Logistics
Objective 2:	Logistics, Planning
Objective 3:	PIO
Objective 4:	DHHS (including MDE in nutritional training)
Objective 5:	Logistics
Objective 6:	Recovery
Objective 7:	GIS
Objective 8:	Unified information Group
Objective 9:	Operations
Objective 10:	Human Services

Objective 1 (4) detail specific to MDE: Continue outreach to all child nutrition providers, ensuring adequate water resources are available and proper testing is being done. (MDE)

Objective 4 (5) detail specific to MDE: MDHHS/CHECC - Coordinate with MDARD, LARA, TED, MSP, and MDE on nutrition planning and communications to develop a long term strategy to provide assistance.

Received from JIC that section 8 properties have not been receiving visits

DHHS: Busy day for planning. SAMSA rep will be in Flint tomorrow. Working on nutrition planning and outreach to providers

MDARD: No update

LARA: No update

DEQ: EPA in conjunction with DEQ has developed a high lead home strike force. Going out and touching high lead homes. More details to come

Human Services: OCR and Human Services no update. MDE reports 2/3 new drinking fountains confirmed by MSD installed at Stevens Hall last weekend. MDE has provided spreadsheet data to DHHS of all Food Programs, Organizations, and Sites in 13 impacted zip codes

Aging: No update

Red Cross: Confirming 10 water response teams today. Attempting to make contact at addresses that indicate no filter. Will continue tomorrow

Meeting with Flint task force tomorrow morning. Rollout to broader audience hopefully Thursday

DOC: No update

MSP: No update

DTMB: Working on resource requests. PIO and Federal partners; reminder that paying customers have spaces being taken. Please move up to next level

EPG: 12 objectives identified. Task force assignments. State agencies should be aware of objectives and provide feedback, when appropriate.

EOC: Donations coming in, some trucks being directed to warehouse, which made things difficult throughout day today. Will address Section 8 issue.

Logistics: No update

Planning: No update

Finance: No update

FEMA: No update

Recovery: Phone breaking up. Difficult to understand update.

Next call: 09:30 Tuesday

Subject: 4:00 call on Sunday 1/31/16

Here is the update from 16:00 call on Sunday, January 31:

SitRep due at 5:00pm today. (Kevin submitted SitRep for today and archived it)

Operations: Discussed early concerns about handling donations. Still working on this

FEMA Operations not here this afternoon

DHHS: Met and talked about priorities. More to come. Will be in Flint to participate in meetings. Needs assessment planning with volunteer centers. Looking at options trying to lean forward. New name (Community Resilience Group, CRG) for members assisting efforts with DHHS (phone broke up during this report, so I will clarify this tomorrow)

DEQ: Nothing major. 205 sample kits delivered to lab this afternoon. Website update being worked on

MDARD: No report

LARA: Stopped testing at Freeman because of a broken pipe. Resume next weekend, although school is scheduled to resume tomorrow (Monday)

Human Services: No new updates

Red Cross; 10 water response teams out in neighborhoods today. Volunteer Center operated today. 184 processed through today. Open 9-5 tomorrow, through next Sunday. Not able to assemble any water test kits today, will start as soon as more materials arrive

MSP: Forwarded to groups at SEOC a Facebook posting on Flint City Council meeting upcoming and encouraging protestors. We haven't seen anything to indicate numbers. Forwarded to SEOC for situational awareness. Date is February 3, 2016 for meeting (4:30-5:30pm) at City Hall in Flint

MNG: No report

DOC: Staffing change. Anthony taking over for Bonnie for next couple days

DTMB: No report

GIS: No report

Logistics: No report

Planning: No report

Finance: No report

Recovery: Worked this afternoon with GIS getting franchise customer list to make sure website listing matched ours. Getting that to Red Cross. Will continue into tomorrow. Have apartment list and working with GIS to get that mapped out. Working on plan for tomorrow, which will include increased situational awareness for what teams are doing out in field.

PIO: No report

Deputy State DIrector: No report

Next call will be Monday at 09:30

Subject: 1/31/16 Sunday call - 9:30 am

Short call - 8 minutes
- operations - donations of water showing up at inopportune times and much is not pelletized; local operations center said there continues to be a problem with unsolicited donations.
- Red Cross - 10 water response teams in field today; carpenter and millwright volunteers yesterday a success.
- DEQ reports from Sept 3 through Jan 28, 4924 total tests completed and of those, 4616 are at or below 15.
- corrections reports new email address: flintwarehouse@michigan.gov
- Lt. Gov asking about Franchise Customers - apparently article in DFP today - comments were confusing....

Subject: Flint Water Crisis (SEOC update: January 30, 0930)

1. The new SEOC has some communications issues. Today's call was done by cell phone, so quality was uneven.

2. Messages and media: what is being reported is not always accurate. We have to be very careful with any messages. Filter message in Free Press today is not 100% accurate. Seems as if media is quick to pick up on negative stories.

3. If we sense that something is not right or accurate we need to contact the SEOC right away. They want to error on side of caution. Example, the Flint Community Schools SODEXO-Magic rep was reporting that the filters were not working (earlier version of today's FREEP story). We tracked this through the SEOC and were able to get info to him. If you are in the SEOC, please be proactive in communicating and coordinating everything, especially info.

4. Call update:
   a. Weather in 40's and clear through Sunday p.m. Then rain and cooler temps.
   b. Distribution teams continue; SEOC is monitoring supply levels.
   c. Red Cross has 11 water response teams in Flint today; augmented by some Union volunteers.
   d. Anticipating increase in water testing demand due to FREEP story on filters not working.
   e. Water testing results take 3 WEEKS; not 3 DAYS.
   f. Consistent messaging is still the key.
   g. LARA reached out to Mark Bouvey at MSD. Mark says the new water fountains should be installed this weekend. Once they are in they will coordinate directly with LARA to get their water tested.

5. SEOC staffers: check when you get in about facilities; they are fixing things as they find out about them. New location: I am pretty sure you don't have to go in through the GOB entrance, but can walk in to the SEOC entrance, once you know how to get there. There is a brick entryway that takes you right to the SEOC door. You need your state ID to get in. Parking: I recommend that you park closer to the SEOC entrance, not the GOB entrance.

6. While I am out next week, you can coordinate any issues through Kevin Walters.

Louis Burgess.

SEOC Update Briefing 1/29/16 @ 09:30

- New SEOC is up and running!
- Upper 20s today – 40s-50s over the weekend
- Health has submitted request regarding pets and water
- Water testing results posted on web to date – looking at copper as well
- Chrysler has a group of volunteers out today with Red Cross
- Community Partners meeting yesterday – brought up volunteer reception center has a website now flintvolunteer.com
- Beginning plan for switching to community based water distribution
- Natl Guard - 1, 5, and 8 have traffic flow issues
- Active alarm at the warehouse last night – motion detector activated it
- New door cards being printed and will be in Flint this afternoon
- DNR have completed lead line map – comparing to reported lead levels
- Trying to coordinate that all volunteers/visitors to homes are wearing similar badges
- All data should be in the system this morning and caught up
- Capt K -- The governor is wanting daily numbers – sampling, etc. (Mostly DEQ at this time) He will be in Flint for most of today, and will be meeting with people from gov office. Will be addressing trying to lessen duplication of efforts (gov office directly contacting people from SEOC asking for same info).

Subject: SEOC Update Briefing 1/27/16 16:00

SEOC Update Briefing – 1/27/16 16:00

- Nine Person Team will be onsite at Genesee Health Dept as there was a concern about needing more staff. There will soon be more outreach to expectant mothers. Call volume low at this time.
- MDARD continuing outreach to food establishments.
- LARA working on list of child care centers/schools provided by MDE. Cross checking to ensure all effected locations are reached.
- DEQ continue to work with warehouse staff on recycling options.
- Health Team working on donation management (flintdonations@michigan.gov)
- Civil Rights working on rumor control and concerns about government giving false information.
- Red Cross – 10 water response teams on ground, looking for those not reached within initial outreach.
- MSP mentioned concerns about threats to state – apparently threats directed at vehicles but nothing specific reported to them. Weapons and gang activity at one of the pods – but that was taken care of, no other reports at this time.
- Hand jacks now available at pods and water samples picked up.
- DTMB working to secure warehouse – considering old Kroger site. DEQ water testing info now translated to Spanish. Looking for solution to resource offers – may add "help from vendors" button on helpflint site.
- Update: State employees can travel to Flint. Initial concerns were overblown, but be mindful of where you are going. Motorpool can remove magnet on car if desired.
- Ten Flint zip codes not originally captured on lists. Mapping with DNR should soon be complete.
- List of apartments available tomorrow. Concerns over less MSP and Nat Guard presence.
- Still concerns over storage space for random donations.
- Recovery is updating data to help direct teams for distribution. 1000 homes today.
- Door card translations being completed.
- Events tonight include Rachel Maddow Town Hall and MI Militia Open Carry event.
- Next briefing is 09:30am tomorrow.

Note to Kevin: I have called Dave Treder at Genesee ISD twice to inquire about getting his data further broken down by age *and* location. So we need location information for 0-3 age group and the 4-5 age group. In a nutshell, those planning education programs for those age groups need to know where (buildings) they are most needed. Dave's # is 810-591-4971. Louis is aware of that I could not reach Dave this afternoon – he may reach out to CEPI for similar data but I still wanted to give you a heads up. Dave has the SEOC phone number and Louis' e-mail address.

SEOC Update Briefing – 1/27/16 09:30

- Priorities: Info on the recycling centers and volunteer update
- Capt. K will be in Flint today @ numerous events
- Light flurries early today, cold front late tonight – about ½ in accumulation
- No additional health updates
- LARA working on faucet replacement list within effected schools
- DEQ focused on sampling and a consistent message regarding sampling
- DEQ working on drinking water draft timeline – will be shared with this group when available
- Civil Rights working on reaching out to those feeling "left out" and how to reach them
- DTMB working to secure additional warehouse space
- DNR has taken over the lead mapping
- Remaining bottle collection sites established by tomorrow-other plans being developed
- Work group developing plan for next phase
- Press release went out last night reassuring the water is safe to bathe in
- Capt. K at press conference this morning w/ mayor, governor, and Rachel Maddow will be coming
- Next briefing at 16:00

Subject: SEOC update 26 January (16:00)

Here is the update:

General Comments: 17:00: Situation Reports due

Operations: Would like volunteer update. Hearing there is issue with not enough work to do (meeting afterwards). GIS issue. Going to addresses showing "not hit", finding they have been there multiple times. Working on securing another warehouse

Health/Human Services: Information gathering. No additional information at this time

Agriculture: Local entities getting together to discuss pets and testing of pets. Food compliance list process has been approved by JIC (hopefully posted tonight and updated daily after

DEQ: Sent updated water data to GIS for mapping and to JIC for publishing

LARA: No report

Human Services MDE reported MSD testing and the presence of USDA Branch Chief, School Nutrition Programs and Food Distribution, is onsite in Flint.

Red Cross: Started assembling water test kits again today. Open tomorrow from 9-7

Steve Betterly: 218 seniors have been tested for lead in Flint. 8 indicated levels over 5 micrograms. Increased concern at 10 micrograms.

FEMA: Good 360 (technology platform) has set up website to list administrative needs, can be met by groups or individual donors. Food Bank has been included. Short and long term needs

MSP: MDOC/National Guard: No report. Requesting data entry individuals to assist. Snow coming into area, Flint should be not be impacted (less than an inch)

DTMB: Resource requests. Printing requests. Working on those. Site at State Office Building should be set up by 5pm for federal partners

Local Liaison: Busy day. Nothing new to report.

Logistics: Make sure you update resource requests. All day with FEMA, local EOC on warehouse options. Working on food truck drivers

Planning: No report

Finance: No report

Recovery: Red Cross revisited 1300 homes today, using iPad application. Teams are going out, hearing they have been to address multiple times. Working to correct.

JIC: PIO met with recycling group. Working on social media posts for tonight and media event for recycling on Thursday. Press release tonight will address bathing in water and hit recycling. Food Bank indicating they are no longer accepting water donations. Will look into updating information. Press conference tomorrow time has been moved.

Make sure we are looking at the IAP (tasks). Stay focused on Incident Action Plan (IAP). Tomorrow Flint Coordinating Committee will meet for the first time. Spend a little time on SitRep to assist them in discussion.

Subject: Draft update for MDE All on Flint Water crises. Your comments....

Kyle, Marla, and Mark, can you review this proposed update? There is an MSD section and an OSS update section. We need your OK for Kyle to send out later this week.

Colleagues,

I would like to give everyone an update on the Flint water crises.

First I want to thank all employees that have donated time and money to support the Flint community. There is on-going need to provide support and I want to recommend that you visit the following website it you want to continuing support for those citizens in need: http://www.helpforflint.com/ .

The Michigan School for the Deaf (MSD) which is located in the City of Flint has been affected by the water crisis. Not only are there affected students, but is administered by a mix of MDE employees and contracted support. 75 students

that stay on the Flint Campus in dormitories. When warnings were issued concerning water quality, MSD responded by turning off water fountains and providing drinking water for everyone at MSD. The school building is new and has had no water quality issues. Steven Hall is a 75 year old building and water quality tests have indicated lead in the water. This past weekend the landlord replaced the fixtures at 62 faucets in the building and is in the process of replacing three drinking fountains. Once that is complete, the Department of Environmental Quality will do additional tests throughout the building. MSD is also coordinating blood testing for all their students.

Marla Moss has been assigned to a state team that is working on child nutrition training to help create resources that can help families and any one serving children. Proper nutrition has proven to help mitigate the effects of increased blood lead levels. Office of School Support Staff continue to work with all affected child nutrition providers, ensuring they are talking the proper precautions, using safe water sources, and are aware of the resources available during the crises. In addition, the office is working with USDA to acquire additional federal food resources for schools and Flint families and to initiate weekend at-risk afterschool food sites.

MDE continues to have a presence at the State Emergency Operations Center (SEOC). OSSS staff are covering the SEOC shifts during the week and on the weekend. They keep the MDE leadership team up to date on the current situation and any breaking events. In addition, they provide coordination for all education related tasks that come up. They provide coordination between state and federal agencies, the governor's office, and non-governmental organizations that are working to help schools.

Over the past week the Federal government has sent in teams to help the state's effort. The federal representatives have been integrated into the support effort. State officials from the Department of Environmental Quality continue working with schools, child care centers, and other institutions to ensure that they are taking proper safety precautions related to water. The state is actively working water distribution, water testing, blood level testing, and distribution of bottled water.

If you have any communication to the field that is related to the Flint water crises you should coordinate your message with Marty Ackley. Marty will coordinate with the JIC to ensure that we have a consistent, accurate message.

If you have any questions on the Flint water crises feel free to contact me or Louis Burgess.

KG

Cc: Dennis, Ann (MDE); MSP-EOC-MDEDUCTN; Dixon, Janice (MDE); Ferrick, Kaitlin (MDE); Bouvy, Mark (MDE); Chapman, Teri (MDE)
Subject: Flint Water Crises (SEOC update, January 26, 0930)

1. **State Recovery Operations continue** in Flint. Detailed review of outreach to apartment complexes and the process of identifying homes, vacant homes, homes that need to be contacted. State working to make sure they go back and reach any residences that have been missed.
2. **FEMA are not integrated in SEOC.** DTMB getting spaces for Federal staff to operate in Flint area. Marla Moss reported that Vista Fletcher, USDA Branch Chief, School Nutrition Programs and Food Distribution, is coming to Flint. I did not mention this at the briefing; but we should mention as soon as we have details.
3. Gongwer Message on **Head Start Availability:** I need to know if this should be briefed at the SEOC or added to the MDE daily situation report (SitRep).
4. **MSD update** (I did not brief this, but will add it to SitRep). Mark Bouvy reports that LARA has tentatively scheduled Stevens Hall for testing on 5 and 6 February. They are also working with parents to get their consent forms for Genesee County Health Department blood testing on February 8. Mark also report that have been getting abundant water donations.
5. **Office of Civil Rights.** Their commission has approved at least three hearings to be conducted in the Flint area.
6. **Reporting numbers.** I did not include any numbers in this update. Either the governor's office or the JIC should be source of all metrics related to the water crises.

From: Burgess, Louis (MDE)
Sent: Monday, January 25, 2016 3:54 PM
To: MSP-EOC-MDEDUCTN
Subject: RE: MDE Assigned List Summary Response

I made some changes to the content.

1. Ask Richard if the tactic can be changed to: **"Continue outreach to all child nutrition providers ensuring adequate water resources are available and proper testing is being done". (MDE)**

MDE continues to provide:

Waivers to existing school meal requirements regarding availability for potable water as necessary.
Instructions to schools on how to effectively manage donations and delivery of water to agencies for affected areas.
Information to Flint area schools regarding the availability of drinkable water.
Support testing of water by providing school information as requested.

See if this works.

Louis

Subject: MDE Assigned List Summary Response

Hi Louis,

Richard gave Jaime an "Assignment List" document that has a section titled "Work Assignments".

The statement under the "Tactics" heading lists item #2 as:

"Continue outreach to all school systems ensuring adequate water resources are available and proper testing is being done". (MDE)

Richard would like a summary of how MDE is accomplishing those tasks.

Do you have anything written that we can use as our response? If not, what would you like our summary to say? Here is my understanding of our efforts-please edit/add/or start from scratch if needed.

MDE continues to provide:
Information to Flint schools regarding the availability of drinkable water.
Waivers to existing school meal requirements as needed to protect student health and safety.
Directions to schools regarding how to effectively manage donations and delivery of water to agencies for affected areas.
Support proper testing of water by providing school information as requested.

Let me know...

Tom

Subject: Flint water: update January 25, 2016

Kyle, for you 0930 update.

1. All messages and activities by state departments and their director's need to be coordinated through the SEOC.
2. **Michigan School for the Deaf**
    a. Lieutenant Governor visit scheduled 1/25/16 at 11:30 a.m.
    b. Water testing results from 1/15/16: results in Stevens Hall (dormitory) show elevated levels of lead in water.
    c. LARA and DEQ had water testing teams in the school and the Living and Resource Center (LRC) dorm.
    d. The landlord for Stevens Hall had 62 faucets replaced over the weekend. Next step is to install three new drinking fountains. This is for mid-week.
    e. Once all work in Stevens Hall is complete, MSD will schedule water testing with DEQ. This is a priority for the DEQ/LARA team.
3. **SEOC team.** The Office of School Support Services (OSSS) has been staffing the State Emergency Operations Center (SEOC) since January 5, 2016. The SEOC is covered 8:00 a.m.—5:00 p.m. Monday-Friday. Staff has also covered the SEOC on the weekends, including the daily updates.
4. **Child Nutrition Programs.**
    a. Starting 1/5/16 OSSS contacted all child nutrition program providers in Flint area to determine if they had sufficient water resources for food preparation and drinking water for participants.
    b. OSSS applied for and received waivers for all Flint area schools (LEA, PSA, non-public) from Healthy Hunger Free Kids Act requiring potable water to be served with meals.
    c. OSSS working with USDA to get more Fresh Fruit and Vegetables for Flint area schools.
    d. OSSS working with USDA to get additional food commodities for distribution to The Emergency Food Assistance Program existing sites. Food are higher in Vitamin A, calcium, and iron.
    e. Marla Moss is assigned to the state Child Nutrition education team to address nutrition training and education.
    f. Responding to information requests from USDA and governor's office.
5. **Water donations** for Flint area school.
    a. Walmart International and other corporations are stepping up with donations for the Flint community. Many of these are targeted to schools. MDE is working with the state logistics' chief and distribution lead for the best way to get water and filters to targeted schools.

b. MDE Thursday communication sent on 1/21/16 to all districts, PSAs, non-publics, and education alliance highlighting donation and volunteer opportunities.

Cc: MSP-EOC-MDEDUCTN; Chapman, Teri (MDE); Dennis, Ann (MDE); Bouvy, Mark (MDE)
Subject: Flint Water Crises (SEOC update, January 24, 1600)

1. Move to new location starting next week. State Secondary Complex; Harris Road. Instructions will be distributed. Reminder: take our saved stuff of the computer (Louis).
2. Jaime and Tom will pull duty on Monday, January 25, 2016.
3. Hot item: Lieutenant Governor scheduled to visit MSD on Monday.
4. Mark Bouvy, MSD, has been in contact with Penny Burger regarding possible cost reimbursement. State is not sure what is eligible for reimbursement; anything to be reimbursed will have to be documented.
5. MSD week update: As of 1/23/16: water testing complete in school building and LRC dorm. Stevens Hall will be tested when landlord finishes upgrades. As of 1/23/16: all water faucets replaced in Stevens Hall. 3 new drinking fountains on order; expected mid-week. Once fountains are installed, Stevens Hall will be scheduled for water testing. (CPT Kelenske asked that these details are added in MiCIMS and in SitRep; I had already added them to the system (thanks to Mark Bouvy.)
6. Ops: bar code markers; translated material; vulnerable populations? Tell GIS.
7. Health/Environment: publish test results in a consistent manner (same measure); publish results on web
8. AG: increasing questions about pets.
9. LARA: working Spanish translation
10. DEQ: reviewing the EPA order for tasks for other state agencies.
11. Public Safety: 60 Michigan Militia had a peaceful rally at city hall. No issues.
12. National Guard: wrapping up warehouse support; number to 75 supporting operation.
13. Correction staff will take over warehouse support.
14. Logistics: governor requesting lists of donations. Recycling: City of Flint is recommending sites; GM and United Way will partner.
15. Logistics: Open issue. Walmart wants to donate to schools. I am working with Logistics and distribution to have them work directly with GISD.

I will brief this at the 4:00 update today. THank you.

Louis

On Jan 24, 2016, at 9:39 AM, Bouvy, Mark (MDE) <BOUVYM@michigan.gov> wrote:

Louis,

A couple of things to share:

1. I spoke with Joe Madziar, site leader of the LARA/DEQ water testing team yesterday. They finished testing in School building and LRC dorm. We will get results after DEQ water lab processes the samples. They will be back to test Stevens Hall dorm after landlord finishes their upgrades.

2. Landlord contacted me last night. They have finished replacing all of the water faucets in Stevens Hall. We are still waiting for delivery of 3 new drinking fountains for Stevens Hall. Expected delivery for those is mid-week.

3. After we get a firm installation date for drinking fountains, I'm to inform Joe Madziar so his team can be scheduled to come back to test Stevens Hall.

Thanks.

Subject: Flint Water Crises: 1630 call - 1/23/16

Call was very quick: 7 minutes.

1. I added Mark Bouvy, Ann Dennis, and Teri Chapman to the update list.
2, Distribution operations continue in Flint.
3. Outside groups helping with blood testing. More info to follow.
4. LARA reports that's DEQ and LARA team were at a MSD today; left at 1415 with samples.
5. Cybersecurity reported no new attacks on the state network. Group Anonymous or other groups made some attempts to disrupt state network. State has resolved issues.
6. MSP planners re-emphasized need to track costs. I set email yesterday to Ann and Mark to see if we have any identifiable costs related to the Flint Water Crises.

Subject: SEOC Update (January 22; 0930)

Opening Comments: Trying to ensure there are enough resources available, establish burn rates, monitor vehicle and pedestrian traffic at fire house #3 and #6, want clarification from National Guard on the reduction in cartridge distribution rates.
National Weather: weather will be calm and cold over the weekend, 30-35 degrees during the day. Low rick of frostbite, rain/snow mix expected for Monday
DHHS: Working with MDARD on restaurant visits, mapping assistance request to RGIS, zip code 48502 shows 138 medicaid children in area-need to verify, CDC has offered help with local mapping.
DEQ: 853 water samples, 1200 more added yesterday, preparing report for governor to see first, Governor interview availability for SEOC?, received an order from EPA-24 hrs to respond, meeting with lawyers on response.
MDARD: Looking into docs on pets/water, 21 Flint food businesses in high risk areas reviewed, 34 medium risk businesses reviewed, 28 water sample appointments, no shut downs, filters vary for various restaurant equipment (ex. fountain soda machines), not necessarily the same level of filters found in homes.
Human Services: Working out of Flint DTMB building, parking concerns, 10 more staff there next week, Southern Baptist offered water bubbler unit that can filter 1000s of gallons.
Red Cross: 10,000 more water kits past 2 days, 11 canvassing teams yesterday, 15 today, making lunches for volunteers, running volunteer reception centers 9-4 today.
Public Safety: Teams out from 10-6 today, using maps
DOC: 25 employees, 20 vehicles involved in assistance, providing support to water resource teams, transporting samples and bottle kits, assisting with warehouse management.
National Guard: 276 active soldiers and airmen through Sunday, 2 more ipads added to help collect live numbers, Purple teams reached 6800 homes yesterday, slowed down due to survey questions, repositioned teams at 15 members to improve speed, residents are offered replacement filters but not all are accepting at this time, is there any bottle recycling effort underway?
DTMB: 30 more ipads last night, water cards distributed, missing cards found, IT Tech on site at Flint Office Building.
DOT: Set up Fire Stations #3 with traffic assistance and #6 with traffic control for traffic situations describes as atypical and not ideal.
Water Response Team: Surge in volunteers this weekend, Red Cross has 40 teams with 200 assigned volunteers and ability to handle 100 more.
EOC: 80 UAW workers with technical and plumbing skills have volunteered with water filter deliveries and installations for vulnerable residents, need for that level of assistance is being recorded locally.
Local: FHA loan concerns over no mortgages offered in Genesee County, working with faith-based organizations on how to help, need all agencies to be in sync when planning.
Logistics: Burn rates: water-2.5 days, filters-5 days, cartridges-at least 17 days, more deliveries of all three items daily.
Finance: working on a spending plan, Category B purchases, donations management.
Recovery: 15 Purple teams, 15 Red Cross teams, compiling Asst programs Report.
SEOC: Move to new location starts today, PCs start to be moved next Wednesday, trying to be as least disruptive as possible, all representatives are asked to remove and save files from desktops and take your personal supplies with you. New address for SEOC is 7150 Harris Road. New location open for use at 0800 hours on Friday 29, 2016.
Captain's Comments: Finance-tighten up all processes, need state agency list of everything purchased through SEOC for B category items, information required for reimbursement process.

GIS: All maps are to have bulleted information describing what they show and support data, this is a standing requirement, East Lansing and Leslie schools are reporting high lead levels, $80 million in funding is to be available, ***may*** already be here waiting for Governor to redistribute, Region 5 EPA Administrator resigned yesterday.
PIO: Inquiry regarding college student being denied water at distribution, celebrity inquiries about donating, media calls continue.
College concern is being investigated, procedure is to allow college ID to receive water.

Subject: FW: SEOC Update: Flint WAter Crises (1600, Janaury 21)

From: MSP-EOC-MDEDUCTN
Sent: Thursday, January 21, 2016 6:15 PM
To: Alaniz, Aimee (MDE); Brewer-Walraven, Lisa (MDE); Broman, Susan (MDE); Burgess, Louis (MDE); Dixon, Janice (MDE); Doxie, Shulawn (MDE); Golzynski, Diane (MDE); Guerrant, Kyle (MDE); Houseman, Jennifer (MDE); Malnar, Jaime (MDE); Moss, Marla (MDE); Priest, Thomas (MDE); Walters, Kevin (MDE)
Cc: Dennis, Ann (MDE)
Subject: SEOC Update: Flint WAter Crises (1600, Janaury 21)

Update:

1. Great interest in the Michigan School for the Deaf. Lt. Governor scheduled to visit on Monday, 25 January. Letter sent to parents on elevated lead in Stevens Hall. Media interest in the story. Owner of the building is pushing the update of water fixtures in the dorm building. Plans to be complete by January 24. Mark Bouvy reports DEQ is scheduled to test water on January 29 at 0800.

2. Project Student Emergency Response to Violence (SERV) grant. Feds wrote and said the Flint crises does not meet the intent of the grant program. We have email from them if anyone needs to see it.

3. Supplemental for Flint. Ann Dennis has scheduled a meeting to review the plans to move the funds once they are approved. Grants office is looking at what is needed to get the funds out (criteria waiver, application, budget, oversight).

4. MDE All communication went out today from the Supe to all school districts (ISD, PEA, PSA, and non-publics) with donation instructions, volunteer opportunities, and request for funds.

5. GISD Assistant Supe, Dave Treder, calling for GIS overlay of Flint water. Dr. Hagel, GISD Supe, has been talking with LT Gov. I spoke with the GIS desk (Walter). Walter will contact Dave and determine what is needed. Dr. Treder has ability to use GIS to create an overlay of all GISD students and see if they live in areas affected. It was not easy being in the middle, so the GIS team will call Dr. Treder. MDE may have to create a task in Mi-CIMS.

6. Walmart called. Wants to know what the demand is for water. They are willing to donate a truck or two a week (36,000 bottles) for a short or long time. The wanted to know if there is demand. Worked with Carol in Logistics and contacted Janet Hunter at distribution. The demand for more water is not high right now. But the state does not want to turn away the water. Stand by. \

7. Dimondale reported to parents high lead levels in one of its schools. Info sent to Kyle and Marty.

8. Call update: nothing critical. Continuing operations.

Subject: SEOC Briefing 1/21/16 @ 09:30

SEOC Briefing – 1/21/16 09:30

- 2nd wave through neighborhoods has begun... ensuring everyone has their filters, etc.
- Weather today should be around 25 degrees with few flurries – nothing significant
- Homeowner samples – results so far : 68/853 are over 15 PPB (info for this group only)
- Questions for DEQ on if they have tested the water coming thru the filters to ensure they are working
- MDE – Prepared a letter to all schools containing info on volunteering and water donations – currently at JIC awaiting approval
- MDE – School for the Deaf has reporters there this morning – communicated with JIC. The school is not affected, dorms are. Capt wants to know the plan for ratifying the situation as soon as possible
- Door to door phase two is to receive additional supplies as well as checking on people to rebuild trust.
- 7 prisoners and 1 corporal monitoring warehouse
- 279 Natl Guard and airsmen on the ground today. Goal of 10,000 homes today!
- DTMB making agency outreach calls
- Keep resource request log cleaned up
- Monitory donations are preferred and more manageable
- Make sure requests are specific
- Traffic issues continue to be present at station 6. Capt asked MDOT to check it out and provide recommendations
- FEMA IMT will be in Flint for Health and Human Services today for a period of time
- Appeal went in yesterday appealing the denial of declaration of disaster
- Next briefing 16:00

Aimee Alaniz

Subject: SEOC Update (JANUARY 20; 1600)

SEOC update

1. Influx of volunteer involvement - hoping to find a way to better organize the use of volunteers.
2. DHHS received list of medically dependent residents to ensure they are reached. Genesee County Mental Health assisting with crisis intervention calls coming from 211.
3. Only one vet clinic or animal care center in affected Flint area - no livestock in Flint. Creating overlay of all restaurant and food establishments in affected Flint area for more outreach.
4. Complete list of healthcare and childcare facilities in area obtained. Working with other state agencies to create a complete list of adult care facilities in area.
5. DEQ did get some test results back - non detect.
6. MI School for Deaf is state run school with residential status (dormitories). Water testing reported to MDE yesterday. Test results show lead level of 28 parts per billion. Contractor working to replace faucets within two weeks. Since Sept 2015, no students drinking water.
7. DHHS taking more targeted approach with home visits.
8. Red Cross states volunteers locations fully staffed - unsure of final #s but they are heavily canvassing area.
9. Aging has no report or update.
10. MSP looking to support the Nat Guard more than volunteer groups at this time. Issues with apt complexes not giving filters to residents. Will give filters to resident direct rather than rely on apt complex managers going forward. Hours of distribution 10:00-18:00 daily.
11. MDOC has staff and prisoners assisting with warehouse clean up - pallet arrangement. (not informing media of prisoner use) 12. National Guard - 268 guards on site - working with FEMA on warehousing needs.
13. DTMB working with other agencies on procurement of various services. Will be ready whether FEMA gets involved or not.
14. JIC seeing issues with media view on situation. Concerns on messaging and communication. Flint is still open for business! Lt Governor was in Flint today. Still working on warehouse issues to store random amounts of donations.
15. Governors Speech last night generated lots of calls and concern. Listening to offers from businesses - items such as bags, handwarmers, and various helpful items being offered.
16. 3,372 total homes visited. President spoke today in Detroit - touched briefly on Flint - more focused on Auto Industry.

Next Call: 1/21/16 at 09:30am

Good Night,
Jaime Malnar

Good afternoon,

We are putting together an abbreviated plan for distribution/canvassing protocols for the phase 2 canvassing. Since I had spoken with Karen about this before Tony asked several of us to put together a plan, could I ask each of you to quickly breeze through this to see if its consistent with anything your department may be planning? And if there are any things left out that you think should be there?

Karen, I had already outlined a few things in red that I added to the first draft given to me, so please let me know if those are off base or need something added.

Thanks, Tony is asking for this by 2. If there's any chance you could get a quick review back to me by 1230 or 1, that would be very much appreciated.

Thanks much!

Importance: High

All,
Attached is my attempt to capture the essence of our meeting with Tony this morning. Get out your big red pen and have at it! Please send me your edits in "red" font. I will compile them and then send the final to Tony. I would appreciate having your edits by 1:30 at the latest as Tony would like the final version by no later than 2:00pm.

Thanks,
Joel

Subject: FW: FYI: follow-up to meeting
Importance: High

Good afternoon,

We are putting together an abbreviated plan for distribution/canvassing protocols for the phase 2 canvassing. Since I had spoken with Karen about this before Tony asked several of us to put together a plan, could I ask each of you to quickly breeze through this to see if its consistent with anything your department may be planning? And if there are any things left out that you think should be there?

Karen, I had already outlined a few things in red that I added to the first draft given to me, so please let me know if those are off base or need something added.

Thanks, Tony is asking for this by 2. If there's any chance you could get a quick review back to me by 1230 or 1, that would be very much appreciated.

Thanks much!

Tom Weber, PEM

> Meeting just ended... here is what was shared:
>
> Opening statements: Operation focus continues to be on support of pods, commodity usage and burn rates, FEMA involvement, use of prisoners, canvasing teams reaching 10,000 homes per day, and the use of the National Guard
> Health/Environment: 1:45 today a press release stated HHS would be leading the Federal Response in Flint. Dr Nicole Laurie is the Asst Secretary for Prepared Response and will visit Flint this week, as will the CDC.
> SAMSA: Working on establishing a disaster distress hotline, 10,000 English language and 3,000 Spanish language flyers have been ordered. 80,000 medical personnel received an e-mail on blood testing.
> MDARD: Sampling food establishments regarding following food prep guidelines, determined that there are no active animal herds in Flint, working with the FDA to perform joint inspections.
> LARA: Final 2 bubblers have been replaced at The Freeman School, will be restarted this weekend.
> DEQ: 72,000 cases of water arrived today, 14,000 expected tomorrow
> Red Cross: Have resumed assembling water testing kits, feeding canvassing teams
> Public Services: Working with local commanders regarding afternoon deployment on Thursday, trying to determine ability to do that and safety considerations. Working on getting a map of "no response" homes to get back to them for a second attempt by National Guard.
> Corrections: Managing resource requests and work schedules
> National Guard: 127 soldiers integrated into the process, 110 are in Flint, will deliver water tomorrow, 5 additional packs are joining the effort for warehouse inventory, totaling 275 soldiers and airmen involved.
> DTMB: Working on space for FEMA at Flint State Office, have 8 vans on site with 5 more being delivered tonight
> Logistics: working with the locals, a lot more e-mails offering to help.
> Fiscal: Working with FEMA to estimate costs and work on spending plans.
> PIO: A water usage video is now available on Comcast, tonight's news release will be held until tomorrow morning due to the State of the State broadcast tonight.
> Governor's Office: When working with FEMA, it is their understanding that the decisions on the ground "belong" to the State.
> MDE:Still waiting to hear on SERV Grant eligibility, working with DHHS to draft an e-mail to district superintendents regarding water donation events and procedures.

Subject: Update

Report: - 9:30
- security at warehouse is priority; JIC is trying to find time for media to get into warehouse; looking for better updates on inbounds; more pellet jacks secured for warehouse; shuttle buses provided for volunteers by correction - caged vehicles
- ramping up volunteer requests
- incredibly cold today and tomorrow; frost bite possible so volunteers must take precaution
- MDARD is continuing to reach out to food establishments
- LARA is in holding pattern for pilot project - not sure what this is and have no details
- DHHS is still distributing kits
- HS is working with Red Cross on donations of water and logistics; pipeline for supplies is good
- Red Cross has 10 teams in neighborhood
- Public Safety Branch has concern about breaking down of pellets and recycling of water bottles; recycling is an issue and will work with city for solutions
-there was an attack on the website miCims; may not be able to get in - stated that there will be more attacks; working on solutions; high priority
- PIO are working on providing written instructions for water filters as not everyone has Internet to view the video
- Federal officer reports that 12 people arrived this morning; emer decl is short term process lasting 2 weeks to 90 days; process is to provide commodities and resources; $5 million but can request more so there is no cap - congress will have to be noticed and approve if more is needed

Subject: SEOC update - January 18

9:30 update - very short
- national weather service - cold continues; windchill below zero and concern continues for frost bite and volunteers; looking for hand warmer donations and possible DOC vans for warming of volunteers;
- DEQ - continues to work on sample bottle inventory; delivery of 21,000 sample bottles tomorrow
- HS - monitoring filter inventory to ensure adequate supply
- Civil rights mentioned that Progress Michigan invited 11,000 people to come to Lansing for Snyder's speech tomorrow night - expecting about 500
- Red Cross turned over fire stations to National Guard; had 10 teams out in field yesterday; media push for more volunteers for their volunteer/reception center;
- DOC added more passenger vans yesterday; added one just for storage of supplies (warehouse on wheels);
- local emer op will be reaching out to Kettering and U/M Flint today for volunteers
- JIC will do social media of state employee volunteers with pics and videos today; future push will be for state, local and Red Cross volunteers together as a team; releasing Water Activity Map by 11:00 am today.

Louis - you may understand this - planning meetings are going to a seven day cycle now so next one will be next Monday.

Marla

Subject: SEOC Update (JANUARY 16; 1600)

SEOC update

1. President Obama declared a Federal Emergency in Flint; increase in Congressional delegation interest.
2. New briefing format. Each briefer reviewed specific tasks and related "tactics" or specific actions taken.
3. Warehouse update. State is looking to get suitable storage place that is big enough, proper facilities, and properly secured.
4. DHHS is managing and monitoring water, water filter, replacement filter, and testing kits. This will be major part of on-going recovery operations.
5. reach out to schools will continue.
6. STAte is developing long term recovery plans; this includes staffing plans. Mentioned for SEOC, JIC, and distribution teams. Likely will have to provide our plan when requested.
7. Nutrition education will be important long term project.

Subject: Potential Assistance Programs

State Emergency Management Coordinator:

As discussed in this morning's briefing, your agency has been identified to research potential assistance programs (private, state, federal, etc.) that may be available to address the short- and long-term recovery needs in response to the Flint water incident. Earl Zuelke, FEMA Long-Term Recovery, has made contact with some federal agencies to assist with this research. Feel free to touch base with him in the SEOC.

Attached is a copy of the Non-Stafford Act Recovery Guide. Appendix 2 (pg. 24-26) provides a list of some potential federal programs. This list is **not** all-encompassing; however, it will provide a starting point if any of these programs may apply to the response and recovery for this incident.

Provide the following information, *at a minimum*, on potential assistance programs for individuals and/or government *support in response to this incident:*

- Program Name
- Agency Responsible for program
- Point of Contact
- Type of Support (Individual or Government)
- Eligibility Guidelines
- Benefits Available
- Application Process

This information shall be submitted to Brianna Briggs, the Recovery Branch Chief, at briggsb3@michigan.gov by **COB Friday, January 15**.

Let Brianna (cell phone below) know if you have any questions on this request.

Thank you,

Brianna Briggs
Recovery Branch Director

Subject: Updated FINAL MDE bullet point listing

MDE:

- Received approval of request to waive potable water requirement in National School Lunch Act for Flint Community Schools
- Food preparation is being done at sites with safe water
- Flint Community Schools indicates they are in possession of stockpiles of water
- Reached out to Genesee Intermediate School District (GISD) about other water related issues for other local districts and Public School Academies (PSA)
- Flint Community Schools indicates drinking fountains have been turned "off"
- United States Department of Agriculture, Midwest Regional Office asking for updates on Flint water situation. From USDA food preparation standpoint, there are no issues
- Request to GISD for listing of their communication regarding Flint water situation
- MDE contacted all Child Nutrition Programs (CNP) to solicit response to Flint water situation
- MDE updating spreadsheets from CNP with responses
- MDE shared spreadsheet with DEQ. Listing came from Education Entity Master (EEM) and was filtered for "Open" entities
- MDE leadership has been briefed. Dr. Eden Wells presented at January 12, 2016 State Board of Education meeting
- MDCE is contacting GCAARD (and perhaps Flint Food Bank) to inquire how MDE can help to ensure household food distribution programs (TEFAP and CSFP) go as planned/uninterrupted
- MDE is working on Nutrition Plan in coordination with other agencies (MDCH, MDARD, LARA, etc.) on the development of The Nutrition Plan. Marla Moss is the Agency Representative on this newly developed team.
- MDE is working with Office of Great Start (OGS) in working with Family and Friends Child Care providers (less than 4 children) regarding Flint water situation
- MDE and Civil Rights working on distribution of EPA document (English and Spanish) through school buildings, including students and staff members
- MDE has been in contact with USDA about activating our summer food sites in the affected area to feed kids on the weekends or other days that school is not in session.
- We will be reaching out to promote breakfast as kids with empty stomachs absorb more lead therefore feeding breakfast can help reduce this effect.
- MDE is requesting additional fruit and vegetable monies for all qualifying schools in the zip code.
- MDE is writing communication documents to go to school and child care professionals about foods high in calcium, iron, and vitamin C that help to mitigate the effects of lead.

Subject: RE: Flint Water Crisis

Louis,

- Update from Marla on OSSS activities has been added to update folder.
- Update from Louis to MDE SEOC group has been added to update folder.
- MDE SEOC instructions document has been updated, as directed.
- An outlook group (MDE SEOC Update group) has been added. Those working SEOC can type in MDE SEOC Update group (which should pop up) to send messages to the entire group. Added Susan Broman, Lisa Brewer-Walraven, and Shulawn Doxie, as directed.
- Confirmed receipt of update for 09:30 call and have shared information with Richard.

SEOC team,

Two things. This is an update from Marla on OSSS activities. This should be filed in the SEOC update folder.

When you send an update report, please include Susan Broman, Shulawn Doxie, and Lisa Brewer-Walraven in the update.

If someone is Outlook Savvy, you can create a List to use instead of having to include all the names individually. Kevin will update the instructions to include these three names.

When we listen to the reports make sure that we give any updates on the door to door operations. The Office of Great Start staff are interested because we have families and friend child care operations that serve four or fewer kids. And we have to pay attention to them.

Thank you for helping with the Flint water crises. Everyone appreciates your time and effort.

Louis

Subject: RE: Flint Water Crisis

All: at yesterday's SEOC briefing they told us not to highlight the National Guard's role in the delivery of water. The message is the state has teams organized to do the door to door delivery through Flint neighborhoods. The National Guard is providing some personnel to supplement what had been Red Cross volunteers. We want to emphasize that there are teams that are doing the delivery.

Subject: SEOC Update 1/14/16 16:00

SEOC Update: 1/14/16 16:00

- Reviewed assigned tactics (204)– MDE continues to have supportive role, no specific assigned tasks at this time (esp on development of Nutrition Plan).
- DEQ concern... right now fire stations are not accepting water samples... governor wants 8 collection teams. *Working on it. More updates near future*
- Positive feedback from citizens door to door (Human Services staff reported)
- Red Cross – standardizing water response teams
- Volunteer reception site is up and running today
- Teams have covered 2333 residences as of this briefing
- "Zero Water" may match purchased filters with donated ones
- State employee email coming soon (just approved)
- Protest occurred today at capitol
- Need to be aware that we are pushing all of these bottled water bottles into the local area... we need to set up a recycling program to deal with the bottles.
- Next briefing 1/15/16 @ 09:30

-Aimee Alaniz

Subject: *SEOC Briefing - 1/14/16 09:30*

- FOR INFORMATION ONLY; NOT FOR RELEASE: DEQ is working on a definition of safe water for Flint. This is a politically sensitive topic and they are bringing in DEQ and EPA experts, they are also working close with the community to ensure that they handle this message correctly. From DEQ.
- National Guard is working to process the soldiers that have been assigned to support the crises. It appears that they will be used as long term "volunteers" to support the operation.
- Teams are out. What is a team? State police trying to ensure a common definition. 4? 10? Big PR issue. CPT Kelenske telling the mayor there are 30 teams.
- Drizzle in the forecast. Rain and 40 degrees tomorrow.
- MDARD has had their guidance for food establishments will be going out today. We can use the new info for our purposes.
- Media is still growing; All media referred to the JIC
- Michigan State Police are working on a message to all state employees.
- Still concern over a strong centralized message.
- Note for MDE staff: Marla Moss is MDE's nutrition program contact. Gloria Zunker leading the effort for state.
- "extra water in Flint:" The state has sufficient water resources to distribute. They will not take water that has been donated to Flint School District and re-distribute the water. If Flint School District wants to give away its donated water, they should coordinate directly with Genesee County officials.
- Next briefing at 16:00

Thank you,
Louis Burgess

Subject: SEOC Briefing - 1/13/16 09:30

Summary of SEOC Briefing 1/13/16 09:30

(Not much new information from last briefing)

- National Guard was activated last night to assist with efforts, especially staffing at distribution sites
- Teams are out, however having some issues with door to door volunteers due to temp in the teens today. Conditions should improve tomorrow
- Guidance for food establishments will be going out today
- DEQ providing additional staff to assist with getting testing kits out in the area
- MDHHS has staff volunteering at the distribution sites
- Local EOC not on the call
- Recovery is working on logistics of getting 15 more teams in the field
- JIC announced working with FEMA and National Guard to the public.
- Media is showing up at distribution sites.... All media referred to the JIC
- Palm cards are in English and Spanish, currently working on Arabic
- Next briefing at 16:00

Thank you,
Aimee Alaniz

Subject: SEOC Update 1/12/15 16:00

SEOC Agency Briefing – 1/12/15 16:00

- Reviewed the 204 (tactics) – this is available in MICIMS
- Secured a 50,000sq ft warehouse in Flint, currently addressing security measures
- Status updates from the JIC every 2 hours
- Nutrition planning (long term) has been added (see previous email) – more to come soon, joint agency effort to include MDE
- Notifications to animal care facilities are in process
- 7,601 water test bottles have gone out... requested more staff to monitor process, lab can only handle 400/day coming in
- Volunteer reception center in being developed
- Working on a 100,000 sq ft warehouse lease thru DTMB
- 12 trucks of water to be delivered tomorrow
- MSP teams have delivered door to door products to 394 households today (4 teams)
- New York Times did face to face interview today in Flint
- FOIA request for MDHHS communications regarding situation
- PSA video released today
- Constant media questions wanting exact numbers of water, filters, etc. Concerns from Cap about releasing that information
- Expecting some protests – Thursday in Lansing, possible protests on Monday (MLK Holiday)
- Everything that hits the media has to hit city, county and state.... We cannot let media drive concept of "what is the STATE doing" (Cap K)

Thank you,
Aimee Alaniz

Subject: SEOC Flint notes
Attachments: SEOC Flint notes.docx

Aimee, Kevin, and Jaime,

Here are some notes for the daily operation. We should write down our role in this operation and then use the notes to guide our daily effort.

We can edit this to say: post the call summary in the Outlook Folder.

Update and share with the group.

Louis

Kevin, can you coordinate with Jaime and Tom to cover your shifts on Wednesday and Thursday as necessary. Preference is for Jaime to attend since she has MiCIMS account. You are not scheduled for Thursday.

Janice, can you add my blocks to the calendar; also move anything I have scheduled. Block Sat and Sunday too.

Louis

January 17, 2016: (Sunday) AM: TBD PM: TBD

We will also work to get Tom and Jamie scheduled. Jamie has completed her training. IF you are assigned , coordinate the hand-off. Lunch is provided at the SEOC. We have to be present at the 0930 and 1630 call. We are part of the Human Services group and you need to report to the DHHS lead when you arrive and when you leave. This will usually be Richard Thelen.

You should also sign into MiCIMS and record your arrival and departure, plus any other activities.

Marla will be coming out for an introduction to the SEOC.

Jamie and Tom, can you schedule a time to come out and get an orientation?

Any questions?

SEOC Briefing Notes – 1/11/16 9:30 am briefing

1. Going to a 48 hr operational period
2. Every morning will continue 9:30am briefings.... They will alternate each day between regular agency briefing and the agency briefing plus review of the 204 (task assignments)
3. An afternoon State Agency briefing has been added for every afternoon at 16:00 (4:00pm)
4. Requested that resources are not pulled from locations, instead future requests will go to designated locations
5. Local EOC is working to track current inventory
6. DEQ – shipping 1,000 bottles today, ordering 10,000 additional
7. Potential hazardous weather coming tonight – Finance dept. has a hotel in Flint for those requiring lodging
8. Currently 5 fire stations and 9 churches staffed to serve as distribution centers (water and filters)from 9am-9pm – there is a possibility of 4 more churches (in discussions for when tracking is stabilized at other sites)
9. Comcast will be assisting with messaging and distribution
10. Media Advisory currently being developed
11. Google has offered assistance – discussions underway
12. Radio and TV PSAs are being developed and will roll out soon
13. Reminder SIT Reps due by 3:00pm

Cc: Kovalchick, Kim (MDE)
Subject: Flint Water Crises update (January 10)

1. Update call went 57 minutes. Incident response is being organized; changes made to streamline reporting. MDE is assigned to the Human Services Branch. Richard Thelen is the lead. We will update Richard on all tasks and accomplishments. Red Cross and Civil Rights are in the same group. Richard is with DHS part of DHHS. The DCH part is in another branch.
2. This will be an on-going operation until the event is "stabilized." MDE will have to have daily representation in the SEOC. Minimum at 0930 and 1600 (4:00 p.m.) updates. I will work with Aimee and see what this week looks like; we may need to get others to come to SEOC. We have mostly an info and coordination role, but we need to be present.
3. Tone is changing. People becoming a bit more stressed; more directive in nature.
4. There is a huge public relations aspect to this operation. See Freep editorial.
5. As always tension between the local emergency effort (Genesee County) and the State. Lots of people asking for information. We should always go through Richard Thelen.
6. Spanish fliers and door hangers are being designed and re-produced.
7. Big emphasis on getting and maintaining water, water filters, and water testing kits. State will establish minimum levels.
8. DEQ reported that they have conducted 2,500 water samples in schools; and only 750 other samples . The DEQ *rep today is a substitute. (Aimee, if Jen Wolf is here tomorrow, can you ask her about getting info on the school* related tests. This is their area, but I would like to know for info purposes.)
9. JIC staffing plan. As this operation continues, I sense that they may request presence from MDE in the JIC (Flint location).
10. Department of Agriculture (MDARD) is responsible for working with food service providers on food safety.

> Colleagues,
>
> As you know the Governor has declared a state of emergency for Genesee County due to the ongoing health and safety issues caused by lead in the city of Flint's drinking water. The state has established an incident command operations center at the State Emergency Operations Center (SEOC). Louis Burgess, our Emergency Management Coordinator, and other staff has been representing MDE at the SEOC. This is currently operating seven days a week. MDE leadership is being kept up to date of the State's on-going efforts in Flint. A Joint Information Center (JIC) has been established. All messages regarding Flint and water safety issues are to be coordinated through the JIC.
>
> Any MDE staff conducting business in the Flint area should be aware that there is some resentment towards the state concerning the handling of the water crises. Staff should not travel in State-owned cars through Flint neighborhoods. Any MDE logo clothing should be avoided. (This is more an issue for uniformed staff of other state agencies.)
>
> State officials from the Department of Environmental Quality have been working with schools, child care centers, and other institutions to ensure that they are taking proper safety precautions related to water. The state is actively working water distribution, water testing, blood level testing, and

distribution of bottled water. They are coordinating their efforts with local county emergency managers. MDE staff in the Office of School Support Services have also been working with child nutrition program providers since last October. OSSS staff continues to reach out to Flint-area MDE approved child nutrition program providers (both school meals and Child and Adult Care food programs) to ensure they are aware of available resources regarding water quality.

If you have any communication to the field that is related to the Flint water crises you should coordinate your message with Marty Ackley. Marty will coordinate with the JIC to ensure that we have a consistent, accurate message.

If you have any questions on the Flint water crises feel free to contact me or Louis. If you are interested in this issue, be aware that Dr. Eden Wells will be making a presentation on the Flint water crises tomorrow at the State Board meeting (Tuesday, January 12). Dr. Wells is the Chief Medical Executive of the Michigan Department of Health and Human Services (MDHHS).

Subject: Excerpts from MI CIMS related to MDE

Kyle and Marty,

Mi CIMS tracks all of the agency and local activities. The JIC has 8 people working today and more in Flint.

1. The DEQ Laboratory is coordinating with LARA plumbing engineers to complete sampling at the Flint Schools. Once the schools are completed sampling will commence at charter schools, day care and child care facilities.
   ****Jen Wolf - SEOC OPS Health and Env MDEQ - wolfj1@michigan.gov at 10:22:12 on 1/9/2016****

2. DEQ Laboratory personnel will coordinate with LARA on the Freeman Elementary faucet replacement plan.
   ****Jen Wolf - SEOC OPS Health and Env MDEQ - wolfj1@michigan.gov at 11:31:52 on 1/9/2016****

3. Reached out to UM of Flint campus for site location that may be used for large media briefings.
   ****Jeanette Doll - SEOC LOG Resource Support MDTMB - dollj@michigan.gov at 12:45:36 on 1/9/2016****

4. Spreadsheets shared with DEQ. These lists come from the Education Entity Master. Filtered for open schools.

   MDE is doing outreach to all registered Child Nutrition Program providers. This is being done during normal work hours. There is no weekend work being done on this.
   ****Louis Burgess - SEOC OPS Human Services MDE - burgessl@michigan.gov at 12:25:27 on 1/9/2016****

5. LARA's proposal for a pilot faucet replacement program for Freeman Elementary School was approved.

   Working on putting together a list of what the next steps are with tasks to be completed.

   Coordinating with DEQ to complete additional testing at Flint schools.
   ****Alesha Gensler - SEOC OPS Public Works and Engineering LARA - genslera1@michigan.gov at 12:14:03 on 1/9/2016****

   Alesha Gensler reported to the SEOC. Communicating with DEQ regarding additional water testing in Flint schools.
   ****Alesha Gensler - SEOC OPS Public Works and Engineering LARA - genslera1@michigan.gov at 09:15:05 on 1/9/2016****

6. NWS Webinar Slides for Winter Storm impacting Michigan tonight and Sunday and cold, snow and wind Monday and Tuesday. Hazardous travel will be in place late tonight through Tuesday.

   Forecast update for Flint will be added to MICIMS and updated situation report by 3pm today.
   ****Jim Maczko - SEOC MGT Liaison NWS - james.maczko@noaa.gov at 13:24:33 on 1/9/2016****

Cc: Kovalchick, Kim (MDE); Walters, Kevin (MDE); Houseman, Jennifer (MDE); Golzynski, Diane (MDE)
Subject: Flint Water Update (Saturday, 0930)

1. There will be a 0930 call on Sunday in the SEOC. Kyle is planning on covering. Aimee Alaniz will cover the Monday call because of the Leadership Team meeting scheduled on Monday at 0900.

2. Saturday Update:
    a. General. There is high level of resentment towards the State in Flint. State employees (DHHS, AG, MSP) are encouraged to use unmarked cars and not wear clothes that have state logos.
    b. Winter storm starting tomorrow night, running through next week. Wind chill below zero. Roads will be affected.
    c. **Water filters and water testing kits.** Two main efforts for the weekend: Five Flint area fire departments will be distributing 1,000 filters. Red Cross will have volunteers to assist. Major effort being coordinated to distribute 2,000 filters and water testing kits through 10 area churches. Working today to get the filters distributed to the churches. Red Cross recruiting volunteers to help with the distribution.
    d. DHHS is coordinating the procurement of 5,000 additional filters by Wednesday, January 13; and have ordered an additional 10,000 filters.
    e. Emphasis on the JIC to drive the message on state efforts to support the water crises. They don't want the media make their own stories.
    f. Food banks are distributing bottled water. Issues are getting information out on how to access food banks.
    g. Agriculture, DHHS, and DTMB are working to develop door hangers with info on how to get filters, bottled water, and to get water testing. The Flint Water website is constantly being updated with information. The door-hanger operation is to reach those people without internet access.
    h. DLARA and DEQ are working to continue to get all school, day care centers, and other licensed operations tested. We have reviewed their list.
    i. 211 number which is being touted as source of information, is currently experiencing delays. State working to address the issue.
    j. The SOEC is developing a state task list for the crises. MDE has been identified for:
        i. Develop a plan for public nutrition, education and availability.
            1. Identify activities to date and provide coordination in development of strategy. (MDARD)
            2. Continue to conduct the Child Nutrition Programs according to existing protocols. (MDE)
        ii. We recommended a change for the MDE task to: **Maximize participation in existing Child Nutrition Programs (MDE).** Likely we will'have to come up with a list of tasks that supports this high level tasks. I spoke with Diane, Melanie Brummeler, Linda Stull, and Emily Purves yesterday, and they had excellent ideas on how we will empathize our programs to help Flint area school and programs.
    k. When it comes to public nutrition there will be some gray areas. What is the MDE role in public nutrition? I have tried to explain that is a DHHS role, and we are responsible for ensuring that programs meet the meal pattern guidelines. But, likely we will need to have some targeted info to address the water crises and how nutrition is a safeguard to help mitigate the effects of unsafe lead levels.

3. I spoke with LARA (Alesha Gensler) and DEQ (Jenn Wolf) reps. It is not clear how the lists of entities to have water tested was developed. The LARA list only included those entities that they license, so not all schools (LEA,

PSA, non-pubs) were included. I will pull a list from EEM with a complete list of schools to send to DEQ. I will add the list to our sit rep in CIMS.

Subject: RE: draft objectives for next week

Tom,

Referring to item 12: Develop a plan for public nutrition, education, and availability.

In our opinion the state should mention **public nutrition education.** This is a DHHS responsibility.

Recommend: change current item (it does not really say anything) to:

Maximize participation in existing Child Nutrition Programs (MDE)

Subject: SEOC update: Flint water (rising tension)

Kyle, Marty, and Marla,

1. SEOC will be open tomorrow. Key state agencies are expected to be here for 0930 briefing. Education has been designated a key agency. I can attend.
2. JIC update.
    a. Ron Leix briefed four key areas:
        i. Water Filters. State has to get word out on the distribution of filters. DHHS is lead.
        ii. Water Testing. DEQ is lead. 40-50K homes in Flint, only 672 water tests have been conducted. State-wide emphasis on getting water tested. Testing includes a six hour stagnation time. State effort to get more testing.
        iii. Blood testing. DHHS lead. There is a need to get info to citizens on testing.
        iv. Bottled water. Check out the Rachel Maddow show; she highlighted state's failure to get water distributed. This is the fourth key area. State has to get the info out on all details regarding bottled water.
3. MDE update. I acknowledged that DEQ and Genesee County Emergency Management is doing outreach to all organizations that serve children, elderly, have food programs, and are licensed through LARA. The School Nutrition team has been reaching out to Child Nutrition program providers since last October. MDE will continue our outreach. Our message was approved by the JIC. Marla has directed staff start contacting agencies. While some efforts maybe redundant, since there is no centralized list that everyone is working from, MDE should continue to reach out and ensure that providers know about the available resources.
4. The State continues to update the Flint Water website with new details (Michigan.gov/flintwater). The JIC main areas are the state's main areas of effort. Details on the web.
5. JIC is moving to a state office building in Flint. There will be a 3:00 p.m. JIC meeting with all key JIC representatives with City of Flint.
6. DEQ is continuing effort to get water tested.
7. State SITREPS are due by 3:30 p.m. (1530).
8. Snow showers in Flint staring midnight Saturday. Cold breezy weather through weekend.

Louis

The local Genesee County emergency manager is reaching out to known food providers (not just child nutrition sites). There may be some redundancy as we reach out. I think we make the people aware that there may be other agencies calling.

Water testing in Flint Community. 40-50K homes; but only 600 tests have been completed. Effort to continue to get testing.

FEMA liaisons in place at SEOC.

Red Cross. Coordination of efforts.

Office of Aging. Looking at elderly receiving services. Pulling data, working with GC contacts. County Health Department. City of Flint; Flint Township

Subject: Flint Water Crises update

Kyle and Marla,

Here are my notes from today's briefing. I will likely be here all day. Next briefing at 2:45 p.m.

1. Nine public affairs officers were in attendance at the session. They were in the main briefing, and then had a separate breakout. The PAO's were invited. We were not invited. I have sent Marty the contact info for the primary PIO for the Flint Water issue (Ron Leix, MSP PIO). No department is to release anything without coordinating with the MSP PIO. The Joint Information Center (JIC) has been established.

2. CPT Chris Kalenske: Opening comments. The Governors direction is: "The state is moving forward to fix this." The purpose of today is to create an operational awareness and get all the same information out to state, city, county officials and agencies. An incident command structure is being created to identify all the players, create a specific incident action plan with specific tasks, and promote the long term recovery. "There is no trust in state government" in Flint and other areas on this issue.

3. Dr. Eden Wells. *She spoke quickly. I will summarize her comments and try and get her hard copy report.* The state has a website with up to date information: Michigan.gov/flintwater.

    a. Lead is a neurotoxin; the oldest known neuro-toxin and affects everything in the body
    b. Developing brains of children are affected (board member Lisa Pugh did her dissertation on this.) ; children with poor nutrition are especially affected
    c. There are known short and long term effects (ulcers, comas, seizures, death); developmental impact on the brain; decreased coordination, developmental delays; lower IQs; behavior disorders
    d. Initially levels above 10 mgs per deciliter (I may not have this measurements exact)was a concern; now they are using 5 as the factor to show concern. Measurements greater than 5 is a call for action; greater than 45 is considered critical.
    e. "There is no safe level of lead."
    f. Lead prevention programs are underway; called CLIP: Child Lead Protection Program. Screens all children between ages of 1 and 2. Medicaid will pay for tests for children as old as 6.
        i. Initially tests are a finder prick (drop of blood)
        ii. Confirmation tests may include a blood draw; painful; but is used to confirm levels in children
    g. Lead exists in the environment: gas, paint, pipes in older cities; dates back to 1967 when standards were put in place. Older urban areas will continue to have this concern. The soil has levels of lead.
    h. Levels of lead in children always spike in July, August, and September when more children play outside and are exposed to lead.
    i. Longitudinal testing showed that Genesee County areas had decreasing levels of lead reported until 3Q of 2014. The initial increase coincided with the usual summer increase in measurements. It was not statistically significant, so they missed the first indicators.
    j. These two zip codes have been most affected: 48503 and 48504. Considered to be high risk areas; areas are older urban areas with older homes, which have older fixtures.
    k. Enhanced testing is now being conducted in this area.

l. State goal is to remove sources as treatment.
m. Filters: filters are being provided to anyone that asks for them. (Initially they tried to restrict to specific areas.) Program in place to replace filters and any device used to filter the water. They have had to provide lots of training on proper use of filters, recycling, and how to get new devices. Filters were provided starting 10/1/2015. 11,415 filters provided; 235 pitchers; 1,500 replacmeent filters
n. Initial goal was one filter per household
o. Actual numbers of person treated or in serious difficulty is small. Only 2 people treated with direct exposure to bad tap water.
p. 181 children aged 0-5 identified for tests; 109 provided case management through DHHS. 24 children being monitored.
q. Emphasis on health education

4. DEQ briefer: George Krisnian (guess on his last name.); Genesee Coordinator

   a. Briefed the sequence of events that lead to crises
   b. Prior to 1967 source of water was Flint River
   c. Switch to Detroit provider in 1967: Detroit Water and Sewerage Department (DWSD); Flint River was always the back up and was tested annually; tests showed no concern.
   d. In April 2013 Flint notified DWSD that would switch water source on 4/17/2014
   e. Testing of new water sourcesshowed some concerns; the water qualify worsened over time
   f. Testing at Flint Community Schools resulted in banning of drinking fountains as water source.
   g. Water filters provided for free
   h. On-going resident lead testing programs

5. SEOC questions:
   a. Are there other concerns besides lead? Copper is a concern. Filter program should address all known contaminants.
   b. They have to identify and remove older water fixtures; the water may in fact be potable coming from the source, but it becomes contaminated as it goes through the system. From draw from the river to exit out a fixture, it can take seven days, during which the water absorbs lead from piles and fixtures.
   c. Lead will be an issue for all older urban locations with aging pipe infrastructure.

U.S. ENVIRONMENTAL PROTECTION AGENCY
POLLUTION/SITUATION REPORT
Flint Drinking Water Response - SitRep #11

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
Region 5

Subject: SitRep #11
Flint Drinking Water Response
Flint, MI

To: Flint Drinking Water Response Distribution List

Through: Mark Durno, Unified Command Liaison
From: Jaime Julian, Situation Unit Leader

Date: 2/2/16
Reporting Period: 2/1/16, 1700 hours – 2/2/17, 1700 hours

1 Introduction

U.S. EPA R5 has deployed a team to assist with the Flint Drinking Water Response. EPA is participating as part of a Unified Command Group with Office of the Assistant Secretary for Preparedness and Response (ASPR), the U.S. Environmental Protection Agency (U.S. EPA), the Centers for Disease Control (CDC), the Federal Emergency Management Agency (FEMA). Both ASPR and CDC are a part of Health and Human Services (HHS), which is the lead agency for this response.

1.1 Incident Command Post

The U.S. EPA Incident Command Post (ICP) is at Kettering University at 1300 Bluff Street. The staging area and Mobile Command Post (MCP) are located at this address. The Unified Command Post (UCP) is at 125 E. Union St.

1.2 EPA Operations Objectives

- Ensure health and safety of the public and response personnel.
- Collect, coordinate, manage, and communicate environmental and public health data.
- Determine the effects of reintroduced orthophosphate in reducing lead in the drinking water system through sequential sampling.
- Coordinate with EPA Office of Research and Development (ORD) system assessment of the drinking water system, including chlorine residual monitoring.
- Determine field efficacy of preventive measures.
- Respond to health agency requests for environmental sampling.
- Maintain effective communications with HHS, unified command, cooperating agencies, and the public.
- Determine a path forward with the community, coordinating agencies, Michigan Department of Environmental Quality (MDEQ), City of Flint, and health agencies to ensure the safe use of drinking water.

1.3 Unified Command Senior Leadership Objectives

- Provide immediate access to safe water.
- Ensure the safety of and public confidence in the water supply.
- Understand and address immediate health needs from potential lead exposure.
- Mitigate other impacts of the water contamination crisis on the residents of Flint.

2 Activities During Reporting Period

2.1 Operations Branch

- EPA Administrator attended morning Operations briefing.
- Gave a tour of the ICP to the Director of the CDC.
- Coordinated with MDEQ and Michigan Department of Health and Human Services (MDHHS) regarding High Lead Homes Strike Team.
- Worked with Water Branch and Region 5 Emergency Operation Center (EOC) to develop appropriate skill set for High Lead Homes Strike Team.
- Finalized procurement of a field lead testing device to be piloted by the High Lead Homes Strike Team.

- Worked with Community Involvement to determine route for EPA Administrator's tour of Flint.

2.2 Water Branch

- Performed lead sequential sampling at 2 homes.
- Performed grab sampling at 2 homes.
- Performed sampling at 1 home per citizen request.

2.3 ORD Water Assessment Team

- Verified and sampled 8 sites for the chlorine monitoring plan.
- Discussed chlorine monitoring with the Administrator of Flint City Schools, who indicated he would prefer EPA not sample at schools, citing concerns with press, parents, and children. In order to proceed, he requested a meeting with MDEQ, a city representative, and EPA. We are waiting for the school district to respond with a time/date for the meeting.

2.4 Data Management/GIS Team

- Met with water team to finalize field data collection tool.
- Worked with ORD to integrate their data collection with field data collection tool.
- Completed Scribe data import for Chlorine data as of 2/1/2016.
- Published Chlorine data to be consumed on Geoplatform.
- Developed flow charts for EPA data management and partner Common Operation Picture.
- Reviewed, tested and made updates to sampling application software.
- Created an FTP site on ER Cloud Server to be shared with Water Division.

2.5 Public Affairs/Community Involvement

2.5.1 Public Affairs

- Coordinated EPA press conference featuring Administrator Gina McCarthy and Acting Regional Administrator for EPA's Chicago Office, Robert Kaplan, at the ICP in Flint. WSMH TV, Detroit News, EE News, Detroit Channel 7, ABC12, Michigan Public Radio, WNEW, Flint Journal, AP, Reuters, World Socialist Website, Sinclair Broadcasting Group attended. Bob Kaplan was interviewed on-camera with ABC 12 and WNEW.
- Issued a press update last night reminding Flint residents to take specific steps to reduce potential lead contamination that may be present in the drinking water system—remove debris from faucet aerators, hot water heaters, and whole house filtration systems.
- Developed EPA hotline (800-426-4791) and email address (flintwater@epa.gov) for information about EPA's response efforts. The hotline will provide immediate, telephonic translation in multiple languages.

2.5.2 Community Involvement

- Assisted Water Branch during sampling efforts.

- Contacted local leaders to schedule water sampling and address their concerns about sampling, results and drinking water quality.
- Called local residents and set up appointments for various sampling types.
- Met CDC liaison and exchanged contact information in order to collaborate on future community outreach efforts.

2.6 Situation & Resource Unit

- Developed situation report.
- Updated and reported current staffing levels.
- Working on scheduling plan/rotations with R5 EOC.
- Developed procedures for mobilization and demobilization procedures/personnel log.
- Developing a demobilization checklist.

2.7 Logistics

- Provided EPA Administrator a tour of Mobile Command Post.
- Assisting with setup for EPA Administrator press conference.
- Received and distributed high-visibility safety vests from Region 5 safety office.
- Transported water samples to Region 5 Laboratory in Chicago.
- Issued key cards and badges as needed.

2.8 Unified Command Liaison

- Conducted daily review of overall management objectives and participated in Incident Management Team (IMT) planning process.
- Reported EPA operations accomplishments, focusing on incoming critical sampling results.
- Coordinated GIS requests between UCP and EPA.
- Facilitated EPA Administrator discussion at UCP and with health partners.

3 Staffing/Personnel

As of 1500 hours, 36 personnel were checked into the EPA ICP. The current organizational chart is included as Appendix A. (Please note that the chart does not include all personnel, just the main contacts for each Branch/Team/etc.)

4 Definition of Terms

Acronym	Definition

> Good afternoon Ms. Henry,

I'm happy to respond to your questions, to the best of my ability. Before I do, let me add my own expression of sorrow for the residents of Flint and what they are going through. This is a terrible tragedy by any measure.

Here are my thoughts and recommendations. I hope they are helpful to you.

- Expect an overall increase in special education needs (lead decreases IQ)
- Expect more disruptive students, and students who are less able to focus and concentrate in the classroom and on their studies generally (lead causes learning disabilities and lowers ability to concentrate; lead also causes increased behavior problems)
- To the extent possible, increase the teacher/student ratio (to address the above bullet)
- To the extent possible, provide enhanced and comprehensive early childhood education initiatives for the 3-5 year old age group (this should provide a helpful extra boost of attention that may help make up for other potential deficits related to the above)
- Track the cohort of students currently below age 7 (since they started drinking tainted water about 2 years ago) over time, so that you will be able to assess how this group performs in comparison with their older counterparts (much as you described in your own email, to assess any measurable academic or other related effects potentially due to the lead exposure)

Please feel free to contact me, should you want to discuss or follow up in any way, and best wishes going forward.

Sincerely,
Pierre Erville

Subject: RE: Introduction: MI to DC

Maisha,

I am hoping that your office might be able to assist with an inquiry Michigan State Schools Superintendent Brian Whiston has asked me to pursue on his behalf.

You've very likely heard media reports of the tragic situation in Flint, Michigan related to lead contamination in the city's drinking water. As a part of the Michigan Department of Education's response to the crisis, Superintendent Whiston would like to be proactive in anticipating any long-term needs or actions that Michigan should consider in terms of providing support for students in the Flint educational system.

Knowing that Washington, DC faced a similar challenge regarding lead contamination in the City's water supply some years ago, Superintendent Whiston is very interested in gaining any "lessons learned" from an educational system perspective. I realize that those issues pre-date your Chancellor's tenure in the district, but am hoping that she or other staff members there might able to share with our office any available information that could help inform our department's future actions.

For example, were there any measureable increases in behavioral issues among students, did students experience decreases in assessment scores, and/or were there any other changes that could possibly be attributed to students' lead exposure that we might expect to see in Flint? Did the district make any staffing decisions (hiring of additional Special Education teachers, school health professionals, etc.) based on anticipated (or actual) needs that arose? Is there any advice that your office would give to us at the state level, or to those in the local schools in Flint, regarding how best to respond to this situation in order to best serve the students in the district?

Truly – any advice or guidance your team is able to share on this topic would be greatly appreciated.

Thank you in advance for your assistance.

Alisande

Hi Karen,

You requested that we connect you with the DC State School Chief regarding MI connecting with DC to get information related to recent water situations in your areas. Indeed, this would be a great opportunity to share information,. Maisha is the assistant to Hanseul Kang the DC Superintendent. She'll be able to assist you or direct you appropriately.

Best,

Michelle

Cc:	Dunleavy, Sean (MDARD)
Subject:	Summary of today's school testing meeting - action steps

Thanks to everyone for taking the time for this meeting to coordinate sampling/assessments at schools on Flint Water. The following is a list of actions that have been agreed upon at this time, along with responsible parties/agencies

1. MDE will conduct search for any schools not currently identified on LARA's list for sampling and plumbing fixture follow up
2. MDE will provide this list to Karen Towne of LARA, and will cc Lisa Hainstock at MDARD.
3. MDARD will consult with LHD to check and see if they know of any other school that is not on any list and will provide to LARA
4. LARA will consult with their leadership to see if any newly identified schools will be added to their list for followup, and will add them to their list to contact and coordinate follow up with DEQ on sampling and fixture replacement
5. If LARA determines that the newly identified schools will *not* be added to their list, they will notify DEQ and MDARD immediately
6. MDARD and DEQ will discuss coordination of next steps - who will contact the schools and do the follow up sampling/assessments?

If anyone disagrees with these actions steps or has any changes or addition, please cc everyone on this email. If you agree with the action item summary, please send an email response to this message to all.

Thanks again, everyone, for the good work and willingness to get together!!

Per Liz Browne, DEQ School Sampling Coordinator, we have NOPT STOPPED SAMOLING SCHOOLS.

Apparently a decision was made to replace all drinking water related fixtures in schools, so we will WAIT UNTIL THE FIXTURES ARE REPLACED to sample schools. Freeman school has had all such fixtures replaced, so will have our team at Freeman this Saturday

Awesome. Thanks!

How often does LARA update the tested column? MDARD is asking us for a general updated listing of schools that have been tested. I would like to alert them of update frequency, if possible.

Thanks again

The Gold color is used by LARA internally, I believe it represents schools that we have material lists for. We are only tracking if the school has been tested and the # of faucets that have tested high and need replacement. I believe DEQ is tracking the actual test results of the water.

Subject: FYI DEQ Testing

The following schools are listed as tested on the DEQ website.

Potter Elementary
Doyle/Ryder Elementary
Holmes STEM Academy
Pierce Elementary
Brownell STEM Academy
Eisenhower Elementary
Freeman Elementary

All of these schools had results showing the presence of lead in some but not all faucets. The DEQ reports advise the replacement of fixtures and other methods to clean/improve water quality. There is no information on whether these schools have addressed DEQ recommendations.

If the school is already being tested and followed up on by DEQ/LARA (ie Flint community schools listed on the deq website there is no real reason for mdard to do these because they are already being told to flush and taps being scheduled for replacement. Some are in our list but they are already being addressed by others.

Other schools not part of Flint Community Schools, ie parochial/private/charter schools, we will do these i believe. Some have already been done

I was asked by MDE if any schools were on MDARD's initial assessments list and if we've taken any water samples were at schools. Some of the reasoning from MDE was that a school would be a licensed food establishment – likely LHD jurisdiction – but since MDARD is covering LHD establishments, schools also might be on our list to assess/test.

>
> A random drinking water test, which is required by the Department of Environmental Quality (DEQ), was performed over the summer and elevated levels of lead were found in two of the samples. In August, I sent out information to all families about this situation and assured you that water stations would be available for all students since all drinking fountains would be disabled. Those water stations are still in place and the students and staff at Dimondale have adapted very well to this system for accessing drinking water.
>
> Since that time, the district has been in constant communication with the DEQ and the Barry/Eaton County Health Department to work on resolving this issue.

As part of this communication, I would like you to be aware that repairs were made to drinking bubblers, unused plumbing lines were removed and water supply lines were replaced with braided stainless supply lines. Each upgrade was completed with the overall improvement of the water quality in mind.

The next random water sample test to evaluate the lead levels will be conducted in March. We will continue to communicate the results of our water sample tests and remain hopeful that the improvements that we have completed will have a positive result.

In an event that you have additional questions regarding this issue, please contact me at 517-694-5715 or by email at SuptOfc@hpsk12.net
Sincerely,

David G. Hornak, Ed.D.
Superintendent, Holt Public Schools

***A copy of this email has also been sent to each family with children attending Dimondale Elementary.*

August 25, 2015

Dear Dimondale Elementary Parents and Guardians,

In an effort to over communicate with you, I would like you to read the following announcement.

Every three years, we are required by the Department of Environmental Quality (DEQ) to test the drinking water at Dimondale Elementary. I am writing to inform you that elevated levels of lead were discovered during routine testing. Although the samples were taken in the summer, we are taking precautionary measures by providing alternative potable water sources for the students and staff to enjoy until we can have additional water samples analyzed.

The DEQ has a nationwide rule that allows lead drinking water levels to be at or below 15 parts per billion. As indicated above, this round of sampling occurred when the building was dormant, which may have contributed to the results being slightly higher than normal.

Moving forward, the water at Dimondale Elementary is safe for daily hand washing. We are safely disabling all water fountains in the building until we can complete the next round of analysis. Families can help by sending a filled reusable water bottle to school on a daily basis. When needed, children may refill a water bottle at one of the five water stations placed throughout the building.

We are looking forward to the beginning of the 2015-16 school year. By remaining true to our increased level of communication this year, we hope you find comfort in the proactive nature of our actions. By providing the DEQ with additional water samples, temporarily disabling water fountains, and by providing

drinkable water for the students and staff to enjoy, we have been permitted to begin the school year as scheduled on September 8, 2015!

In the event you have additional questions regarding this issue, please contact me at (517) 694-5715 or by email at SuptOfc@hpsk12.net.

Sincerely,

David G. Hornak, Ed.D.
Superintendent, Holt Public Schools

Subject: School for the Deaf: Flint Water

Kyle, I spoke with Mark Bouvy. The School for the Deaf is on the City of Flint water system. In September they were notified by a local pediatrician that there were spiking blood levels due to the water. At that time, the procedures/precautions listed below were taken. They contract for their water through Culligan.

They were notified by the local Health Department about free testing for their students for lead poisoning. They have a staffed health center and would like to do the testing there. Since they get their water from the City of Flint, I recommend that they get their students tested for free.

Subject: RE: Important Request Regarding City of Flint Water

Dear Ms. Moss,

Thank you for contacting us about the use of the City of Flint water.

No students are currently drinking unfiltered City water at Michigan School for the Deaf. We have installed lead filters in the kitchen (for cooking) and at the drinking water/ice dispenser in our cafeteria. Additionally, we are importing bottled water and have set up 5 gallon dispensers at the drinking fountain locations throughout the school and dormitories. We began this new procedure in September after the announcements about lead contamination.

If you have any more questions, please let me know.

Sincerely,

> • Provide assistance in reviewing nutrition education materials to the State Nutrition Task Force.

I'm already on this task force and completing this work

• Investigate the feasibility of using WIC funding to support blood lead testing.

WIC has already drafted and submitted a request to do this

• Follow up with the State Dept. of Education on what support will be supplied for menu planning for school
meals.

I talked to Vista about this yesterday. We are all set and moving forward.

• Follow up with the State Dept. of Education to identify other programs to address the nutritional needs of children when not in school.

I'm already on this. I have a meeting at 11 to prep for a meeting this afternoon at the capital about all nutrition services in the Flint affected zip codes.

Subject: Re: FW: Request

I'm a little confused as to why I would respond to an LHD request for a conference call. Education would certainly be willing to participate in a conference call, but it really seems like that's something that MDCH should be making decisions/plans for. Is there something I'm missing here?

Take care,

Bob

Hi,
I just read the new guidelines for schools from this morning which are very aggressive. Of course, we are getting multiple calls from schools regarding ill staff, students returning from trips, etc. Would it be possible to get a conference call with the LHDs to discuss this today?
Thanks,
Diana

Subject: Re: Request from CDC for info. on school closings

Raquel should contact Jan Ellis at MDE or the JIC. Her email is ellisj@michigan.gov.

>>> Community Health SEOC 4/30/2009 2:10 PM >>>
Would you please respond to this request from Raquel Sabogal, of the CDC? She needs information on school closing in Michigan. Thank you, Karen Krzanowski, DCH-EMC.
****

Good afternoon,
I am contacting you to obtain information on the school closings in your state. The CDC has developed a 1-page form to capture this information.

Can you direct me to a specific person to speak to or communicate with via e-mail to complete this form?

I would greatly appreciate your assistance with this matter.

Thank you very much!

OGCS/MSP WRT Volunteer Assembly Information V2.0_011816

1. Volunteer check in at 8:30am at 1101 Beach Street, Flint, MI 48502 (Genesee County Administration Building).
2. Volunteers are able to park at the overflow lot of First Trinity Missionary Baptist Church located at 1226 Beach Street Flint, MI 48502. This lot is located directly to the east of the church. The parking structure to the east of 1101 Beach Street can also be used for parking. Parking tickets will be validated. Access to the parking structure can be gained on Eighth Street just east of Beach Street. Access to the building can be gained from the southeast and southwest doors on each side of the building. Upon entering the building proceed to the basement for sign in.
3. Assignments and briefing will follow between 8:30am and 9:15am. Efforts will be made to keep groups together if requested. Volunteers should inform their team leaders of any medical, security or other needs.
4. Teams will deploy to assigned areas. Volunteers should be able to walk long distances with difficult terrain. Transportation will be provided to and from the assignment location.
5. Teams will return to 1101 Beach Street for lunch from 12:30pm-1:00pm. Lunch will be provided.
6. Teams will redeploy to the field with afternoon assignments.
7. Shifts will end between 4:30pm and 5:00pm with a return to 1101 Beach Street. All items assigned to volunteers must be returned to their team leader at the end of the day. This includes high visibility vest, tablets/IPADS, stylus, lanyards, carrying bags and paperwork.
8. Appropriate clothing should be worn for the projected weather of the day. Boots, hats and gloves are strongly encouraged.

Water Response Team: Concept of Operations and Support

Mission: Distribute filters and additional resources to all households within the impacted area

Concept of Operations and Support

1. Planning & Prioritization
    a. Plan Components
        i. Team Type: Mission, Resources (example: Vehicles, Team Members, Product)
        ii. Priority: Priority locations for distribution within the impact area
            1. Priority locations are determined based on 3 projections: lead concentration, locations of vulnerable populations, and previous distribution locations
    b. Accountable: SEOC Recovery Branch Director
    c. Approval: State EM Director
2. Resource Support
    a. Resource Components
        i. Vehicles
        ii. Product
        iii. Personnel
        iv. Team Support (example: lunch, rain ponchos)
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Logistics, SEOC Warehouse, American Red Cross Volunteer Resource Center
3. Execution
    a. Water Resource Team Daily Distribution
    b. Accountable: Genesee County Sheriff Office (GCSO)/Michigan State Police (MSP)
    c. Responsible: Water Response Team Officer In Charge (OIC), American Red Cross OIC
4. Execution Support
    a. Team Replenishment
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Warehouse
5. Reporting
    a. Distribution Reporting
    b. Accountable: Water Response Team OIC
    c. Responsible: All Water Response Teams

Distribution Kit	1200	1200		1/17/16	2000

Execution:

Key Locations

Team	**Assembly Area**	**Hours of Operation**
OGCS/MSP	LEOC Genesee County Administration Building 1101 Beach St, Flint	0830-1600
ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600

Warehouse	4315 North Clio Road, Flint	0700-1900

Critical Task: Assemble, coordinate, and monitor WRTs

OGCS/MSP Process:

1. Assign team leaders, team members, and routes to teams
2. Team Member check in
3. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings (refer to OGCS_MSP WRT Volunteer Assembly Information V2.0_011816 for detailed information on volunteer processing at LEOC)
5. Provide training to new team members
6. Issue vest and badge to team members
7. Execute morning distribution assignment
8. Lunch served between 1230-1330
9. WRT OIC and Team Leaders midday brief
10. Execute afternoon distribution assignment
11. Conduct post-deployment debrief with team leaders and members
12. Collect vest and badge from team members

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
GCSO/MSP	100 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	1. Contact warehouse to request replenishment truck 2. Coordinate replenishment location with warehouse 3. Exchange replenishment truck with empty truck
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

Lunch

OGCS/MSP WRTs lunches will be provided by the ARC and coordinated by LEOC Logistics.

Reporting:

Tactics:

1. All WRTs will utilize ipads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if ipads fail.

Priority Distribution Areas

Louis,
Flint School District had 338 English learners in 2014/15 and is funded by us under Title III along with Title I, Part A and TItle II.

I don't have counts by school or by language but can try to pull these figures for you. How soon do you need this?

Subject: Non-English student counts, Flint

Shereen,

I am in the SEOC (State Emergency Operations Center) today and they are requesting the following information:

1. How many students in City of Flint zip codes are identified as non-English speaking?
2. Where (building or location) are the non-English speaking students?
3. What languages (by location and number) are required?

Thanks. MDE has been tasked with working with Office of Civil Rights (OCR) on this.

Louis –
Is the ask for the number of children age 0-12 in any buildings in Flint/Mt. Morris/burton, or is it for total headcounts and total staff counts?

Tom, who is best person at CEPI that can help us get the pupil count of buildings in Flint?

THe real question is for those that are on Flint water, but we should provide a count for any building in Flint, Mt. Morris, and Burton addresses.

Do you have any info on staff by building? REP?

Louis

Tom,

DHHS and MDARD are state agencies. MDARD is Agriculture.

SEOC is state emergency operations center.

Not sure what the ESF is.

This section is new to me, so I would consider it "FYI" material. I am not familiar with all of the acronyms being used. My understanding is that USDA can direct use of food as the please, so I do not have anything to add to what is stated since it meets that use of authority.

Tom, here is another section to be reviewed: some of this may just for your info that you have a role in emergency planning, depending on the situation.

LOUIS

The MDARD, in coordination with the MDHHS and MDOE, will direct requests for additional food supplies to meet the needs of the affected population to the USDA Food and Nutrition Service, in accordance with the procedures outlined by the USDA and ESF #11 (Agriculture and Natural Resources) in the National Response Framework. The MDARD can also coordinate with the MDHHS for additional food supplies and distribution through the ARC and other NGOs, as well as the MDOE for distribution and use of federal food earmarked for the school lunch program. The Human Services ESF in the SEOC will work with affected local jurisdictions (through their EOC) to coordinate distribution of food to the public.

Subject: state plan

Tom, this is in the state emergency ops plan: any updates you want to make? Cheryl updated this for several years ago.

MICHIGAN DEPARTMENT OF EDUCATION (MDOE):

- **Authorize the use of USDA commodities for feeding disaster victims.** Existing USDA food supplies within school facilities may be used to feed disaster victims if other food resources are not available or have been exhausted. At the direction of the Governor, the MDOE EMC may request intermediate school districts to arrange with local school districts for additional food supplies to feed disaster victims on a temporary basis until more appropriate sources are available.

  In addition, the USDA Food and Nutrition Service (FNS) can provide donated food assistance to the MDOE upon request. The USDA may authorize the release of USDA foods from existing inventories, or if those inventories are not sufficient it can acquire food from other existing inventories or through direct market procurement. The USDA can also arrange for transportation of the food to staging areas anywhere in the state. The MDOE is responsible for requesting the food and arranging for its receipt, allocation and distribution to preparation or distribution sites, in coordination with the MDARD.

Subject: RE: one more section

Thanks Louis, I opened up the second e-mail first and was confused by the sender name, so I wanted to clarify.

I think the language in the second e-mail is still current and accurate. Per state school rules, we regularly test for lock-down situations, as well as tornado and fire drills. Additionally, we have an emergency closing procedure that is updated each school year.

However, the second two bullets in the first e-mail may need some consideration.

- *"Coordinating the use of the Michigan School for the Deaf properties, to include Camp Tehsmeheta, to support emergency operations (i.e., as a shelter, staging area, emergency coordinating facility, etc.)*
- *Providing for the use of School for the Deaf equipment, materials and supplies, as appropriate"*

I remember when the department was developing the business continuity plan in 2003, 2004 or so, and there was talking about MSD being a temporary emergency operations center for State or County emergency staff. It made a lot of sense at the time, but after the sale of the MSD property, we don't have as much to offer in terms of facility space.

Prior to the sale we had 80 acres and a large Service Building, Power Plant Building, Health Center Building, Gilbert Hall, Fay Hall, and four large residential houses that all could be made available for emergency operations. Now we're down to a quarter of the land size, and none of these buildings are available, and the new school is roughly half the size of the previous school.

I'm not sure if the current plan still depends on MSD as a back-up operations center, but if so, perhaps we should re-think that?

Thanks.

Mark, it is the Emergency Management and Homeland Security Division Emergency Operations Plan for the state.

MDE and MSD are mentioned in several places (the ones I sent).

Subject: one more section

Mark, I sent just to you. This is a separate section in the plan:

MICHIGAN DEPARTMENT OF EDUCATION (MDOE):

- **Protect residents, staff and visitors at the Michigan School for the Deaf.** The Michigan School for the Deaf in Flint must develop and maintain internal facility emergency procedures for the protection of residents (students), staff and visitors in an emergency or disaster. These procedures should be consistent with the local jurisdiction's EOP to ensure timely local emergency response support, if necessary, and be tested on a regular basis to ensure they are adequate. In an emergency or disaster, the School for the Deaf must coordinate response and recovery operations with the local EOC, and may need to utilize local resources to maintain adequate care for residents (students) and ensure that staff is able to maintain operations at a reasonable level.

Subject: review of Spate Emergency plan

Ken: can you give me a review of this section of the plan?:

- **Coordinate school bus driver safety initiatives.** The MDOE administers school bus driver training, education and medical certification programs aimed at enhancing driver knowledge and skills and certifying their competency to operate a school bus. Under these programs, all school bus drivers in Michigan must take and pass a bus driver education and training program, and then take regular refresher courses to maintain their certification to operate a school bus. School bus drivers must also pass an annual medical examination. (Like the MSP school bus inspection program referenced above, these MDOE initiatives are designed to meet federal and state laws and guidelines pertaining to school bus and pupil transportation safety.)

Teri, Rose, and Mark,

can you reivew this section of the state emergency operations plan?

this is part of an annual update. I need any updates by January 16.

Rose, I don't know who keeps track of Camp T.

Louis

MICHIGAN DEPARTMENT OF EDUCATION (MDOE):

Notes: 1) The MDOE has no direct authority over local public school buildings, school buses, or school equipment and supplies. Local public school districts are autonomous. Local EMCs must make direct contact with local school administrators / school boards to secure the use of their resources in emergencies or disasters. 2) School for the Deaf resources can only be used when other sources of assistance are not available or have been exhausted. Facility needs must be adequately met before these resources will be used to supplement relief efforts.

- **Coordinate use of Michigan School for the Deaf resources to support emergency operations.** The MDOE EMC is responsible for the following tasks related to the use of these resources:

  - Maintaining a log of all key decisions, activities, and conversations related to the need for Michigan School for the Deaf resources
  - Coordinating the use of the Michigan School for the Deaf properties, to include Camp Tehsmeheta, to support emergency operations (i.e., as a shelter, staging area, emergency coordinating facility, etc.)
  - Providing for the use of School for the Deaf equipment, materials and supplies, as appropriate

Char,

Got your message about the drill to the CTM. Good work, as usual! Could you make a record of who responds to, and confirms that message?

This message is coming through the SEOC Group Wise account, and would normally be used to communicate with the CMT's lap top, or what ever configuration we might be using. I'm going to try to contact the EM Coordinators at the Berrien, Van Buren and Cass ISDs, to establish a working link between the SEOC and their offices.

Will use this to keep you updated.

Cheers,

Dave :)

Subject: Shared folder information

This folder represents a shared personal address book that you had access to prior to migration.

If this was the primary address book of the other user, you may be able to access it by **File>Open>Other User's folder...** Enter the name or address of the owner and select the Contacts folder.

Another way to access folders shared to you by someone else in Outlook is to open that person's mailbox. In Outlook 2002 or 2003, select **Tools>E-mail Accounts>View or Change existing email accounts>Microsoft Exchange Server|Change>More Settings>Advanced>Mailboxes....** You will then see another store in your folder view containing the folders you have been granted access to. In Outlook 2007 select **Tools>Account Settings>Change>Microsoft Exchange Server|More Settings>Advanced>Mailboxes>Add...** Enter a search string to filter the list of available mailboxes. A dialog box will appear from which you can select mailboxes to add.

This particular folder might not exist in a location that is familiar to you. It's also possible it will have a different name if you renamed the address book that was shared to you. You will need to open the folders you have access to in order to find it. If you cannot find this contacts folder, you should contact the owner for help to determine the correct folder path and to verify that you have the necessary permissions after the migration.

Subject: Briefing for 2-23-16

SEOC Briefing 2/23/16

09:30

- Natl Weather Service: 40 degrees with light wind. Wednesday and Thursday will bring 9 inches of snow for Flint area. Expect blizzard like conditions and lots of blowing the days following the snowfall.
- MDHHS working on recommendations for lead testing on the Flint Water website. Working on talking points w/ EPA regarding shower head usage. Also working on Spanish translation of documents.
- DEQ has 10 teams in the field inspecting homes (505 samples). One high lead level team out. Partnering with MSHDA for housing unit testing. Instruction cards regarding samples going out. Whaley Center is the next school on the list for testing. Researching ground penetrating radar for lead pipe evaluation.
- Red Cross has 6 water response teams out today. Center is open 9am-5pm today.
- **MSP mentioned that someone (?) was visiting Flint on Feb 25th. They are gearing up for that visit. (no one could hear that portion of the call due to banging work being done on SEOC roof)**
- PIO – will be a release regarding rashes. Capt K on a call regarding this later today.
- Next briefing at 16:00

16:00

- MDHHS: No update
- Red Cross: Deployed 6 Water Response teams – processed 22 event volunteers today
- MSP: No Update
- Natl Guard: No update
- Corrections: Increase in water leaving the pods today, believe due to incoming weather
- GIS: Still working on comprehensive address list
- Local: Teams in the field today, including one high lead level team. Station 3 is now doing "drive thru"
- Planning: Some of the stations were given 10 oz bottles, therefore multiples were given out due to smaller size, which is impacting the numbers of bottles going out. The locals are trying to note that in records.
- FEMA: No update
- JIC: Website was updated today. Number of news releases went out today. Tomorrow there will be a community event, making arrangements for sign lang. interpret.
- State Director: No Update
- Natl Weather Service: Snow expected to start between 09:00-10:00. Now expecting 9-13 in by Thursday.

Subject: RE: Education Response Meeting -

Hello All,

That sounds very good. I am CC'ing Jacqui Barr to request she set up a 1-hour conference call to discuss the following concept for this week.

Participants for this coordination call- at a minimum –

1. Mark Johnson ATSDR
2. Mary Behm GISD
3. Eden Wells (if available)
4. Kory Groetsch
5. CHECC designee who will coordinate the details

Purpose of Call: Discuss CHECC taking over the coordination of providing a series of webinars for teachers in the Flint Area that allows them a depth of knowledge that will allow them to speak confidently with parents and children regarding Flint Drinking Water.

Current Proposal:

1. Request from ATSDR, CDC, EPA, or MDHHS experts to provide ~30 minute presentations followed by 30 minutes of opportunity to ask questions on the given topic.
   - Public health messages
   - Lead in Water Systems – Sources and Common Solutions
   - Lead Toxicity and Mechanism of Action -
   - Medical Overview and Services including Blood testing recommendations

2. Request Mary Behm or an associate of her designation to provide suggestion on the presentations so they are at the appropriate technical level for teachers.

3. Follow the template set by Eden Wells for her MD presentations.

Background information to keep in mind

These are the US Dept of Education people who attended the GISD meeting.
Sujeet Rao - Office of the Secretary of Education
Dan Schreier – Office of Special Education Programs
Paul Kesner, Office of Safe and Healthy Students

CDC Contact: Kevin Hardwick with USDHHS irct1.lno@hhs.gov

Kevin says his job is to work on coordinating messages and harmonizing between agencies. Knows Mary MacQueen from some joint coordination group.

Need to have a State Department of Education collaborator.

Thank you to all,

Kary Graetsch

Hi Eden,

I cc'd you on my CHECC report back to Linda Scott et al.

In addition, talked with Caryn Pack-Ivy of Michigan Alliance for Families. She was very pleasant. She did not have any comments at this time, but I left her my card if she sees anything she would like to comment on.

Mary Behm (mbehm@geneseeisd.org) 810.591.4407 : would like to collaborate with MDHHS on a webinar series to train teachers how to respond to concerns with Flint water they are encountering in the classroom. My thought is that your idea about webinars for MDs paradigm about lead could be the template (different information) for a Teacher series. We are all short on time and resources, but ATSDR may be willing to help build slides in your template.

CDC Contact: Kevin Hardwick with USDHHS irct1.lno@hhs.gov

Kevin says his job is to work on coordinating messages and harmonizing between agencies. He was the guy sitting to our right. Retired dentist. Knows Mary MacQueen from some joint coordination group.

Dr. Tretter - they guy with all the GIS maps, - left the meeting before I could get his contact information, however, I will request from GISD.

Cheers,

Kory

Subject: RE: Education Response Meeting -

Hello All,

That sounds very good. I am CC'ing Jacqui Barr to request she set up a 1-hour conference call to discuss the following concept for this week.

Participants for this coordination call- at a minimum –

1. Mark Johnson ATSDR
2. Mary Behm GISD
3. Eden Wells (if available)
4. Kory Groetsch
5. CHECC designee who will coordinate the details

Purpose of Call: Discuss CHECC taking over the coordination of providing a series of webinars for teachers in the Flint Area that allows them a depth of knowledge that will allow them to speak confidently with parents and children regarding Flint Drinking Water.

Current Proposal:

1. Request from ATSDR, CDC, EPA, or MDHHS experts to provide ~30 minute presentations followed by 30 minutes of opportunity to ask questions on the given topic.
   - Public health messages
   - Lead in Water Systems – Sources and Common Solutions
   - Lead Toxicity and Mechanism of Action -
   - Medical Overview and Services including Blood testing recommendations

2. Request Mary Behm or an associate of her designation to provide suggestion on the presentations so they are at the appropriate technical level for teachers.

3. Follow the template set by Eden Wells for her MD presentations.

Background information to keep in mind

These are the US Dept of Education people who attended the GISD meeting.
Sujeet Rao - Office of the Secretary of Education
Dan Schreier – Office of Special Education Programs

Subject: Recovery Workgroup Meeting

Kim, this email came in last week. I spoke with Marla and Kyle.

I would like you to have someone contact the Physical Health and Mental Health workgroups. Contacts are below.

We would like either Linda Meeder or Mary Teachout be part of the physical Health group. Lauren could be the Mental Health representative.

You should call one of two contacts and see what skills the person we send should have.

Once you confirm what they need, give me the names or the situation.

Louis

Cc: plangc
Subject: FW: 6 Points of Recovery Workgoup Meeting Schedules

Included in this email is a list of the six workgroups and their contact info for the Community Partners group in Flint.

MSP/EMHSD is on the Resources and Coordinating workgroups. The JIC will have a representative on the Communications workgroup.

If any of your agencies are interested in having an individual provide technical/coordinating assistance to the Education, Physical Health or Mental Health workgroups, it would be welcome.

While each workgroup is trying to maintain a consistent meeting time each week, it would be advisable to contact one of the group leaders to confirm time and location of the next week's meeting.

Thank you,

Sent: Monday, February 22, 2016 3:18 PM
To: MSP-EOC-MDEDUCTN
Subject: RE: 6 Points of Recovery Workgroup Meeting Schedules

Kevin, I spoke with Kyle and Marla. Tell Tom that we will contact the education, physical health and mental health groups.

Can you reach out to the Education group and see what they are looking for? What type of help or expertise. This may be you.

Louis

Subject: FW: 6 Points of Recovery Workgoup Meeting Schedules

Included in this email is a list of the six workgroups and their contact info for the Community Partners group in Flint.

MSP/EMHSD is on the Resources and Coordinating workgroups. The JIC will have a representative on the Communications workgroup.

If any of your agencies are interested in having an individual provide technical/coordinating assistance to the Education, Physical Health or Mental Health workgroups, it would be welcome.

While each workgroup is trying to maintain a consistent meeting time each week, it would be advisable to contact one of the group leaders to confirm time and location of the next week's meeting.

Thank you,

Tom Weber, PEM

To: checcdeptcoor; Minicuci, Angela (DHHS); Wells, Eden (DHHS); Barr, Jacqui (DHHS)
Cc: Lasher, Geralyn (DHHS); Taylor, Kerri (DHHS); Scott, Linda (DHHS); MSP-EOC-MDCH; Mary Behm (mbehm@geneseeisd.org); Mark Johnson
Subject: RE: Education Response Meeting -

Hello All,

That sounds very good. I am CC'ing Jacqui Barr to request she set up a 1-hour conference call to discuss the following concept for this week.

Participants for this coordination call- at a minimum –

1. Mark Johnson ATSDR
2. Mary Behm GISD
3. Eden Wells (if available)
4. Kory Groetsch
5. CHECC designee who will coordinate the details

Purpose of Call: Discuss CHECC taking over the coordination of providing a series of webinars for teachers in the Flint Area that allows them a depth of knowledge that will allow them to speak confidently with parents and children regarding Flint Drinking Water.

Current Proposal:

1. Request from ATSDR, CDC, EPA, or MDHHS experts to provide ~30 minute presentations followed by 30 minutes of opportunity to ask questions on the given topic.
   - Public health messages
   - Lead in Water Systems – Sources and Common Solutions
   - Lead Toxicity and Mechanism of Action -
   - Medical Overview and Services including Blood testing recommendations

2. Request Mary Behm or an associate of her designation to provide suggestion on the presentations so they are at the appropriate technical level for teachers.

3. Follow the template set by Eden Wells for her MD presentations.

Background information to keep in mind

These are the US Dept of Education people who attended the GISD meeting.
Sujeet Rao - Office of the Secretary of Education
Dan Schreier – Office of Special Education Programs
Paul Kesner, Office of Safe and Healthy Students

CDC Contact: Kevin Hardwick with USDHHS irct1.lno@hhs.gov

Kevin says his job is to work on coordinating messages and harmonizing between agencies. Knows Mary MacQueen from some joint coordination group.

Need to have a State Department of Education collaborator.

Thank you to all,

Kary Graetsch

Hi Eden,

I cc'd you on my CHECC report back to Linda Scott et al.

In addition, talked with Caryn Pack-Ivy of Michigan Alliance for Families. She was very pleasant. She did not have any comments at this time, but I left her my card if she sees anything she would like to comment on.

Mary Behm (mbehm@geneseeisd.org) 810.591.4407 : would like to collaborate with MDHHS on a webinar series to train teachers how to respond to concerns with Flint water they are encountering in the classroom. My thought is that your idea about webinars for MDs paradigm about lead could be the template (different information) for a Teacher series. We are all short on time and resources, but ATSDR may be willing to help build slides in your template.

CDC Contact: Kevin Hardwick with USDHHS irct1.lno@hhs.gov

Kevin says his job is to work on coordinating messages and harmonizing between agencies. He was the guy sitting to our right. Retired dentist. Knows Mary MacQueen from some joint coordination group.

Dr. Tretter - they guy with all the GIS maps, - left the meeting before I could get his contact information, however, I will request from GISD.

Cheers,

Kory
